ITALIAN ARMY STARTS ADVANCE ON NORTHERN FRONT IN ETHIOPIA

TODAY

A 150th Anniversary
Baby Earthquake
Radio Town Meeting
Twain's 100th Birthday

By ARTHUR BRISBANE

(Copyright, 1935, by King Features Syndicate Inc., International Copyright and all other rights reserved.)

THE LATE Colonel Robert Ewing of New Orleans would like to know, and you hope he does know, about the success of his two papers, run by his son, Toulmin H. Ewing, at Monroe, Louisiana. That city, celebrating its 150th anniversary, established under the Spanish government, now sends gas to New Orleans, Memphis, St. Louis, and as far as Monterey, Mexico.

Uncle Sam got valuable property when he acquired that territory.

The Ewing newspapers, "News-Star" and "Morning World," celebrate the anniversary with issues carrying twenty thousand inches of paid advertising, breaking some records.

GREATER NEW YORK, accustomed to reading about earthquakes, has a baby earthquake of its own. Walls were cracked in Brooklyn, police, firemen, engineers of bridges and tunnels were busy all night, looking for possible damage, or danger. It was only a tiny earthquake, and Manhattan, heart of New York, situated on deep solid rock has not thus far been affected. However, man is small, nature is big. What happens in Montana and elsewhere can happen in New York.

A BABY EARTHQUAKE, from below ground should make New York and Washington ask themselves how they would feel if a real earthquake should come in the shape of explosive bombs from the sky. In an earthquake of any consequence, from above or below the people of New York could not escape from the city, over two bridges, through jammed tunnels and any subways. What an earthquake suddenly dropping from the clouds. TNT exploding, poison gas spreading would be very uncomfortable.

THE OLD "town meeting" discussed affairs interesting to the town. In these days of the radio, enterprising individuals have organized "America's town meeting of the air" to discuss matters interesting to the whole country.

The old town meeting speaker could reach only the back of the hall, or the other side of the square, if he had a loud voice. The "town meeting of the air" can reach from New York to San Diego, Seattle or Key West.

On Thursday night at New York's "air meeting," "Which Road to Peace?" was discussed on the radio by Clark M. Eichelberger, William Randolph Hearst, junior, Dorothy Thompson, who is Mrs. Sinclair Lewis

Bombing Gang Sought In Milwaukee; Householders Assist Police

MILWAUKEE, Nov. 2. — (AP) — An aroused citizenry turned sleuth today to help Milwaukee's police track down terrorists who in the last week have bombed two police stations, two banks and a suburban village hall.

Grimly determined to erase what they considered a civic blot, householders flooded the police and sheriff's departments with bits of information, theories and suggestions.

"The cooperation we are getting from the public is magnificent," Chief of Police Jacob Laubenheimer said. "With 1,000 police on the job and an entire army coming forward with tips I'm sure we'll get this gang before long."

He said, however, that so far no important clues had been turned up and that no one was under arrest.

Sheriff J. J. Shinners echoed the

BISHOP DOBBS PRESIDES AT MISSISSIPPI MEETING

AMORY, Miss., Nov. 2.—(AP)—The 67th annual session of the North Mississippi conference of the M. E. church, south, in session here presided over by Bishop Hoyt M. Dobbs of Shreveport, La., held an extra session today disposing of routine and conference institutional maters involving an ordered increase in finances for Methodist orphans' home, Millsaps and Grenada colleges and the raising of $18,000 in addition to the amount to be raised for other purposes for the erection of a new church building at Oxford, seat of the state university.

RAID IN RUSSIAN AREA IS CHARGED TO MANCHOUKUO

Soviet Border Patrol Kills Two Men And Wounds Three In Battle

ATTEMPT IS MADE TO CUT RAILROAD TO VLADIVOSTOK

Official News Agency Says Scheme Was Plotted By Army Officials

By John Lloyd
(Associated Press Foreign Staff)

MOSCOW, Nov. 3.—(Sunday)—(AP)—A raid across the border from Manchoukuo, to cut the railroad line to Vladivostok failed when a Soviet border patrol fought the raiders, killing two and wounding three, official Russian advices from Khabarovsk said today.

The official Tass news agency charged that the raid, which occurred October 26, was organized by army officials in Manchoukuo.

It is another in a series of border incidents which have kept Soviet-Japanese relations tense.

Delayed Soviet accounts said six men, described as "Korean bandits," made up the raiding party which crossed the border at Poltavko, a point on the railroad line. Only one member of the band escaped back to Manchoukuo, eluding hot pursuit.

The raiders abandoned a quantity of anti-Soviet literature, Tass reported, and tools with which they planned

MAN IS ACCUSED IN USE OF MAILS

Jackson, Miss., Resident Arrested Here For Fraudulent Scheme

A man whose activities have allegedly been investigated by postal authorities on a number of occasions in connection with use of the mails, but against whom no charges are reported to have been preferred by the authorities because of lack of convicting evidence, yesterday afternoon had been arrested by the local sheriff's department for alleged operations in West Monroe. The prisoner is J. F. Varnelle, 55, of Jackson, Miss.

Varnelle was arrested following an investigation conducted by postal authorities and the sheriff's department, and will be turned over to federal authorities who are expected to charge him with causing the mails to be used for the purpose of fraud.

He is accused of using a fictitious firm name, the "West Monroe Home Hardware and Furniture company," in ordering by telegraph shipments of furniture from jobbers, and receiving three of the shipments which he allegedly sold in Jackson.

The charge expected to be filed against him arises from the allegation that some of the jobbers communicated with him by mail after receiving telegrams requesting them to rush shipments of merchandise to the fictitious firm.

A similarity between the fictitious name and the West Monroe Hardware and Furniture company, a bona fide organization, apparently was purposefully devised to further Varnelle's scheme, it was stated. He allegedly worked similar schemes on a num-

DANCER SUSPECTED

Suspected of being a member of a nation-wide ring of jewel thieves, Lulu Mae Bennett (above), former night club dancer, was arrested at Washington. Police said jewels valued at $30,000 were found in her possession. (Associated Press Photo).

POLITICIANS EYE TUESDAY BALLOT

Elections In Six States May Reverberate Into Presidential Race

WASHINGTON, Nov. 2.—(AP)—Political campaigning swept toward a climax in six states today in preparation for elections Tuesday that may reverberate into the 1936 presidential contest.

Struggles to win the New York assembly, the Kentucky governorship and the Philadelphia mayoralty dominated national interest. Students of politics watched these contests especially for auguries of Roosevelt fortunes at the polls next year.

The New Deal has figured to a lesser extent in electioneering for state offices in New Jersey, and hardly at all in Virginia and Mississippi.

Because New York, Pennsylvania and New Jersey have 97 electoral votes, or more than a fifth of the nation's total, sentiment as between Democratic and Republican state tickets in those states could have a bearing on future party strategy. Those states dominate eastern political power; and it is in the industrial east that Roosevelt's opponents assert he has lost most ground.

If this contention is not clearly demonstrated Tuesday, with allowance for the prominence of state and local issues in Pennsylvania and New Jersey, observers believe the New Deal may feel less concerned about what may happen next year in New England. The administration leadership might feel that either New York or Pennsylvania would counter balance any New Deal losses in New England.

The Republican leadership has frankly based its New York campaign on a national plane while Governor Herbert Lehman emphasized state issues. The assembly is now Democratic by a margin of four votes. Whichever way it goes, the victors probably will hail the result as a forerunner of '36.

Some Democratic forecasters have said Roosevelt's reelection would be assured if either New York or Illinois stands by him. Their assumption is that the south will stay solid and his western and mid-western strength

ANOTHER EARTH TREMOR STRIKES MONTANA CAPITAL

Relief Forces Marshal All Workers As Temperature Tumbles

700 SHOCKS RECORDED IN REGION IN PAST 3 WEEKS

Latest Assault Causes No Great Damage; Hundreds Are Homeless

HELENA, Mont., Nov. 2.—(AP)—Tumbling temperature and new earth tremors caused relief forces to marshal every available worker tonight to care for quake-stricken Helena's growing list of homeless.

This capital city, shaken by more than 700 tremors in three weeks, felt a shock at noon that seemed almost as severe as the damaging jolts of October 12, 18 and 30.

Still, the weary residents eyed falling mercury with more apprehension than earthquake charts. The temperature dropped steadily toward zero.

With scores of homes unhabitable, relief workers huddled charges in relief shelters and heated railway cars.

Icy blasts swept down the east slope of the Rockies. Cutbank, border of the Glacier National park, reported 30 degrees below.

Today's heavy earth movement, accompanied by a deep rumbling, shook the city shortly before noon for three seconds, but damage was negligible as

(Continued on Fifth Page)

HOODLUMS ASSAIL NEW CRIME ACTS

Gangsters Attack Constitutionality Of Laws As 'G' Men Push On

WASHINGTON, Nov. 2. — (AP) — The justice department disclosed today that gangsters now are trying to hide behind the constitution for protection from the new crime laws.

Hit hard by the new kidnaping and firearms registration laws which have sent the "G" men after them with freshly hewn clubs, gangsters are attacking the constitutionality of those acts.

Seven convicted as kidnapers have assailed that law. Another sentenced to death for assaulting kidnaped officers called that act unconstitutional in an appeal for reprieve. Still a third group indicted for possessing a machine gun challenged the firearms law with the same contention.

With such organized crimes as kidnaping and bank robbing on the wane, the department is now turning to the so-called "business racket" field. In this, they believe millions of dollars in tribute have been collected from helpless tradesmen and citizens by gangsters in exchange for a promise not to molest their business.

The attacks against the constitutionality of the crime laws will present to the supreme court in new form some of the thorny questions that have been asked it before.

The kidnaping and stolen property laws rest upon the power of the government to regulate interstate commerce. It is like NRA in that respect. The firearms registration law, like AAA, is based upon the federal taxing power. Laws against killing federal agents and escaping from federal custody rely upon the general powers of the government.

In their first attacks upon the laws, the gangsters have lost. Government

(Continued on Third Page)

KENTUCKY TO VOTE ON LIQUOR REPEAL ISSUE ON TUESDAY

LOUISVILLE, Ky., Nov. 2.—(AP)—The spirits of Carry Nation, bar-smashing daughter of the bluegrass, and the Kentucky colonel who likes his mint juleps clashed tonight in a bitter fight over outlawing Kentucky's $100,000,000 whisky industry.

Next Tuesday when Kentuckians elect a governor and other state officers they will vote on repeal of the state prohibition amendment. Democratic and Republican gubernatorial candidates are taking no sides but a prohibition party candidate is battling against repeal.

Carry Nation, who went from Kentucky to wield hatchets in Kansas saloons, smashed no bars in her native state, but the crusade she aided closed down its huge distilling plants 16 years ago. A few survived under government permit to manufacture medicinal liquor.

Kentucky adopted state constitutional prohibition in November of 1919 by a margin of 10,717 after national prohibition went into effect.

BLONDE NO LONGER

Jean Harlow, the film actress, has discarded the attribute that helped make her famous—her platinum blonde hair. Here she is with her "crowning glory" of a darker shade which is described as a fusion of blonde and brown. (Associated Press Photo).

U. S. MAKES MOVE AGAINST SHUSHAN

Government Files Liens In Effort To Collect Taxes Alleged Due

NEW ORLEANS, Nov. 2.—(AP)—Failing in its attempt to convict Abraham L. Shushan, political aide of the late Senator Huey P. Long, of charges of attempting to evade and defeat the income tax laws, the federal government today filed liens against the assets of Shushan and his wife in a jeopardy assessment amounting to $94,569.41 in claims of taxes due, penalties and interest, for the years 1929-32.

Deputy collectors of internal revenue served the papers of assessment at Shushan's place of business and were informed that he was in Chicago where he went after his acquittal of income tax evasion charges in federal district court last month.

Liens were filed simultaneously in federal and state courts. They contained tax assessments of $53,949.34 against Shushan and his wife plus total penalties and interest of $40,630.07, or a total assessment of $94,569.41 against Mr. and Mrs. Shushan.

Mr. Shushan was tried and acquitted of government charges that he failed to report a total of about $71,000 of income tax which his defense counsel claimed represented funds that merely passed through his hands, if at all, while he acted as the fiscal agent for the Long political machine.

Mrs. Shushan was not charged in the case in any way.

The proceedings today were brought by Rufus W. Fontenot, acting collector of internal revenue for Louisiana who said they were authorized by Guy T. Helvering, commissioner of internal revenue at Washington.

Unless Mr. Shushan makes remittance of the full amount assessed within ten days, federal attaches said, a warrant of restraint will be issued bearing a demand for immediate payment.

Federal agents said Shushan could pay the tax under protest or post a bond for twice the amount of the assessment and appeal to the United States board of tax appeals and the federal courts.

About a week ago Mr. Shushan left New Orleans with his attorney for Chicago presumably on a business trip.

NEW POSTOFFICE AT BASTROP WILL BE OCCUPIED TODAY

BASTROP, La., Nov. 2.—(Special)—Bastrop's new postoffice will be occupied beginning Sunday, it was announced here by J. D. McBride, acting postmaster, after the federal building, which has been under construction for the past several months, was formally turned over by the contractors to the local representative of the postoffice department.

The postoffice began moving into its new location Saturday and expected to dispatch and receive mail in its new quarters by Sunday.

Plans for the formal dedication of the postoffice are rapidly being formulated by a special committee named recently by the Bastrop Kiwanis club. According to present plans, the dedication will take place Saturday, November 9. Congressman Riley J. Wilson and probably S. W. Purdum, fourth assistant postmaster general, are expected to be the principal speakers at the dedication exercises.

The committee in charge of arrangements for the dedication is composed of Isaac Chapman, chairman, J. R. Ludlum and R. E. Holladay, Jr.

ITALY TO DEMAND THAT GIBRALTAR BE NEUTRALIZED

Nation To Press Proposal At London Naval Confab Next Month

BRITAIN IS EXPECTED TO REJECT SUCH A REQUEST

Purpose Is To Force England To Declare Intentions In Mediterranean

PARIS, Nov. 2.—(AP)—Italy will demand neutralization of the Straits of Gibraltar, Britain's strategic stronghold at the mouth of the Mediterranean, naval circles here said today.

The demand is expected at the London naval conference one month from today, which the United States will attend.

Diplomatic circles here said it was a "foregone conclusion" that Britain will be forced to refuse such a demand. They acknowledged, however, it would be "extremely embarrassing for London" which has made many pacific declarations recently.

Premier Mussolini's purpose in the "bombshell," it was said, is to force Britain to declare "her intentions" in the Mediterranean, where most of her fleet is now massed.

Il Duce is expected to offer to scrap two 35,000-ton battleships, placed in construction last year, as an evidence of good faith.

Britain, it was believed in naval circles here, has already sounded out France on the latter's attitude if Italy makes the Gibraltar demand at the

(Continued on Fifth Page)

TREASURY INCOME LESS THAN OUTPUT

Uncle Sam Receives Only 47 Cents Of Each Dollar Paid Out

WASHINGTON, Nov. 2.—(AP)—Uncle Sam closed his books today on the first four months of the fiscal year to find he had received only 47 cents for every dollar paid out.

The treasury reported that receipts through October 31 amounted to $1,233,000,000, while expenditures were $2,627,000,000.

Income taxes and miscellaneous internal revenue were both running substantially ahead of last year, but total receipts were only $20,000,000 more through a drop of $125,000,000 in processing taxes, which, in many instances have been impounded in the courts.

The expenditures were running $373,000,000 higher than in the initial four months of the last fiscal year, which ended last June 30.

At the present rate, receipts for the fiscal year should amount to only $3,699,000,000 whereas total receipts of $4,470,000,000 had been estimated.

Treasury officials, however, said the first four-month showing does not establish a criterion, as it does not take into consideration next March's heavy income tax collections, nor better business conditions this year, which will be reflected in the March tax returns.

The rate of expenditures for the first four months would indicate a total of $7,881,000,000 for the year, whereas the budget calls for $7,752,000,000.

The present deficit of slightly more than $1,393,000,000 would be swollen to about $4,180,000,000 next June 30 if the present spread between income and outgo were maintained.

HELD FOR ASSAULT

Eugene H. George, 20, socially prominent Harvard sophomore, is shown after he surrendered to police to face a charge of brutally assaulting Frank Foster, aged janitor at exclusive Dunster House, a campus hall. The servant's condition was described as serious. (Associated Press Photo).

TASK OF FINDING JOBS IS DELAYED

$4,000,000,000 Program Is Behind In Producing Work, Says Report

WASHINGTON, Nov. 2.—(AP)—A report on the progress of the $4,000,000,000 program to end the dole revealed today that it has not yet provided as many work relief jobs as the relief administration did last year.

The works progress administration said the new program had transferred 1,543,185 persons from relief rolls to work relief jobs up to October 26, the latest date for which figures were available.

The number of relief cases receiving work program earnings in October last year was 1,998,161.

The October 26 job total announced today showed the relief chiefs were still 1,956,815 jobs away from the 3,500,000 aggregate that was to have been achieved by November 1. It disclosed, too, that WPA faced the tremendous task of providing an average of 55,900 jobs a day between October 26 and the latest dole-ending deadline of November 30.

The latest statistics showed further that in the week between October 19 and 26 a total of 121,715 transfers were made from direct relief to jobs. This was an average of 17,388 jobs a day.

More than a third of the jobs now listed by WPA, 582,704 to be exact, are in the civilian conservation corps.

Officials have asserted they expect a sharp pick-up in the job-giving rate, and have reported plans for spurring the drive as much as possible.

Harry L. Hopkins, the works progress administrator, was not in the capital, but he left his aides instructed to proceed with arrangements to cut 20 more states and New York City off the federal relief dole by November 15 and to stop the flow of direct relief money into all states by December 1. Six states already have been cut off.

The employment given persons on relief last year was provided by proj-

SOLDIERS ATTACK AS ROME OFFERS PEACE PROPOSALS

League Sets November 18 As Date For Beginning Economic Siege

DIPLOMATS DOUBT DUCE'S PLAN WILL BE ACCEPTED

Anti-British Feeling Spreads In Italy Because Of Sanctions

ROME, Nov. 3.—(Sunday)—(AP)—Full troop movements in the conquered province of Tigre in northern Ethiopia were reported early today by Italian correspondents, indicating the Italian advance on Makale will extend over the entire northern front.

Blackshirts and native Eritrean troops alike were on the move toward the Ethiopian stronghold, the dispatches said.

They were joined by the warriors of Ras Gugsa, the Ethiopian chieftain who deserted Emperor Haile Selassie. At the same time, the correspondents reported Italian airmen on the southern front had launched a blasting attack on Ethiopian caravans. No general troop movement on the southern front was reported, however.

ROME, Nov. 3.—(Sunday)—(AP)—An Italian advance on the northern front in Ethiopia, scheduled to begin at dawn, started shortly after midnight, Italian war correspondents reported early today to Il Popolo di Roma.

General Santini's main body of troops started moving forward from Edaga Hamus, with a column including Italian blackshirts and regulars, the dispatches said, while Gen. Pirzio-Birioli advanced with native Eritrean troops.

Forces of Ras Gugsa, who deserted Haile Selassie to join the invaders, also moved forward.

STATE BAR WILL BE VOTED UPON

Resolutions Call For Ballot On Provisions Of New Statute

BATON ROUGE, Nov. 2.—(AP)—Resolutions calling for a poll of all lawyers as to whether they believe the State Bar of Louisiana should continue under the present provisions of the statute by which it was created were adopted today as the state bar closed its two-day meeting.

The State Bar of Louisiana was founded by legislative act with a board of governors to be elected by the people beginning with the January, 1936, state primary. The organization is empowered to pass upon qualifications for bar admission.

The referendum will bear upon whether the board should be named by the general electorate or by the attorneys of the state.

Another resolution adopted called for a referendum on whether the educational requirement for law school entry should be raised to two years of college training.

Addresses were delivered at the meeting's close by Judge David I. Garrett of Monroe, La., and Dr. Frederick K. Beutel, dean of the Louisiana State university law school.

Judge Garrett's subject was "The State District Judge and the Bar," while Dean Beutel spoke on "The Problems of Legal Education in Louisiana."

GOV. CONNER STUDYING GIGANTIC ROAD PROGRAM

JACKSON, Miss., Nov. 2.—(AP)—With its revenue and relief program still "unfinished business" after five weeks of an extraordinary session, the Mississippi legislature returns to Jackson Tuesday to face possible controversial legislation on new subjects.

Governor Sennett Conner, in a retreat somewhere in south Mississippi, was studying a gigantic road building program proposed by the citizens highway association to determine whether he will ask the legislature to open the subject of road legislation at the current "lame duck" session.

World, News-Star Praised For Anniversary Editions

WASHINGTON, D. C., Nov. 2.—(Special)—Leaders in fields of journalism and education in the capital city today followed Arthur Brisbane's lead in expressing congratulations to the Monroe News-Star and Morning World upon their smashing achievement in running 20,000 inches of paid advertising space in celebrating Monroe's 150th anniversary. All sent hearty felicitations to both the city of Monroe and the News-Star and World upon the occasion of the anniversary and the papers' advertising record.

Among the first to extend his congratulations to the News-Star and Morning World was J. K. Fitzpatrick editor of the Washington Daily Herald: "My hearty congratulations to Mr. Ewing and the Monroe News-Star and Morning World upon their splendid advertising achievement. Monroe, on its 150th birthday, may well be proud of its papers which, under Mr. Ewing's direction, have won for themselves such an outstanding place in southern journalism."

Dr. Cloyd Heck Marvin, president of George Washington university, which has graduated some of the country's leading journalists, was happy to learn of the achievement accomplished by the News-Star and Morning World. Said Dr. Marvin: "The News-Star and World may indeed be proud of their record-breaking advertising achievement. I wish also to congratulate Monroe upon its 150th birthday and trust that it will prosper in years to come as it has in the past. The 20,000 inches of paid advertising appearing in both papers is adequate proof that the community of Monroe and its surrounding area recognizes the value and importance of these papers in their daily life."

Oliver Owen Kuhn, managing editor of the Washington Daily Star, the capital city's leading daily: "My hearty congratulations to the city of Monroe and the News-Star and Morning World upon their outstanding advertising record. Particularly interesting is the cooperation given by the neighboring communities in this achievement."

Greece Will Ballot Today On Return Of King George

ATHENS, Nov. 2—(AP)—Spruce, man-about-town George II will have mastery of Greece's destinies after Monday, Regent George Kondylis told the populace today.

The country, which has seen kings, dictators and presidents come and go, will vote tomorrow on the question of recalling the monarchical Englishman to the Greek throne from which he was ousted in 1924.

The royalist plebiscite, demanded for months, resulted from General Kondylis' bloodless coup of October 10 when the eight-year republic was dissolved.

"The king will be here in 15 days and will have full power," said the regent, who made his last speech before the plebiscite to a large crowd at Piraeus.

"His majesty, in fact, will have absolute right of decision even from November 4."

Kondylis squelched rumors that the national assembly will be dissolved. He denied his coup "interfered with public liberty," adding that it "gave Greece a policy of protection against communism."

"The king," he said, "will deal with the internal political situation according to the powers vested in him by the constitution."

He referred to the 1911 constitution which was put into effect after establishment of the regency.

A "law of necessity" was circularized by the government. It specifies drastic penalties for all "persons who in any way disturb the order or security of the country's claim or indirectly incite the populace to rebellion."

The populist party, backing former Premier Panayoti Tsaldaris, issued a statement that "the Hellenic people can rest assured that under the king's sceptre their liberties will be guarded."

A pay increase of 20 per cent ended a shipping strike at Piraeus, a soaport. That was reported as the only disturbance in the country.

MAN IS ACCUSED IN USE OF MAILS

Jackson, Miss., Resident Arrested Here For Fraudulent Scheme

A man whose activities have allegedly been investigated by postal authorities on a number of occasions in connection with use of the mails, but against whom no charges are reported to have been preferred by the authorities because of lack of convicting evidence, yesterday afternoon had been arrested by the local sheriff's department for alleged operations in West Monroe. The prisoner is J. F. Varnelle, 55, of Jackson, Miss.

Varnelle was arrested following an investigation conducted by postal authorities and the sheriff's department, and will be turned over to federal authorities who are expected to charge him with causing the mails to be used for the purpose of fraud.

He is accused of using a fictitious firm name, the "West Monroe Home Hardware and Furniture company," in ordering by telegraph shipments of furniture from jobbers, and receiving three of the shipments which he allegedly sold in Jackson.

The charge expected to be filed against him arises from the allegation that some of the jobbers communicated with him by mail after receiving telegrams requesting them to rush shipments of merchandise to the fictitious firm.

A similarity between the fictitious name and the West Monroe Hardware and Furniture company, a bona fide organization, apparently was purposefully devised to further Varnelle's scheme, it was stated. He allegedly worked similar schemes on a num-

DANCER SUSPECTED

Suspected of being a member of a nation-wide ring of jewel thieves, Lulu Mae Bennett (above), former night club dancer, was arrested at Washington. Police said jewels valued at $30,000 were found in her possession. (Associated Press Photo).

POLITICIANS EYE TUESDAY BALLOT

Elections In Six States May Reverberate Into Presidential Race

WASHINGTON, Nov. 2.—(AP)—Political campaigning swept toward a climax in six states today in preparation for elections Tuesday that may reverberate into the 1936 presidential contest.

Struggles to win the New York assembly, the Kentucky governorship and the Philadelphia mayoralty dominated national interest. Students of politics watched these contests especially for auguries of Roosevelt fortunes at the polls next year.

The New Deal has figured to a lesser extent in electioneering for state offices in New Jersey, and hardly at all in Virginia and Mississippi.

Because New York, Pennsylvania and New Jersey have 97 electoral votes, or more than a fifth of the nation's total, sentiment as between Democratic and Republican state tickets in those states could have a bearing on future party strategy. Those states dominate eastern political power; and it is in the industrial east that Roosevelt's opponents assert he has lost most ground.

If this contention is not clearly demonstrated Tuesday, with allowance for the prominence of state and local issues in Pennsylvania and New Jersey, observers believe the New Deal may feel less concerned about what may happen next year in New England. The administration leadership might feel that either New York or Pennsylvania would counter balance any New Deal losses in New England.

The Republican leadership has frankly based its New York campaign on a national plane while Governor Herbert Lehman emphasized state issues. The assembly is now Democratic by a margin of four votes. Whichever way it goes, the victors probably will hail the result as a forerunner of '36.

Some Democratic forecasters have said Roosevelt's reelection would be assured if either New York or Illinois stands by him. Their assumption is that the south will stay solid and his western and mid-western strength

World, News-Star Praised For Anniversary Editions

WASHINGTON, D. C., Nov. 2.—(Special)—Leaders in fields of journalism and education in the capital city today followed Arthur Brisbane's lead in expressing congratulations to the Monroe News-Star and Morning World upon their smashing achievement in running 20,000 inches of paid advertising space in celebrating Monroe's 150th anniversary. All sent hearty felicitations to both the city of Monroe and the News-Star and World upon the occasion of the anniversary and the papers' advertising record.

Among the first to extend his congratulations to the News-Star and Morning World was J. K. Fitzpatrick editor of the Washington Daily Herald: "My hearty congratulations to Mr. Ewing and the Monroe News-Star and Morning World upon their splendid advertising achievement. Monroe, on its 150th birthday, may well be proud of its papers which, under Mr. Ewing's direction, have won for themselves such an outstanding place in southern journalism."

Dr. Cloyd Heck Marvin, president of George Washington university, which has graduated some of the country's leading journalists, was happy to learn of the achievement accomplished by the News-Star and Morning World. Said Dr. Marvin: "The News-Star and World may indeed be proud of their record-breaking advertising achievement. I wish also to congratulate Monroe upon its 150th birthday and trust that it will prosper in years to come as it has in the past. The 20,000 inches of paid advertising appearing in both papers is adequate proof that the community of Monroe and its surrounding area recognizes the value and importance of these papers in their daily life."

Oliver Owen Kuhn, managing editor of the Washington Daily Star, the capital city's leading daily: "My hearty congratulations to the city of Monroe and the News-Star and Morning World upon their outstanding advertising record. Particularly interesting is the cooperation given by the neighboring communities in this achievement."

ANOTHER EARTH TREMOR STRIKES MONTANA CAPITAL

Relief Forces Marshal All Workers As Temperature Tumbles

700 SHOCKS RECORDED IN REGION IN PAST 3 WEEKS

Latest Assault Causes No Great Damage; Hundreds Are Homeless

HELENA, Mont., Nov. 2.—(AP)—Tumbling temperature and new earth tremors caused relief forces to marshal every available worker tonight to care for quake-stricken Helena's growing list of homeless.

This capital city, shaken by more than 700 tremors in three weeks, felt a shock at noon that seemed almost as severe as the damaging jolts of October 12, 18 and 30.

Still, the weary residents eyed falling mercury with more apprehension than earthquake charts. The temperature dropped steadily toward zero.

With scores of homes unhabitable, relief workers huddled charges in relief shelters and heated railway cars.

Icy blasts swept down the east slope of the Rockies. Cutbank, border of the Glacier National park, reported 30 degrees below.

Today's heavy earth movement, accompanied by a deep rumbling, shook the city shortly before noon for three seconds, but damage was negligible as

HOODLUMS ASSAIL NEW CRIME ACTS

Gangsters Attack Constitutionality Of Laws As 'G' Men Push On

WASHINGTON, Nov. 2.—(AP)—The justice department disclosed today that gangsters now are trying to hide behind the constitution for protection from the new crime laws.

Hit hard by the new kidnaping and firearms registration laws which have sent the "G" men after them with freshly hewn clubs, gangsters are attacking the constitutionality of those acts.

Seven convicted as kidnapers have assailed that law. Another sentenced to death for assaulting kidnaped officers called that act unconstitutional in an appeal for reprieve. Still a third group indicted for possessing a machine gun challenged the firearms law with the same contention.

With such organized crimes as kidnaping and bank robbing on the wane, the department is now turning to the so-called "business racket" field. In this, they believe millions of dollars in tribute have been collected from helpless tradesmen and citizens by gangsters in exchange for a promise not to molest their business.

The attacks against the constitutionality of the crime laws will present to the supreme court in new form some of the thorny questions that have been asked it before.

The kidnaping and stolen property laws rest upon the power of the government to regulate interstate commerce. It is like NRA in that respect. The firearms registration law, like AAA, is based upon the federal taxing power. Laws against killing federal agents and escaping from federal custody rely upon the general powers of the government.

In their first attacks upon the laws, the gangsters have lost. Government

KENTUCKY TO VOTE ON LIQUOR REPEAL ISSUE ON TUESDAY

LOUISVILLE, Ky., Nov. 2.—(AP)—The spirits of Carry Nation, bar-smashing daughter of the bluegrass, and the Kentucky colonel who likes his mint juleps clashed tonight in a bitter fight over outlawing Kentucky's $100,000,000 whisky industry.

Next Tuesday when Kentuckians elect a governor and other state officers they will vote on repeal of the state prohibition amendment. Democratic and Republican gubernatorial candidates are taking no sides but a prohibition party candidate is battling against repeal.

Carry Nation, who went from Kentucky to wield hatchets in Kansas saloons, smashed no bars in her native state, but the crusade she aided closed down its huge distilling plants 16 years ago. A few survived under government permit to manufacture medicinal liquor.

Kentucky adopted state constitutional prohibition in November of 1919 by a margin of 10,717 after national prohibition went into effect.

BLONDE NO LONGER

Jean Harlow, the film actress, has discarded the attribute that helped make her famous—her platinum blonde hair. Here she is with her "crowning glory" of a darker shade which is described as a fusion of blonde and brown. (Associated Press Photo).

U. S. MAKES MOVE AGAINST SHUSHAN

Government Files Liens In Effort To Collect Taxes Alleged Due

NEW ORLEANS, Nov. 2.—(AP)—Failing in its attempt to convict Abraham L. Shushan, political aide of the late Senator Huey P. Long, of charges of attempting to evade and defeat the income tax laws, the federal government today filed liens against the assets of Shushan and his wife in a jeopardy assessment amounting to $94,569.41 in claims of taxes due, penalties and interest, for the years 1929-32.

Deputy collectors of internal revenue served the papers of assessment at Shushan's place of business and were informed that he was in Chicago where he went after his acquittal of income tax evasion charges in federal district court last month.

Liens were filed simultaneously in federal and state courts. They contained tax assessments of $53,949.34 against Shushan and his wife plus total penalties and interest of $40,630.07, or a total assessment of $94,569.41 against Mr. and Mrs. Shushan.

Mr. Shushan was tried and acquitted of government charges that he failed to report a total of about $71,000 of income tax which his defense counsel claimed represented funds that merely passed through his hands, if at all, while he acted as the fiscal agent for the Long political machine.

Mrs. Shushan was not charged in the case in any way.

The proceedings today were brought by Rufus W. Fontenot, acting collector of internal revenue for Louisiana who said they were authorized by Guy T. Helvering, commissioner of internal revenue at Washington.

Unless Mr. Shushan makes remittance of the full amount assessed within ten days, federal attaches said, a warrant of restraint will be issued bearing a demand for immediate payment.

Federal agents said Shushan could pay the tax under protest or post a bond for twice the amount of the assessment and appeal to the United States board of tax appeals and the federal courts.

About a week ago Mr. Shushan left New Orleans with his attorney for Chicago presumably on a business trip.

NEW POSTOFFICE AT BASTROP WILL BE OCCUPIED TODAY

BASTROP, La., Nov. 2.—(Special)—Bastrop's new postoffice will be occupied beginning Sunday, it was announced here by J. D. McBride, acting postmaster, after the federal building, which has been under construction for the past several months, was formally turned over by the contractors to the local representative of the postoffice department.

The postoffice began moving into its new location Saturday and expected to dispatch and receive mail in its new quarters by Sunday.

Plans for the formal dedication of the postoffice are rapidly being formulated by a special committee named recently by the Bastrop Kiwanis club. According to present plans, the dedication will take place Saturday, November 9. Congressman Riley J. Wilson and probably S. W. Purdum, fourth assistant postmaster general, are expected to be the principal speakers at the dedication exercises.

The committee in charge of arrangements for the dedication is composed of Isaac Chapman, chairman, J. R. Ludlum and R. E. Holladay, Jr.

ITALY TO DEMAND THAT GIBRALTAR BE NEUTRALIZED

Nation To Press Proposal At London Naval Confab Next Month

BRITAIN IS EXPECTED TO REJECT SUCH A REQUEST

Purpose Is To Force England To Declare Intentions In Mediterranean

PARIS, Nov. 2.—(AP)—Italy will demand neutralization of the Straits of Gibraltar, Britain's strategic stronghold at the mouth of the Mediterranean, naval circles here said today.

The demand is expected at the London naval conference one month from today, which the United States will attend.

Diplomatic circles here said it was a "foregone conclusion" that Britain will be forced to refuse such a demand. They acknowledged, however, it would be "extremely embarrassing for London" which has made many pacific declarations recently.

Premier Mussolini's purpose in the "bombshell," it was said, is to force Britain to declare "her intentions" in the Mediterranean, where most of her fleet is now massed.

Il Duce is expected to offer to scrap two 35,000-ton battleships, placed in construction last year, as an evidence of good faith.

Britain, it was believed in naval circles here, has already sounded out France on the latter's attitude if Italy makes the Gibraltar demand at the

(Continued on Fifth Page)

TREASURY INCOME LESS THAN OUTPUT

Uncle Sam Receives Only 47 Cents Of Each Dollar Paid Out

WASHINGTON, Nov. 2.—(AP)—Uncle Sam closed his books today on the first four months of the fiscal year to find he had received only 47 cents for every dollar paid out.

The treasury reported that receipts through October 31 amounted to $1,233,000,000, while expenditures were $2,627,000,000.

Income taxes and miscellaneous internal revenue were both running substantially ahead of last year, but total receipts were only $20,000,000 more through a drop of $125,000,000 in processing taxes, which, in many instances have been impounded in the courts.

The expenditures were running $373,000,000 higher than in the initial four months of the last fiscal year, which ended last June 30.

At the present rate, receipts for the fiscal year should amount to only $3,699,000,000 whereas total receipts of $4,470,000,000 had been estimated.

Treasury officials, however, said the first four-month showing does not establish a criterion, as it does not take into consideration next March's heavy income tax collections, nor better business conditions this year, which will be reflected in the March tax returns.

The rate of expenditures for the first four months would indicate a total of $7,881,000,000 for the year, whereas the budget calls for $7,752,000,000.

The present deficit of slightly more than $1,393,000,000 would be swollen to about $4,180,000,000 next June 30 if the present spread between income and outgo were maintained.

HELD FOR ASSAULT

TASK OF FINDING JOBS IS DELAYED

$4,000,000,000 Program Is Behind In Producing Work, Says Report

WASHINGTON, Nov. 2.—(AP)—A report on the progress of the $4,000,000,000 program to end the dole revealed today that it has not yet provided as many work relief jobs as the relief administration did last year.

The works progress administration said the new program had transferred 1,543,185 persons from relief rolls to work relief jobs up to October 26, the latest date for which figures were available.

The number of relief cases receiving work program earnings in October last year was 1,998,161.

The October 26 job total announced today showed the relief chiefs were still 1,956,815 jobs away from the 3,500,000 aggregate that was to have been achieved by November 1. It disclosed, too, that WPA faced the tremendous task of providing an average of 55,909 jobs a day between October 26 and the latest dole-ending deadline of November 30.

The latest statistics showed further that in the week between October 19 and 26 a total of 121,715 transfers were made from direct relief to jobs. This was an average of 17,388 jobs a day.

More than a third of the jobs now listed by WPA, 582,704 to be exact, are in the civilian conservation corps.

Officials have asserted they expect a sharp pick-up in the job-giving rate, and have reported plans for spurring the drive as much as possible.

Harry L. Hopkins, the works progress administrator, was not in the capital, but he left his aides instructed to proceed with arrangements to cut 20 more states and New York City off the federal relief dole by November 15 and to stop the flow of direct relief money into all states by December 1. Six states already have been cut off.

The employment given persons on relief last year was provided by proj-

Greece Will Ballot Today On Return Of King George

ATHENS, Nov. 2—(AP)—Spruce, man-about-town George II will have mastery of Greece's destinies after Monday, Regent George Kondylis told the populace today.

The country, which has seen kings, dictators and presidents come and go, will vote tomorrow on the question of recalling the monarchical Englishman to the Greek throne from which he was ousted in 1924.

The royalist plebiscite, demanded for months, resulted from General Kondylis' bloodless coup of October 10 when the eight-year republic was dissolved.

"The king will be here in 15 days and will have full power," said the regent, who made his last speech before the plebiscite to a large crowd at Piraeus.

"His majesty, in fact, will have absolute right of decision even from November 4."

Kondylis squelched rumors that the national assembly will be dissolved. He denied his coup "interfered with public liberty," adding that it "gave Greece a policy of protection against communism."

"The king," he said, "will deal with the internal political situation according to the powers vested in him by the constitution."

He referred to the 1911 constitution which was put into effect after establishment of the regency.

A "law of necessity" was circularized by the government. It specifies drastic penalties for all "persons who in any way disturb the order or security of the country's claim or indirectly incite the populace to rebellion."

The populist party, backing former Premier Panayoti Tsaldaris, issued a statement that "the Hellenic people can rest assured that under the king's sceptre their liberties will be guarded."

A pay increase of 20 per cent ended a shipping strike at Piraeus, a seaport. That was reported as the only disturbance in the country.

SOLDIERS ATTACK AS ROME OFFERS PEACE PROPOSALS

League Sets November 18 As Date For Beginning Economic Siege

DIPLOMATS DOUBT DUCE'S PLAN WILL BE ACCEPTED

Anti-British Feeling Spreads In Italy Because Of Sanctions

ROME, Nov. 3.—(Sunday)—(AP)—Full troop movements in the conquered province of Tigre in northern Ethiopia were reported early today by Italian correspondents, indicating the Italian advance on Makale will extend over the entire northern front.

Blackshirts and native Eritrean troops alike were on the move toward the Ethiopian stronghold, the dispatches said.

They were joined by the warriors of Ras Gugsa, the Ethiopian chieftain who deserted Emperor Haile Selassie. At the same time, the correspondents reported Italian airmen on the southern front had launched a blasting attack on Ethiopian caravans. No general troop movement on the southern front was reported, however.

ROME, Nov. 3.—(Sunday)—(AP)—An Italian advance on the northern front in Ethiopia, scheduled to begin at dawn, started shortly after midnight, Italian war correspondents reported early today to Il Popolo di Roma.

General Santini's main body of troops started moving forward from Edaga Hamus, with a column including Italian blackshirts and regulars, the dispatches said, while Gen. Pirzio-Birioli advanced with native Eritrean troops.

Forces of Ras Gugsa, who deserted Haile Selassie to join the invaders, also moved forward.

STATE BAR WILL BE VOTED UPON

Resolutions Call For Ballot On Provisions Of New Statute

BATON ROUGE, Nov. 2.—(AP)—Resolutions calling for a poll of all lawyers as to whether they believe the State Bar of Louisiana should continue under the present provisions of the statute by which it was created were adopted today as the state bar closed its two-day meeting.

The State Bar of Louisiana was founded by legislative act with a board of governors to be elected by the people beginning with the January, 1936, state primary. The organization is empowered to pass upon qualifications for bar admission.

The referendum will bear upon whether the board should be named by the general electorate or by the attorneys of the state.

Another resolution adopted called for a referendum on whether the educational requirement for law school entry should be raised to two years of college training.

Addresses were delivered at the meeting's close by Judge David I. Garrett of Monroe, La., and Dr. Frederick K. Beutel, dean of the Louisiana State university law school.

Judge Garrett's subject was "The State District Judge and the Bar," while Dean Beutel spoke on "The Problems of Legal Education in Louisiana."

GOV. CONNER STUDYING GIGANTIC ROAD PROGRAM

JACKSON, Miss., Nov. 2.—(AP)—With its revenue and relief program still "unfinished business" after five weeks of an extraordinary session, the Mississippi legislature returns to Jackson Tuesday to face possible controversial legislation on new subjects.

Governor Sennett Conner, in a retreat somewhere in south Mississippi, was studying a gigantic road building program proposed by the citizens' highway association to determine whether he will ask the legislature to open the subject of road legislation at the current "lame duck" session.

COTTON GROWERS TO ASK PAYMENTS

Ouachita Parish Farmers To Make Applications Under AAA Program

Three hundred and fifty Ouachita parish farmers have turned in their cotton bills of sale to E. R. Strahan, parish agricultural agent, and indicated that they expect to return to his office and sign applications for adjusted payments on their cotton as soon as the required forms are received from the national office of the AAA at Washington.

It is reliably reported that if all cotton farmers of the parish turn in their bills of sale and sign the applications they will receive a total of $70,000 in this one division of the AAA program alone.

Virtually every cotton farmer in the parish is expected to make an application for the adjusted payment. Most of them are expected to call at the agent's office for this purpose before November 15, the closing date for taking applications in time to receive payments from the December disbursement.

The payments will be the difference between the price of middling seven-eighths inch cotton on the date of sale and 12 cents per pound.

Mr. Strahan, in explaining this basis of the payments, said:

"For example if John Doe sold a 500-pound bale of cotton on September 10, the date on which the price of middling seven-eighths inch cotton was worth 10.60 cents per pound, he may make application through the office of his parish agent and receive an additional payment of 140 points which amounts to $7 in this instance.

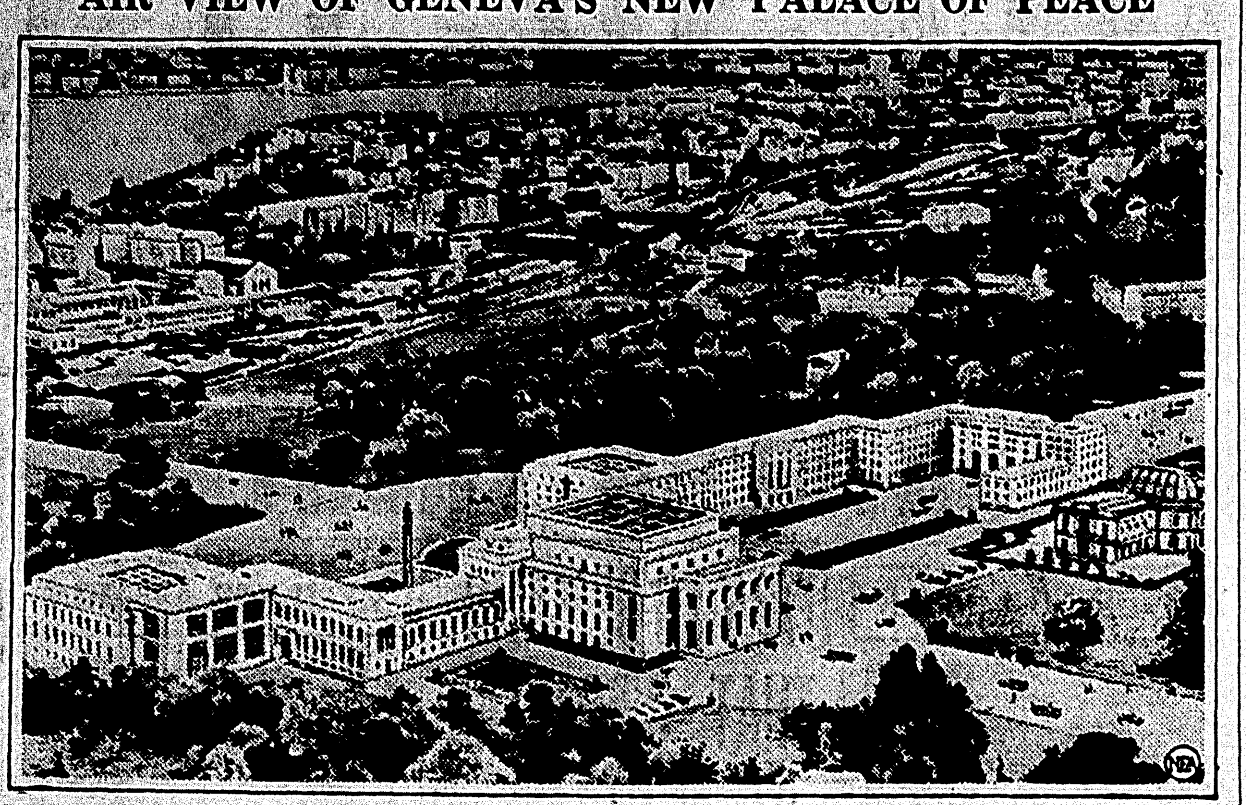
"If he had good cotton and sold it for 11 cents per pound, the additional 140 points give him a return of 12.40 cents per pound on his cotton.

"On the other hand, if he produced a low grade of half and half cotton and sold it for only 10.20 cents per pound, the additional 140 points that he will receive under the adjustment program will give him a total return of only 11.60 cents per pound.

"In other words, the farmer gets his premium for good cotton at the time of making his initial sale.

"The contracts for 1936 will show reductions of from 25 to 50 per cent. For example, if the same John Doe rented eight acres to the secretary of agriculture in 1935 and was permitted to plant 12 acres, his base acres amounted to the sum of the other two items or 20 acres. Now, he may reduce 25 per cent or 5 acres yearly and be permitted to plant 15 acres; or if desires to do so, he may reduce as much as 50 per cent and plant only 10 acres. His benefit payments will be more with the greater percentage of reduction."

AIR VIEW OF GENEVA'S NEW 'PALACE OF PEACE'



Overlooking beautiful Lake Geneva and the city of Geneva, shown in background, the League of Nations' dazzling new $7,000,000 home, in which world statesmen are striving feverishly to prevent the Ethiopian conflict from growing into another world war, is pictured above from the air. Rivaling in size and beauty the Palace of Versailles, the Geneva Palace of Nations consists of a central unit containing an assembly hall which will accommodate 600 delegates, experts and secretaries; and two wings which extend to form a rectangular, terraced court of honor. In one of the wings is a $2,000,000 library, paid for by John D. Rockefeller, Jr.; in the other, a council room and offices of the secretariat. Total length of the group of buildings is about 1,200 feet.

Hunters Find Thrills On Tensas Deer Trail

By Fred Williamson

On a crisp, clear morning during the brief, joyous season when deer may be lawfully slain in Louisiana, a little cavalcade of shaggy ponies trotted out of a narrow opening in the timberland that borders a rutted, tortuous roadway in the dense hardwood forest of Tensas parish.

Athwart a sky, still pale from the recent dawn, yellow banners of the swift-hurrying day cast a glow which trickled like a golden cascade through the frosty air to touch with glory the topmost branches of tall monarchs of the woodland.

Half a score of riders, blood tingling from the exhilaration of an hour's threading of bewildering trails through the wilderness, are accounted for sport that has had its fascinated devotees from time immemorial. The shaggy ponies crowd together as the group comes to a halt at the edge of the wood. Crustations of ice filming little pools in the road's ruts tinkle in the still cold air as the tiny hoofs crash the surface. The sound makes a musical accompaniment to the crisp voices of the hunters.

The leader of the cavalcade—bronzed and husky woodsman, who knows the forest like a book—deploys his force with a few curt directions. Past experience has told him just where the elusive denizens of the forest are most likely to tread a measure in following the trails leading out of one woodland into another on either side of the road.

A brace of riders is dispatched to cover a "stand" a mile up the road. Another pair is sent an equal distance in the opposite direction. A hunter is sent back to guard a point on the trail over which the cavalcade has come. Others are assigned to strategic positions, while the guide takes his post at a distant point that will be more or less in contact with all the hunters.

The golden banners of the morning sun grow in strength and effulgence. The air seems alive with a subtile thrill of eager expectancy. It is hardly definable, but it has to do with the visualization of a gray shape taking form out of the shadows in the woods and slipping silently past the sentinels on guard. The visualization is purely mental. That it may any instant become an actuality is the basis of that poignant exhilaration which stimulates the hunter.

A Test of Nerves

A fixed rule on the deer-hunting game is: When put on a stand, stay put! The reason for this is obvious. When one is expecting each second that a deer may flash into view his senses are keyed to the highest pitch, and any movement in the bushes at once engages his eye. Also, he is apt to conclude the movement is caused by a deer, and, if a bit nervous, he may take a chance and shoot, even though nothing is really seen. For this reason a hunter wandering around in the brush is in grave danger of getting a charge of buckshot in his own anatomy—even from the gun of his best friend. So the rule is, stay where you are until the hour comes for leaving your post, or the horn calls you in. If you go "mooning" around, even though the hunt sounds far away, you take your life in your hands.

Suddenly through the sunlit, frosty air comes a long-hoped-for sound that is like a clarion call:

"Ow-ow-ow! Ow, wow-wow! O-o o-wow!"

It is the sound that tells the pack has found the quarry, and the chase is on!

Excitement grows intense on every stand. The baying of the hounds comes nearer, then recedes. Again it comes closer, and each hunter, at his post, waits, poised for action, his blood racing in the eager hope that the deer will follow a trail that finds its outlet on the stand which he is guarding.

The baying, growing louder and closer, increases to a joyous crescendo.

A hunter moves cautiously closer to command a ridge that dips into Wild Horse Bottom. There is a movement in the distant brush that may mean anything—or nothing!

What is that gray-brown shadow that seems to be slipping among the gray-brown masses of woodland?

Surely—!

That bobbing mass that looks like the swaying skeleton of an unbarked tree!

Good Lord! It's——

Like a gray streak in the dim light of the woods the movement keeps on through the bottom. The critical moment has come. The shadow has resolved itself into something tangible

"Wha-a-am!"

The woods resound with the explosion of the hunter's 12-gauge pump gun.

"A-h-h!"

The gray shape, now clearly defined as a lordly buck, bearing aloft a magnificent set of antlers, keeps straight on. The sigh of disappointment from the hunter, profound and hearty, echoes through the forest. But, at that, he may have scored a hit, and there is no thought of relinquishing the chase.

A Monarch Falls

The free-running animal, splendid in his kingly grace, now begins to labor and crash his way through the intervening brush. There is no longer need for concealment. Escape is the object of the antlered monarch.

But there is little chance of escape. Beyond are the hunters on the next stands. The deer is already out of sight of the first hunter, who is laboring in pursuit!

Four more shots ring out. They are from guns farther along the embattled trails. Gamely the great buck meets the new foe. But his fate is sealed—he is now between two fires. He turns back on the track he has just covered, and the first hunter, following in his wake, gets a second chance. There must be no failure this time!

Three shots end the fusilade and the life of the forest king. The first shot misses the mark, but the third pierces his back. And the giant of the forest crumples to the earth. A medley from the hunters' horns rings out to apprise the rest of the party that the deer is taken. The "kill" was one of the biggest made in the hunting season in Tensas parish. The buck weighed 185 pounds dressed.

A magnificent set of eight-point antlers will adorn the home of J. W. Bateman, of the state department of education, who brought him down.

Incidentally, it is interesting to relate that while the noble victim was being dressed for carrying back to camp, two does stole quietly up to the stand. The snort of a horse startled the animals before the hunters could reach for their guns and both deer bounded away safely into the forest. More than half a score of hunters were in the chase that frosty morning but only one deer was slain.

• • •

It is probably just as well that only a small proportion of the army of hunters which each season throngs the Louisiana woods in chase of the shadowy and elusive deer comes out again with any appreciable record of accomplishment.

If every deer hunter achieved his heart's desire the wary herds that now populate the forests in those parishes which line the Mississippi river would not long survive the slaughter. And, besides, what incentive would be afforded if the purpose of the chase were so readily reached? The uncertainty which attends a deer hunt is one of the chief elements of the thrill that goes with it.

Such a preamble is not intended to serve as an alibi for lack of personal prowess in the hunting field, but merely a statement of fact authenticated by most of those who aspire to distinction as successful nimrods. So far as personal experience goes we candidly admit completely successful failure. By which we mean that, in spite of a distinguishing lack of laurel wreaths, our first experience in hunting Louisiana deer brought us a gorgeously splendid thrill quite unlike anything else in the gamut of outdoor sport.

Even a failure to sight a deer during four days in the Tensas woods was only an incidental circumstance that failed to rob us of that exhilaration inspired by those close contacts with untutored nature which find their richest expression on a crisp winter morning in the untamed woods.

A Thrill of Winter

To awake before daybreak to the tune of crackling logs in an enormous fireplace—to be served a stimulating draught of rich, black coffee before arising—to erase last clinging effects of the night's sleep by stepping forth under the still star-spangled sky and making one's morning ablutions in water which can only be obtained by crashing a top-coating of ice—to sit down under the flickering rays of an oil lamp to a gargantuan breakfast of broiled venison, hominy grits, a delectable cheese omelet, crisp bacon and smoking hot biscuits—all that offers just the preliminary thrill which starts a day filled with anticipation of lively adventure lurking round every tree trunk or over the top of each forest-crested ridge.

The day starts with hopeful expectation, with a ride through the gray tangle of woods, the hunters astride little shaggy, forest-wise horses whose apparently sleepy indifference to the occasion is belied by an altogether uncanny sagacity which carries them unerringly through a bewildering labyrinth of undergrowth to an objective only vaguely approximated by most of the riders.

When the day ends the hunters may or may not return bearing trophies of victory in the chase, but the gathering that assembles about the great open fireplaces of the camp-house—every hunter is possessed of the hunger which is traditionally known as ravenous—gives to itself a new stimulation in the telling and retelling of the incidents of the day, experiences which are emphasized and amplified by comparison with thrilling episodes of bygone seasons.

• • •

The locale of these events is the famous deer-hunting grounds of Tensas parish, where thousands on thousands of acres, covered with thick forest growth afford sanctuary the greater part of the year for herds numbered in hundreds. Only for the brief hunting season between Dec. 31. and Jan. 15 are the denizens of the forest in any special danger—and then largely in a comparative sense. Despite the fact that there are undoubtedly large numbers of deer in the Tensas region, even accomplished and seasoned hunters have to be equipped with a considerable measure of luck, besides dogs, horses and guns, to circumvent the sagacious objects of the chase. The high water of 1927, which covered 95 per cent of the Tensas basin, took its toll of the wild life of the region, but even that disastrous occurrence was not sufficient to materially lessen the number of deer in the Tensas forests.

Hunting was prohibited during the flood year, and since that time additional protective measures have been initiated to conserve the wild life. Judges of the district court having jurisdiction in the Tensas country are co-operating with the conservative hunting clubs for the protection of the deer. Besides stiffs fines for violation of the game laws the judges have promised jail sentences for those who fail to abide by the regulations. Such measures will undoubtedly conduce to a great increase in the Tensas deer herds, and will be a factor in maintaining this district as one of the greatest hunting resorts of the nation.

The hosts of the camp are members of the celebrated Clydesdale Hunting club, which has been granted unusual privileges by the owners of one of the largest tracts of hardwood timber land in the state, the Fisher Brothers Lumber company, more familiarly known as the manufacturers of the Fisher bodies for automobiles. The company is engaged in taking out the cypress timber from the woods, an industry that contributes largely to the industrial prosperity of that portion of Louisiana. In the midst of the tract of approximately 80,000 acres the Clydesdale club has erected a commodious and completely appointed clubhouse. The chief of the club is B. F. Young, noted attorney of St. Joseph, who epitomizes in himself that fine old sense of charming hospitality which is integrally a characteristic of the old families of Louisiana.

Everything that can contribute to the comfort and convenience of the hunters is provided at the camp. Hunting here smacks of little that suggests the old rough and ready days of a primitive era. What would Daniel Boone or Davy Crockett have said if they could have visualized a hunting trip where the evening camp fire tales are told to the accompaniment of an orchestra concert being played in New York or a grand opera performance in Chicago? The radio has brought the whole world of entertainment into the remotest fastness of the earth—even to a hunting camp in the Louisiana wilderness.

The personnel of the camp is interesting. Besides President Young—whose silvered hairs are belied by the sprightly youthfulness of the veteran lawyer-planter, who thinks nothing of spending a day of hard riding in the woods without exhibiting the slightest fatigue—there is Harrison Miller, famous as one of the best deer-drivers of the region.

Mr. Miller is the owner of Highland plantation, near Waterproof. He is a sturdy Louisianian, who gets his greatest relaxation from the demands of his business activities by hunting the furry denizens of the forest. He knows the woods like a book and is the champion deer-slayer of several seasons. His closest second is his brother, Balfour Miller, a Natchez business man. Then there is German Baker, a prominent merchant of St. Joseph; Dick Lynch and Pless Woodford, planters, who have a common interest in the opportunities of each hunting season.

The trip from Monroe to St. Joseph is made by automobile. The journey from St. Joseph into the enchanted hunting grounds is done over the logging railroad of the Fisher Brothers Lumber corporation. An electric "speeded," placed at the disposal of the Clydesdale club during the hunting season by officials of the company, is used to convey the party 18 miles into the woods. Saddle horses at the end of the rail line carried the group of hunters another two miles further into the forest before the camp was reached.

The high comedy of the trip was furnished by the lone newspaperman of the party, who made an ungraceful drive from the deck of his hunting pony into a sea of sticky mud in attempting to negotiate a huge duffle bag on the back of his horse's saddle. The editor's nice new hunting breeches were adequately and effectively christened, to the huge joy of the assembled multitude.

Almost immediately following the advent of the party into the camp, German Baker arrived with a newly-killed deer strapped to his saddle. The deer had been jumped early in the morning by Balfour Miller and was the fourth shot by members of the club since the opening of the season, which was proof that even with seasoned hunters on the job not many were able to get the better of the wily inhabitants of the woods. Mr. Baker, no mean hunter himself, was acclaimed like a conquering hero when he rode up to the camp sounding a clarion salute from his horn. A little later in the day, another deer was brought in by Harrison Miller, and the double event had the effect of a draught of rare wine on the new-comers, who began to envision battalions of the fleet-footed animals roaming the woods awaiting slaughter.

Four days were spent in the camp, but not until the last day, when Mr. Bateman made his great kill at Wild Horse Bottom, did the Shreveporters have even a remote contact with the wild denizens of the forest.

At that, it was a great experience.

• • •

Though many of the camps in the Tensas woods permit the wives of members to take part in the hunt, the Clydesdale club is possessed of a purely masculine atmosphere. The only feminine voices that are heard in the confines of the camp are ones which come over the radio—except those of the highly efficient negro cooks, whose accomplishments contribute materially to the enjoyments of the occasion.

They tell a story of a young society woman of New Orleans who accompanied her husband on one of the seasonal hunts. Placed on a stand, armed with an efficient shotgun, she was given explicit instructions what to do in the event that a deer should appear within her purvieu.

The unexpected happened, and when a deer emerged from the forest directly in front of her, the would-be huntress set up an enthusiastic call for help:

"Oh, Ed!" she called, "here's a deer. Come and shoot him!"

• • •

The various "stands" in the deer country are given identifying designations which in themselves are redolent of the fascination that lends its thrill to the sport. Virtually every one of the stands has its own classic of notable "kills." The one where J. W. Bateman got his magnificent buck is known as "Ellis Fields."

Another stand is called the Dougherty, which gets its name from the bayou of that name and keeps green the identity of one of the old-time plantation owners. Then there is Eagle's Nest, a weird tangle of wilderness, and Cow Slough, an uncanny waterway that forms a letter "S" traversing hundreds of acres of woodland. There is the "Cistern," the site of an antebellum home, long since vanished into oblivion. Besides these, there are the Wild Cat, Bieler's Bayou, the Mule Pen, the Pokeberry Patch, Shingle Brake, and Long Lake, each with its own bit of mysterious hunting lure.

The hunting camps overlap the various stands, and are themselves famous. Besides the Clydesdale, there is the Somerset, which gets its name from the properties once in the possession of Lady Somerset of England, and totally distinct from the holdings of the Union Land and Timber company, a part of the General Motors organization. Balmoral is another title given to a section of the hunting country, as is Crimea, Issaquena on Lake Formosa, Hopaka, Shady Grove, Elder Grove and Marydale.

These places are local points for the activities of the timber-cutting operations of the companies that are taking out great supplies of cypress to furnish the world's markets with the "wood eternal," but they achieve a special fame among the hunters of the nation because they designate the locale of one of the greatest deer hunting countries in America.

NOTICE

The Board of Directors of the Ouachita National Bank of Monroe has called a special meeting of the stockholders of the Ouachita National Bank of Monroe to be held in the Directors' room of the Ouachita National Bank in Monroe, at 130 DeSiard Street, Monroe, Louisiana at three o'clock P. M. on Wednesday, November 27, 1935, for the purpose of considering the contract between the Ouachita National Bank of Monroe and the Ouachita National Bank in Monroe entered into on January 3, 1933 and amended on September 6, 1933, and taking whatever action thereon that the stockholders may deem advisable.

VETERANS' COUNCIL HOLDS MEET ON COOLEY'S BOAT

The Veterans' council held its monthly meeting on the boat of Capt. G. B. Cooley, "Weto," Friday night. John Bailey, of the L. B. Faulk post, chairman of the Armistice day program, outlined plans for the day which were given approval by the council.

Isador Liebreich was elected secretary of the group, as that office was vacant.

The council went on record as prepared to furnish one or more rooms in the new tuberculosis sanitarium that will be erected here shortly through the efforts of Captain Cooley and associates.

DODSON FARMERS RECEIVE RENT CHECKS ON COTTON

DODSON, La., Nov. 2.—(Special)—The farmers of Dodson and vicinity have the past week received their second allotment of government rental checks in payment for cotton acreage rented to the federal government, in conformity with the cotton acreage reduction program.

Logan J. Stovall, local committeeman, stated today that these checks will be received by 200 or more farmers and will be the means of putting considerable money in circulation here.

Husband Quits Liquor

Guaranteed Home Treatment Brings Joy To Wife And Family

A doctor's prescription that overcomes the craving for alcohol and can be given secretly in coffee, tea or food is now offered on a guaranteed plan to all who wish to defeat the disease of drunkenness.

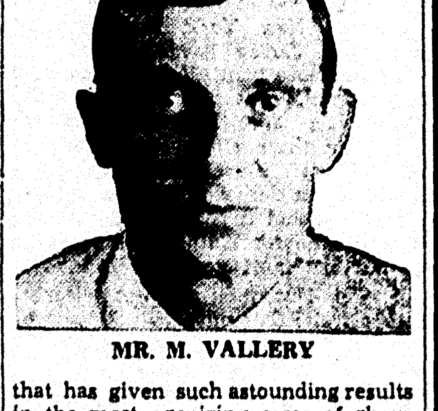
This simple, easy home treatment has been successfully used for Twenty years and contains no harmful drugs or dope and any lady can give it with full confidence she is helping her loved one to be the man she wants him to be.

Write for FREE BOOKLET and full information about this guaranteed home treatment to Health Remedy Products, Dept. 4186, Manufacturers Exchange Bldg., Kansas Cty, Mo.

NOW READY FOR HIS DAY'S WORK EVERY MORNING

Gly-Cas Regulated Mr. Vallery's Entire System After All Else Tried Had Failed; His Former Energy Is Restored, Gets Perfect Sleep, Enjoys His Meals Again.

Many medicines have been introduced here in Monroe in the past several years but Monroe residents today agree that there never has been any medicine brought here before



MR. M. VALLERY

that has given such astounding results in the most agonizing cases of rheumatism, neuritis, stomach, liver, kidney, bowel and blood troubles—as this new Gly-Cas. Is it any wonder this new remedy has become so well known in the short time it has been introduced to local sufferers.

Read what Mr. M. Vallery, R. F. D. No. 2, Box No. 232, Monroe, well known local railroad man who has lived here for the past ten years, said recently in lauding the action of this new remedy to the Gly-Cas man who is daily meeting crowds of local people at the Phoenix Drug company, 348 DeSiard street, this city:

"It is a pleasure to be the means of others learning of Gly-Cas that they too may regain their health as I have," said Mr. Vallery, "Even though I had always been very careful of my diet practically all foods I ate caused pains in my stomach. Gases formed so badly that my heart would palpitate, dizzy attacks were awful. I was continually taking soda to get relief but often that failed in my stubborn case. For years I had been troubled with constipation and I realized my entire system was filled with poisons. Regardless of the number or kinds of medicines I tried—none could help me. My kidneys caused back pains, headached continually and was always tired and worn-out, had little energy to do my work. I was in a miserable condition and as nothing could help me I became worried about my future—I did not want to finish life in suffering. But a short trial of Gly-Cas soon changed all of that."

"Gly-Cas was not only surprising with its results in my case alone for I know many others that have received the same remarkable benefit I have," continued Mr. Vallery, "I soon noticed a great change in my condition, bowels were regulated almost at once, the poisons and gases were removed from my system and soon I began to enjoy my foods without any ill effects following my meals. My former energy is restored, get perfect sleep and feel so good I am ready for my day's work every morning. It is wonderful that sufferers can get such a medicine as this new Gly-Cas."

Gly-Cas is sold by Phoenix Drug company, 348 DeSiard street, Monroe, and by leading druggists in surrounding towns.

Price $1.00 box—6 boxes for $5.00. Postage paid on receipt of price.—Adv.

NOTICE

To My Friends and Supporters

After a great deal of consideration, I have decided to withdraw from the race for Commissioner of Streets and Parks.

I wish to thank all of my good friends for their consideration and assurances of support, which I sincerely appreciate.

Assuring you of my best wishes, and that if I can ever be of service to you, I am at your command,

Respectfully,

WILL ATKINSON

Save on RUGS in our Sensational November RUG EVENT!

Prices are sensationally low on our entire stock of rugs, in spite of the recent sharp advance in wholesale costs! Here are typical reductions!

3-Rug Combination Including 9x12 Oriental Reproduction — All for $16.75

Of gorgeous patterns and beautiful high lighted colors. You also get two fine throw rugs to match.

9x12 ft. Axminster Rugs — $24.50

Splendid deep pile rugs in rich warm colorings and attractive patterns.

COTTON GROWERS TO ASK PAYMENTS

Ouachita Parish Farmers To Make Applications Under AAA Program

Three hundred and fifty Ouachita parish farmers have turned in their cotton bills of sale to E. R. Strahan, parish agricultural agent, and indicated that they expect to return to his office and sign applications for adjusted payments on their cotton as soon as the required forms are received from the national office of the AAA at Washington.

It is reliably reported that if all cotton farmers of the parish turn in their bills of sale and sign the applications they will receive a total of $70,000 in this one division of the AAA program alone.

Virtually every cotton farmer in the parish is expected to make an application for the adjusted payment. Most of them are expected to call at the agent's office for this purpose before November 15, the closing date for taking applications in time to receive payments from the December disbursement.

The payments will be the difference between the price of middling seven-eighths inch cotton on the date of sale and 12 cents per pound.

Mr. Strahan, in explaining this basis of the payments, said:

"For example if John Doe sold a 500-pound bale of cotton on September 10, the date on which the price of middling seven-eighths inch cotton was worth 10.60 cents per pound, he may make application through the office of his parish agent and receive an additional payment of 140 points which amounts to $7 in this instance.

"If he had good cotton and sold it for 11 cents per pound, the additional 140 points give him a return of 12.40 cents per pound on his cotton.

"On the other hand, if he produced a low grade of half and half cotton and sold it for only 10.20 cents per pound, the additional 140 points that he will receive under the adjustment program will give him a total return of only 11.60 cents per pound.

"In other words, the farmer gets his premium for good cotton at the time of making his initial sale.

"The contracts for 1936 will show reductions of from 25 to 50 per cent. For example, if the same John Doe rented eight acres to the secretary of agriculture in 1935 and was permitted to plant 12 acres, his base acres amounted to the sum of the other two items or 20 acres. Now, he may reduce 25 per cent or 5 acres yearly and be permitted to plant 15 acres; or if desires to do so, he may reduce as much as 50 per cent and plant only 10 acres. His benefit payments will be more with the greater percentage of reduction."

AIR VIEW OF GENEVA'S NEW 'PALACE OF PEACE'

Overlooking beautiful Lake Geneva and the city of Geneva, shown in background, the League of Nations' dazzling new $7,000,000 home, in which world statesmen are striving feverishly to prevent the Ethiopian conflict from growing into another world war, is pictured above from the air. Rivaling in size and beauty the Palace of Versailles, the Geneva Palace of Nations consists of a central unit containing an assembly hall which will accommodate 600 delegates, experts and secretaries; and two wings which extend to form a rectangular, terraced court of honor. In one of the wings is a $2,000,000 library, paid for by John D. Rockefeller, Jr.; in the other, a council room and offices of the secretariat. Total length of the group of buildings is about 1,200 feet.

Hunters Find Thrills On Tensas Deer Trail

By Fred Williamson

On a crisp, clear morning during the brief, joyous season when deer may be lawfully slain in Louisiana, a little cavalcade of shaggy ponies trotted out of a narrow opening in the timberland that borders a rutted, tortuous roadway in the dense hardwood forest of Tensas parish.

Athwart a sky, still pale from the recent dawn, yellow banners of the swift-hurrying day cast a glow which trickled like a golden cascade through the frosty air to touch with glory the topmost branches of tall monarchs of the woodland.

Half a score of riders, blood tingling from the exhilaration of an hour's threading of bewildering trails through the wilderness, are accounted for sport that has had its fascinated devotees from time immemorial. The shaggy ponies crowd together as the group comes to a halt at the edge of the wood. Crustations of ice filming little pools in the road's ruts tinkle in the still cold air as the tiny hoofs crash the surface. The sound makes a musical accompaniment to the crisp voices of the hunters.

The leader of the cavalcade—bronzed and husky woodsman, who knows the forest like a book—deploys his force with a few curt directions. Past experience has told him just where the elusive denizens of the forest are most likely to tread a measure in following the trails leading out of one woodland into another on either side of the road.

A brace of riders is dispatched to cover a "stand" a mile up the road. Another pair is sent an equal distance in the opposite direction. A hunter is sent back to guard a point on the trail over which the cavalcade has come. Others are assigned to strategic positions, while the guide takes his post at a distant point that will be more or less in contact with all the hunters.

The golden banners of the morning sun grow in strength and effulgence. The air seems alive with a subtile thrill of eager expectancy. It is hardly definable, but it has to do with the visualization of a gray shape taking form out of the shadows in the woods and slipping silently past the sentinels on guard. The visualization is purely mental. That it may any instant become an actuality is the basis of that poignant exhilaration which stimulates the hunter.

A Test of Nerves

A fixed rule on the deer-hunting game is: When put on a stand, stay put! The reason for this is obvious. When one is expecting each second that a deer may flash into view his senses are keyed to the highest pitch, and any movement in the bushes at once engages his eye. Also, he is apt to conclude the movement is caused by a deer, and, if a bit nervous, he may take a chance and shoot, even though nothing is really seen. For this reason a hunter wandering around in the brush is in grave danger of getting a charge of buckshot in his own anatomy—even from the gun of his best friend. So the rule is, stay where you are until the hour comes for leaving your post, or the horn calls you in. If you go "mooning" around, even though the hunt sounds far away, you take your life in your hands.

Suddenly through the sunlit, frosty air comes a long-hoped-for sound that is like a clarion call:

"Ow-ow-ow! Ow, wow-wow! O-o o-wow!"

It is the sound that tells the pack has found the quarry, and the chase is on!

Excitement grows intense on every stand. The baying of the hounds comes nearer, then recedes. Again it comes closer, and each hunter, at his post, waits, poised for action, his blood racing in the eager hope that the deer will follow a trail that finds its outlet on the stand which he is guarding.

The baying, growing louder and closer, increases to a joyous crescendo. A hunter moves cautiously closer to command a ridge that dips into Wild Horse Bottom. There is a movement in the distant brush that may mean anything—or nothing!

What is that gray-brown shadow that seems to be slipping among the gray-brown masses of woodland?

Surely—!

That bobbing mass that looks like the swaying skeleton of an unbarked tree!

Good Lord! It's——

Like a gray streak in the dim light of the woods the movement keeps on through the bottom. The critical moment has come. The shadow has resolved itself into something tangible

"Wha-a-am!"

The woods resound with the explosion of the hunter's 12-gauge pump gun.

"A-h-h!"

The gray shape, now clearly defined as a lordly buck, bearing aloft a magnificent set of antlers, keeps straight on. The sigh of disappointment from the hunter, profound and hearty, echoes through the forest. But, at that, he may have scored a hit, and there is no thought of relinquishing the chase.

A Monarch Falls

The free-running animal, splendid in his kingly grace, now begins to labor and crash his way through the intervening brush. There is no longer need for concealment. Escape is the object of the antlered monarch.

But there is little chance of escape. Beyond are the hunters on the next stands. The deer is already out of sight of the first hunter, who is laboring in pursuit!

Four more shots ring out. They are from guns farther along the embattled trails. Gamely the great buck meets the new foe. But his fate is sealed—he is now between two fires. He turns back on the track he has just covered, and the first hunter, following in his wake, gets a second chance. There must be no failure this time!

Three shots end the fusilade and the life of the forest king. The first shot misses the mark, but the third pierces his back. And the giant of the forest crumples to the earth. A medley from the hunters' horns rings out to apprise the rest of the party that the deer is taken. The "kill" was one of the biggest made in the hunting season in Tensas parish. The buck weighed 185 pounds dressed.

A magnificent set of eight-point antlers will adorn the home of J. W. Bateman, of the state department of education, who brought him down.

Incidentally, it is interesting to relate that while the noble victim was being dressed for carrying back to camp, two does stole quietly up to the stand. The snort of a horse startled the animals before the hunters could reach for their guns and both deer bounded away safely into the forest. More than half a score of hunters were in the chase that frosty morning but only one deer was slain.

• • •

It is probably just as well that only a small proportion of the army of hunters which each season throngs the Louisiana woods in chase of the shadowy and elusive deer comes out again with any appreciable record of accomplishment.

If every deer hunter achieved his heart's desire the wary herds that now populate the forests in those parishes which line the Mississippi river would not long survive the slaughter. And, besides, what incentive would be afforded if the purpose of the chase were so readily reached? The uncertainty which attends a deer hunt is one of the chief elements of the thrill that goes with it.

Such a preamble is not intended to serve as an alibi for lack of personal prowess in the hunting field, but merely a statement of fact authenticated by most of those who aspire to distinction as successful nimrods. So far as personal experience goes we candidly admit completely successful failure. By which we mean that, in spite of a distinguishing lack of laurel wreaths, our first experience in hunting Louisiana deer brought us a gorgeously splendid thrill quite unlike anything else in the gamut of outdoor sport.

Even a failure to sight a deer during four days in the Tensas woods was only an incidental circumstance that failed to rob us of that exhilaration inspired by those close contacts with untutored nature which find their richest expression on a crisp winter morning in the untamed woods.

A Thrill of Winter

To awake before daybreak to the tune of crackling logs in an enormous fireplace—to be served a stimulating draught of rich, black coffee before arising—to erase last clinging effects of the night's sleep by stepping forth under the still star-spangled sky and making one's morning ablutions in water which can only be obtained by crashing a top-coating of ice—to sit down under the flickering rays of an oil lamp to a gargantuan breakfast of broiled venison, hominy grits, a delectable cheese omelet, crisp bacon and smoking hot biscuits—all that offers just the preliminary thrill which starts a day filled with anticipation of lively adventure lurking round every tree trunk or over the top of each forest-crested ridge.

The day starts with hopeful expectation, with a ride through the gray tangle of woods, the hunters astride little shaggy, forest-wise horses whose apparently sleepy indifference to the occasion is belied by an altogether uncanny sagacity which carries them unerringly through a bewildering labyrinth of undergrowth to an objective only vaguely approximated by most of the riders.

When the day ends the hunters may or may not return bearing trophies of victory in the chase, but the gathering that assembles about the great open fireplaces of the camp-house—every hunter is possessed of the hunger which is traditionally known as ravenous—gives to itself a new stimulation in the telling and retelling of the incidents of the day, experiences which are emphasized and amplified by comparison with thrilling episodes of bygone seasons.

• • •

The locale of these events is the famous deer-hunting grounds of Tensas parish, where thousands on thousands of acres, covered with thick forest growth afford sanctuary the greater part of the year for herds numbered in hundreds. Only for the brief hunting season between Dec. 31. and Jan. 15 are the denizens of the forest in any special danger—and then largely in a comparative sense. Despite the fact that there are undoubtedly large numbers of deer in the Tensas region, even accomplished and seasoned hunters have to be equipped with a considerable measure of luck, besides dogs, horses and guns, to circumvent the sagacious objects of the chase. The high water of 1927, which covered 95 per cent of the Tensas basin, took its toll of the wild life of the region, but even that disastrous occurrence was not sufficient to materially lessen the number of deer in the Tensas forests.

Hunting was prohibited during the flood year, and since that time additional protective measures have been initiated to conserve the wild life. Judges of the district court having jurisdiction in the Tensas country are co-operating with the conservative hunting clubs for the protection of the deer. Besides stiffs fines for violation of the game laws the judges have promised jail sentences for those who fail to abide by the regulations. Such measures will undoubtedly conduce to a great increase in the Tensas deer herds, and will be a factor in maintaining this district as one of the greatest hunting resorts of the nation.

The hosts of the camp are members of the celebrated Clydesdale Hunting club, which has been granted unusual privileges by the owners of one of the largest tracts of hardwood timber land in the state, the Fisher Brothers Lumber company, more familiarly known as the manufacturers of the Fisher bodies for automobiles. The company is engaged in taking out the cypress timber from the woods, an industry that contributes largely to the industrial prosperity of that portion of Louisiana. In the midst of the tract of approximately 80,000 acres the Clydesdale club has erected a commodious and completely appointed clubhouse. The chief of the club is B. F. Young, noted attorney of St. Joseph, who epitomizes in himself that fine old sense of charming hospitality which is integrally a characteristic of the old families of Louisiana.

Everything that can contribute to the comfort and convenience of the hunters is provided at the camp. Hunting here smacks of little that suggests the old rough and ready days of a primitive era. What would Daniel Boone or Davy Crockett have said if they could have visualized a hunting trip where the evening camp fire tales are told to the accompaniment of an orchestra concert being played in New York or a grand opera performance in Chicago? The radio has brought the whole world of entertainment into the remotest fastness of the earth—even to a hunting camp in the Louisiana wilderness.

The personnel of the camp is interesting. Besides President Young—whose silvered hairs are belied by the sprightly youthfulness of the veteran lawyer-planter, who thinks nothing of spending a day of hard riding in the woods without exhibiting the slightest fatigue—there is Harrison Miller, famous as one of the best deer-drivers of the region.

Mr. Miller is the owner of Highland plantation, near Waterproof. He is a sturdy Louisianian, who gets his greatest relaxation from the demands of his business activities by hunting the furry denizens of the forest. He knows the woods like a book and is the champion deer-slayer of several seasons. His closest second is his brother, Balfour Miller, a Natchez business man. Then there is German Baker, a prominent merchant of St. Joseph; Dick Lynch and Pless Woodford, planters, who have a common interest in the opportunities of each hunting season.

The trip from Monroe to St. Joseph is made by automobile. The journey from St. Joseph into the enchanted hunting grounds is done over the logging railroad of the Fisher Brothers Lumber corporation. An electric "speeder," placed at the disposal of the Clydesdale club during the hunting season by officials of the company, is used to convey the party 18 miles into the woods. Saddle horses at the end of the rail line carried the group of hunters another two miles further into the forest before the camp was reached.

The high comedy of the trip was furnished by the lone newspaperman of the party, who made an ungraceful drive from the deck of his hunting pony into a sea of sticky mud in attempting to negotiate a huge duffle bag on the back of his horse's saddle. The editor's nice new hunting breeches were adequately and effectively christened, to the huge joy of the assembled multitude.

Almost immediately following the advent of the party into the camp, German Baker arrived with a newly-killed deer strapped to his saddle. The deer had been jumped early in the morning by Balfour Miller and was the fourth shot by members of the club since the opening of the season, which was proof that even with seasoned hunters on the job not many were able to get the better of the wily inhabitants of the woods. Mr. Baker, no mean hunter himself, was acclaimed like a conquering hero when he rode up to the camp sounding a clarion salute from his horn. A little later in the day, another deer was brought in by Harrison Miller, and the double event had the effect of a draught of rare wine on the new-comers, who began to envision battalions of the fleet-footed animals roaming the woods awaiting slaughter.

Four days were spent in the camp, but not until the last day, when Mr. Bateman made his great kill at Wild Horse Bottom, did the Shreveporters have even a remote contact with the wild denizens of the forest.

At that, it was a great experience.

• • •

Though many of the camps in the Tensas woods permit the wives of members to take part in the hunt, the Clydesdale club is possessed of a purely masculine atmosphere. The only feminine voices that are heard in the confines of the camp are ones which come over the radio—except those of the highly efficient negro cooks, whose accomplishments contribute materially to the enjoyments of the occasion.

The hunting camps overlap the various stands, and are themselves famous. Besides the Clydesdale, there is the Somerset, which gets its name from the properties once in the possession of Lady Somerset of England, and totally distinct from the holdings of the Union Land and Timber company, a part of the General Motors organization. Balmoral is another title given to a section of the hunting country, as is Crimea, Issaquena on Lake Formosa, Hopaka, Shady Grove, Elder Grove and Marydale.

These places are local points for the activities of the timber-cutting operations of the companies that are taking out great supplies of cypress to furnish the world's markets with the "wood eternal," but they achieve a special fame among the hunters of the nation because they designate the locale of one of the greatest deer hunting countries in America.

VETERANS' COUNCIL HOLDS MEET ON COOLEY'S BOAT

The Veterans' council held its monthly meeting on the boat of Capt. G. B. Cooley, "Weto," Friday night.

John Bailey, of the L. B. Faulk post, chairman of the Armistice day program, outlined plans for the day which were given approval by the council.

Isador Liebreich was elected secretary of the group, as that office was vacant.

The council went on record as prepared to furnish one or more rooms in the new tuberculosis sanitarium that will be erected here shortly through the efforts of Captain Cooley and associates.

DODSON FARMERS RECEIVE RENT CHECKS ON COTTON

DODSON, La., Nov. 2.—(Special)—The farmers of Dodson and vicinity have the past week received their second allotment of government rental checks in payment for cotton acreage rented to the federal government, in conformity with the cotton acreage reduction program.

Logan J. Stovall, local committeeman, stated today that these checks will be received by 200 or more farmers and will be the means of putting considerable money in circulation here.

Husband Quits Liquor

Guaranteed Home Treatment Brings Joy To Wife And Family

A doctor's prescription that overcomes the craving for alcohol and can be given secretly in coffee, tea or food is now offered on a guaranteed plan to all who wish to defeat the disease of drunkenness.

This simple, easy home treatment has been successfully used for Twenty years and contains no harmful drugs or dope and any lady can give it with full confidence she is helping her loved one to be the man she wants him to be.

Write for FREE BOOKLET and full information about this guaranteed home treatment to Health Remedy Products, Dept. 4186, Manufacturers Exchange Bldg., Kansas City, Mo.

NOTICE

To My Friends and Supporters

After a great deal of consideration, I have decided to withdraw from the race for Commissioner of Streets and Parks.

I wish to thank all of my good friends for their consideration and assurances of support, which I sincerely appreciate.

Assuring you of my best wishes, and that if I can ever be of service to you, I am at your command,

Respectfully,

WILL ATKINSON

NOTICE

The Board of Directors of the Ouachita National Bank of Monroe has called a special meeting of the stockholders of the Ouachita National Bank of Monroe to be held in the Directors' room of the Ouachita National Bank in Monroe at 130 DeSiard Street, Monroe, Louisiana at three o'clock P. M. on Wednesday, November 27, 1935, for the purpose of considering the contract between the Ouachita National Bank of Monroe and the Ouachita National Bank in Monroe entered into on January 3, 1933 and amended on September 6, 1933, and taking whatever action thereon that the stockholders may deem advisable.

NOW READY FOR HIS DAY'S WORK EVERY MORNING

Gly-Cas Regulated Mr. Vallery's Entire System After All Else Tried Had Failed; His Former Energy Is Restored, Gets Perfect Sleep, Enjoys His Meals Again.

Many medicines have been introduced here in Monroe in the past several years but Monroe residents today agree that there never has been any medicine brought here before

MR. M. VALLERY

that has given such astounding results in the most agonizing cases of rheumatism, neuritis, stomach, liver, kidney, bowel and blood troubles—as this new Gly-Cas. Is it any wonder this new remedy has become so well known in the short time it has been introduced to local sufferers.

Read what Mr. M. Vallery, R. F. D. No. 2, Box No. 232, Monroe, well known local railroad man who has lived here for the past ten years, said recently in lauding the action of this new remedy to the Gly-Cas man who is daily meeting crowds of local people at the Phoenix Drug company, 348 DeSiard street, this city:

"It is a pleasure to be the means of others learning of Gly-Cas that they too may regain their health as I have," said Mr. Vallery, "Even though I had always been very careful of my diet practically all foods I ate caused pains in my stomach. Gases formed so badly that my heart would palpitate, dizzy attacks were awful. I was continually taking soda to get relief but often that failed in my stubborn case. For years I had been troubled with constipation and I realized my entire system was filled with poisons. Regardless of the number or kinds of medicines I tried—none could help me. My kidneys caused back pains, headached continually and was always tired and worn-out, had little energy to do my work. I was in a miserable condition and as nothing could help me I became worried about my future—I did not want to finish life in suffering. But a short trial of Gly-Cas soon changed all of that."

"Gly-Cas was not only surprising with its results in my case alone for I know many others that have received the same remarkable benefit I have," continued Mr. Vallery, "I soon noticed a great change in my condition, bowels were regulated almost at once, the poisons and gases were removed from my system and soon I began to enjoy my foods without any ill effects following my meals. My former energy is restored, get perfect sleep and feel so good I am ready for my day's work every morning. It is wonderful that sufferers can get such a medicine as this new Gly-Cas."

Gly-Cas is sold by Phoenix Drug company, 348 DeSiard street, Monroe, and by leading druggists in surrounding towns.

Price $1.00 box—6 boxes for $5.00. Postage paid on receipt of price.—Adv.

TASK OF FINDING JOBS IS DELAYED

(Continued from First Page)

ects under state relief administrations, which were financed largely by the $1,373,075,795 of relief grants they obtained from the federal government.

This year the government has granted approximately $1,253,773,573 to wind up direct relief and the old work relief program while its new $4,000,000,000 job-making effort got under way.

In Hopkins' absence today, spokesmen for his organization declined to comment on reports that John Stutz, state relief administrator for Kansas, had telegraphed a protest to him against his statement earlier this week that Kansas had "never put up a thin dime for relief."

Hopkins had linked this comment at a press conference with a remark that Governor Landon of Kansas, mentioned as a Republican presidential possibility, had balanced his state budget by "taking it out on the hides of the people."

Neither was there any comment on a statement by Ed Fehr, assistant to Kansas' Democratic state auditor, that $215,000 of state money had been expended in Kansas in the last six months under a $775,000 appropriation made last winter for administration of federal relief.

As to progress in the works program nationally, Hopkins has said he now has enough money to put 3,500,000 persons to work and that a "big bulge" in the number actually employed this month will make possible an end to all federal grants for direct relief by December 1. He warned at his most recent press conference that after that date there would be no federal help even for states lacking funds to support unemployables.

CANINE QUINTUPLETS FACE FUTURE DOGGEDLY

The serious expression of these Spitz puppies, owned by Fred Craft of Chili, N. Y., must be due to an early realization that, whatever the future holds, they are in for a dog's life. Or maybe they are a bit put out in the realization that, as quintuplets, they have to take second place to those five Dionne girls up in Canada.

U. S. OBSERVERS WILL GO TO ETHIOPIAN WAR AREA

WASHINGTON, Nov. 2.—(AP)—The war department arranged today to obtain first-hand information on tactics and strategy employed by Ethiopian and Italian armies in the east African conflict.

Captain John Meade of the field artillery, and Major Norman E. Fiske of the cavalry were given the dangerous task of serving as front-line observers for the general staff.

They will follow the fighting in the most advanced positions possible, going as close to the actual front as commanders of the two armies will permit, and living as active campaigners in every way except that they will be non-combattants.

Captain Meade, whose home is Wilmington, Del., received orders to proceed as soon as possible to Addis Ababa as military attache of the United States legation.

Some inner tubes now have air pressure gauges built into them, and it is only necessary to unscrew the outer tire cap to read the gauge level.

SOLDIERS ATTACK AS ROME OFFERS PEACE PROPOSALS

(Continued from First Page)

concessions Saturday to speed the return of peace with Ethiopia.

The nature of the concession was not made known. They were understood to have been outlined in a paper handed to Premier Laval of France at Geneva Saturday by Mussolini's envoy to the League of Nations.

Diplomats at the league doubted if Italy's concessions would be satisfactory. Their pessimism was based upon Mussolini's previous refusals to accept conditions which Great Britain has insisted are essential.

But whatever Italy's premier may have in mind at Geneva it is not reflected either in Italy, where methods to meet the economic boycotts are being rapidly formulated, or in Ethiopia, where plans were completed to launch a new advance by the northern Italian army.

Restrictions are already being applied by Mussolini to conserve the products which he knows the application of sanctions will sharply reduce—coal, meat, oil and other necessities of a nation's life. "Meatless Tuesdays" are forecast. Stores will close earlier to conserve light and fuel. Fewer trains will operate, to save coal.

The sanctions committee of the League of Geneva, representing 52 member nations, fixed November 18 as the date for applying the "sell nothing to Italy" sanctions. The action was taken "with great regret," said Sir Samuel Hoare who, as foreign minister, speaks for Great Britain.

"The object of the action," he said, "is to shorten the duration of the war."

But it had a red-flag-in-a-bull's-face effect on Italians who are finding it more and more difficult to restrain their expressions of rage toward Great Britain. The anti-British sentiment among Fascisti grows, and causes concern in all Europe.

Sir Samuel, speaking at Geneva, said conversations are continuing in a search for a satisfactory settlement. He added that nothing substantial has been accomplished. He reiterated that there are three parties to the dispute —Italy, Ethiopia and the league; and that any settlement must have triple approval.

It was stated in Paris that Italy wants the Straits of Gibraltar, which are British-controlled, to be neutralized. This has nothing to do with the trouble in Africa, but is a sore spot that the war has aggravated.

Great Britain indicated Saturday that she didn't think Mussolini's gesture in withdrawing some troops from Libya went far enough. She thought more soldiers should be taken from there where, in the British view, they constitute an unwarranted menace to adjoining British territory.

Italy continues to send more soldiers to the front. Her communiques continue to report military success—not so much of battles won as of advances consolidated.

From the northern front came dispatches Saturday stating that Italy's "second major advance" would be started soon.

Awaiting the modern war machine of Mussolini are large forces of black warriors. Just how great the Ethiopian concentration is cannot be authoritatively asserted.

MAN IS ACCUSED IN USE OF MAILS

(Continued from First Page)

ber of occasions in the past in various cities.

At one time in 1929 he was reported to have been arrested for a fraudulent insurance deal at Amite, La.

It was learned from the sheriff's department that Varnelle came here about two weeks ago. On October 24 he was said to have sent telegrams to 20 or more furniture jobbers in various parts of the country, requesting immediate shipment of merchandise orders.

Three of the shippers immediately forwarded the merchandise ordered from their firms. The merchandise included some valuable rugs. All of it was reported to have been taken from a railroad freight depot in West Monroe to a warehouse on Natchitoches street, from where Varnelle is said to have shipped it to himself at Vicksburg, Miss. From Vicksburg he shipped the merchandise to Jackson, where he sold it to furniture dealers, it was reported.

28 PERSONS ARRESTED IN GERMAN SPY RING

PRAHA, CZECHOSLOVAKIA, Nov. 3.—(AP)—Twenty-eight persons were arrested by police tonight in what they called the rounding up of a spy ring working for Germany.

The suspects were charged with "military high treason" for allegedly selling secrets to the reich.

One of those arrested, the newspaper Prager Tagblatt said, was a Czech army major. The official police announcement said that two German broadcasting stations announced the arrest of Anna Dienal, charged with being one of the leaders, shortly after she was taken, "probably to warn her accomplices."

SALVATION ARMY DRIVE WILL CONTINUE MONDAY

The Salvation Army campaign to raise finanaces for the coming year will be continued through Monday, stated A. V. Miller, chairman of the campaign, who said that it was impossible to have all returns received sooner than that time.

"Tag day" conducted on downtown streets Saturday in charge of a group of young wom n from the army corps, was reported successful

MARSHAL SLAIN

"G-Men" have begun a relentless search for the slayer of Deputy United States Marshal L. S. Prevatt (above), whose body bearing bullet wounds, was found in the "badlands" district of Steubenville, Ohio. He had been prosecuting liquor law violators since coming to Ohio from North Carolina six months ago. (Associated Press Photo)

POLITICIANS EYE TUESDAY BALLOT

(Continued from First Page)

will be sufficient to assure the result they desire.

As for Pennsylvania, there have been signs that despite the present unofficial registration total of over 2,636,000 Republicans to less than 1,699,000 Democrats, the state is far from given up by the New Deal. The registration gain over last fall was 297,000 for the Democrats and about 12,000 for the Republicans.

A comparative newcomer to politics, John B. Kelly, former Olympic oarsman, is seeking to become the first Democratic mayor of Philadelphia. Arrayed against him as the Republican candidate is City Controller S. Davis Wilson, who was elected to his present post on a Democratic-town meeting ticket.

This contest shares interest with the attempt to wrest a superior court judgeship from the Republicans. The outcome seems less likely to be construed as reflection of opinion on national policies than as an indication of the strength of the organization headed by Senator Joseph Guffey, Democrat.

In Kentucky, Lieutenant-Governor A. B. Chandler has argued that his elevation to the governorship was imperative "to save Roosevelt." Governor Ruby Laffoon, who opposed him for nomination, took exception to this and said that while he had always voted the Democratic ticket straight, his hand might "wobble" this year. The quarrel has heartened the campaigners who are working for the Republican candidate, Circuit Judge King Swope.

When the six state totals are counted, none can tell yet exactly how or whether administration policies in congress and politics in general will be affected. Encouragement for the Republicans probably would mean intensification of their bombardment of the New Deal this winter. Large Democratic margins in contested territory, on the other hand, probably would lead to a more aggressive Roosevelt course than otherwise. In any event, the 1936 showdown is still a year off and much can happen between now and then to offset any gains or losses for either side at this time.

ENRAGED CITIZENS HUNT TERRORISTS

(Continued from First Page)

chief's tribute to the public. On the lookout for suspicious persons, his deputies stopped several hundred cars entering the city last night. The occupants readily submitted to the inconvenience, Shinners said.

Police activity last night climaxed in three pool hall raids in which 43 men were seized. The raids came only a few hours after a psychiatrist suggested such tactics, expressing an opinion the bombers might prove to be two or three neurotic youths mistakenly eager to be "heroes" of the headlines.

Those taken in the raids and 60 others on whom suspicion had been case were released after interrogation.

Municipal and county buildings as well as numerous semi-public structures continued under heavy guard but Laubenheimer said he believed the proffered help of 9,000 war veterans would not be needed.

HOODLUMS ASSAIL NEW CRIME ACTS

(Continued from First Page)

lawyers said every court that had ruled upon the new crime laws had upheld their legality. None of them have yet reached the supreme court.

The court attacks were brought by persons convicted in the kidnaping of June Robles in Arizona and Charles Urschel in Oklahoma. The seven are Clifford Skelly, Edward "Barney" Berman, Mr. and Mrs. Ed Shannon, Maynard D. Eaker, Harrie Glen Cochran and Harvey Bailey.

Arthur Gouch, facing death in Oklahoma for assaulting kidnaped officers, appealed against the law under which he was convicted.

Joe Adams and others in Florida charged with harboring members of the Karpis-Barker gang, challenged the firearms law.

The Monroe Morning World is an independent newspaper. It prints the news impartially. It supports what it believes to be right. It opposes what it believes to be wrong without regard to party politics.

Adages And Common Sense

There is one thing about some of the old adages that we quote frequently and glibly—they tell things that are not always true, or they tell half truths, which are worse than no truth at all, or they advance some smug argument that doesn't mean anything after it has been advanced. Often old adages contradict each other flatly.

We may prate sagely to a young man, "A rolling stone gathers no moss." What of it? Who wants to be a moss back? And is it the business of a stone to accumulate moss on itself? Cover certain stones with moss and it conceals their worth—diamonds and rubies, for instance. The young man might quote back: "Yes, but it gets all kinds of polish." That reply doesn't prove anything either. It would be a waste of time to polish some stones.

Perhaps the young man might further bolster his position by quoting, "A sitting hen grows no feathers." What of that? Suppose she doesn't. That is no argument against a hen's sitting and hatching for us potential broilers.

You may see a man with no hair on his head, and observe: "The Lord doesn't thatch an empty house," which might elicit the retort: "Grass doesn't grow on a busy street." Neither of those adages prove a thing, except that some lose their hair and some do not. Gray matter inside the skull has no bearing on the question.

Take the adage: "A whistling girl and a crowing hen always come to some bad end." Data is lacking concerning the crowing hen, but if every girl who whistles is slated for downfall, we might as well stop the world now.

How often have we heard it said, "Molasses catches more flies than vinegar." What of it? Who wants to attract flies, and of what use would molasses be with flies in it? Somebody can always knock the point off that particular adage by declaring: "Make honey of yourself and the wasps will devour you."

If old adages contained only harmless contradictions, superficialities and platitudinous ponderosities, there would be little criticism of them. But adages often give persons the wrong slant.

What about this one: "It never rains but it pours"? That statement is an absurdity. Anybody who stops to think will know that it is as unsound as many pre-election promises. Of course it rains when it does not pour. It does that oftener than it does anything else. Instead of quoting that adage to ourselves or to another when trouble follows trouble, wouldn't it be more hopeful, helpful and truthful to declare, "It never rains but it stops."

Inappropriate and destructive adages, like other inappropriate and destructive things, have done their part to blind human beings to eternal truths and to prevent progress.

The old adages express many wonderful thoughts, but they should be regarded with intelligence and taken with a grain of common sense when they need seasoning; they should never be applied wholly and literally unless they apply wholly and literally.

FURTHER ENCOURAGEMENT

Ever since the beginning of 1930, the American people have been anxiously looking for signs of a genuine, lasting industrial revival. If hope deferred maketh the heart sick, they have had plenty of reason to grow very sick at heart indeed, as the harbingers of revival, year after year, have turned out to be false alarms.

Just now, it does look as if the sky were brightening for the dawn. A bulletin from the national industrial conference board indicates encouraging business gains for September and early October. Retail and wholesale prices are rising, foreign trade is up, residential building is at last increasing, electric power output is higher than ever before, and there are welcome improvements in the fields of distribution and trade.

It may be that all of this will be followed by one more slump, as in the past. But we are at least free to hope that this time a long-pull, permanent improvement may be beginning.

WORTH THE MONEY

Authentic estimates are that the Lindbergh kidnaping investigation and the Hauptmann murder trial involved federal, state and local costs in excess of $1,000,000. New Jersey's share alone amounted to $162,718.94.

This is a lot of money. But anything short of an arrest, trial and conviction in the case at issue would have been an extremely harmful blow at law enforcement and social security.

The prominence of Colonel Lindbergh and the vast sum of ransom money paid to Hauptmann naturally made this case stand out as a veritable symbol of kidnaping. If the guilty person had not been caught and convicted, lawless individuals in all parts of the country would have been encouraged to act with similar disregard of human life and property.

All that the entire case cost would have been more than trebled in terms of crime and money if Hauptmann had been allowed to get away unpunished.

More Truth Than Poetry

BY JAMES J. MONTAGUE

BEWARE OF THE CRICKET
(On learning of certain bad habits he possesses.)

I have always been strong for the cricket.
I have sounded his praise on my lyre,
Though he sang in the edge of the thicket
Or chirped by the side of the fire.
He lulled me to sleep when I dozed in my bed,
And brought me contentment of mind.
"Most insects are rascally creatures," I said.
"But the crickets are friends of mankind.
The song that they sing with unwavering zest
Brings peace and contentment and rest."

In the autumn, when chill is the weather,
And the birds seek a pleasanter shore,
The crickets all gather together
To chant by the ingle once more.
You rarely can see them, but all the day long,
While the hearth-fire crackles and glows,
They pour forth their snatches of unceasing song
With never a thought of repose.
A bright little, brave little, undaunted clan
Are these summer companions of man.

But beware of the base little varmints
Whose song was so sweet in your ears,
Right now they are gnawing the garments
That you hung in the closet last year.
They are ripping to ribbons your claw-hammer suit
That you bought just last winter, bran new;
Unseen, but voracious, they're making their loot
Of everything else they can chew.
If you think that the crickets live only for song
You'd better look sharp, for you're wrong.

JUST A POSSIBILITY

Maybe Il Duce has started something that some of the other nations will eventually have to stop.

TOUGH LUCK

Just after we had bought a new car some trouble maker came along and told us that all the petroleum wells would run dry in fifty or sixty years.

(Copyright, 1935, by the Bell Syndicate, Inc.)

Europe Scorns Economy

BY BRUCE CATTON

Old-fashioned ideas about living within your income aren't very popular these days, so perhaps it would be better to say nothing about them. But a thoughtful man must wonder, now and then, just what is going to be used for money when it comes time to settle for all the wars and near-wars that are shaking the air in Europe.

Italy, of course, will meet the showdown the soonest.

Even before the war in Ethiopia began, the Italian government was spending more than it took in. Its budget has been unbalanced for several years. It has a debt of some 107 billion lire, dating back to before the Ethiopian campaign, and now, of course, in the process of enormous expansion.

In addition, Italy's gold is rapidly draining away. John T. Flynn points out that the Bank of Italy had $554,000,000 in gold a year ago compared with $370,000,000 today. In addition, there has been a substantial unfavorable trade balance for many years.

* * *

In view of these facts, it is hard to see how an expensive overseas war is going to help Italy get back to a position which an ordinary business man would call anything like solvent.

Yet Italy does not stand alone in a fix of this kind. England is spending heavily on armaments, and unless all signs fail will start a prodigious program of new naval construction within a few months. Yet England has a debt of approximately $32,000,000,000, her people labor under the heaviest taxation known to mankind, English currency has gone off the gold standard, and a default of $4,000,000,000 on the debt to America still stands on the record.

How on earth is a nation in such straits going to finance an expensive new preparedness program to say nothing of an actual war, if worst comes to worst?

* * *

And if England's position is odd, how about Germany's? Here is a nation which has defaulted on innumerable foreign bond issues, and which is moving heaven and earth to get its national books into something which at least resembles balance; yet Germany also is spending enormous sums on rearmament, and apparently plans to continue doing so for a long time to come.

In lesser degree, the same things are true of most of the other nations of Europe. In the face of great financial stringency they continue not merely to carry their already burdensome military expenditures, but to plan new ones.

It is old-fashioned and unpopular, nowadays—in America as in other lands—to expect a government to live within its income. But it is hard to help wondering just what is going to happen when the time finally comes for the heavy spenders to lay some cash on the line.

SO THEY SAY

World conditions emphasize the fact that all countries of the western hemisphere should get closer together. North and South America can get along without the rest of the world.—Mayor LaGuardia, New York.

* * *

I am for a compulsory oath, an oath to require every teacher every day to swear at the societies who brought about this oath.—William McAndrew, New York, attacking new law requiring oath of allegiance from teachers.

* * *

An original thought is dynamite. If you advance one, it would blow the whole system of education to hell.—Frank Lloyd Wright, famed architect.

* * *

Human life cannot go on unless we forget a great deal. It is so with nations. Is it useful to rake up past history to rouse antagonisms that should not exist?—The Rev. Dr. G. W. Butterworth, New York.

* * *

Musically and on its own merits, "The Star-Spangled Banner" would never be put on a high school program.—Dr. John L. Tidsley, assistant superintendent, New York city high schools.

BARBS

Italy, which believes it avenged the 896 defeat at Adowa, has a nasty shock coming when it learns the town it captured is apparently two others named Adua and Aduwa.

* * *

The law of averages promises an odd accident for the future; that in which one of the young Roosevelts collides with another.

* * *

Federal potato control has provided a snappy comeback for the small boy when mother maintains he can grow them in his ears.

* * *

According to an English lecturer, Americans do not know how to enjoy leisure. For instance, they go to hear English lecturers.

* * *

"'Ababa' is pronounced 'awawa.'" To the proud father, that explains all. It's the African situation that has been bothering his offspring.

TODAY'S BIBLE THOUGHT

O Lord our Lord, how excellent is thy name in all the earth!—Psalms 8:9.

* * *

A name is a kind of face whereby one is known.—Fuller.

New Deal In Washington

By Rodney Dutcher
(Washington Correspondent)

WASHINGTON—Many administrationists and neutral political observers who until recently were suspecting that Hugh S. Johnson had designs on the presidency in 1940 have now come to the conclusion that the general just can't wait.

Johnson presumably would deny presidential ambitions at this time. But his attacks on the New Deal, beginning conspicuously with an article in the Saturday Evening Post, convince some of the highest officials here that someone has persuaded the general that he may have to run for high office to save the nation from disaster.

Secretary Wallace the other day openly cited opinions of friends that the general was a candidate for the Republican vice presidential nomination.

Other cabinet members have expressed to intimates the belief that Johnson regards himself as a possible conservative coalition presidential candidate.

Tunnels In At Roosevelt

Edging ever closer to the Republican and American Liberty league positions, the general directs his attack at the policies, lieutenants, and advisers of Roosevelt, rather than at Roosevelt himself.

Neither Roosevelt nor anyone else gets any comfort from the distinction, for the effect is to brand Roosevelt as the prize bonehead of all time.

And many here figure that, since F. D. obviously isn't going to oblige Johnson by discarding the whole New Deal and its personnel, Johnson's next logical step would be to repudiate Roosevelt himself—however reluctantly—and oppose his reelection.

The current surge of belief in Johnson's presidential ambitions is, in some small part, sired by wish. New Dealers feel Johnson is mercurial, unstable, and poorly informed.

But they'd rather pin him down as an actual presidential aspirant, where he could be shot full of holes, than to let him roam at large as a wild man flailing in all directions, who couldn't be held to responsibility for his utterances.

On the other hand, Johnson's ironclad faith in his own infallibility and superior attainments encourages the belief that in the back of his head is an ambition to take over the whole show.

Trips Up On Frankfurter

There's much truth in Johnson's description of the New Deal as a "mess." But his insistence on blaming virtually all the innumerable New Deal mistakes on Dr. Felix Frankfurter of Harvard law school and the Frankfurter graduates in the administration, whom he calls the "Happy Hot Dogs," is commonly regarded here as demonstrating the general's notorious lack of memory and devotion to facts.

Quite a few insiders here seem to remember the time when Johnson was begging and storming in an effort to get Frankfurter, instead of Donald Richberg, as general counsel for NRA.

Anyone can recall the occasion when Johnson, in an ill-advised public moment, said every step of NRA had been taken in consultation witn Justice Brandeis, whose intimate relationship with Frankfurter is generally known.

(Brandeis subsequently voted with a unanimous supreme court against NRA in the Schechter case and was known to be horrified at the way it had operated under Johnson.)

Now Johnson boasts that he kept the "Happy Hot Dogs" out of NRA and the framing of NIRA.

He Forgets The Past

When Johnson blames the Roosevelt "Horse and Buggy" talk on Frankfurter influence, he fails to recall that he was haunting the White House in the days after the Schechter decision, that he had a substitute NRA plan which would in effect defy the decision, and that Frankfurter was advising Roosevelt to forget about NRA.

At a meeting of New Deal lawyers, Frankfurter had long before advised that the only possible chance of getting NRA by the supreme court lay in keeping out of the courts until the law could be revised.

Johnson now attacks that advice, which his lawyers ignored when they demanded action on the Schechter case.

Stirs Ickes Crowd Ire

The Ickes-PWA-Interior crowd is just as indignant as the Frankfurter boys, because Johnson says he had a fine PWA plan worked out, which he says Ickes ignored as he proceeded to make PWA a complete failure.

Various Ickes subordinates remember making feverish search for that celebrated "plan" and being able to discover no record of it whatever, except that Johnson had said once that most of the $3,300,000,000 should be spent on mechanizing and motorizing the army.

(Copyright, 1935, NEA Service, Inc.)

Real Estate Transfers

A contract calling for the drilling of a well for oil or gas on a block of acreage located in the vicinity of Rilla, Fondale and Logtown, in townships 16 and 17, range 3 east and 4 east, was filed yesterday at the office of the clerk of court by J. J. Meyers and J. E. Doughtie, holders of leases on the acreage, and J. B. Williams, driller. The consideration in the transaction is one dollar and "other considerations."

Mrs. Ollie H. Stuckey sold to G. L. Hamilton 10 acres of land on the White's Ferry road, in sections 27 and 63, township 18 north, range 3 east, for a consideration of $500.

O. G. Elliott sold to John D. Harris lot 1 of the Red Cut subdivision of lots in the northeast quarter of the northeast quarter of section 7, township 16 north, range 3 east. The consideration was $175.

J. H. Henry sold to J. G. Grant 40 acres of land described as the southwest quarter of the southwest quarter of section 8, township 17 north, range 2 east, for $100 and "other considerations."

Alan F. Sugar sold to J. D. Parker lot 4 of block 19 of Morningside extension, for $100.

BELIEVE IT OR NOT BY RIPLEY

EXPLANATION OF SATURDAY'S CARTOON

WIZARD OF THE SWITCHBOARD—Routing about two thousand telephone calls a day over her switchboard, it is difficult to believe that Kitty McKeever would even attempt to remember voices. Yet she does, without fail. After the first telephone call to King Features Syndicate, Miss McKeever recognizes the voices of the caller immediately, and never needs to repeat "Who is calling?" Miss McKeever, during her fifteen years as chief operator, has handled more than 10,512,000 calls with speed and accuracy that is uncanny.

TUESDAY: "THE BAMBOO ORGAN OF RIZAL."

(Copyright, 1935, King Features Syndicate, Inc.)

Lights Of New York

By George Ross

NEW YORK—This night-time-get-about never has seen Broadway so sentimentally stirred up about a returning prodigal as the Gay White Way has been about James J. (Jimmy) Walker. I have seen, on my after-dark beat, hardboiled hellions of Times Square weeping joyously into their best cognac over Jimmy's homecoming and in many a rendezvous, waiters were ordered to salvage a framed photograph of Hizzoner from the cellar, dust it off and post it over the bar center.

In fact, what dinned into my ears at one night club where I had halted to hear danceable ragtime, was a crooning version of the following:

"Hello, Jimmy, Jimmy hello.
So glad to see you once more.
Hello Jimmy, Jimmy hello.
You're dearer than ever before.
You'll find the east side, west side
Will love you in December as they did in May.
So hello Jimmy, Jimmy hello."

Of course, the rhymes are still in a rough condition, but remember, Tiny Pan Alley ground them out in a hurry; a half hour, as a matter of fact, after Music Row learned that Jimmy was sailing back.

* * *

"In This Corner—"

Innumerable cliques along the Rialto plotted welcoming sheenanigans for the jaunty Jimmy, but it took the Tough club to arrange for a real leather-lung greeting. At a shindig the other evening, this old fraternity which boasts of such tough guys as George M. Cohan, elected Joe Humphreys, who rends the air at boxing bouts, to go down the bay on a chartered boat and welcome Jimmy from the bottom of his heart and top of his larynx. And it was once Humphrey's brag that he could cast an echo from the Battery to Quarantine.

Gala Walker Nights were arranged in many supper clubs on the east side, west side and all around the town, but I fear the festivities are dimmed, on this occasion, at the smart set's Central Park Casino, where ex-Mayor Walker tarried often. The welcoming ceremonies won't be much to speak of there, because the Central Park Casino has passed out of the hands of Sidney Solomon, one of Jimmy Walker's most loyal pals; and one of his staunchest defenders when others jettisoned him.

During the rein of James J. at city hall, the Central Park Casino was this town's mecca of swank, eclat and fabulous prices; then, with the self-exile of Jimmy, the new administration heckled Solomon continually and demanded his abdication from the park site. Well, Solomon gave up the other day, on the eve of Jimmy's homecoming, even as the S. S. Manhattan was tooting her foghorn in the direction of New York; the Casino has fallen into the hands of Fusion. And so Broadway has left the Casino out of the ceremonies.

* * *

What'll He Do?

Anyway, speculation is still rife on and off the Rialto as to Walker's future vocation. Will he become a motion picture mogul? A wine merchant for Mouquin who cabled a handsome offer to him in Paris? A practicing lawyer? Our next candidate for mayor? An insurance company executive? A lyric writer for Broadway musical shows? Or will he seclude himself to write his autobiography for a flat sum of $10,000? On second thought, not such a flat sum. . . . Jimmy may already know the answer to these questions, but Broadway, I gathered after eavesdropping in well-informed quarters at the corner tables, doesn't.

Indeed, the denizens of the Broadway delta have proven their devotion to Jimmy. But one old friend of Hizzoner who probably felt hurt because he didn't figure in the reception plans is Pete, the veteran city hall bootblack. Pete's shinebox is the one with the legend, "Hi Di Do. Let Pete Shine 'Em Up." The shoeshine man bootblacked all through Walker's administration and never failed to get a cordial "Hya Pete" from the mayor in return for his morning salute.

TODAY

By ARTHUR BRISBANE

(Copyright, 1935, by King Features Syndicate Inc., International Copyright and all other rights reserved.)

(Continued from First Page)

in private life, and the Rev. Ernest F. Tittle.

Mr. Eichelberger said the League of Nations alone can prevent war. He is probably mistaken. The league has not prevented the Ethiopian war or the Japanese-Manchukoan war.

WILLIAM RANDOLPH HEARST junior, suggested that "minding our own business," might be desirable. To avoid all danger of complications, he thought the government, if necessary, might "pull every ship carrying the American flag off the seas until the war is over."

Mrs. Sinclair Lewis thinks "the league has always been motivated by the self-interest of its strongest members;" quite sound.

Mr. Tittle, a clergyman of Evanston, Ill., said "There will be no peace until there is justice," which, if true, means that peace is some distance off.

THIS HUMBLE WRITER would suggest that the surest way to secure peace is to make yourself so strong that other nations would fear to attack.

This nation could do it, if it knew enough. Nobody ever tweaked John L. Sullivan's nose, and nobody inflicts that indignity on the present Joe Louis, for good reasons. It would have unpleasant results.

If this country could say to the nations of the world, "Come over and see how we could wipe out every city you possess, and kill half your population if you bother us," that might make peace secure, barring lunatics.

World peace will come when one nation, or a group of nations, preferably one nation, is strong enough to forbid others to fight.

ON FRIDAY 20,000,000 American school children celebrated the 100th anniversary of the birth of Mark Twain who wrote "Tom Sawyer" and "Huckleberry Finn." See that your children read those books and read them again yourself, no matter how old you are.

This writer saw Mark Twain a long time ago, dining at the house of the late William M. Laffan, publisher of Charles A. Dana's New York Morning Sun. Twain was discussing Darwin and his theory of evolution and a youthful listener, waiting for "the funny part," was as much disappointed as Mark Twain's character who sat on the damp ground in the holy land, watching a turtle and waiting for it to sing. He had read, "The voice of the turtle was heard in the land."

The turtle never sang and Mark Twain said nothing funny about Darwin. He was in solemn earnest.

To celebrate his anniversary, read or re-read his books. They are as young now as he was, 100 years ago, when first he was placed, blinking and squirming, in the arms of his happy mother.

UNOFFICIAL dispatches from Addis Ababa report the important Ethiopian city of Makale captured Italian troops expect to "parade" into the city without resistance, Ethiopia's forces having scattered in the foothills.

One Italian bombing plane is said to have crashed. One deserter, not of Italian birth, who could not stand the heat, reported to Haile Selassie and got a job in an Addis Ababa garage. The Italian deserter, Clementi, said he had to swim a river "full of crocodiles," and left because he got only one liter and a half of water per day—and the weather was too hot.

HAMBONE'S MEDITATIONS

By Alley

'KNAPP PLAYERS' NAME OF NEW DRAMA GROUP

Officers of the newly-formed Drama club, sponsored by the Monroe recreation department, are announced as follows: Myrtle Killion, president; Bill Mayo, vice president; Jessica Latham, secretary-treasurer. The following committee chairmen were also named: Production, Lee Clark; casting, Evelyn Ledbetter; program, Elizabeth Bell; play reading, Jimmie Slaughter; membership, Alice Burnell; publicity, Mabel Reeves.

At the last meeting, the name "Knapp Players" was chosen for the club, being derived from Jack Stuart Knapp, who is the author of one-act plays. Mr. Knapp has paid several visits to Monroe and is a representative of the National Recreation association.

A play, "War's Reward," will be given Monday, Nov. 11, for the club members. This play was written by Bill Byrd. Those who will participate are as follows: Narrator, Bill Mayo; husband, Philip Kulcke; wife, Alice Burnell; angel, Mabel Reeves.

WORTH THE MONEY

Authentic estimates are that the Lindbergh kidnaping investigation and the Hauptmann murder trial involved federal, state and local costs in excess of $1,000,000. New Jersey's share alone amounted to $162,713.94.

This is a lot of money. But anything short of an arrest, trial and conviction in the case at issue would have been an extremely harmful blow at law enforcement and social security.

The prominence of Colonel Lindbergh and the vast sum of ransom money paid to Hauptmann naturally made this case stand out as a veritable symbol of kidnaping. If the guilty person had not been caught and convicted, lawless individuals in all parts of the country would have been encouraged to act with similar disregard of human life and property.

All that the entire case cost would have been more than trebled in terms of crime and money if Hauptmann had been allowed to get away unpunished.

More Truth Than Poetry

BY JAMES J. MONTAGUE

BEWARE OF THE CRICKET

(On learning of certain bad habits he possesses.)

I have always been strong for the cricket.
I have sounded his praise on my lyre,
Though he sang in the edge of the thicket
Or chirped by the side of the fire.
He lulled me to sleep when I dozed in my bed,
And brought me contentment of mind.
"Most insects are rascally creatures." I said.
"But the crickets are friends of mankind.
The song that they sing with unwavering zest
Brings peace and contentment and rest."

In the autumn, when chill is the weather,
And the birds seek a pleasanter shore,
The crickets all gather together
To chant by the ingle once more.
You rarely can see them, but all the day long,
While the hearth-fire crackles and glows,
They pour forth their snatches of unceasing song
With never a thought of repose.
A bright little, brave little, undaunted clan
Are these summer companions of man.

But beware of the base little varmints
Whose song was so sweet in your ears,
Right now they are gnawing the garments
That you hung in the closet last year.
They are ripping to ribbons your claw-hammer suit
That you bought just last winter, bran new;
Unseen, but voracious, they're making their loot
Of everything else they can chew.
If you think that the crickets live only for song
You'd better look sharp, for you're wrong.

JUST A POSSIBILITY

Maybe Il Duce has started something that some of the other nations will eventually have to stop.

TOUGH LUCK

Just after we had bought a new car some trouble maker came along and told us that all the petroleum wells would run dry in fifty or sixty years.

Europe Scorns Economy

BY BRUCE CATTON

Old-fashioned ideas about living within your income aren't very popular these days, so perhaps it would be better to say nothing about them. But a thoughtful man must wonder, now and then, just what is going to be used for money when it comes time to settle for all the wars and near-wars that are shaking the air in Europe.

Italy, of course, will meet the showdown the soonest.

Even before the war in Ethiopia began, the Italian government was spending more than it took in. Its budget has been unbalanced for several years. It has a debt of some 107 billion lire, dating back to before the Ethiopian campaign, and now, of course, in the process of enormous expansion.

In addition, Italy's gold is rapidly draining away. John T. Flynn points out that the Bank of Italy had $554,000,000 in gold a year ago compared with $370,000,000 today. In addition, there has been a substantial unfavorable trade balance for many years.

* * *

In view of these facts, it is hard to see how an expensive overseas war is going to help Italy get back to a position which an ordinary business man would call anything like solvent.

Yet Italy does not stand alone in a fix of this kind. England is spending heavily on armaments, and unless all signs fail will start a prodigious program of new naval construction within a few months. Yet England has a debt of approximately $32,000,000,000, her people labor under the heaviest taxation known to mankind, English currency has gone off the gold standard, and a default of $4,000,000,000 on the debt to America still stands on the record.

How on earth is a nation in such straits going to finance an expensive new preparedness program to say nothing of an actual war, if worst comes to worst?

* * *

And if England's position is odd, how about Germany's? Here is a nation which has defaulted on innumerable foreign bond issues, and which is moving heaven and earth to get its national books into something which at least resembles balance; yet Germany also is spending enormous sums on rearmament, and apparently plans to continue doing so for a long time to come.

In lesser degree, the same things are true of most of the other nations of Europe. In the face of great financial stringency they continue not merely to carry their already burdensome military expenditures, but to plan new ones.

It is old-fashioned and unpopular, nowadays—in America as in other lands—to expect a government to live within its income. But it is hard to help wondering just what is going to happen when the time finally comes for the heavy spenders to lay some cash on the line.

SO THEY SAY

World conditions emphasize the fact that all countries of the western hemisphere should get closer together. North and South America can get along without the rest of the world.—Mayor LaGuardia, New York.

* * *

I am for a compulsory oath, an oath to require every teacher every day to swear at the societies who brought about this oath.—William McAndrew, New York, attacking new law requiring oath of allegiance from teachers.

* * *

An original thought is dynamite. If you advance one, it would blow the whole system of education to hell.—Frank Lloyd Wright, famed architect.

* * *

Human life cannot go on unless we forget a great deal. It is so with nations. Is it useful to rake up past history to rouse antagonisms that should not exist?—The Rev. Dr. G. W. Butterworth, New York.

* * *

Musically and on its own merits, "The Star-Spangled Banner" would never be put on a high school program.—Dr. John L. Tidsley, assistant superintendent, New York city high schools.

BARBS

Italy, which believes it avenged the 896 defeat at Adowa, has a nasty shock coming when it learns the town it captured is apparently two others named Adua and Aduwa.

* * *

The law of averages promises an odd accident for the future; that in which one of the young Roosevelts collides with another.

* * *

Federal potato control has provided a snappy comeback for the small boy when mother maintains he can grow them in his ears.

* * *

According to an English lecturer, Americans do not know how to enjoy leisure. For instance, they go to hear English lecturers.

* * *

"'Ababa' is pronounced 'awawa.'" To the proud father, that explains all. It's the African situation that has been bothering his offspring.

TODAY'S BIBLE THOUGHT

O Lord our Lord, how excellent is thy name in all the earth!—Psalms 8:9.

* * *

A name is a kind of face whereby one is known.—Fuller.

New Deal In Washington

By Rodney Dutcher
(Washington Correspondent)

WASHINGTON—Many administrationists and neutral political observers who until recently were suspecting that Hugh S. Johnson had designs on the presidency in 1940 have now come to the conclusion that the general just can't wait.

Johnson presumably would deny presidential ambitions at this time. But his attacks on the New Deal, beginning conspicuously with an article in the Saturday Evening Post, convince some of the highest officials here that someone has persuaded the general that he may have to run for high office to save the nation from disaster.

Secretary Wallace the other day openly cited opinions of friends that the general was a candidate for the Republican vice presidential nomination.

Other cabinet members have expressed to intimates the belief that Johnson regards himself as a possible conservative coalition presidential candidate.

Tunnels In At Roosevelt

Edging ever closer to the Republican and American Liberty league positions, the general directs his attack at the policies, lieutenants, and advisers of Roosevelt, rather than at Roosevelt himself.

Neither Roosevelt nor anyone else gets any comfort from the distinction, for the effect is to brand Roosevelt as the prize bonehead of all time.

And many here figure that, since F. D. obviously isn't going to oblige Johnson by discarding the whole New Deal and its personnel, Johnson's next logical step would be to repudiate Roosevelt himself—however reluctantly—and oppose his reelection.

The current surge of belief in Johnson's presidential ambitions is, in some small part, sired by wish. New Dealers feel Johnson is mercurial, unstable, and poorly informed.

But they'd rather pin him down as an actual presidential aspirant, where he could be shot full of holes, than to let him roam at large as a wild man flailing in all directions, who couldn't be held to responsibility for his utterances.

On the other hand, Johnson's ironclad faith in his own infallibility and superior attainments encourages the belief that in the back of his head is an ambition to take over the whole show.

Trips Up On Frankfurter

There's much truth in Johnson's description of the New Deal as a "mess." But his insistence on blaming virtually all the innumerable New Deal mistakes on Dr. Felix Frankfurter of Harvard law school and the Frankfurter graduates in the administration, whom he calls the "Happy Hot Dogs," is commonly regarded here as demonstrating the general's notorious lack of memory and devotion to facts.

Quite a few insiders here seem to remember the time when Johnson was begging and storming in an effort to get Frankfurter, instead of Donald Richberg, as general counsel for NRA.

Anyone can recall the occasion when Johnson, in an ill-advised public moment, said every step of NRA had been taken in consultation with Justice Brandeis, whose intimate relationship with Frankfurter is generally known.

(Brandeis subsequently voted with a unanimous supreme court against NRA in the Schechter case and was known to be horrified at the way it had operated under Johnson.)

Now Johnson boasts that he kept the "Happy Hot Dogs" out of NRA and the framing of NIRA.

He Forgets The Past

When Johnson blames the Roosevelt "Horse and Buggy" talk on Frankfurter influence, he fails to recall that he was haunting the White House in the days after the Schechter decision, that he had a substitute NRA plan which would in effect defy the decision, and that Frankfurter was advising Roosevelt to forget about NRA.

At a meeting of New Deal lawyers, Frankfurter had long before advised that the only possible chance of getting NRA by the supreme court lay in keeping out of the courts until the law could be revised.

Johnson now attacks that advice, which his lawyers ignored when they demanded action on the Schechter case.

Stirs Ickes Crowd Ire

The Ickes-PWA-Interior crowd is just as indignant as the Frankfurter boys, because Johnson says he had a fine PWA plan worked out, which he says Ickes ignored as he proceeded to make PWA a complete failure.

Various Ickes subordinates remember making feverish search for that celebrated "plan" and being able to discover no record of it whatever, except that Johnson had said once that most of the $3,300,000,000 should be spent on mechanizing and motorizing the army.

(Copyright, 1935, NEA Service, Inc.)

Real Estate Transfers

A contract calling for the drilling of a well for oil or gas on a block of acreage located in the vicinity of Rilla, Fondale and Logtown, in townships 16 and 17, range 3 east and 4 east, was filed yesterday at the office of the clerk of court by J. J. Meyers and J. E. Doughtie, holders of leases on the acreage, and J. B. Williams, driller. The consideration in the transaction is one dollar and "other considerations."

Mrs. Ollie H. Stuckey sold to G. L. Hamilton 10 acres of land on the White's Ferry road, in sections 27 and 63, township 18 north, range 3 east, for a consideration of $500.

O. G. Elliott sold to John D. Harris lot 1 of the Red Cut subdivision of lots in the northeast quarter of the northeast quarter of section 7, township 16 north, range 3 east. The consideration was $175.

J. H. Henry sold to J. G. Grant 40 acres of land described as the southwest quarter of the southwest quarter of section 8, township 17 north, range 2 east, for $100 and "other considerations."

Alan F. Sugar sold to J. D. Parker lot 4 of block 19 of Morningside extension, for $100.

BELIEVE IT OR NOT BY RIPLEY

EXPLANATION OF SATURDAY'S CARTOON

WIZARD OF THE SWITCHBOARD—Routing about two thousand telephone calls a day over her switchboard, it is difficult to believe that Kitty McKeever would even attempt to remember voices. Yet she does, without fail. After the first telephone call to King Features Syndicate, Miss McKeever recognizes the voices of the caller immediately, and never needs to repeat "Who is calling?" Miss McKeever, during her fifteen years as chief operator, has handled more than 10,512,000 calls with speed and accuracy that is uncanny.

TUESDAY: "THE BAMBOO ORGAN OF RIZAL."

(Copyright, 1935, King Features Syndicate, Inc.)

Lights Of New York

By George Ross

NEW YORK—This night-time-getabout never has seen Broadway so sentimentally stirred up about a returning prodigal as the Gay White Way has been about James J. (Jimmy) Walker. I have seen, on my after-dark beat, hardboiled hellions of Times Square weeping joyously into their best cognac over Jimmy's homecoming and in many a rendezvous, waiters were ordered to salvage a framed photograph of Hizzoner from the cellar, dust it off and post it over the bar center.

In fact, what dinned into my ears at one night club where I had halted to hear danceable ragtime, was a crooning version of the following:

"Hello, Jimmy, Jimmy hello,
So glad to see you once more.
Hello Jimmy, Jimmy hello.
You're dearer than ever before.
You'll find the east side, west side
Will love you in December as they did in May.
So hello Jimmy, Jimmy hello."

Of course, the rhymes are still in a rough condition, but remember, Tiny Pan Alley ground them out in a hurry; a half hour, as a matter of fact, after Music Row learned that Jimmy was sailing back.

* * *

"In This Corner—"

Innumerable cliques along the Rialto plotted welcoming sheenanigans for the jaunty Jimmy, but it took the Tough club to arrange for a real leather-lung greeting. At a shindig the other evening, this old fraternity which boasts of such tough guys as George M. Cohan, elected Joe Humphreys, who rends the air at boxing bouts, to go down the bay on a chartered boat and welcome Jimmy from the bottom of his heart and top of his larynx. And it was once Humphrey's brag that he could cast an echo from the Battery to Quarantine.

Gala Walker Nights were arranged in many supper clubs on the east side, west side and all around the town, but I fear the festivities are dimmed, on this occasion, at the smart set's Central Park Casino, where ex-Mayor Walker tarried often. The welcoming ceremonies won't be much to speak of there, because the Central Park Casino has passed out of the hands of Sidney Solomon, one of Jimmy Walker's most loyal pals; and one of his staunchest defenders when others jettisoned him.

During the rein of James J. at city hall, the Central Park Casino was this town's mecca of swank, eclat and fabulous prices; then, with the self-exile of Jimmy, the new administration heckled Solomon continually and demanded his abdication from the park site. Well, Solomon gave up the other day, on the eve of Jimmy's homecoming, even as the S. S. Manhattan was tooting her foghorn in the direction of New York; the Casino has fallen into the hands of Fusion. And so Broadway has left the Casino out of the ceremonies.

* * *

What'll He Do?

Anyway, speculation is still rife on and off the Rialto as to Walker's future vocation. Will he become a motion picture mogul? A wine merchant for Mouquin who cabled a handsome offer to him in Paris? A practicing lawyer? Our next candidate for mayor? An insurance company executive? A lyric writer for Broadway musical shows? Or will he seclude himself to write his autobiography for a flat sum of $10,000? On second thought, not such a flat sum. . . . Jimmy may already know the answer to these questions, but Broadway, I gathered after eavesdropping in well-informed quarters at the corner tables, doesn't.

Indeed, the denizens of the Broadway delta have proven their devotion to Jimmy. But one old friend of Hizzoner who probably felt hurt because he didn't figure in the reception plans is Pete, the veteran city hall bootblack. Pete's shinebox is the one with the legend, "Hi Di Do, Let Pete Shine 'Em Up." The shoeshine man bootblacked all through Walker's administration and never failed to get a cordial "Hya Pete" from the mayor in return for his morning salute.

TODAY

By ARTHUR BRISBANE

(Copyright, 1935, by King Features Syndicate Inc., International Copyright and all other rights reserved.)

(Continued from First Page)

in private life, and the Rev. Ernest F. Tittle.

Mr. Eichelberger said the League of Nations alone can prevent war. He is probably mistaken. The league has not prevented the Ethiopian war or the Japanese-Manchukoan war.

WILLIAM RANDOLPH HEARST junior, suggested that "minding our own business," might be desirable. To avoid all danger of complications, he thought the government, if necessary, might "pull every ship carrying the American flag off the seas until the war is over."

Mrs. Sinclair Lewis thinks "the league has always been motivated by the self-interest of its strongest members;" quite sound.

Mr. Tittle, a clergyman of Evanston, Ill., said "There will be no peace until there is justice," which, if true, means that peace is some distance off.

THIS HUMBLE WRITER would suggest that the surest way to secure peace is to make yourself so strong that other nations would fear to attack.

This nation could do it, if it knew enough. Nobody ever tweaked John L. Sullivan's nose, and nobody inflicts that indignity on the present Joe Louis, for good reasons. It would have unpleasant results.

If this country could say to the nations of the world, "Come over and see how we could wipe out every city you possess, and kill half your population if you bother us," that might make peace secure, barring lunatics.

World peace will come when one nation, or a group of nations, preferably one nation, is strong enough to forbid others to fight.

ON FRIDAY 20,000,000 American school children celebrated the 100th anniversary of the birth of Mark Twain who wrote "Tom Sawyer" and "Huckleberry Finn." See that your children read those books and read them again yourself, no matter how old you are.

This writer saw Mark Twain a long time ago, dining at the house of the late William M. Laffan, publisher of Charles A. Dana's New York Morning Sun. Twain was discussing Darwin and his theory of evolution and a youthful listener, waiting for "the funny part," was as much disappointed as Mark Twain's character who sat on the damp ground in the holy land, watching a turtle and waiting for it to sing. He had read, "The voice of the turtle was heard in the land."

The turtle never sang and Mark Twain said nothing funny about Darwin. He was in solemn earnest.

To celebrate his anniversary, read or re-read his books. They are as young now as he was, 100 years ago, when first he was placed, blinking and squirming, in the arms of his happy mother.

UNOFFICIAL dispatches from Addis Ababa report the important Ethiopian city of Makale captured Italian troops expect to "parade" into the city without resistance, Ethiopia's forces having scattered in the foothills.

One Italian bombing plane is said to have crashed. One deserter, not of Italian birth, who could not stand the heat, reported to Haile Selassie and got a job in an Addis Ababa garage. The Italian deserter, Clementi, said he had to swim a river "full of crocodiles," and left because he got only one liter and a half of water per day—and the weather was too hot.

HAMBONE'S MEDITATIONS

By Alley

(Copyright, 1935, by The Bell Syndicate, Inc.)

'KNAPP PLAYERS' NAME OF NEW DRAMA GROUP

Officers of the newly-formed Drama club, sponsored by the Monroe recreation department, are announced as follows: Myrtle Killion, president; Bill Mayo, vice president; Jessica Latham, secretary-treasurer. The following committee chairmen were also named: Production, Lee Clark; casting, Evelyn Ledbetter; program, Elizabeth Bell; play reading, Jimmie Slaughter; membership, Alice Burnell; publicity, Mabel Reeves.

At the last meeting, the name "Knapp Players" was chosen for the club, being derived from Jack Stuart Knapp, who is the author of one-act plays. Mr. Knapp has paid several visits to Monroe and is a representative of the National Recreation association.

A play, "War's Reward," will be given Monday, Nov. 11, for the club members. This play was written by Bill Byrd. Those who will participate are as follows: Narrator, Bill Mayo; husband, Philip Kulcke; wife, Alice Burnell; angel, Mabel Reeves.

RAID IN RUSSIAN AREA IS CHARGED TO MANCHOUKUO

(Continued from First Page)

to pry up rails. Several pistols were found in their possession.

One of the wounded prisoners was quoted as having said that army officers organized the raid five days after the return of the first group.

The Soviet border patrol was made up of only a few men, but they obtained reinforcements in time to turn the fight against the invaders. No casualties were reported on the Russian side.

Russia recently made a strong protest to Tokyo after what was called here a raid by a party of Japanese and Manchoukuoan soldiers in which one Soviet officer was killed.

Children's Colds Should Have This Safe Treatment

Young Mothers Benefit from Two Generations' Proof of This External Treatment For Fighting Colds.

IT AVOIDS CONSTANT "DOSING"

There's nothing like a child's cold to upset a young mother. And mothers of two generations, anxious to help end colds, have depended on Vicks VapoRub. It is effective—external—and safe. It avoids the risks of constant "dosing," so often upsetting to children's delicate digestions.

Just rubbed on throat and chest at bedtime, VapoRub acts *two ways at once:*

1. By stimulation through the skin, like a poultice or plaster—
2. By inhalation of its penetrating medicated vapors, released by body heat and breathed in *direct* to inflamed air-passages.

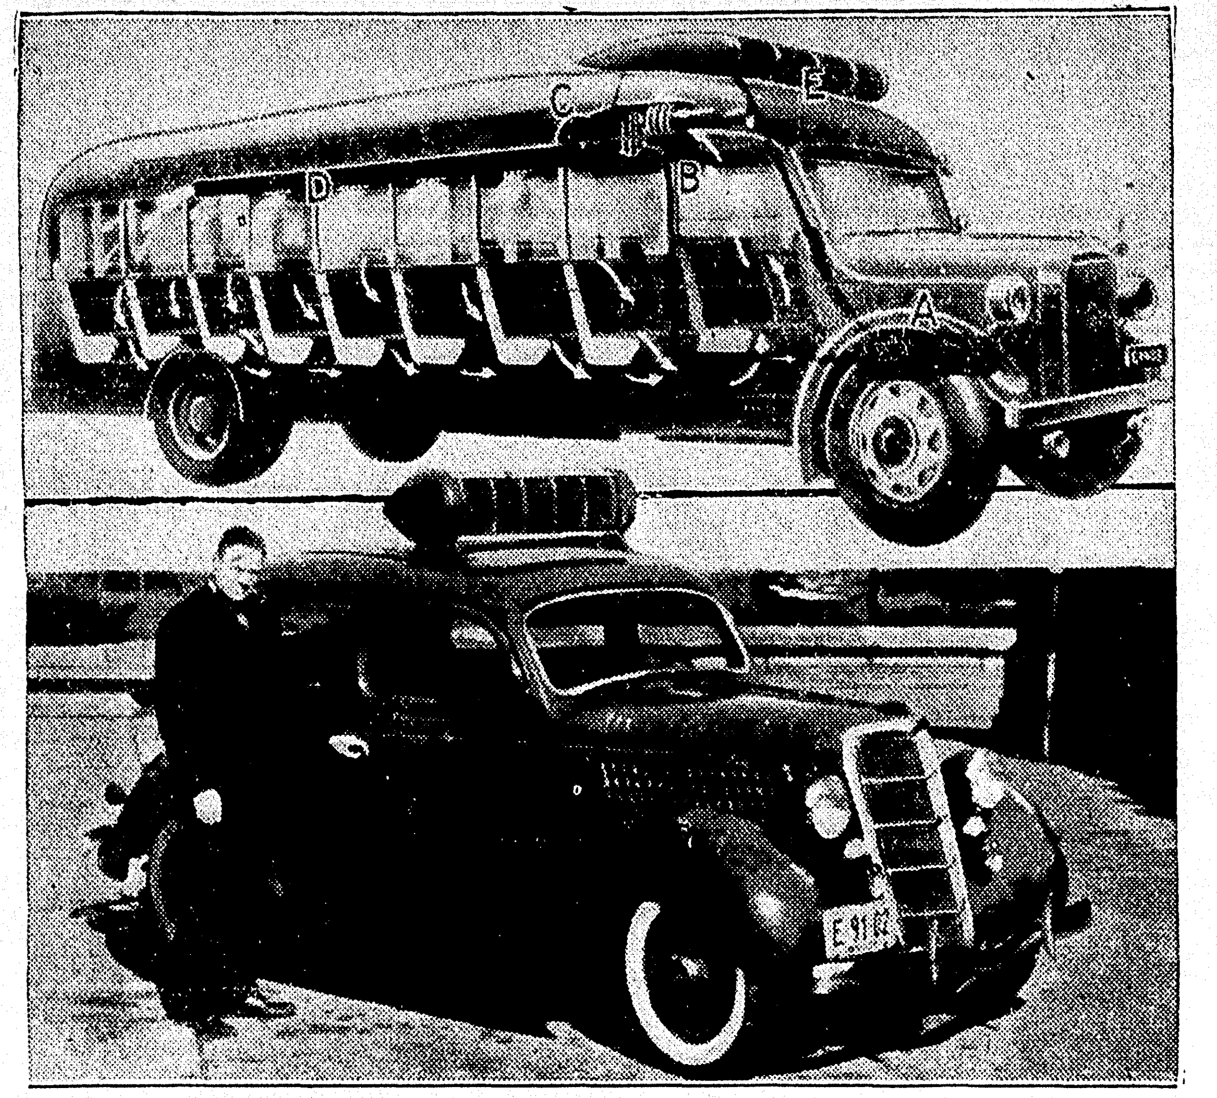
Continuing through the night, this combined vapor-poultice action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion.

A Practical Guide for Mothers

Each year, more and more families are being helped to *fewer* colds and *shorter* colds by Vicks Plan for Better *Control* of Colds. Vicks Plan has been clinically tested by practicing physicians, and further proved in everyday home use by millions. Full details of the Plan in each package of Vicks VapoRub.

Over 53 26 17 Million Vick Aids Used Yearly for Better Control of Colds

—AND NOW THE AIR-CONDITIONED AUTO



Like trains and skyscrapers, the family automobile now can be air-conditioned by virtue of apparatus perfected by Ralph F. Peo of New Orleans. He is shown at the bottom beside the first auto thus equipped. At the top is shown a design of an air-conditioned bus. The compressor (A) supplies refrigerant for the cooling coil (B) which cools air drawn by fan (C) and distributes it through duct (D). Condenser (E) removes the heat. (Associated Press Photos)

ITALY TO DEMAND THAT GIBRALTAR BE NEUTRALIZED

(Continued from First Page)

conference. What the French stand will be, was not learned.

Unofficially, however, it was said Britain may have agreed to take a larger percentage of exports from French Morocco to strengthen France's position there in return for support against Italy's prospective demand.

French naval experts said "from the theoretical viewpoint" the question of whether Gibraltar is fortified or not is of little interest to France.

Neutralization, they said, would guarantee free passage to France for all time but with the traditionally close accord with Britain, "it would be better to have a strong British hold on Gibraltar" in case France got in a war with Germany and was faced with the prospect of German submarines entering the Mediterranean to ravage her commerce and stop transport of troops from North African possessions.

A possible demand by Spain to enter the conference if the question of Gibraltar is discussed was seen in naval circles.

They held that British possession of Gibraltar had long been "a source of annoyance" to the Spanish, who could be prevented from moving their own ships from their own east coast to the west coast without the permission of Britain.

Italy, it was believed, will ask that the Straits of Gibraltar be placed under the same status as the Suez canal.

Ferriday

Meeting in the home of Mrs. Proby Sessions, with Mrs. S. J. Coney as hostess, the Ferriday Woman's club had as its subject for this gathering "China" and because of the inability of Mrs. Sam Lyon, who was scheduled to have given the talk on this current event, the discussion was made by Mrs. A. J. Hodges.

Miss Sarah Irwin Jones, capable librarian of the Concordia parish library and one of the leading figures of the local organization, served as the able substitute for Mrs. R. P. Saunders. Miss Jones, a graduate of the Louisiana State university and of Columbia university in New York City, gave a delightful and highly interesting and educational reading on "Confucious, Philosopher and God" of the Chinese.

Another interesting feature of the meeting was the talk given by Mrs. Donald Theriot who had as her subject "China's New Woman." Mrs. Theriot was serving in place of Mrs. Charles G. Bruce, another of the missing members who had to stay away because of illness.

Following the various interesting talks on the theme of the meeting, the members disposed of the business of the gathering which was ways and means of raising funds for the year's work. The meeting came to a close with a social hour, always a delightful part of the club gatherings. Lovely and delicious refreshments were served by the hostesses, Mrs. Sessions and Mrs. Coney and all agree that the meeting had been one of the best of the year or past years during which the Woman's club has played an important role in the upbuilding of Ferriday and of Concordia parish.

Hungry Children Get Wine In Hungarian Cave Homes

MEZOEKOEVESD, Hungary, Nov. 2.—(AP)—Modern cave dwellers forced out of their homes by poverty, can be found near the villages of Ostoros, Kistallya, Noszavaj and Tiboldaroc, not far from here, where more than 4,000 persons are living in caves.

Economic depressions severely hitting this wine growing district is held responsible. The lack of a wine market forces the cave dwellers to drink wine as a substitute for food, as most of these people are employed in vineyards and receive the greater part of their wages in wine.

The newspaper "Magyarsag" printed a report from the Mezoekoevesd district physician saying that the children of Tibolddaroc have wine for breakfast, as their parents are too poor to buy other food.

Black-Eye Bean Disease Defeated By Breeding

DAVIS, Calif., Nov. 2.—(AP)—After seven years of patient plant breeding experiments, decisive defeat is in sight for the disease which ravaged and almost ruined the black-eye bean industry in sections of California.

Fusarium wilt, season after season, withered the black-eye bean plants. Dr. J. B. Kendrick, associated plant pathologist at the University of California experimental station here, discovered after investigation of a variety which resisted the wilt and nematode, but the difficulty was that it was a poor bearer and thus useless commercially.

Breeding continually with this plant as a prime stock, Dr. Kendrick has developed the "Calva" variety which is not only resistant to the disease but also is a good producer.

Growers look forward to next year when seed of the new plant will be available on a large scale.

Delhi

Miss Lila Mae Kirchbaum visited friends and relatives in West Monroe recently.

Friends of Mrs. L. P. Woodard will regret to learn that she is confined to her home on account of illness.

Marvin Gilliland visited his mother, Mrs. Gilliland, in West Monroe, recently.

Miss Onis Brazzel visited friends and relatives in Ruston recently and attended State Normal and Louisiana Tech football game there.

Mrs. Stein Baughman of Farmerville is visiting her father, H. P. Gunter, and family.

Mrs. Hazel Crow, Mrs. Ray Hillman and son Ray, Jr., of Epps were recent guests of Mrs. Stone Miller.

Miss Blanche Miller, Richland parish supervisor, of Rayville, visited the Delhi school recently.

Little Jimmie Caldwell, five-year-old son of Mr. and Mrs. J. L. Caldwell, spent a recent week-end with Mr. and Mrs. W. O. Caldwell and family of Crowville and attended the birthday party of James Lynn Caldwell, who celebrated his sixth birthday.

Miss Aura Bell Cupit of Winnsboro was a guest recently of her uncle and aunt, Mr. and Mrs. C. E. Sheppard.

Mr. and Mrs. Lamar Bryant recently motored to Vicksburg, Miss., where Mrs. Bryant went for medical treatment.

Mrs. Jimmie Naylor, Jr., has as her guest her aunt, Miss Dena Fherburne of Plain Dealing.

Mrs. J. M. O'Neal of Choudrant is a guest of her son-in-law and daughter, Mr. and Mrs. Lamar Bryant.

Mrs. O. I. Gilliland, Mrs. J. H. O'Neal, Mrs. L. T. O'Neal and Mrs. N. A. Harville visited in Vicksburg, Miss., recently.

Mrs. F. W. Miles has as her guest her sister, Mrs. Bowers of El Dorado, Ark.

Mrs. Hubert Parker has just returned from a visit with friends and relatives in Winnsoboro.

J. A. Dollarhide and Neal McEacharn, Sr., were recent visitors in Monroe.

Friends of Litttle Miss Barbara Ann Smith will regret to learn that she is confined to her home on account of illness.

Croesus Of British India Celebrates Silver Jubilee

HYDERABAD, British India, Nov. 2.—(AP)—The Nizam of Hyderabad generally regarded as the richest man in the world, celebrates the 25th anniversary of his accession in December.

A fund has been started to commemorate the silver jubilee. More than $1,000,000 will be collected it is expected, for public welfare projects.

The total wealth of the Nizam of Hyderabad is a matter of conjecture, but there are reports that he has at least $250,000,000 in gold alone in his vaults.

His fortune also includes one of the world's finest collections of precious stones and revenue from his estates is said to be $5,000,000 yearly.

LOCAL MEN WILL ATTEND CONVENTION OF DENTISTS

At least 12 local dentists will attend the National Dental convention to be held at New Orleans from Monday through Friday. An attendance of 10,000 is anticipated for the convention, it was reported here.

Dentists from here who will attend will be Drs. N. D. Bule, F. P. Cerniglia, S. A. Collins, A. J. Emerson, P. M. Gayle, N. G. Gaston, J. G. Henry, C. P. Jarrell, S. Solomon, J. C. Stewart, D. A. Strickland and R. L. Wood.

ANOTHER EARTH TREMOR STRIKES MONTANA CAPITAL

(Continued from First Page)

compared with previous shocks which have caused loss estimated unofficially at from $3,000,000 to $3,500,000.

Loose objects, bits of cornice and ornamental masonry were dislodged. Helena viewed the tremors calmly, almost in matter of fact spirit.

Nearly 450 homeless, many of them children, including orphans, were bundled in safe shelters. Officials said there might be acute suffering if the temperatures continued to fall.

Attempts were made to resume normal activity, despite the weather and the continued shakes. Public meetings were banned, however.

Several blocks of the business area were roped off. The city was partially evacuated. Police Chief Roger Smith estimated more than half the homes damaged by serious shocks were vacated.

A special train carried 183 children to a resort hotel after they were evacuated from St. Joseph's orphanage.

DRUNKEN DRIVING CHARGE IS LODGED FOLLOWING MISHAP

A charge of operating an automobile while under the influence of liquor was preferred against C. O. Wilson, of New Orleans, here late yesterday after he was arrested by police following a traffic accident in the 800 block of DeSiard street.

A car driven by Wilson was in a collision with an automobile driven by W. H. Wallace, of Spencer. Wallace, in his report to police, said he was bringing his car to a stop at the curb when Wilson's car came "zig-zagging across the street" and struck his car.

Wilson gave his occupation as that or a marine engineer. He was driving a rent car owned by a New Orleans company. Police communicated with the company and learned that Wilson had driven it to northeast Louisiana with the owners' permission.

During the afternoon police arrested W. H. Jones, negro, of 1514 North Tenth street, after a car he was driving was said to have struck a car driven by Arthur Lisotta, of 1403 DeSiard street. Jones was placed in jail charged with reckless driving and operating an automobile without proper brakes.

The accident happened at the intersection of North Eleventh and Breard streets. Lissotta was driving north on North Eleventh and the negro was driving west on Breard street.

Lissotta's mother, Mrs. Luke Lissotta, was reported to have suffered a slight shoulder injury in the accident.

Choudrant

Mrs. C. B. Colvin was hostess to the Needlecraft club Thursday afternoon. The members spent the afternoon with handwork. During the business session a wiener roast was planned at which the husbands will be honor guests. It was decided to meet every second and fourth Wednesday instead of Thursdays.

Delicious refreshments were served at the close of the meeting to Mrs. C. L. Madden, Mrs. J. A. O'Neal, Mrs. W. M. Bagwill, Mrs. M. E. Kidd, Mrs. C. L. Faulkner, Mrs. C. L. Mondart, Mrs. H. M. Bagly, and Mrs. C. B. Colvin.

The Hallowe'en carnival sponsored by the high school faculty, proved to be very successful. A neat sum of $35 was realized, as well as a lot of merriment.

Mr. and Mrs. Zwolle Meadows, little Misses Anne Seese and Annie McLean of Ruston were recent guests of Mrs. W. M. Bagwell.

An old fashioned quilting party was held recently by the ladies of the Presbyterian church in the home of Mrs. R. D. Pennuel. Two quilts were quilted and hemmed in one afternoon, after which delicious refreshments were served to twenty guests.

Mr. and Mrs. Bill Bagwell and daughter, Mary Grace, spent Thursday in Mer Rouge.

Mrs. J. M. O'Neal visited relatives in Delhi last week.

Mr. and Mrs. Harvey O'Neal of Delhi were recent guests in the home of Mr. and Mrs. Jule Sanderson.

Miss Mildred Allen of New Orleans is spending the week-end with home folks, having been called home at the death of her grandmother, Mrs. C. M. Allen.

When Poisons Clog KIDNEYS and Irritate Bladder

Flush Them Out For 35 Cents

Go to your druggist today and get this safe, swift and harmless diuretic and stimulant—ask for Gold Medal Haarlem Oil Capsules and start at once to flush kidneys of waste matter saturated with acids and poisons.

That's the way to bring about healthy kidney activity and stop that bladder irritation which often causes scanty passage with smarting and burning as well as restless nights.

Remember, the kidneys often need flushing as well as the bowels, and some symptoms of kidney weakness are: Getting up once or twice during the night—puffy eyes—cramps in leg—backache and moist palms.

But be sure and get GOLD MEDAL Haarlem Oil Capsules—the original and genuine—right from Haarlem in Holland—the price is small (35 cents), the good results will fulfill your expectations. —Adv.

TALL ROPING

New York seems to have given Chick Byers, of Texas, world's trick and fancy roping champion, a chance to get his teeth into some real lassoing. Apparently, Cowboy Byers is about to rope the Empire State building. But it's only an illusion; Al Smith's towering structure is some 15 blocks away.

DRIVER OF TRUCK WHICH HIT YOUTH IS RELEASED HERE

Arrested here Friday night by the sheriff's department after his truck was reported to have struck a youth riding on a CCC truck on the Monroe-Ruston highway, A. Oliphant, of Mississippi, was released Saturday from the parish jail here after Sheriff A. J. Thigpen, of Lincoln parish, notified Sheriff Coverdale that no charges were to be filed against Oliphant.

The CCC youth, Gorman Ethridge, of Pensacola, Fla., stationed at the Calhoun camp, suffered a severe gash in his back when a side brace of Oliphant's truck was said to have struck him. Ethridge was seated on a bench in the bed of the CCC truck, with his back near the opposite traffic lane. He is a patient at the Ruston-Lincoln sanitarium.

Oliphant, unaware that his truck had "grazed" the youth's back, came on to Monroe, where he was arested at the request of Sheriff Thigpen.

ANNUAL SINGING MEETING IS OPENED AT JONESBORO

JONESBORO, La., Nov. 2.—(Special)—The annual two-day meeting of the North Louisiana State singing convention opened here today. Business sessions were held during the day and at night the first public singing program of the convention was held with a large attendance present.

The convention is being held at the Jonesboro high school.

Sunday morning's program will begin at 10 o'clock and the first afternoon program will begin at 1 o'clock.

A number of quartets from adjoining states and Tennessee are here to participate in the programs.

MISS BURGESS NOT HURT IN AUTOMOBILE MISHAP

Reports current in Monroe last night that Miss Jane Burgess, daughter of Mr. and Mrs. J. Porter Burgess, was injured in an automobile accident between here and Baton Rouge were unfounded, according to information received by The World from Baton Rouge.

It was stated that Miss Burgess was safe with her parents in a hotel at the capital and had not been out of the city.

ROACHES DIE Eating STEARNS' ELECTRIC PASTE

NOW IN HANDY TUBES—For 57 years millions have used STEARNS' to kill Roaches, Rats, Mice, Ants, Waterbugs, etc. Only 35c. "MONEY BACK IF IT FAILS."

SHORT PENCIL BELL

Says history repeats itself. Thirty-three years ago when I backed the Monroe Plumbers who were locked out, I was short of finances, as I am today, so I wrote a two payment contract, one-half of money when job was roughed in, balance when fixtures were installed. After the bosses came across and paid the wages I had a plumbing shop on my hands, and but one plumber, Babbling Brooks, for a competitor, a plumber whom I had befriended as to securing wages. He canvassed the town telling the women folks about my two-payment contract, and that I came to Monroe in a box car—would collect half the money and leave town in some other box car (what I call condensed gratitude). It is true I have ridden the blind baggage and side door sleepers considerably and hope I am not disgraced in the eyes of the Lord, since His Beloved Son, while on earth, rode a jackass.

Same gratitude in the air; as to me tricking the poor in regard to my One Thousand Dollar donation to the down but not out, when elected Street Commissioner. Let's read what the Bible says: "And when you reap the harvest of your land, thou shalt not wholly reap the corners of thy field, neither shalt thou gather the gleanings of thy harvest. And thou shalt not glean thy vineyard; neither shalt thou gather every grape of the vineyard; thou shalt leave them for the poor and the stranger." I AM THE LORD YOUR GOD.

After donating One Thousand Dollars of my salary to the poor I will still have $250.00 a month—more money than any precious Street Commissioner ever earned—in my mind.

Yours truly,

J. G. BELL

P. S. A surety bond will make my word good.

RAID IN RUSSIAN AREA IS CHARGED TO MANCHOUKUO

(Continued from First Page)

to pry up rails. Several pistols were found in their possession.

One of the wounded prisoners was quoted as having said that army officers organized the raid five days after the return of the first group.

The Soviet border patrol was made up of only a few men, but they obtained reinforcements in time to turn the fight against the invaders. No casualties were reported on the Russian side.

Russia recently made a strong protest to Tokyo after what was called here a raid by a party of Japanese and Manchoukuoan soldiers in which one Soviet officer was killed.

Children's Colds Should Have This Safe Treatment

Young Mothers Benefit from Two Generations' Proof of This External Treatment For Fighting Colds.

IT AVOIDS CONSTANT "DOSING"

There's nothing like a child's cold to upset a young mother. And mothers of two generations, anxious to help end colds, have depended on Vicks VapoRub. It is effective—external—and safe. It avoids the risks of constant "dosing," so often upsetting to children's delicate digestions.

Just rubbed on throat and chest at bedtime, VapoRub acts *two ways at once:*

1. By stimulation through the skin, like a poultice or plaster—
2. By inhalation of its penetrating medicated vapors, released by body heat and breathed in *direct* to inflamed air-passages.

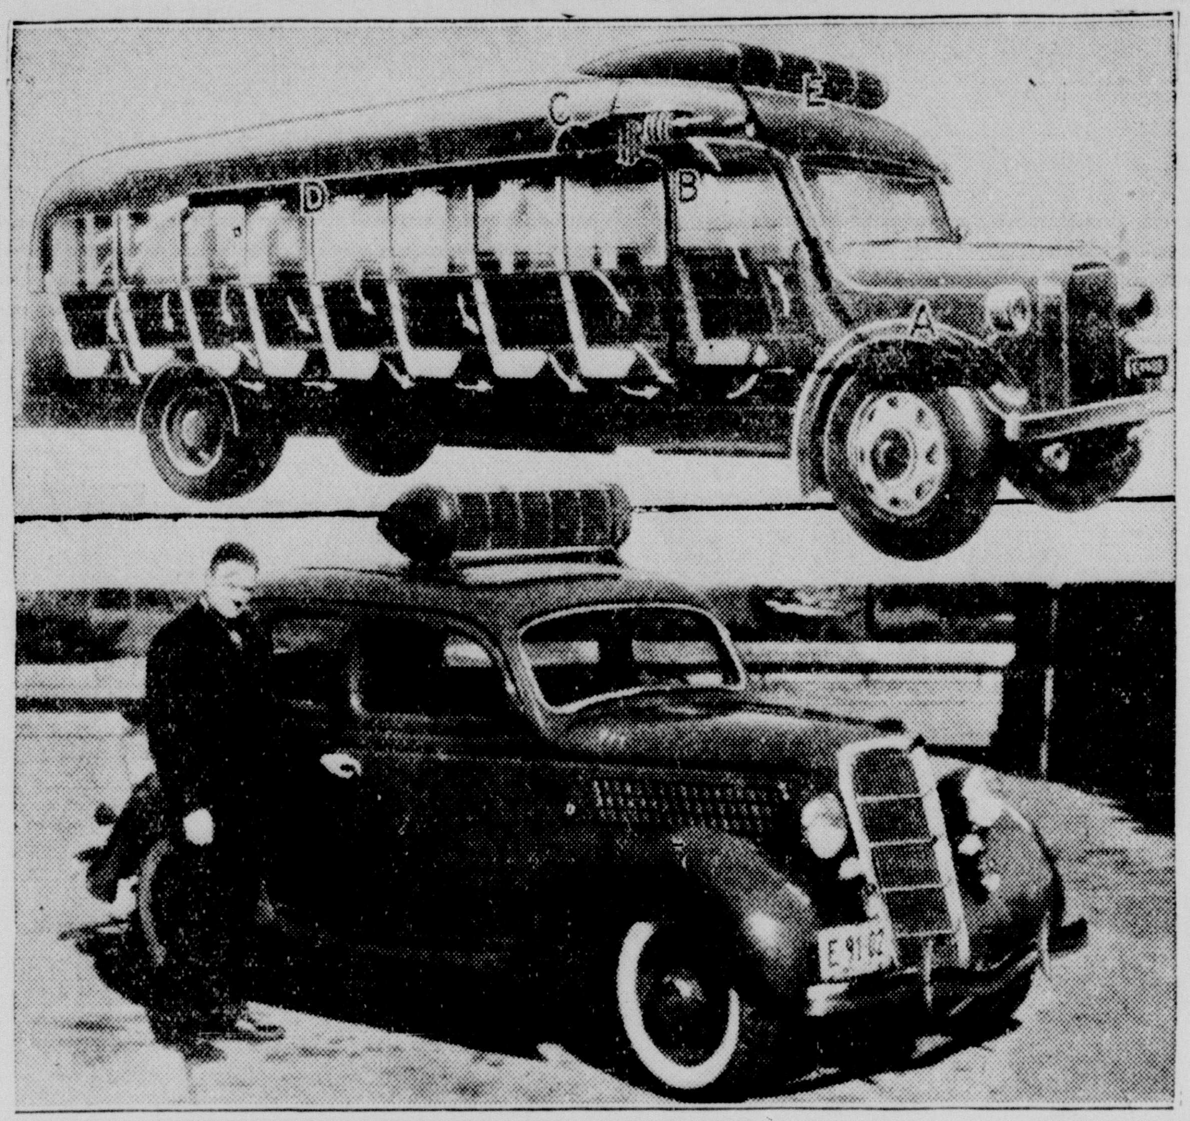
Continuing through the night, this combined vapor-poultice action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion.

A Practical Guide for Mothers

Each year, more and more families are being helped to *fewer* colds and *shorter* colds by Vicks Plan for Better *Control* of Colds. Vicks Plan has been clinically tested by practicing physicians, and further proved in everyday home use by millions. Full details of the Plan in each package of Vicks VapoRub.

Over 53/26/17 Million Vick Aids Used Yearly for Better Control of Colds

—AND NOW THE AIR-CONDITIONED AUTO



Like trains and skyscrapers, the family automobile now can be air-conditioned by virtue of apparatus perfected by Ralph F. Peo of New Orleans. He is shown at the bottom beside the first auto thus equipped. At the top is shown a design of an air-conditioned bus. The compressor (A) supplies refrigerant for the cooling coil (B) which cools air drawn by fan (C) and distributes it through duct (D). Condenser (E) removes the heat. (Associated Press Photos)

ITALY TO DEMAND THAT GIBRALTAR BE NEUTRALIZED

(Continued from First Page)

conference. What the French stand will be, was not learned.

Unofficially, however, it was said Britain may have agreed to take a larger percentage of exports from French Morocco to strengthen France's position there in return for support against Italy's prospective demand.

French naval experts said "from the theoretical viewpoint" the question of whether Gibraltar is fortified or not is of little interest to France.

Neutralization, they said, would guarantee free passage to France for all time but with the traditionally close accord with Britain, "it would be better to have a strong British hold on Gibraltar" in case France got in a war with Germany and was faced with the prospect of German submarines entering the Mediterranean to ravage her commerce and stop transport of troops from North African possessions.

A possible demand by Spain to enter the conference if the question of Gibraltar is discussed was seen in naval circles.

They held that British possession of Gibraltar had long been "a source of annoyance" to the Spanish, who could be prevented from moving their own ships from their own east coast to the west coast without the permission of Britain.

Italy, it was believed, will ask that the Straits of Gibraltar be placed under the same status as the Suez canal.

Ferriday

Meeting in the home of Mrs. Proby Sessions, with Mrs. S. J. Coney as hostess, the Ferriday Woman's club had as its subject for this gathering "China" and because of the inability of Mrs. Sam Lyon, who was scheduled to have given the talk on this current event, the discussion was made by Mrs. A. J. Hodges.

Miss Sarah Irwin Jones, capable librarian of the Concordia parish library and one of the leading figures of the local organization, served as the able substitute for Mrs. R. P. Saunders. Miss Jones, a graduate of the Louisiana State university and of Columbia university in New York City, gave a delightful and highly interesting and educational reading on "Confucious, Philosopher and God" of the Chinese.

Another interesting feature of the meeting was the talk given by Mrs. Donald Theriot who had as her subject "China's New Woman." Mrs. Theriot was serving in place of Mrs. Charles G. Bruce, another of the missing members who had to stay away because of illness.

Following the various interesting talks on the theme of the meeting, the members disposed of the business of the gathering which was ways and means of raising funds for the year's work. The meeting came to a close with a social hour, always a delightful part of the club gatherings. Lovely and delicious refreshments were served by the hostesses, Mrs. Sessions and Mrs. Coney and all agree that the meeting had been one of the best of the year or past years during which the Woman's club has played an important role in the upbuilding of Ferriday and of Concordia parish.

Hungry Children Get Wine In Hungarian Cave Homes

MEZOEKOEVESD, Hungary, Nov. 2.—(AP)—Modern cave dwellers forced out of their homes by poverty, can be found near the villages of Ostoros, Kistallya, Noszavaj and Tiboldaroc, not far from here, where more than 4,000 persons are living in caves.

Economic depressions severely hitting this wine growing district is held responsible. The lack of a wine market forces the cave dwellers to drink wine as a substitute for food, as most of these people are employed in vineyards and receive the greater part of their wages in wine.

The newspaper "Magyarsag" printed a report from the Mezoekoevesd district physician saying that the children of Tibolddaroc have wine for breakfast, as their parents are too poor to buy other food.

Black-Eye Bean Disease Defeated By Breeding

DAVIS, Calif., Nov. 2.—(AP)—After seven years of patient plant breeding experiments, decisive defeat is in sight for the disease which ravaged and almost ruined the black-eye bean industry in sections of California.

Fusarium wilt, season after season, withered the black-eye bean plants. Dr. J. B. Kendrick, associated plant pathologist at the University of California experimental station here, discovered after investigation of a variety which resisted the wilt and nematode, but the difficulty was that it was a poor bearer and thus useless commercially.

Breeding continually with this plant as a prime stock, Dr. Kendrick has developed the "Calva" variety which is not only resistant to the disease but also is a good producer.

Growers look forward to next year when seed of the new plant will be available on a large scale.

Delhi

Miss Lila Mae Kirchbaum visited friends and relatives in West Monroe recently.

Friends of Mrs. L. P. Woodard will regret to learn that she is confined to her home on account of illness.

Marvin Gilliland visited his mother, Mrs. Gilliland, in West Monroe, recently.

Miss Onis Brazzel visited friends and relatives in Ruston recently and attended State Normal and Louisiana Tech football game there.

Mrs. Stein Baughman of Farmerville is visiting her father, H. P. Gunter, and family.

Mrs. Hazel Crow, Mrs. Ray Hillman and son Ray, Jr., of Epps were recent guests of Mrs. Stone Miller.

Miss Blanche Miller, Richland parish supervisor, of Rayville, visited the Delhi school recently.

Little Jimmie Caldwell, five-year-old son of Mr. and Mrs. J. L. Caldwell, spent a recent week-end with Mr. and Mrs. W. O. Caldwell and family of Crowville and attended the birthday party of James Lynn Caldwell, who celebrated his sixth birthday.

Miss Aura Bell Cupit of Winnsboro was a guest recently of her uncle and aunt, Mr. and Mrs. C. E. Sheppard.

Mr. and Mrs. Lamar Bryant recently motored to Vicksburg, Miss., where Mrs. Bryant went for medical treatment.

Mrs. Jimmie Naylor, Jr., has as her guest her aunt, Miss Dena Fherburne of Plain Dealing.

Mrs. J. M. O'Neal of Choudrant is a guest of her son-in-law and daughter, Mr. and Mrs. Lamar Bryant.

Mrs. O. I. Gilliland, Mrs. J. H. O'Neal, Mrs. L. T. O'Neal and Mrs. N. A. Harville visited in Vicksburg, Miss., recently.

Mrs. F. W. Miles has as her guest her sister, Mrs. Bowers of El Dorado, Ark.

Mrs. Hubert Parker has just returned from a visit with friends and relatives in Winnsoboro.

J. A. Dollarhide and Neal McEacharn, Sr., were recent visitors in Monroe.

Friends of Litttle Miss Barbara Ann Smith will regret to learn that she is confined to her home on account of illness.

Croesus Of British India Celebrates Silver Jubilee

HYDERABAD, British India, Nov. 2.—(AP)—The Nizam of Hyderabad generally regarded as the richest man in the world, celebrates the 25th anniversary of his accession in December.

A fund has been started to commemorate the silver jubilee. More than $1,000,000 will be collected it is expected, for public welfare projects.

The total wealth of the Nizam of Hyderabad is a matter of conjecture, but there are reports that he has at least $250,000,000 in gold alone in his vaults.

His fortune also includes one of the world's finest collections of precious stones and revenue from his estates is said to be $5,000,000 yearly.

LOCAL MEN WILL ATTEND CONVENTION OF DENTISTS

At least 12 local dentists will attend the National Dental convention to be held at New Orleans from Monday through Friday. An attendance of 10,000 is anticipated for the convention, it was reported here.

Dentists from here who will attend will be Drs. N. D. Buie, F. P. Cerniglia, S. A. Collins, A. J. Emerson, P. M. Gayle, N. G. Gaston, J. G. Henry, C. P. Jarrell, S. Solomon, J. C. Stewart, D. A. Strickland and R. L. Wood.

ANOTHER EARTH TREMOR STRIKES MONTANA CAPITAL

(Continued from First Page)

compared with previous shocks which have caus' ' loss estimated unofficially at from $3,000,000 to $3,500,000.

Loose objects, bits of cornice and ornamental masonry were dislodged. Helena viewed the tremors calmly, almost in matter of fact spirit.

Nearly 450 homeless, many of them children, including orphans, were bundled in safe shelters. Officials said there might be acute suffering if the temperatures continued to fall.

Attempts were made to resume normal activity, despite the weather and the continued shakes. Public meetings were banned, however.

Several blocks of the business area were roped off. The city was partially evacuated. Police Chief Roger Smith estimated more than half the homes damaged by serious shocks were vacated.

A special train carried 183 children to a resort hotel after they were evacuated from St. Joseph's orphanage.

DRUNKEN DRIVING CHARGE IS LODGED FOLLOWING MISHAP

A charge of operating an automobile while under the influence of liquor was preferred against C. O. Wilson, of New Orleans, here late yesterday after he was arrested by police following a traffic accident in the 800 block of DeSiard street.

A car driven by Wilson was in a collision with an automobile driven by W. H. Wallace, of Spencer. Wallace, in his report to police, said he was bringing his car to a stop at the curb when Wilson's car came "zigzagging across the street" and struck his car.

Wilson gave his occupation as that or a marine engineer. He was driving a rent car owned by a New Orleans company. Police communicated with the company and learned that Wilson had driven it to northeast Louisiana with the owners' permission.

During the afternoon police arrested W. H. Jones, negro, of 1514 North Tenth street, after a car he was driving was said to have struck a car driven by Arthur Lisotta, of 1403 DeSiard street. Jones was placed in jail charged with reckless driving and operating an automobile without proper brakes.

The accident happened at the intersection of North Eleventh and Breard streets. Lissotta was driving north on North Eleventh and the negro was driving west on Breard street.

Lissotta's mother, Mrs. Luke Lissotta, was reported to have suffered a slight shoulder injury in the accident.

Choudrant

Mrs. C. B. Colvin was hostess to the Needlecraft club Thursday afternoon. The members spent the afternoon with handwork. During the business session a wiener roast was planned at which the husbands will be honor guests. It was decided to meet every second and fourth Wednesday instead of Thursdays.

Delicious refreshments were served at the close of the meeting to Mrs. C. L. Madden, Mrs. J. A. O'Neal, Mrs. W. M. Bagwill, Mrs. M. E. Kidd, Mrs. C. L. Faulkner, Mrs. C. L. Mondart, Mrs. H. M. Bagly, and Mrs. C. B. Colvin.

The Hallowe'en carnival sponsored by the high school faculty, proved to be very successful. A neat sum of $35 was realized, as well as a lot of merriment.

Mr. and Mrs. Zwolle Meadows, little Misses Anne Seese and Annie McLean of Ruston were recent guests of Mrs. W. M. Bagwell.

An old fashioned quilting party was held recently by the ladies of the Presbyterian church in the home of Mrs. R. D. Pennuel. Two quilts were quilted and hemmed in one afternoon, after which delicious refreshments were served to twenty guests.

Mr. and Mrs. Bill Bagwell and daughter, Mary Grace, spent Thursday in Mer Rouge.

Mrs. J. M. O'Neal visited relatives in Delhi last week.

Mr. and Mrs. Harvey O'Neal of Delhi were recent guests in the home of Mr. and Mrs. Jule Sanderson.

Miss Mildred Allen of New Orleans is spending the week-end with home folks, having been called home at the death of her grandmother, Mrs. C. M. Allen.

BATON ROUGE, La., Nov. 2.—(AP)—Resorting to their famed aerial attack, the Purple Tigers of Louisiana State university scored a touchdown in the last two minutes of play here today to beat Auburn's defensively powerful and doggedly fighting Plainsmen, 6 to 0.

After a see-saw battle, with mighty line play on both sides, and after a crowd of more than 15,000 began breaking up thinking it a scoreless tie, Pat Coffee, reserve back sent in to pitch after Louisiana's ace passers, Crass and Mickal, had left the game, shot a spiral from the 24-yard line over the goal into Jesse Barrett's arms.

It was a heart-breaking finish for Auburn, which was reasonably expecting to earn a deadlock, but it bowled Louisiana State further along the road toward the Southeastern title.

Auburn rarely threatened, but, in the second period, came within a yard of a touchdown when Kilgore, taking a short pass from Hitchcock who was on his 27, raced down the left sideline to the Louisiana four yard marker, and then cracked the line for three more.

The sturdy Louisiana line tightened, and held Hitchcock and Kilgore for no gain. On the fourth down, Kilgore fumbled behind the Tiger goal. It was a touchback and Louisiana got the ball on its 20 and kicked to safety.

The forwards and alert secondary defensives of both teams prevented any sustained marches.

Louisiana was credited with eight first downs to six for Auburn. The weather was hot and slowed down both teams.

The Plainsmen tried a passing game at intervals, with Hitchcock, who played brilliantly for his team, tossing them, but the State defense was "air" tight. Hitchcock was frequently hurried by charging State forwards, or he might have connected with one to ring the register.

Lineups:

Auburn	Pos.	La. State
Williams	LE	Tinsley
Paterson	LT	Carroll
Gantt	LG	Brown
Gilbert	C	Stewart
McCroskey	RG	Helveston
Rogers	RT	Rukas
Eaves	RE	Barrett
Scarbrough	QB	Seago
Hitchcock	LH	Fatherree
Tipper	RH	Crass
O'Rourke	FB	Reed

Score by periods:

Auburn	0	0	0	0—0
La. State	0	0	0	6—6

Summary: Louisiana State university scoring touchdown, Barrett.

Substitutions: Auburn—Stewart for Scarbrough; Fenton for Tipper; Kilgore for O'Rourke; Loftin for Gantt; McKissick for Williams; Roton for Rogers; Mitchell for Hitchcock; Morris for Eaves; Ellis for Fenton; Sevill for Gantt; Gillam for Sevill; Karam for Hitchcock; Blake for Karam.

La. State—Dumas for Tinsley; Stupka for Carroll; Baldwin for A. Brown; Knight for Stewart; Leisk for Helveston; Strange for Rukas; Mihalich for Barrett; Lawrie for Seago; Mickal for Reed; Rohm for Fatherree; Morton for Crass; Myrick for Mihalich.

Officials: Referee, Viner (Missouri); umpire, Mumma (Army); head linesman, Phillips (Ga. Tech); field judge, Halligan (Mass. State).

THE STATISTICS

BATON ROUGE, Nov. 2.—(AP)—Statistics on the Auburn-Louisiana State university football game:

Punts returned	10.1	9.6
Fumbles recovered	1	2
Lost by penalty	45	30

SOFTBALL CHAMPIONS OF CLARKS HONORED

CLARKS, La., Nov. 2.—(Special)—Fifty fans and players of the Clarks softball league were present at an oyster supper, in the Woodman hall, Tuesday evening, with the "Whangdoodles," the pennant winning team, as honor guests, and the "Meanies" and the "Rinky-Dinks," losing teams, acting as hosts.

Present were Rudolph O'Neal, Lloyd Christman, Dave Sellers, Bland Greene, Charlie King, Ronald Sellers, E. M. Steeley, Robert Gilbert, Bill Smith, Millard Delcoure, Kenneth Knight, W. Nichols, J. W. Kemp, Claud Cody, Herbert May, Percy Galligan, Paul Jones, Ernest Cody, Robert Busch, Leonard Jackson, L. M. Emmons, Percy Hindman, Paris J. Goodnight, Bob Smith, Elmer Smith, C. H. Johnson, Damon Bradford, Lloyd Weston, G. E. Redmon, Ray Morris, Bobbie Corbin, D. L. Bolton, Dooley Scaife, Henry Roy, G. D. Graddock, Buster Patton, Durwood Estess, Arthur Perkins, W. E. Megison, Clyde Bradford, Bob Morgan, Otho Martin, Spooky Crowell, C. A. Miller, W. L. McDermott, L. A. Moore and G. E. Erskines.

Tulane Takes Early Lead To Beat Colgate Eleven, 13 To 6

CATCHES TIGERS' WINNING PASS

Pat Coffee, above, a north Louisiana boy, caught a pass from Jesse Barrett in the final minutes of play yesterday to give Louisiana State a hard earned 6-0 victory over the Auburn Plainsmen.

Tech, Forgetting Upset, Prepares For Choctaws

Bulldogs Face Another Hard Game At Ruston Friday Night

RUSTON, La., Nov. 2.—(Special)—Though slightly chagrined over their loss to Millsaps by the close score of 20-21 here Friday night, the Louisiana Tech gridmen have their chins up as they look forward to their game with the Majors, from the standpoint of the spectators as well as the local varsity, it is observed. The fans agree that they got their "money's worth" in a battle that held their interest from start to finish. As for the Tech players, the engagement was more of a test of their ability than anything they have encountered this season, the results indicate.

Newspaper articles prior to the Tech-Millsaps meeting doped the two teams to be "rather evenly matched." While many of the local loyalists hooted at that comparative comment, the final score as well as the statisticians bear out that assertion. Both elevens scored three touchdowns, and Tech missed an extra point from placement to keep the game from being tied.

The records show that Tech made 10 first downs and the Majors 11. Tech completed four passes and Millsaps six. Both teams failed to connect eight forward passes.

The contest is regarded as a "clean game," free of penalties. Tech was set back only twice for being off-side, and lost five yards for time out. Millsaps was off-side once, and was penalized once for time out.

Players of both teams were praised for their blocking. Techmen especially commended were "Wimpy" Giddens, tackle; Bill Ruple, guard; Fred Beckett, end; W. C. Johnston, guard; Clyde Funderburk, end; Aloys Adkins, guard, and Houston Beaumont, tackle. The punting of Don Wiley was outstanding.

The Mississippi Choctaws, who will oppose the Techmen here next Friday night, defeated Chattanooga at Chattanooga, 12-7, the past Friday night. That achievement has convinced Eddie McLane, Tech coach, that his proteges may expect another tough assignment when the Clinton boys arrive. At any rate, the Technicians have learned from their Millsaps experience to be prepared for the worst. Coach McLane said Saturday that the locals "might have been a little overconfident" about what they could do with the Majors.

The Techmen, as well as their supporters, had hoped to see the Red and Blue finish the season unscored on. When the left-handed Jones, Millsaps halfback, passed to his teammate, McDaniel, and the latter ran 60 yards to score the Majors' first touchdown, the proverbial dropped pin could have been heard on the Tech side of the field. Today, the local fans have recovered from their shock, however, and are thanking the Techmen for having played a good game.

MARYLAND DEFEATS VIRGINIA, 14 TO 7

SCOTT STADIUM, UNIVERSITY, Va., Nov. 2.—(AP)—Maryland defeated Virginia, 14 to 7, today when Charlie Ellinger, Terrapin halfback, edged the ball over the line with less than two minutes to play.

VANDERBILT WINS FROM TECH, 14-13

Geny Intercepts Pass To Give Commodores Close Victory

ATLANTA, Nov. 2.—(AP)—Intercepting a pass and racing 67 yards for a touchdown, Willie Geny, Vanderbilt's red-haired Captain and end, furnished the victory margin as the Commodores from Nashville downed Georgia Tech, 14 to 13, in a fierce struggle here today before 10,000 fans.

Trailing 13 to 7 at the half as a surprisingly strong band of Tech gridders fought Vanderbilt with its own weapons—forward passes—the Commodores were forced to gamble with everything. Georgia Tech protected its lead through the third period, but fell as Captain Geny leaped up and snagged the pass that produced the winning margin.

Aside from the gruelling struggle and the wide open battle for victory, the feature was the performance of Rannie Throgmorton, hefty Vanderbilt tackle. Thorgmorton booted a perfect placement after Vanderbilt's first touchdown, blocked Tech's try for the point after in the second period and calmly kicked the extra point for the Commodore victory after Geny's spectacular dash.

Lineups:

Vanderbilt	Pos.	Ga. Tech
Robbins	LE	Jones
White	LT	Eubanks
Clere	LG	Fitzsimmons
Hall	C	Collins
Teasley	RG	Brittain
Ray	RT	Lindsey
Haley	RE	Gibson
Curley	QB	Sims
Simpkins	LH	Edwards
Watson	RH	Konemann
Truitt	FB	Appleby

RICE OVERWHELMS WASHINGTON, 41-0

WASHINGTON, Nov. 2.—(AP)—Flying into the east for the first time this season to display their southwest brand of football, the Rice Owls from Texas spoiled George Washington's Homecoming celebration and romped easily to a 41 to 0 triumph over the Colonials before 15,000 spectators.

With their touchdown twins, John McCauley and Bill Wallace, running wild and their replacements stepping just as fancily, the Owls scored in every period and halted several George Washington threats with stubborn goal line stands.

The Texans used just about every possible way to vary their avenues of scoring, hanging up two touchdowns on long runs, one on a pass, another on an intercepted pass and two more as a result of intercepted passes and a recovered fumble.

A daring but futile passing barrage by the Colonials kept the game lively. The Colonials tossed 50 passes, completing 18 for 264 yards and having seven intercepted.

GREENIES FLASH POTENT OFFENSE TO BEAT RAIDERS

Intercepted Pass And 85 Yard Run Gives Wave Last Touchdown

By Ralph Wheatley
(Associated Press Staff Writer)

NEW ORLEANS, Nov. 2.—Tulane's Green Wave rose to great heights and turned back Colgate's famous Red Raiders, 14 to 6, in an intersectional battle before 20,000 persons here today.

After gaining a 7-6 advantage in the first half, an inspired Tulane squad toyed with the Raiders mostly in their territory and the game ended with Andy Kerr's men in possession of the ball on their own 21-yard line. The hot weather may have wilted the New Yorkers as they played slow football and made numerous costly fumbles.

Captain Barney Mintz led his team in a furious pace and made the second touchdown by intercepting a pass on Tulane's 15-yard line and running 85 yards for a touchdown, outdistancing two Colgate tacklers who grabbed at him and missed.

In the first quarter neither team could cross the goal line although Tulane carried the ball to Colgate's seven-yard line where it was lost on downs. But in the second quarter Tulane woke up and with the ball on Colgate's 30-yard line, Mintz swept left and to the nine-yard line. Doug Johnson, halfback moved it to the five-yard line but in the play he broke his right ankle. He had to be taken from the field and probably will not return during the season.

Thames, going for Johnson, ran around right end for a touchdown and Mintz kicked the extra point.

Here Colgate countered with a furious attack. They brought the kickoff to their 40-yard line and made first down on two plays, passed to Tulane's 30-yard line, Kerns to Billings. Jaeger took it to the 14-yard line and on a fake place kick and a pass set it on the five-yard line. Kern smashed the line for a touchdown but Moss, Tulane left tackle, blocked Vadas' kick for the extra point.

The third quarter was a scoreless battle with Tulane holding the upperhand but lacking the power to score. They had the Red Raiders on the defensive during almost the entire quarter.

In the fourth quarter Colgate bucked up and a poor kick by Mintz gave the Raiders the ball on their 37-yard line. Irwin, Colgate fullback, made first down on one line smash. Colgate made another first down in two plays and they looked like they were headed for another touchdown until Mintz broke up the march by intercepting Irwin's pass and running around the visitors for Tulane's second goal. Mintz kicked the extra point, making the score, 14 to 6, with three minutes to play. The game ended before the Raiders could rally.

The lineup:

Colgate	Pos.	Tulane
Drohan	LE	Memtsas
Chesebro	LT	Moss
Davidson	LG	Smither
Pillsbury	C	Gould
Fortmann	RG	Watermier
Wasicek (c)	RT	Ary
Billings	RE	Dalovisio
Vadas	QB	Ott
Kern	LH	Odom
Offenhamer	RH	Thames
Irwin	FB	Lodrigues

Score by periods:

Colgate	0	6	0	0—6
Tulane	0	7	0	7—14

Colgate scoring: Touchdown, Kern.

Tulane scoring: Touchdowns, Thames and Mintz. Point from try after touchdown: Mintz 2 (placements).

Officials: Egan (Duquesne) referee; Perry (Sewanee) umpire; Cheeves (Georgia) headlinesman; Eckles (W. and J.) field judge.

Colgate: Subs, ends, Nichols, Wojack, Prendergast; tackles, Alderman, Relyca; guards, Lawson, Kennedy; centers, Eck, Wood; quarterback, Burke; halfbacks, Jaeger, Lafferty, Choborda; fullback, Lalor.

Tulane: subs, ends, Diermann, Ary, Schneidau; guards, Buckner, Goll; tackles, Pace, Hall, Friedrichs; quarterback, Page; halfbacks, Thames, Payne, Watson, Johnson, Mintz; fullbacks, Loftin, Andrews.

THE STATISTICS

NEW ORLEANS, Nov. 2.—(AP)—Statistics on the Colgate-Tulane football game:

	Colgate	Tulane
First downs	9	13
Gained rushing	96	178
Passes attempted	14	15
Passes completed	9	7
Passes intercepted	2	1
Yards by passing	101	58
Punting average	37	33
Punts returned	0	51
Fumbles recovered	3	4
Lost by penalty	5	15

STANFORD WINS, 9-6

PALO ALTO, Calif., Nov. 2.—(AP)—On an accurately booted field goal after a spectacular 77-yard ground drive engineered by all-American fullback Bobby Grayson, Stanford's Indians defeated University of Santa Clara's Broncos, 9 to 6, today.

V. M. I. TEAM WHIPS WILLIAM AND MARY

WILLIAMSBURG, Va., Nov. 2.—(AP)—William and Mary went down in crushing defeat here this afternoon at the hands of the V. M. I. Flying Squadron, the Cadets winning by 19 to 0. With the defeat went any chances the Indians had at the state title.

INDIANS HAVE 2 WEEKS TO PREP FOR S'EASTERN

Northeast Center Squad Resumes Workouts Next Wednesday

Returning home from their victorious invasion of Arkansas Friday, the Indians of Northeast Center of L. S. U. face a comparatively light week of work as they begin preparations for their next game two weeks hence. The Indians originally had a game scheduled with Pearl River junior college, to be played in Poplarville, Miss., next Friday, but Pearl River cancelled two weeks ago and Coach Jim Malone has been unable to schedule a tilt for the coming Friday. Hence, the squad will have an open date.

There will be no practice sessions Monday and Tuesday afternoons, Coach Malone said yesterday, but Wednesday the Indians will start work for the game with Southeastern at Hammond on Nov. 15. Coach "Red" Swanson has the best team in Southeastern's history and Center will have to be in top form to remain undefeated. The "off days" of Monday and Tuesday have been declared to allow the players to catch up with their studies efter the trip to Arkadelphia.

Coach Malone said yesterday that the squad was shocked by the death of Clyde French, popular member of the team.

"Clyde will be greatly missed," Coach Malone said. "He gave all he had, and his teammates and I feel that we have not only lost an excellent player but a real friend. It was a terrible blow to us all.

"French was always in condition, and with the exception of a charley horse at the first of the season, it was never necessary to call a time out for him or give him special attention, either in a game or during practice."

French's teammates paid similar tribute to the popular player. Much of the Indians' success this season has been attributed to the fine spirit existing among members of the team, Coach Malone and the Northeast Center faculty.

Following the game with Southeastern at Hammond, the Indians have two more games, both to be played at Brown field. They play Arkansas college of Batesville here on Nov. 22 and then tackle Lon Morris, of Jacksonville, Texas, here on Nov. 26. Lon Morris is expected to win the junior college championship of Texas.

The squad came out of the Ouachita game in good shape and will be at full strength for Southeastern unless injuries crop up during practice sessions of the next two weeks.

OLE MISS STARTS PRACTICE FOR VOLS

UNIVTSSITY, Miss., Nov. 2.—(AP)—Returning today from their convincing 21-7 victory over St. Louis university's Billicans at St. Louis, the Ole Miss Red and Blue donned uniforms this afternoon for a light drill to work out kinks received in the game and on the lengthy trip home.

The team came through the intersectional game unscathed and reported today in fine shape. The Ole Miss coaches were content to limit the practice to a signal drill and a stressing of fundamentals. Monday the squad will begin preparation for the Southeastern conference encounter with the University of Tennessee in Memphis Saturday.

KANSAS PASS BEATS OKLAHOMA, 7 TO 0

NORMAN, Okla., Nov. 2.—(AP)—With 35 seconds to play, a lanky left end snatched a slippery 45-yard pass out of a leaden haze today. Thus the University of Kansas pulled a 7-0 victory out of the mud virtually killing the University of Oklahoma's chances of "going places" in the Big Six conference in its first season under Capt. Lawrence "Biff" Jones.

Rutherford Hayes took George Hapgood's desperate fling, tucked it under his arm and ran the remaining ten yards as 12,000 dazed homecoming fans halted in their move toward the exits.

MICHIGAN TROUNCES PENNSYLVANIA, 16-6

ANN ARBOR, Mich., Nov. 2.—(AP)—University of Michigan's predatory Wolverines, meeting power with more power, held University of Pennsylvania's high scoring football machine to a single touchdown today and won their second successive intersectional victory, 16 to 6, before a crowd of 32,700 fans.

NORTHWESTERN WINS FROM ILLINOIS, 10-3

EVANSTON, Ill., Nov. 2.—(AP)—Don Heap's 43-yard touchdown dash gave Northwestern a 10 to 3 triumph over Illinois in Dyche stadium today.

Before a Homecoming throng of 36,000 spectators, the Northwestern sophomore broke away on his winning run in the final quarter with the score knotted at 3-all.

INDEPENDENT TEAM TO BE RECRUITED

Monroe will have an independent football team shortly, if present plans of several former players materialize.

"Sonny" Maroney, former Northwestern star, and Jack Gibbs, ex-Missouri player, are attempting to organize the local independents and if a squad can be recruited, they plan to schedule games with other independent teams in this section.

Independent teams have been organized at Ferriday and Natchez, and the local club will try to schedule those teams, it was said.

PRINCETON ROUTS NAVY TEAM, 16-0

Crisler Turns On The Power To Crush Middles Before 50,000

PRINCETON, N. J., Nov. 2.—(AP)—Coach Fritz Crisler wound up a mighty Princeton scoring machine today, then turned it loose to steam roller its way over a game and tricky Navy eleven, 16 to 0 before a capacity crowd of 50,000 spectators in Palmer stadium.

The power the Bengals unloosed in scoring a touchdown a period against the same Middy team that held the Notre Dame juggernaut to a 14-0 score only last week, sent Rose Bowl hopes shooting skyward in the Jersey jungles tonight and added to the hopes of Princeton supporters that the Tigers will wind up the season as the standout team of the east.

Princeton scored twice on long marches down the field, once on a blocked kick which was recovered behind the Middy line and a fourth time by means of an intercepted pass and a 22-yard sprint by Ed Fleer, a substitute back, with less than a minute left to play.

The Tigers outrushed Navy 153 yards to 68 and completed four of nine passes for a gain of 55 yards. Navy completed six of 17 heaves for a 59-yard gain.

ANOTHER CHARITY GAME TO BE HELD

Martin Asks Committee To Meet Monday Night To Start Plans

Another charity football game will be held here during the Christmas holidays and preliminary plans will be made at a meeting Monday night, B. B. Martin, who arranged the game for the Goodfellows fund last year, announced yesterday. Last year a squad of former college players met the Neville high school team.

Mr. Martin said yesterday that he thought a game between former L. S. U. players and former members of Tulane teams would prove interesting, and attract a large crowd. He said such a game would be arranged if possible.

Mr. Martin asked the following men to meet with him at the News-Star building Monday night to discuss the game:

Percy Brown, Lefty Haynes, Jim Malone, Dr. D. T. Milam, Dr. W. L. Bendel, "Red" McComnick, J. B. Swanson, Joe Guerriero, George Guerriero, Don Breitmoser and Jake Humble. The meeting has been called for 8 o'clock.

Mr. Martin said even if the ex-Tigers and Greenies couldn't be brought together, some kind of game would be played for the benefit of the Goodfellows fund.

INDIANA HOLDS IOWA TO 6-TO-6 DEADLOCK

IOWA CITY, Iowa, Nov. 2.—(AP)—Downtrodden Indiana, thrice beaten, rose up from the Big Ten football cellar like a post-Hallowe'en ghost today to haunt Iowa's hopes for a conference title by holding the Hawkeyes to a six-to-six tie before 20,000 rain-soaked spectators.

Only Oze Simmons, the willowy-hipped negro fullback, saved the Hawkeyes from defeat. The slippery Texas athlete whirled around his left end behind perfect interference in the third quarter, dashed madly along the east sidelines and whisked his way for a 59-yard touchdown run.

After dominating the play all during the first quarter, Indiana stunned the Iowa crowd with a sustained 65-yard march for a touchdown shortly after the start of the second period.

L. S. U.'S LATE TOUCHDOWN BEATS AUBURN, 6 TO 0

TIGER PASS IN FOURTH PERIOD IS WINNING PLAY

Coffee Tosses To Barrett In End Zone To Defeat Plainsmen

By Quincy Ewing
(Associated Press Sports Writer)

BATON ROUGE, La., Nov. 2.—(AP)—Resorting to their famed aerial attack, the Purple Tigers of Louisiana State university scored a touchdown in the last two minutes of play here today to beat Auburn's defensively powerful and doggedly fighting Plainsmen, 6 to 0.

After a see-saw battle, with mighty line play on both sides, and after a crowd of more than 15,000 began breaking up thinking it a scoreless tie, Pat Coffee, reserve back sent in to pitch after Louisiana's ace passers, Crass and Mickal, had left the game, shot a spiral from the 24-yard line over the goal into Jesse Barrett's arms.

It was a heart-breaking finish for Auburn, which was reasonably expecting to earn a deadlock, but it bowled Louisiana State further along the road toward the Southeastern title.

Auburn rarely threatened, but, in the second period, came within a yard of a touchdown when Kilgore, taking a short pass from Hitchcock who was on his 27, raced down the left sideline to the Louisiana four yard marker, and then cracked the line for three more.

The sturdy Louisiana line tightened, and held Hitchcock and Kilgore for no gain. On the fourth down, Kilgore fumbled behind the Tiger goal. It was a touchback and Louisiana got the ball on its 20 and kicked to safety.

The forwards and alert secondary defensives of both teams prevented any sustained marches.

Louisiana was credited with eight first downs to six for Auburn. The weather was hot and slowed down both teams.

The Plainsmen tried a passing game at intervals, with Hitchcock, who played brilliantly for his team, tossing them, but the State defense was "air" tight. Hitchcock was frequently hurried by charging State forwards, or he might have connected with one to ring the register.

Lineups:

Auburn	Pos.	La. State
Williams	LE	Tinsley
Paterson	LT	Carroll
Gantt	LG	Brown
Gilbert	C	Stewart
McCroskey	RG	Helveston
Rogers	RT	Rukas
Eaves	RE	Barrett
Scarbrough	QB	Seago
Hitchcock	LH	Fatherree
Tipper	RH	Crass
O'Rourke	FB	Reed

Score by periods:

Auburn	0	0	0	0—0
La. State	0	0	0	6—6

Summary: Louisiana State university scoring touchdown, Barrett.

Substitutions: Auburn—Stewart for Scarbrough; Fenton for Tipper; Kilgore for O'Rourke; Loftin for Gantt; McKissick for Williams; Roton for Rogers; Mitchell for Hitchcock; Morris for Eaves; Ellis for Fenton; Sevill for Gantt; Gillam for Sevill; Karam for Hitchcock; Blake for Karam.

La. State—Dumas for Tinsley; Stupka for Carroll; Baldwin for A. Brown; Knight for Stewart; Leisk for Helveston; Strange for Rukas; Mihalich for Barrett; Lawrie for Seago; Mickal for Reed; Rohm for Fatherree; Morton for Crass; Myrick for Mihalich.

Officials: Referee, Viner (Missouri); umpire, Mumma (Army); head linesman, Phillips (Ga. Tech); field judge, Halligan (Mass. State).

SOFTBALL CHAMPIONS OF CLARKS HONORED

CLARKS, La., Nov. 2.—(Special)—Fifty fans and players of the Clarks softball league were present at an oyster supper, in the Woodman hall, Tuesday evening, with the "Whangdoodles," the pennant winning team, as honor guests, and the "Meanies" and the "Rinky-Dinks," losing teams, acting as hosts.

Present were Rudolph O'Neal, Lloyd Christman, Dave Sellers, Bland Greene, Charlie King, Ronald Sellers, E. M. Steeley, Robert Gilbert, Bill Smith, Millard Delcoure, Kenneth Knight, W. Nichols, J. W. Kemp, Claud Cody, Herbert May, Percy Galligan, Paul Jones, Ernest Cody, Robert Busch, Leonard Jackson, L. M. Emmons, Percy Hindman, Paris J. Goodnight, Bob Smith, Elmer Smith, C. H. Johnson, Damon Bradford, Lloyd Weston, G. E. Redmon, Ray Morris, Bobbie Corbin, D. L. Bolton, Dooley Scaife, Henry Roy, G. D. Graddock, Buster Patton, Durwood Estess, Arthur Perkins, W. E. Megison, Clyde Bradford, Bob Morgan, Otho Martin, Spooky Crowell, C. A. Miller, W. L. McDermott, L. A. Moore and G. E. Erskines.

Tulane Takes Early Lead To Beat Colgate Eleven, 13 To 6

CATCHES TIGERS' WINNING PASS

Pat Coffee, above, a north Louisiana boy, caught a pass from Jesse Barrett in the final minutes of play yesterday to give Louisiana State a hard earned 6-0 victory over the Auburn Plainsmen.

Tech, Forgetting Upset, Prepares For Choctaws

Bulldogs Face Another Hard Game At Ruston Friday Night

RUSTON, La., Nov. 2.—(Special)—Though slightly chagrined over their loss to Millsaps by the close score of 20-21 here Friday night, the Louisiana Tech gridmen have their chins up as they look forward to their game with the Majors, from the standpoint of the spectators as well as the local varsity, it is observed. The fans agree that they got their "money's worth" in a battle that held their interest from start to finish. As for the Tech players, the engagement was more of a test of their ability than anything they have encountered this season, the results indicate.

Newspaper articles prior to the Tech-Millsaps meeting doped the two teams to be "rather evenly matched." While many of the local loyalists hooted at that comparative comment, the final score as well as the statisticians bear out that assertion. Both elevens scored three touchdowns, and Tech missed an extra point from placement to keep the game from being tied.

The records show that Tech made 10 first downs and the Majors 11. Tech completed four passes and Millsaps six. Both teams failed to connect eight forward passes.

The contest is regarded as a "clean game," free of penalties. Tech was set back only twice for being off-side, and lost five yards for time out. Millsaps was off-side once, and was penalized once for time out.

Players of both teams were praised for their blocking. Techmen especially commended were "Wimpy" Giddens, tackle; Bill Ruple, guard; Fred Beckett, end; W. C. Johnston, guard; Clyde Funderburk, end; Aloys Adkins, guard, and Houston Beaumont, tackle. The punting of Don Wiley was outstanding.

The Mississippi Choctaws, who will oppose the Techmen here next Friday night, defeated Chattanooga at Chattanooga, 12-7, the past Friday night. That achievement has convinced Eddie McLane, Tech coach, that his proteges may expect another tough assignment when the Clinton boys arrive. At any rate, the Technicians have learned from their Millsaps experience to be prepared for the worst. Coach McLane said Saturday that the locals "might have been a little overconfident" about what they could do with the Majors.

The Techmen, as well as their supporters, had hoped to see the Red and Blue finish the season unscored on. When the left-handed Jones, Millsaps halfback, passed to his teammate, McDaniel, and the latter ran 60 yards to score the Majors' first touchdown, the proverbial dropped pin could have been heard on the Tech side of the field. Today, the local fans have recovered from their shock, however, and are thanking the Techmen for having played a good game.

MARYLAND DEFEATS VIRGINIA, 14 TO 7

SCOTT STADIUM, UNIVERSITY, Va., Nov. 2.—(AP)—Maryland defeated Virginia, 14 to 7, today when Charlie Ellinger, Terrapin halfback, edged the ball over the line with less than two minutes to play.

VANDERBILT WINS FROM TECH, 14-13

Geny Intercepts Pass To Give Commodores Close Victory

ATLANTA, Nov. 2.—(AP)—Intercepting a pass and racing 67 yards for a touchdown, Willie Geny, Vanderbilt's red-haired Captain and end, furnished the victory margin as the Commodores from Nashville downed Georgia Tech, 14 to 13, in a fierce struggle here today before 10,000 fans.

Trailing 13 to 7 at the half as a surprisingly strong band of Tech gridders fought Vanderbilt with its own weapons—forward passes—the Commodores were forced to gamble with everything. Georgia Tech protected its lead through the third period, but fell as Captain Geny leaped up and snagged the pass that produced the winning margin.

Aside from the gruelling struggle and the wide open battle for victory, the feature was the performance of Rannie Throgmorton, hefty Vanderbilt tackle. Thorgmorton booted a perfect placement after Vanderbilt's first touchdown, blocked Tech's try for the point after in the second period and calmly kicked the extra point for the Commodore victory after Geny's spectacular dash.

Lineups:

Vanderbilt	Pos.	Ga. Tech
Robbins	LE	Jones
White	LT	Eubanks
Clere	LG	Fitzsimmons
Hall	C	Collins
Teasley	RG	Brittain
Ray	RT	Lindsey
Haley	RE	Gibson
Curley	QB	Sims
Simpkins	LH	Edwards
Watson	RH	Konemann
Truitt	FB	Appleby

RICE OVERWHELMS WASHINGTON, 41-0

WASHINGTON, Nov. 2.—(AP)—Flying into the east for the first time this season to display their southwest brand of football, the Rice Owls from Texas spoiled George Washington's Homecoming celebration and romped easily to a 41 to 0 triumph over the Colonials before 15,000 spectators.

With their touchdown twins, John McCauley and Bill Wallace, running wild and their replacements stepping just as fancily, the Owls scored in every period and halted several George Washington threats with stubborn goal line stands.

The Texans used just about every possible way to vary their avenues of scoring, hanging up two touchdowns on long runs, one on a pass, another on an intercepted pass and two more as a result of intercepted passes and a recovered fumble.

A daring but futile passing barrage by the Colonials kept the game lively. The Colonials tossed 50 passes, completing 18 for 284 yards and having seven intercepted.

GREENIES FLASH POTENT OFFENSE TO BEAT RAIDERS

Intercepted Pass And 85 Yard Run Gives Wave Last Touchdown

By Ralph Wheatley
(Associated Press Staff Writer)

NEW ORLEANS, Nov. 2.—Tulane's Green Wave rose to great heights and turned back Colgate's famous Red Raiders, 14 to 6, in an intersectional battle before 20,000 persons here today.

After gaining a 7-6 advantage in the first half, an inspired Tulane squad toyed with the Raiders mostly in their territory and the game ended with Andy Kerr's men in possession of the ball on their own 21-yard line. The hot weather may have wilted the New Yorkers as they played slow football and made numerous costly fumbles.

Captain Barney Mintz led his team in a furious pace and made the second touchdown by intercepting a pass on Tulane's 15-yard line and running 85 yards for a touchdown, outdistancing two Colgate tacklers who grabbed at him and missed.

In the first quarter neither team could cross the goal line although Tulane carried the ball to Colgate's seven-yard line where it was lost on downs. But in the second quarter Tulane woke up and with the ball on Colgate's 30-yard line, Mintz swept left and to the nine-yard line. Doug Johnson, halfback moved it to the five-yard line but in the play he broke his right ankle. He had to be taken from the field and probably will not return during the season.

Thames, going for Johnson, ran around right end for a touchdown and Mintz kicked the extra point.

Here Colgate countered with a furious attack. They brought the kickoff to their 40-yard line and made first down on two plays, passed to Tulane's 30-yard line, Kerns to Billings. Jaeger took it to the 14-yard line and on a fake place kick and a pass set it on the five-yard line. Kern smashed the line for a touchdown but Moss, Tulane left tackle, blocked Vadas' kick for the extra point.

The third quarter was a scoreless battle with Tulane holding the upperhand but lacking the power to score. They had the Red Raiders on the defensive during almost the entire quarter.

In the fourth quarter Colgate bucked up and a poor kick by Mintz gave the Raiders the ball on their 37-yard line. Irwin, Colgate fullback, made first down on one line smash. Colgate made another first down in two plays and they looked like they were headed for another touchdown until Mintz broke up the march by intercepting Irwin's pass and running around the visitors for Tulane's second goal. Mintz kicked the extra point, making the score, 14 to 6, with three minutes to play. The game ended before the Raiders could rally.

The lineup:

Colgate	Pos.	Tulane
Drohan	LE	Memtsas
Chesebro	LT	Moss
Davidson	LG	Smither
Pillsbury	C	Gould
Fortmann	RG	Watermier
Wasicek (c)	RT	Ary
Billings	RE	Dalovisio
Vadas	QB	Ott
Kern	LH	Odom
Offenhamer	RH	Thames
Irwin	FB	Lodrigues

Score by periods:

Colgate	0	6	0	0—6
Tulane	0	7	0	7—14

Colgate scoring: Touchdown, Kern.

Tulane scoring: Touchdowns, Thames and Mintz. Point from try after touchdown: Mintz 2 (placements).

Officials: Egan (Duquesne) referee; Perry (Sewanee) umpire; Cheeves (Georgia) headlinesman; Eckles (W. and J.) field judge.

Colgate: Subs, ends, Nichols, Wojack, Prendergast; tackles, Alderman, Relyea; guards, Lawson, Kennedy; centers, Eck, Wood; quarterback, Burke; halfbacks, Jaeger, Lafferty, Choborda; fullback, Lalor.

Tulane: subs, ends, Diermann, Ary, Schneidau; guards, Buckner, Goll; tackles, Pace, Hall, Friedrichs; quarterback, Page; halfbacks, Thames, Payne, Watson, Johnson, Mintz; fullbacks, Loftin, Andrews.

THE STATISTICS

NEW ORLEANS, Nov. 2.—(AP)—Statistics on the Colgate-Tulane football game:

	Colgate	Tulane
First downs	9	13
Gained rushing	96	178
Passes attempted	14	15
Passes completed	9	7
Passes intercepted	2	1
Yards by passing	101	58
Punting average	37	33
Punts returned	0	51
Fumbles recovered	3	4
Lost by penalty	5	15

STANFORD WINS, 9-6

PALO ALTO, Calif., Nov. 2.—(AP)—On an accurately booted field goal after a spectacular 77-yard ground drive engineered by all-American fullback Bobby Grayson, Stanford's Indians defeated University of Santa Clara's Broncos, 9 to 6, today.

V. M. I. TEAM WHIPS WILLIAM AND MARY

WILLIAMSBURG, Va., Nov. 2.—(AP)—William and Mary went down in crushing defeat here this afternoon at the hands of the V. M. I. Flying Squadron, the Cadets winning by 19 to 0. With the defeat went any chances the Indians had at the state title.

INDIANS HAVE 2 WEEKS TO PREP FOR S'EASTERN

Northeast Center Squad Resumes Workouts Next Wednesday

Returning home from their victorious invasion of Arkansas Friday, the Indians of Northeast Center of L. S. U. face a comparatively light week of work as they begin preparations for their next game two weeks hence. The Indians originally had a game scheduled with Pearl River junior college, to be played in Poplarville, Miss., next Friday, but Pearl River cancelled two weeks ago and Coach Jim Malone has been unable to schedule a tilt for the coming Friday. Hence, the squad will have an open date.

There will be no practice sessions Monday and Tuesday afternoons, Coach Malone said yesterday, but Wednesday the Indians will start work for the game with Southeastern at Hammond on Nov. 15. Coach "Red" Swanson has the best team in Southeastern's history and Center will have to be in top form to remain undefeated. The "off days" of Monday and Tuesday have been declared to allow the players to catch up with their studies after the trip to Arkadelphia.

Coach Malone said yesterday that the squad was shocked by the death of Clyde French, popular member of the team.

"Clyde will be greatly missed," Coach Malone said. "He gave all he had, and his teammates and I feel that we have not only lost an excellent player but a real friend. It was a terrible blow to us all.

"French was always in condition, and with the exception of a charley horse at the first of the season, it was never necessary to call a time out for him or give him special attention, either in a game or during practice."

French's teammates paid similar tribute to the popular player. Much of the Indians' success this season has been attributed to the fine spirit existing among members of the team, Coach Malone and the Northeast Center faculty.

Following the game with Southeastern at Hammond, the Indians have two more games, both to be played at Brown field. They play Arkansas college of Batesville here on Nov. 22 and then tackle Lon Morris, of Jacksonville, Texas, here on Nov. 26. Lon Morris is expected to win the junior college championship of Texas.

The squad came out of the Ouachita game in good shape and will be at full strength for Southeastern unless injuries crop up during practice sessions of the next two weeks.

OLE MISS STARTS PRACTICE FOR VOLS

UNIVTSSITY, Miss., Nov. 2.—(AP)—Returning today from their convincing 21-7 victory over St. Louis university's Billicans at St. Louis, the Ole Miss Red and Blue donned uniforms this afternoon for a light drill to work out kinks received in the game and on the lengthy trip home.

The team came through the intersectional game unscathed and reported today in fine shape. The Ole Miss coaches were content to limit the practice to a signal drill and a stressing of fundamentals. Monday the squad will begin preparation for the Southeastern conference encounter with the University of Tennessee in Memphis Saturday.

KANSAS PASS BEATS OKLAHOMA, 7 TO 0

NORMAN, Okla., Nov. 2.—(AP)—With 35 seconds to play, a lanky left end snatched a slippery 45-yard pass out of a leaden haze today. Thus the University of Kansas pulled a 7-0 victory out of the mud virtually killing the University of Oklahoma's chances of "going places" in the Big Six conference in its first season under Capt. Lawrence "Biff" Jones.

Rutherford Hayes took George Hapgood's desperate fling, tucked it under his arm and ran the remaining ten yards as 12,000 dazed homecoming fans halted in their move toward the exits.

MICHIGAN TROUNCES PENNSYLVANIA, 16-6

ANN ARBOR, Mich., Nov. 2.—(AP)—University of Michigan's predatory Wolverines, meeting power with more power, held University of Pennsylvania's high scoring football machine to a single touchdown today and won their second successive intersectional victory, 16 to 6, before a crowd of 32,700 fans.

NORTHWESTERN WINS FROM ILLINOIS, 10-3

EVANSTON, Ill., Nov. 2.—(AP)—Don Heap's 43-yard touchdown dash gave Northwestern a 10 to 3 triumph over Illinois in Dyche stadium today.

Before a Homecoming throng of 36,000 spectators, the Northwestern sophomore broke away on his winning run in the final quarter with the score knotted at 3-all.

INDEPENDENT TEAM TO BE RECRUITED

Monroe will have an independent football team shortly, if present plans of several former players materialize.

"Sonny" Maroney, former Northwestern star, and Jack Gibbs, ex-Missouri player, are attempting to organize the local independents and if a squad can be recruited, they plan to schedule games with other independent teams in this section.

Independent teams have been organized at Ferriday and Natchez, and the local club will try to schedule those teams, it was said.

PRINCETON ROUTS NAVY TEAM, 16-0

Crisler Turns On The Power To Crush Middles Before 50,000

PRINCETON, N. J., Nov. 2.—(AP)—Coach Fritz Crisler wound up a mighty Princeton scoring machine today, then turned it loose to steam roller its way over a game and tricky Navy eleven, 16 to 0 before a capacity crowd of 50,000 spectators in Palmer stadium.

The power the Bengals unloosed in scoring a touchdown a period against the same Middy team that held the Notre Dame juggernaut to a 14-0 score only last week, sent Rose Bowl hopes shooting skyward in the Jersey jungles tonight and added to the hopes of Princeton supporters that the Tigers will wind up the season as the standout team of the east.

Princeton scored twice on long marches down the field, once on a blocked kick which was recovered behind the Middy line and a fourth time by means of an intercepted pass and a 22-yard sprint by Ed Fleer, a substitute back, with less than a minute left to play.

The Tigers outrushed Navy 153 yards to 68 and completed four of nine passes for a gain of 55 yards. Navy completed six of 17 heaves for a 59-yard gain.

ANOTHER CHARITY GAME TO BE HELD

Martin Asks Committee To Meet Monday Night To Start Plans

Another charity football game will be held here during the Christmas holidays and preliminary plans will be made at a meeting Monday night, B. B. Martin, who arranged the game for the Goodfellows fund last year, announced yesterday. Last year a squad of former college players met the Neville high school team.

Mr. Martin said yesterday that he thought a game between former L. S. U. players and former members of Tulane teams would prove interesting, and attract a large crowd. He said such a game would be arranged if possible.

Mr. Martin asked the following men to meet with him at the News-Star building Monday night to discuss the game:

Percy Brown, Lefty Haynes, Jim Malone, Dr. D. T. Milam, Dr. W. L. Bendel, "Red" McComnick, J. B. Swanson, Joe Guerriero, George Guerriero, Don Breitmoser and Jake Humble. The meeting has been called for 8 o'clock.

Mr. Martin said even if the ex-Tigers and Greenies couldn't be brought together, some kind of game would be played for the benefit of the Goodfellows fund.

INDIANA HOLDS IOWA TO 6-TO-6 DEADLOCK

IOWA CITY, Iowa, Nov. 2.—(AP)—Downtrodden Indiana, thrice beaten, rose up from the Big Ten football cellar like a post-Hallowe'en ghost today to haunt Iowa's hopes for a conference title by holding the Hawkeyes to a six-to-six tie before 20,000 rain-soaked spectators.

Only Oze Simmons, the willowy-hipped negro fullback, saved the Hawkeyes from defeat. The slippery Texas athlete whirled around his left end behind perfect interference in the third quarter, dashed madly along the east sidelines and whisked his way for a 59-yard touchdown run.

After dominating the play all during the first quarter, Indiana stunned the Iowa crowd with a sustained 65-yard march for a touchdown shortly after the start of the second period.

KUPPENHEIMER

SUITS $35 An Investment in Good Appearance AND HIGHER

Never before have we seen such value! Here are fine Kuppenheimer suits for this extremely low price! There's the same smart styling, the same careful handcrafting and lasting comfort found in more expensive clothing. They're truly exceptional values. See them soon!

NOTRE DAME RALLIES TO TRIM OHIO STATE, 18 TO 13

Fighting Mississippi State Eleven Upsets Army, 13 To 7

RAMBLERS SCORE 3 TOUCHDOWNS IN FOURTH QUARTER

Desperate Aerial Attack Turns Defeat Into Brilliant Victory

By Alan Gould
(Associated Press Sports Editor)

COLUMBUS, Ohio, Nov. 2.—(AP)—In a melodramatic finish that has had few parallels in college football history, the fighting Irish of Notre Dame soared back to the heights today with an aerial attack that simultaneously snatched victory from apparent defeat and shattered the national championship dreams of Ohio State's famed "Scarlet Scourge."

Andy Pilney

The final score was 18 to 13 as Notre Dame came from behind in the final period to score three touchdowns, barely miss a fourth, and leave 81,108 tremendously excited spectators literally limp.

There was only one period to play when "Handy Andy" Pilney of Chicago, hero of the dazzling uphill fight to triumph, touched off the fireworks that turned the tide. There was a scant five minutes left when Notre Dame's desperate aerial bid for the tying touchdown failed, a yard short of the Ohio goal, because of a fumble.

The Irish fought back again but there was less than a full minute to play when big Wayne Millner, crack Notre Dame end, pulled down a long pass from Bill Shakespeare in the end zone for the deciding touchdown that wiped out the last vestige of Ohio State's first half lead.

Pilney's 26-yard return of a punt and 12-yard pass to Francis Gaul set the stage for Steve Miller to plunge the remaining yard for Notre Dame's first touchdown early in the final period.

Miller's fumble, recovered by Ohio State at the goal line for a touchback, nullified the next aerial drive engineered by Pilney from midfield but the Irish refused to be discouraged. They swooped back 79 yards through the air for a second touchdown, with Pilney on the receiving end of one long pass good for 37 yards and tossing to Mike Layden, with the ball on Ohio's 15, for the score.

Wally Fromhart's failure to placekick the extra point needed to tie the score looked fatal. The end of the game was in sight, but Notre Dame had one big punch left.

Aided by a "break," near midfield where Henry Pojman, substitute center, recovered a fumble by Dick Beltz, Ohio halfback, Pilney launched the decisive drive with a twisting 33-yard run through a broken field to Ohio's 19.

They carried Pilney off the field, with a pulled leg tendon, after he was brought down fiercely by Ohio's tacklers near the side line but the Irish had another sharp shooter. Shakespeare faded back to Ohio's 38-yard line and let go the pass that broke up the ball game. Millner looked to be well covered as he raced into the end zone but made a sensational catch for the third Irish touchdown.

The end of the game, a few minutes later, touched off one of the wildest demonstrations ever witnessed in Ohio's huge stadium.

The first Ohio tally was a thriller. Frank Antennuci, fullback, leaped high to intercept Mike Layden's over-the-line pass as the Irish pressed an early charge into enemy territory. Antennuci, surrounded by tacklers, lateralled to Frank Boucher, who picked up a swarm of blockers on short notice and raced 72 yards down the side-line for a touchdown.

"Jumping Joe" Williams, Ohio State's "climax runner" and the home town's ball carrying favorite, burst through the Notre Dame line from the four-yard mark early in the second quarter for the second touchdown as the Bucks paraded 51 yards. Quarterback Stan Pincura set the stage for this drive by intercepting one of Shakespeare's passes with a shoe-string catch.

The Irish registered 13 first downs, including 11 in the last half, as compared to Ohio's 10. The outrushed the Bucks, 159 to 150. Through the air, all told, Notre Dame completed 10 out of 21 passes for 140 yards. Ohio State completed only two out of four for seven yards. Ohio State made only one first down in the last two periods.

The lineups:

Notre Dame	Pos.	Ohio State
Millner	LE	Wendt
Pfefferle	LT	Hamrick
Lautar	LG	Karcher
Solari	C	Jones
Martin	RG	Smith
Kopczak	RT	Harre
Peters	RE	Rees
Fromhart	QB	Pincura
Shakespeare	LH	Heekin
Layden	RH	Boucher
Carideo	FB	Kabealo

Score by periods:

Notre Dame	0	0	0	18	—18
Ohio State	0	13	0	0	—13

Ohio scoring: Touchdowns, Boucher, Williams (sub for Heekin). Point try after touchdown, Beltz (sub Heekin).

Notre Dame scoring: Touchdowns, Miller (sub for Carideo), Layden, Millner.

Officials: Referee, Frank Birch (Earlham); umpire, John Schommer (Chicago); field judge, Fred Young (Illinois Wesleyan); headlinesman, [illegible] Vick (Michigan).

Ouachita To Meet Byrd At Shreveport Friday

Lions' Title Chances Depend On Battle With State Champs

The Ouachita Parish High school Lions, still in the class A championship football race of north Louisiana despite a tie game with the Haynesville Golden Tornado last week-end, will meet the powerful state championship Byrd High school Yellow Jackets of Shreveport in a decisive battle next Friday at Shreveport.

The Lions' staunch defense which passed the Tornado test will be tested to the utmost by the Jackets, and should Coach "Lefty" Haynes' undefeated Lions weather the storm of Byrd's attack they can be practically assured of a place in the championship playoff.

Coach Haynes tomorrow will begin another extensive workout session and plans to strengthen the Lion defense even more and drill his backs more extensively on the plays with which they hope to run up a victory and hand the Jackets their first trimming by a Louisiana team in years.

Last year Byrd walloped the Lions, 21 to 0, but Coach Haynes optimistically says it won't be anything like that this season.

"My boys can beat Byrd," Haynes said, "and that is just what they intend to do."

However, the two teams will put heavy aggregations on the field with the lines averaging about the same, a little in favor of the Lions, and the Byrd backfield considerably heavier than the locals.

Not a man on the Byrd team weighs less than 150 pounds. The line will average 163 pounds per man and the backfield will average 165 pounds, the heaviest aggregation Ouachita has had to face this season.

The chief offensive threats of the Byrd eleven this season have been "Jabbo" Stell, a 170-pound halfback, and "Red" Crow, 155-pound fullback. Losey, another back who weighs 175 pounds, is also an outstanding ball carrier for the Jackets.

Ouachita's backfield is considerably lighter than Byrd's, but a little deception coupled with the perfect functioning of the Lion forward wall, which is one of the strongest lines in north Louisiana this season, should give the locals a good chance to score.

Eddie Bowles, the halfback who was hurt in the game against Bastrop, still won't be able to help the Lions but they should be able to get somewhere with such speedsters as Sol Mayer, Cason Mitchell and W. B. Stewart sharing the ball carrying duties. Bob Staples and Harvey Gregg will probably have to do most of the blocking for the backs while Alvin Fleming and Clyde Roye, two capable passers, most likely will be called upon to share the backfield duties.

Such linemen as Billy Trimble, John Renwick, Earl Cobb, Wheeler Mitchell, Rudolph Vandenberg, F. C. Eason, Jack Warren, Joe Butler and Moise Peters will be hard to beat and Ouachita's chances to win will rest heavily on the shoulders of these boys.

Byrd defeated Bolton, 21 to 6, last Friday, while Ouachita was holding Haynesville to a 6 to 6 tie. The lions hold class A victories over Bastrop and Tallulah. The Yellow Jackets boast victories over such teams as Minden, Homer, Bolton and DeRidder.

Ouachita's tie game with Haynesville didn't eliminate their title chances a bit, providing they can beat Byrd and continue undefeated. In that instance, should Haynesville beat Byrd in the game which they play the week following the Lion-Jacket battle, then Ouachita and Haynesville will probably have to meet again in a playoff. However, it all depends on the outcome of the tilt with Byrd.

After Byrd, the Lions will return home for a game here November 15 with Rayville. Then after a week's rest they will end their regular schedule against Bolton's Bears here Thanksgiving.

NEBRASKA DEFEATS MISSOURI, 19 TO 6

MEMORIAL STADIUM, Columbia, Mo., Nov. 2.—(AP)—The University of Nebraska's football team wallowed through a puddle pocked gridiron here today to a 19 to 6 victory over Missouri in a Big Six conference game which brought the favored Cornhuskers within one step of the championship.

An estimated 8,000 spectators saw the game.

PRESIDENT'S CUP TO SECOND ROUND

All First Round Matches Completed In Lakeside Club Tourney

All first round matches in the President's Cup tournament were completed at Lakeside Country club yesterday and second round play will start today.

Following are the results of first round matches:

Upper bracket—J. H. Trousdale defeated H. H. Reardon, 2 and 1; Bun Beasley won from T. O. Bancroft by default; Ben Downing defeated W. M. Washburn, 4 and 3; M. S. Biedenharn defeated S. M. McReynolds, 5 and 3; W. L. James defeated R. McWilliams, 6 and 5; J. S. Washburn defeated H. W. Roemer, 6 and 5; Dr. Nat Gaston defeated A. B. Clarkson, 2 and 1; R. R. Barfield defeated D. Stone, 6 and 4.

Lower bracket—Prioleau Ellis defeated Tip Schier, 3 and 1; H. L. Woods defeated H. A. Mouk, 2 up; Mike Winberry defeated E. M. Eckhart, 5 and 4; Harry Frazer defeated Robert Guerriero, 1 up; Ben Downing, Jr., defeated Harry Taylor, 3 and 1; Bobby Oliver defeated F. F. Millsaps, 2 and 1; Jack Rogers defeated A. A. Thoman, 3 and 2; J. L. Keenan defeated Albert Marx, 1 up.

Pairings for the second round:

Upper bracket—Trousdale vs. Beasley; Downing vs. Biedenharn; James vs. J. S. Washburn; Gaston vs. Barfield.

Lower bracket—Ellis vs. Woods; Winbery vs. Frazer; Downing, Jr., vs. Oliver; Rogers vs. Keenan.

Second round matches must be completed by next Saturday night.

Shep Girault, Lakeside pro, said last night that club members are taking an unusual interest in golf. Friday afternoon the largest week-day crowd in the history of the club turned out, and another large crowd was on hand yesterday.

NEW CONFERENCE SOUGHT BY TECH

S. I. A. A. Too Large, Says Editorial In Student Newspaper

RUSTON, La., Nov. 2.—Chiming in with the oral chorus favoring the splitting up of the Southern Intercollegiate Athletic association, the Tech Talk, Louisiana Tech newspaper, editorially has cited the need for a new and smaller conference.

At the time the editorial was written, the Techmen were leading the S. I. A. A. with 128 points to their opponents' none. Even so, the article pointed out, Tech was "tied for top standing with 11 other teams, the majority of which have won only one or two games."

"There are too many other schools who may dispute Tech's claim," the student writer continues. "The conference itself covers too many states and two many widely scattered sections of the country. Its membership includes nearly 40 schools, in the Carolinas, Kentucky, Tennessee, Mississippi and Louisiana.

"From the practical standpoint it is impossible for Tech to play many games with teams from the Atlantic coast, and Kentucky and Tennessee; the financial outlay required would be too great.

"Why could not Louisiana Tech take the leadership in the formation of an entirely new athletics conference, embracing Louisiana and Mississippi and possibly other surrounding states? Tech is going ahead steadily with its program of athletics expansion; so why not cut loose from the restrictive bounds of the all-too-large S. I. A. A.? Forming or joining a new conference would certainly be in direct alignment with Tech's progressive program."

MAROONS SCORE IN 4TH QUARTER TO BEAT CADETS

Sasse's Squad Outplays West Pointers To Win Stirring Battle

By Foster Hailey
(Associated Press Staff Writer)

WEST POINT, N. Y., Nov. 2.—Army, victor over Harvard and Yale on successive Saturdays, was tumbled from the ranks of the football undefeated today by a fighting band of southerners from Mississippi State who ran and passed their way to a 13-7 victory.

While an estimated crowd of 20,000 looked on in stunned silence, the football warriors of Major Ralph Sasse drove to a touchdown early in the first period and then connected with two long passes in the fourth period to clinch the victory.

Army, which had hoped to save something for the three hard games ahead against Pittsburgh, Notre Dame and Navy, threw all its resources into the fray without avail.

The Cadets were able to match State's first touchdown with a passing attack in the second quarter but their desperate efforts in the waning minutes of the game found them steadily losing ground against State's fierce defence.

The southerners trotted out one of the fastest, hardest, most accurate passing backfields the Army had looked at this year, Ike Pickle, a 177-pound string bean back from Memphis, Tenn., was a threat every time he carried the ball. It was his 21 and 25-yard runs in the first period which set up the Army for Gill Stedman's lethal plunge from the four-yard line for the score.

Not far behind in ability, was Fred Hight of Koscuisko, Miss., Bob Hardison from the same town and Charles Armstrong of Jackson, Miss.

They harassed the Army flanks all afternoon and when stopped there, slipped through the line for good gains or tossed unerring forwards to each other and the ends.

It was Armstrong's accurate tossing to Fred Walters, substitute end from Laurel, Miss., which brought the last touchdown. With the ball on State's 20, an Armstrong-Walters pass was good for 16 yards and on the very next play he arched a high one which Walters took over his shoulder on Army's 35 to dance down the side-lines to a score.

Army's Monk Meyer, who was born at West Point, and is the team's star, was well bottled up most of the afternoon by the fast-stepping State ends and backs, who threw him for losses on several of his attempted end sweeps and intercepted three of his hurried passes.

Meyer and Ralph King, Army's regular quarterback from Buffalo, tossed 15 passes during the course of the afternoon but except for the second period drive for a touchdown made little progress that way.

It was a beautiful arching pass from Meyer to Clinton True of New Orleans, substitute halfback, which gave Army its score. Meyer, dropping back almost to his 40-yard line, hung it on a peg just over the goal line and beyond the last State defender for True to pluck out of the air.

The touchdown culminated an 87-yard drive which saw Meyer, Ed Grove of Glenwood, Minn., and Bill Grohs of St. Paul splitting the State line for good gains.

Army threw many fresh men into the game late in the fourth period but it found itself losing ground steadily and ended the game back on its own 18 where Nazzaro was thrown as he attempted to pass.

The statistics, showing nine first downs for State to seven for Army and 166 yards gained from scrimmage to 45, tell the story. Only in forward passes did Army lead, completing seven of 15 attempted for 101 yards against six attempted and five completed for 84 yards by State.

It was State's sixth victory in seven starts this year and their second upset. Early in the season they humbled the once mighty Crimson Tide of Alabama 20-7 and have lost only to Vanderbilt, 14-6.

The weather, exceptionally warm for a November Saturday at the Point, was an aid to the southerners who played in their lightest equipment. They had been here since Monday

S'EASTERN TEAMS MAKE CLEAN SWEEP OF 'FOREIGN' TILTS

(By Associated Press)

A trio of clean cut victories featured by Mississippi State's jarring 13 to 7 win over the hitherto undefeated Army eleven gave the Southeastern conference a clean sweep of its intersectional gridiron warfare this weekend.

A last minute pass spelled the margin by which the Delta Staters whipped the Cadets at West Point,, while Tulane administered a 14 to 6 beating to Colgate's Red Raiders at New Orleans.

The third intersectional victor was Mississippi, one of two teams remaining undefeated in conference competition, which defeated St. Louis university 21 to 7 in a game at St. Louis Friday night.

Louisiana State, the other eleven unbeaten in the conference, took a step up the flight toward a possible conference title by subduing the Auburn Plainsmen at Baton Rouge, 6 to 0. A brilliant 24-yard heave over Alabama Poly's goal in the last two minutes turned the trick for L. S. U.

Two well-directed scoring drives resulted in a 13 to 0 victory for Alabama over Kentucky at Birmingham. The Tide had charge of the situation all the way.

Tennessee dropped a 19 to 6 decision to Duke, a Southern conference foe which had lost to Auburn and Georgia Tech.

An intercepted pass late in the final period proved Georgia Tech's downfall and Vanderbilt won from the Jackets, 14 to 13.

Georgia battered a stubborn Florida defense to beat the Alligators, 7 to 0.

Sewanee gave Tennessee Tech a 6 to 0 beating.

ALABAMA TRIMS KENTUCKY, 13-0

Crimson Line Stops Wildcat Stars And Tide Wins Handily

LEGION FIELD, BIRMINGHAM, Ala., Nov. 2.—(AP)—A hard charging Alabama line spiked Kentucky's big guns before 14,476 fans here today, and the Crimson Tide took the invaders going away, 13 to 0.

So thoroughly did the Alabama forward wall dominate the play, that "Man-o-War" Johnson and "Twenty Grand" Davis, Kentucky's two principal threats, were never able to get the ball past mid-field.

Two thrusts for touchdowns, one each in the first and third periods, gave Alabama its winning margin. In the middle of the opening period, Alabama marched 67 yards for the first counter.

As the second half opened, Alabama launched another drive from Kentucky's 42 to score. Kilgrow started it with a 14-yard dash through left guard, and three plays made another first down on the 16. After two nice gains, a 15-yard holding penalty set Alabama back on its 22, and Kilgrow shot a long pass to J. Walker, who took it in the end zone.

McMillen blocked the try for extra point and the scoring was over for the day.

Statistics of the game:

	Alabama	Kentucky
First downs	14	7
Gained rushing	225	60
Passes attempted	7	15
Passes completed	4	6
Passes intercepted	2	0
Gained passing	50	98
Punting average	39	36
Fumbles recovered	0	2
Lost by penalty	50	25

FOREST AND GILBERT BATTLE TO 0-0 TIE

GILBERT, La., Nov. 2.—(Special)—Forest and Gilbert Aggies played a scoreless tie here Thursday. Each team played a defensive game all the way.

Forest made eight first downs to six for the Aggies. Forest threw 10 passes; 5 were intercepted, 3 completed, and 2 incomplete. Gilbert attempted 7; 2 were completed, 3 intercepted, and 2 fell incomplete.

Gilbert has a first year team, but they have not been defeated yet. In the first game of the season they played Clarks to a 13-13 tie; then won a 13 to 0 victory over Rayville.

TEXAS CHRISTIAN WALLOPS BAYLOR

Frogs Overwhelm Bears With Unerring Forward Passing Attack

WACO, Tex., Nov. 2.—(AP)—The good right arm of Sammie Baugh fired passes unerringly today as Texas Christian university's undefeated Horned Frogs made it a sad homecoming day for Baylor's bewildered Bruins, 28-0.

Twenty-four times the Christians flung passes and 15 of them settled in waiting arms for a total gain of 204 yards as a throng of 12,000 cheered the Southwest's latest aerial show.

Baugh's spectacular passing shoved the Christians into a top spot in the national football scramble and sent the Bruins tumbling to defeat for the first time this season. The 180 pound throwing marvel completed 10 of 16 passes for a gain of 148 yards. A ragged Baylor pass defense aided the Christians in their successful air barrage, all four touchdowns being accomplished with the receiver in open territory.

The lineup:

Tex. Christ.	Pos.	Baylor
Meyer	LE	Clark
Ellis	LT	Parry
Harrison	LG	Simpson
Lester	C	Reynolds
Kellow	RG	Buchanan
Groseclose	RT	Kriel
Roach	RE	Williams
Baugh	QB	Russell
Kline	LH	Gernand
Lawrence	RH	Masters
Manton	FB	Brazell

Score by periods:

Texas Christian	0	14	0	14	—28
Baylor	0	0	0	0	— 0

Scoring: Texas Christian—Touchdowns, Needham (two) Clark, Walls. Points after touchdown, Roach (2), McCall, Maton.

Substitutes, Texas Christian, ends, Needham-Diggs, Walls, Dunlap, Snow; tackles, Walker, Godwin, Holt, Nelson; guards, Rogers, Mayne, centers, Tittle; backs, Brown, McClure, McCall, Montgomery, Harrell, Roberts, Clark, Blakmon. Baylor: ends, Wray; tackles, McDonald, Kriel; guards, Heussner; centers, Cloyd; backs, Henslee, Finley, Bartosh.

Officials—Boynton (Williams) referee, Mahan (Texas A. and M.). Umpire—Price (Austin college) Headlineman; Littlefield (Texas) field judge.

GEORGIA BARELY BEATS FLORIDA

Bulldogs Score In Fourth Period For Hard Earned 7-0 Victory

JACKSONVILLE, Fla., Nov. 2.—(AP)—Florida's alert eleven beat back a furious Georgia attack for three periods today and the rebounding Bulldogs had to snatch their lone break to score a 7 to 0 victory.

Badly outrushed, the desperate 'Gators nullified gain after gain until the final minutes of the game, when Billy Chase got off a quick kick that traveled barely 15 yards.

John Bond, the wide-awake Georgia halfback and co-captain, grabbed the low kick out of the air on the 'Gator 40-yard line and set out for the goal line. He was smacked down on the 17. Al Minot slanted off right tackle on the next play and sped across the goal standing up. Bond's place kick was good.

More than 20,000 persons saw the vastly-improved Florida line stand up valiantly against the hard-charging Georgians, doubly anxious to win today after being knocked out of the undefeated ranks last week by Alabama.

DARTMOUTH FINALLY BEATS YALE, 14-6

NEW HAVEN, Conn., Nov. 2.—(AP)—Dartmouth dragged out the obituary of the "Blue Jinx" today and read it aloud to 45,000 spectators as the Hanover Indians scored their first football victory over Yale in more than half a century. The score was 14 to 6.

The triumph precipitated one of the wildest demonstrations ever staged in the bowl. Fist fights broke out in several quarters and the goal posts were uprooted and broken into bits.

IRON MAN

J. C. (Iron Man) Wetzel . . . outstanding guard in the southwest last year . . . and sure bet to make All-America selections this season. . . . U. C. L. A. may find him a stone wall at Los Angeles, Nov. 11.

CALIFORNIA BEATS UCLANS, 14 TO 2

Bears Take Advantage Of Breaks To Remain Unbeaten On Coast

LOS ANGELES, Nov. 2.—(AP)—University of California displayed a rugged defense and took advantage of the breaks today to score two touchdowns and remain in the undefeated class by vanquishing the hitherto unbeaten University of California at Los Angeles 14 to 2 before 80,000.

The victory put California out in front in the Pacific Coast conference race.

Fred Funk's foot gave U. C. L. A. its first opportunity early in the game. The big halfback sent a long punt to the California two-yard line. When Don Fowler was chased back over the goal line and tackled by Chavoor, a safety was scored against the visitors.

The Bears never got into U. C. L. A. territory until the second period when a fumble gave California the ball on U. C. L. A.'s 47-yard line. Floyd Blower kicked the U. C. L. A.'s five-yard line and Cheshire returned the kick 25 yards. A fumble lost 15 yards and Funk went back to the five-yard line to kick. Lutz broke through to block the attempt and Vard Stockton picked the ball up and ran for a touchdown. Henry Sparks added the extra point with a placement.

The Bears were placed in position to score the last counter when Herwig intercepted a pass in midfield in the final period and ran to U. C. L. A.'s 40-yard line. After picking up four yards at the line, Blower passed to Jack Brittingham who ran for a touchdown and Sam Chapman kicked the point.

GEORGETOWN WINS FROM RICHMOND

RICHMOND, Va., Nov. 2.—(AP)—Georgetown converted a comedy of errors into a touchdown to beat Richmond today, 7-0, in a game that was followed by a melee between policemen and visiting students intent on uprooting the goalposts to celebrate their victory.

The Hoyas touchdown was produced in the second quarter on a freak lateral-drop kick-fumble play that startled the spectators and proved the difference between victory and defeat.

WEST VIRGINIA WINS EASILY FROM W. & L.

CHARLESTON, W. Va., Nov. 2.—(AP)—West Virginia university's backfield snapped suddenly into rythmic activity today and scored three quick touchdowns to give the Mountaineers a 20 to 0 triumph over a stubborn Washington and Lee team. Approximately 10,000 witnessed the game.

ARKANSAS BEATS TEXAS AGS, 14-7

Razorbacks Break Into Win Column In Battle Of Forward Passes

LITTLE ROCK, Ark., Nov. 2.—(AP)—The luckless University of Arkansas Razorbacks crashed the Southwest conference win column for the first time this season with a 14 to 7 triumph over a fighting Texas A. and M. Aggie machine that outshined the Razorbacks at their own aerial game.

The defeat was the third conference setback for the Aggies and sent them into the standings cellar despite a desperate battle that turned into an aerial circus featuring 58 heaves over Travelers field. An estimated 6,000 witnessed the clash.

Touchdowns all were through the air with the Razorbacks striking their two decisive blows in the second and third and the Farmers putting one over in the fourth when they filled the air with passes in a vain attempt to stave off defeat. Arkansas chalked up 14 first downs to Texas' 14.

The game early developed into an aerial circus with the Aggies completing 12 heaves out of 35 for 158 yards. The Arkansans also found the passing game effective, completing seven of 23 for 128 yards. The Farmers intercepted three passes and the Porkers two.

Several times the Aggies, featuring the left handed pass throwing Jimmy Shockney, drove into the goal post shadows only to be repulsed by a stubborn Arkansas line. Shockey passed to Wilkins for 13 yards to score the only Aggie touchdown.

Recovered fumbles paved the way for both Arkansas scores. Poole took a 23-yard pass from Ray for the first and Robbins heaved to Keen for the second, Seamster adding the points.

The starting lineups:

Texas Aggies	Pos.	Arkansas
Wilkins	LE	Benton
Young	LT	Van Sickle
Crowe	LG	Sanders
Phythian	C	Lunday
Deware	RG	Gilmore
Lindsey	RT	Hayden
Morrow	RE	Howell
Pitner	QB	Robbins
Nesrsta	LH	Martin
Schroeder	RH	Keen
Cummings	FB	Rucker

Score by periods:

Arkansas	0	7	7	0	—14
Texas Aggies	0	0	0	7	— 7

Scoring: Arkansas touchdowns: Poole (sub for Benton), Keen; point after touchdown, Seamster (sub for Sanders) 2, (placement); Texas A. and M., touchdown, Wilkins; point after touchdown, Wilkins.

Officials: Bell (Vanderbilt), referee; Moon (Kirksville Teachers), umpire; Campbell (Wake Forest), head linesman; Matthews (T. C. U.), field judge.

SOUTHWESTERN LYNX IN TIE WITH HOWARD

MEMPHIS, Tenn., Nov. 2.—(AP)—Southwestern Lynx stunned a crowd of 3,000 today as they battled the highly touted Howard Bulldogs of Birmingham to a 7-7 deadlock in the Dixie conference.

The Bulldogs, who early this season tied Alabama, were balked time after time, when they threatened to score, by the fighting Lynx forwards while Southwestern had one scoring opportunity and grabbed it to tie up the game.

Large Number Of Upsets Creating Greater Interest In Football

By John J. Romano

Going through a season unbeaten and untied is the dream of all football coaches. This so rarely occurs, as witness the surprising upsets on the gridiron of the present season, that the eve of a game is a veritable nightmare for the mentors of college elevens.

Young men imbued with the enthusiasm of youth, health and strength get more fun out of the game than most fans appreciate. It is a gratifying honor to be named on the starting team to "do or die" for his alma mater. He goes to sleep the night before the game, well rested and on edge. The thrill of matching wit and brawn with a rival on the following day doesn't bother him in the least.

Not far away an older man who has been drilling them for weeks in reciting signals, newly-perfected plays and magnifying the faults of one or two of the boys apt to do the wrong thing at the right time and generally gum up the whole works. That is the lot of the coach and when he goes out on the field it is dollars to doughnuts he is under more strain, mentally and physically, than his charges.

Penn's Turn-About

There is Lou Little and his Columbia team. The Lions were given better than an even chance of whipping the "champion chumps" as the Pennsylvania football team was dubbed two short weeks ago. The Blue and White were thought good enough to take Penn, and make another strong bid for the Rose Bowl game. But when Harvey Harman's big team got through with the New Yorkers, the Lions were the "chumps."

You may well imagine how Coach Harman felt about his team before the game! A big, strong, aggressive batch of men, good enough to outplay any eleven in the country for the first two quarters but pushovers in the last half. The boys shook off their lethargy and Harman's nightmares were tempered somewhat by that and subsequent victories.

Lieut. Gar Davidson is prematurely gray of hair. It is not because the Army team has given him sleepless nights. The shock of losing to Navy last year was nothing compared to the recent hoodoo confronting Lieut. Davidson. Thirteen times the Harvard team had made the trip to the Point and each time came away with the blanket of the Army mule. This meant that the Crimson forces were unbeatable on the Cadets home field.

This period extended back to 1895 when Percy Haughton's kicks kept the ball out where it could not be brought back for a damaging score. But that game was decided in the final minute of play when a long run by Charley Brewster started the successive string of victories. Davidson smashed the hoodoo two weeks back through the brilliant showing of little "Monk" Meyer.

Removing The Jinx

The absence of the Army mule was noticeable at that game. The explanation that the Army is now motorized and therefore has no mules was laughed off. The absence of the ornery animal might have been one of Lieut. Davidson's overnight schemes. Without a mule, which was present the thirteen times John Harvard trounced the Cadets, there would be no mule's tail to twist and it would be a good time to pull the austere John Harvard's coat-tails. And so it turned out. Army rose in its might to overcome that persistent jinx.

Elmer Layden did not go into that Pitt game without considerable thinking what happened last year when Pitt triumphed, 19-0. His brother, Mike, was out with an injured leg. His center wall was considered pregnable, especially by a hard-charging line such as Jock Sutherland had whipped together. Layden had his agonizing moments in the second quarter when Pitt's backfield men his line to shreds and went over for a goal.

Bill Shakespeare evened that up, but not before the former star of Knute Rockne's famous Four Horsemen had a recurrence of the nightmarish dreams of the night before. It was not until the final minutes of play that Marty Peters dropped back to the 25-yard stripe and got off a perfect kick to put his team ahead. Layden suffered many cold sweats while his charges were guarding the slim margin that ultimately spelled victory.

Coach Eddie Anderson of Holy Cross brought a powerful team of veterans from Mount St. James in Worcester, Mass., to tackle a supposedly demoralized Manhattan eleven. Anderson's boys were expected to romp over the Jaspers who had gone down to an easy defeat at the hands of Louisiana State the week before. Chick Meehan tossed and rolled all night thinking of Jim Hobin and Vin Dougherty's passing. Chick counted on using youth against veteran, by tossing nine sophomores and two juniors into the game. His nightmare was troublesome.

But it was nothing compared to the joy he experienced the following afternoon when his youngsters astounded the football world by holding his vaunted superiors to a 13-13 tie. Manhattan had spotted an unbeaten, untied veteran eleven to weight and experience and still held them even. Coach Chick Meehan could not hope for more.

These recitations are but a few in the east in which coaches went through the tortures of the damned before game time. Youth has its fling in the way of victory and the joy that comes with it. But the coach, who must look to his livelihood in turning out winning teams, derives greater pleasure in a more substantial way, a pay check and a new contract, and must of necessity experience the nightmares associated with the rise or fall of his team on the eve of each important game.

NOTRE DAME RALLIES TO TRIM OHIO STATE, 18 TO 13

RAMBLERS SCORE 3 TOUCHDOWNS IN FOURTH QUARTER

Desperate Aerial Attack Turns Defeat Into Brilliant Victory

By Alan Gould
(Associated Press Sports Editor)

COLUMBUS, Ohio, Nov. 2.—(AP)—In a melodramatic finish that has had few parallels in college football history, the fighting Irish of Notre Dame soared back to the heights today with an aerial attack that simultaneously snatched victory from apparent defeat and shattered the national championship dreams of Ohio State's famed "Scarlet Scourge."

Andy Pilney

The final score was 18 to 13 as Notre Dame came from behind in the final period to score three touchdowns, barely miss a fourth, and leave 81,108 tremendously excited spectators literally limp.

There was only one period to play when "Handy Andy" Pilney of Chicago, hero of the dazzling uphill fight to triumph, touched off the fireworks that turned the tide. There was a scant five minutes left when Notre Dame's desperate aerial bid for the tying touchdown failed, a yard short of the Ohio goal, because of a fumble.

The Irish fought back again but there was less than a full minute to play when big Wayne Millner, crack Notre Dame end, pulled down a long pass from Bill Shakespeare in the end zone for the deciding touchdown that wiped out the last vestige of Ohio State's first half lead.

Pilney's 26-yard return of a punt and 12-yard pass to Francis Gaul set the stage for Steve Miller to plunge the remaining yard for Notre Dame's first touchdown early in the final period.

Miller's fumble, recovered by Ohio State at the goal line for a touchback, nullified the next aerial drive engineered by Pilney from midfield but the Irish refused to be discouraged. They swooped back 79 yards through the air for a second touchdown, with Pilney on the receiving end of one long pass good for 37 yards and tossing to Mike Layden, with the ball on Ohio's 15, for the score.

Wally Fromhart's failure to placekick the extra point needed to tie the score looked fatal. The end of the game was in sight, but Notre Dame had one big punch left.

Aided by a "break," near midfield where Henry Pojman, substitute center, recovered a fumble by Dick Beltz, Ohio halfback, Pilney launched the decisive drive with a twisting 32-yard run through a broken field to Ohio's 19.

They carried Pilney off the field, with a pulled leg tendon, after he was brought down fiercely by Ohio's tacklers near the side line but the Irish had another sharp shooter. Shakespeare faded back to Ohio's 38-yard line and let go the pass that broke up the ball game. Millner looked to be well covered as he raced into the end zone but made a sensational catch for the third Irish touchdown.

The end of the game, a few minutes later, touched off one of the wildest demonstrations ever witnessed in Ohio's huge stadium.

The first Ohio tally was a thriller. Frank Antennuci, fullback, leaped high to intercept Mike Layden's over-the-line pass as the Irish pressed an early charge into enemy territory. Antennuci, surrounded by tacklers, lateralled to Frank Boucher, who picked up a swarm of blockers on short notice and raced 72 yards down the side-line for a touchdown.

"Jumping Joe" Williams, Ohio State's "climax runner" and the home town's ball carrying favorite, burst through the Notre Dame line from the four-yard mark early in the second quarter for the second touchdown as the Bucks paraded 51 yards. Quarterback Stan Pincura set the stage for this drive by intercepting one of Shakespeare's passes with a shoe-string catch.

The Irish registered 13 first downs, including 11 in the last half, as compared to Ohio's 10. The outrushed the Bucks, 159 to 150. Through the air, all told, Notre Dame completed 10 out of 21 passes for 140 yards. Ohio State completed only two out of four for seven yards. Ohio State made only one first down in the last two periods.

The lineups:

Notre Dame	Pos.	Ohio State
Millner	LE	Wendt
Pfefferle	LT	Hamrick
Lautar	LG	Karcher
Solari	C	Jones
Martin	RG	Smith
Kopczak	RT	Harre
Peters	RE	Rees
Fromhart	QB	Pincura
Shakespeare	LH	Heekin
Layden	RH	Boucher
Carideo	FB	Kabealo

Score by periods:

Notre Dame	0	0	0	18	—18
Ohio State	7	6	0	0	—13

Ohio scoring: Touchdowns, Boucher, Williams (sub for Heekin). Point from try after touchdown, Beltz (sub for Rees).

Notre Dame scoring: Touchdowns, Miller (sub for Carideo), Layden, Millner.

Officials: Referee, Frank Birch (Earlham); umpire, John Schommer (Chicago); field judge, Fred Young, (Illinois Wesleyan); headlinesman, Ernie Vick Michigan)

Fighting Mississippi State Eleven Upsets Army, 13 To 7

Ouachita To Meet Byrd At Shreveport Friday

Lions' Title Chances Depend On Battle With State Champs

The Ouachita Parish High school Lions, still in the class A championship football race of north Louisiana despite a tie game with the Haynesville Golden Tornado last week-end, will meet the powerful state championship Byrd High school Yellow Jackets of Shreveport in a decisive battle next Friday at Shreveport.

The Lions' staunch defense which passed the Tornado test will be tested to the utmost by the Jackets, and should Coach "Lefty" Haynes' undefeated Lions weather the storm of Byrd's attack they can be practically assured of a place in the championship playoff.

Coach Haynes tomorrow will begin another extensive workout session and plans to strengthen the Lion defense even more and drill his backs more extensively on the plays with which they hope to run up a victory and hand the Jackets their first trimming by a Louisiana team in years.

Last year Byrd walloped the Lions, 21 to 0, but Coach Haynes optimistically says it won't be anything like that this season.

"My boys can beat Byrd," Haynes said, "and that is just what they intend to do."

However, the two teams will put heavy aggregations on the field with the lines averaging about the same, a little in favor of the Lions, and the Byrd backfield considerably heavier than the locals.

Not a man on the Byrd team weighs less than 150 pounds. The line will average 163 pounds per man and the backfield will average 165 pounds, the heaviest aggregation Ouachita has had to face this season.

The chief offensive threats of the Byrd eleven this season have been "Jabbo" Stell, a 170-pound halfback, and "Red" Crow, 155-pound fullback. Losey, another back who weighs 175 pounds, is also an outstanding ball carrier for the Jackets.

Ouachita's backfield is considerably lighter than Byrd's, but a little deception coupled with the perfect functioning of the Lion forward wall, which is one of the strongest lines in north Louisiana this season, should give the locals a good chance to score.

Eddie Bowles, the halfback who was hurt in the game against Bastrop, still won't be able to help the Lions but they should be able to get somewhere with such speedsters as Sol Mayer, Cason Mitchell and W. B. Stewart sharing the ball carrying duties. Bob Staples and Harvey Gregg will probably have to do most of the blocking for the backs while Alvin Fleming and Clyde Roye, two capable passers, most likely will be called upon to share the backfield duties.

Such linemen as Billy Trimble, John Renwick, Earl Cobb, Wheeler Mitchell, Rudolph Vandenberg, F. C. Eason, Jack Warren, Joe Butler and Moise Peters will be hard to beat and Ouachita's chances to win will rest heavily on the shoulders of these boys.

Byrd defeated Bolton, 21 to 6, last Friday, while Ouachita was holding Haynesville to a 6 to 6 tie. The lions hold class A victories over Bastrop and Tallulah. The Yellow Jackets boast victories over such teams as Minden, Homer, Bolton and DeRidder.

Ouachita's tie game with Haynesville didn't eliminate their title chances a bit, providing they can beat Byrd and continue undefeated. In that instance, should Haynesville beat Byrd in the game which they play the week following the Lion-Jacket battle, then Ouachita and Haynesville will probably have to meet again in a playoff. However, it all depends on the outcome of the tilt with Byrd.

After Byrd, the Lions will return home for a game here November 15 with Rayville. Then after a week's rest they will end their regular schedule against Bolton's Bears here Thanksgiving.

NEBRASKA DEFEATS MISSOURI, 19 TO 6

MEMORIAL STADIUM, Columbia, Mo., Nov. 2.—(AP)—The University of Nebraska's football team wallowed through a puddle pocked gridiron here today to a 19 to 6 victory over Missouri in a Big Six conference game which brought the favored Cornhuskers within one step of the championship.

An estimated 8,000 spectators saw the game.

PRESIDENT'S CUP TO SECOND ROUND

All First Round Matches Completed In Lakeside Club Tourney

All first round matches in the President's Cup tournament were completed at Lakeside Country club yesterday and second round play will start today.

Following are the results of first round matches:

Upper bracket—J. H. Trousdale defeated H. H. Reardon, 2 and 1; Bun Beasley won from T. O. Bancroft by default; Ben Downing defeated W. M. Washburn, 4 and 3; M. S. Biedenharn defeated S. M. McReynolds, 5 and 3; W. L. James defeated R. McWilliams, 6 and 5; J. S. Washburn defeated H. W. Roemer, 6 and 5; Dr. Nat Gaston defeated A. B. Clarkson, 2 and 1; R. R. Barfield defeated D. Stone, 6 and 4.

Lower bracket—Prioleau Ellis defeated Tip Schier, 3 and 1; H. L. Woods defeated H. A. Mouk, 2 up; Mike Winberry defeated E. M. Eckhart, 5 and 4; Harry Frazer defeated Robert Guerriero, 1 up; Ben Downing, Jr., defeated Harry Taylor, 3 and 1; Bobby Oliver defeated F. F. Millsaps, 2 and 1; Jack Rogers defeated A. A. Thoman, 3 and 2; J. L. Keenan defeated Albert Marx, 1 up.

Pairings for the second round:

Upper bracket—Trousdale vs. Beasley; Downing vs. Biedenharn; James vs. J. S. Washburn; Gaston vs. Barfield.

Lower bracket—Ellis vs. Woods; Winbery vs. Frazer; Downing, Jr., vs. Oliver; Rogers vs. Keenan.

Second round matches must be completed by next Saturday night.

Shep Girault, Lakeside pro, said last night that club members are taking an unusual interest in golf. Friday afternoon the largest week-day crowd in the history of the club turned out, and another large crowd was on hand yesterday.

NEW CONFERENCE SOUGHT BY TECH

S. I. A. A. Too Large, Says Editorial In Student Newspaper

RUSTON, La., Nov. 2.—Chiming in with the oral chorus favoring the splitting up of the Southern Intercollegiate Athletic association, the Tech Talk, Louisiana Tech newspaper, editorially has cited the need for a new and smaller conference.

At the time the editorial was written, the Techmen were leading the S. I. A. A. with 128 points to their opponents' none. Even so, the article pointed out, Tech was "tied for top standing with 11 other teams, the majority of which have won only one or two games."

"There are too many other schools who may dispute Tech's claim," the student writer continues. "The conference itself covers too many states and two many widely scattered sections of the country. Its membership includes nearly 40 schools, in the Carolinas, Kentucky, Tennessee, Mississippi and Louisiana.

"From the practical standpoint it is impossible for Tech to play many games with teams from the Atlantic coast, and Kentucky and Tennessee; the financial outlay required would be too great.

"Why could not Louisiana Tech take the leadership in the formation of an entirely new athletics conference, embracing Louisiana and Mississippi and possibly other surrounding states? Tech is going ahead steadily with its program of athletics expansion; so why not cut loose from the restrictive bounds of the all-too-large S. I. A. A.? Forming or joining a new conference would certainly be in direct alignment with Tech's progressive program."

MAROONS SCORE IN 4TH QUARTER TO BEAT CADETS

Sasse's Squad Outplays West Pointers To Win Stirring Battle

By Foster Hailey
(Associated Press Staff Writer)

WEST POINT, N. Y., Nov. 2.—Army, victor over Harvard and Yale on successive Saturdays, was tumbled from the ranks of the football undefeated today by a fighting band of southerners from Mississippi State who ran and passed their way to a 13-7 victory.

While an estimated crowd of 20,000 looked on in stunned silence, the football warriors of Major Ralph Sasse drove to a touchdown early in the first period and then connected with two long passes in the fourth period to clinch the victory.

Army, which had hoped to save something for the three hard games ahead against Pittsburgh, Notre Dame and Navy, threw all its resources into the fray without avail.

The Cadets were able to match State's first touchdown with a passing attack in the second quarter but their desperate efforts in the waning minutes of the game found them steadily losing ground against State's fierce defence.

The southerners trotted out one of the fastest, hardest, most accurate passing backfields the Army had looked at this year. Ike Pickle, a 177-pound string bean back from Memphis, Tenn., was a threat every time he carried the ball. It was his 21 and 25-yard runs in the first period which set up the Army for Gill Stedman's lethal plunge from the four-yard line for the score.

Not far behind in ability, was Fred Hight of Koscuisko, Miss., Bob Hardison from the same town and Charles Armstrong of Jackson, Miss.

They harassed the Army flanks all afternoon and when stopped there, slipped through the line for good gains or tossed unerring forwards to each other and the ends.

It was Armstrong's accurate tossing to Fred Walters, substitute end from Laurel, Miss., which brought the last touchdown. With the ball on State's 20, an Armstrong-Walters pass was good for 16 yards and on the very next play he arched a high one which Walters took over his shoulder on Army's 35 to dance down the sidelines to a score.

Army's Monk Meyer, who was born at West Point, and is the team's star, was well bottled up most of the afternoon by the fast-stepping State ends and backs, who threw him for losses on several of his attempted end sweeps and intercepted three of his hurried passes.

Meyer and Ralph King, Army's regular quarterback from Buffalo, tossed 15 passes during the course of the afternoon but except for the second period drive for a touchdown made little progress that way.

It was a beautiful arching pass from Meyer to Clinton True of New Orleans, substitute halfback, which gave Army its score. Meyer, dropping back almost to his 40-yard line, hung it on a peg just over the goal line and beyond the last State defender for True to pluck out of the air.

The touchdown culminated an 87-yard drive which saw Meyer, Ed Grove of Glenwood, Minn., and Bill Grohs of St. Paul splitting the State line for good gains.

Army threw many fresh men into the game late in the fourth period but it found itself losing ground steadily and ended the game back on its own 18 where Nazzaro was thrown as he attempted to pass.

The statistics, showing nine first downs for State to seven for Army and 166 yards gained from scrimmage to 45, tell the story. Only in forward passes did Army lead, completing seven of 15 attempted for 101 yards against six attempted and five completed for 84 yards by State.

It was State's sixth victory in seven starts this year and their second upset. Early in the season they humbled the once mighty Crimson Tide of Alabama 20-7 and have lost only to Vanderbilt, 14-6.

The weather, exceptionally warm for a November Saturday at the Point, was an aid to the southerners who played in their lightest equipment. They had been here since Monday

S'EASTERN TEAMS MAKE CLEAN SWEEP OF 'FOREIGN' TILTS

(By Associated Press)

A trio of clean cut victories featured by Mississippi State's jarring 13 to 7 win over the hitherto undefeated Army eleven gave the Southeastern conference a clean sweep of its intersectional gridiron warfare this weekend.

A last minute pass spelled the margin by which the Delta Staters whipped the Cadets at West Point,, while Tulane administered a 14 to 6 beating to Colgate's Red Raiders at New Orleans.

The third intersectional victor was Mississippi, one of two teams remaining undefeated in conference competition, which defeated St. Louis university 21 to 7 in a game at St. Louis Friday night.

Louisiana State, the other eleven unbeaten in the conference, took a step up the flight toward a possible conference title by subduing the Auburn Plainsmen at Baton Rouge, 6 to 0. A brilliant 24-yard heave over Alabama Poly's goal in the last two minutes turned the trick for L. S. U.

Two well-directed scoring drives resulted in a 13 to 0 victory for Alabama over Kentucky at Birmingham. The Tide had charge of the situation all the way.

Tennessee dropped a 19 to 6 decision to Duke, a Southern conference foe which had lost to Auburn and Georgia Tech.

An intercepted pass late in the final period proved Georgia Tech's downfall and Vanderbilt won from the Jackets, 14 to 13.

Georgia battered a stubborn Florida defense to beat the Alligators, 7 to 0.

Sewanee gave Tennessee Tech a 6 to 0 beating.

ALABAMA TRIMS KENTUCKY, 13-0

Crimson Line Stops Wildcat Stars And Tide Wins Handily

LEGION FIELD, BIRMINGHAM, Ala., Nov. 2.—(AP)—A hard charging Alabama line spiked Kentucky's big guns before 14,476 fans here today, and the Crimson Tide took the invaders going away, 13 to 0.

So thoroughly did the Alabama forward wall dominate the play, that "Man-o-War" Johnson and "Twenty Grand" Davis, Kentucky's two principal threats, were never able to get the ball past mid-field.

Two thrusts for touchdowns, one each in the first and third periods, gave Alabama its winning margin. In the middle of the opening period, Alabama marched 67 yards for the first counter.

As the second half opened, Alabama launched another drive from Kentucky's 42 to score. Kilgrow started it with a 14-yard dash through left guard, and three plays made another first down on the 16. After two nice gains, a 15-yard holding penalty set Alabama back on its 22, and Kilgrow shot a long pass to J. Walker, who took it in the end zone.

McMillen blocked the try for extra point and the scoring was over for the day.

Statistics of the game:

	Alabama	Kentucky
First downs	14	7
Gained rushing	225	60
Passes attempted	7	15
Passes completed	4	6
Passes intercepted	2	0
Gained passing	50	98
Punting average	39	36
Fumbles recovered	0	2
Lost by penalty	50	25

FOREST AND GILBERT BATTLE TO 0-0 TIE

GILBERT, La., Nov. 2.—(Special)—Forest and Gilbert Aggies played a scoreless tie here Thursday. Each team played a defensive game all the way.

Forest made eight first downs to six for the Aggies. Forest threw 10 passes; 5 were intercepted, 3 completed, and 2 incomplete. Gilbert attempted 7; 2 were completed, 3 intercepted, and 2 fell incomplete.

Gilbert has a first year team, but they have not been defeated yet. In the first game of the season they played Clarks to a 13-13 tie; then won a 13 to 0 victory over Rayville.

TEXAS CHRISTIAN WALLOPS BAYLOR

Frogs Overwhelm Bears With Unerring Forward Passing Attack

WACO, Tex., Nov. 2.—(AP)—The good right arm of Sammie Baugh fired passes unerringly today as Texas Christian university's undefeated Horned Frogs made it a sad homecoming day for Baylor's bewildered Bruins, 28-0.

Twenty-four times the Christians flung passes and 15 of them settled in waiting arms for a total gain of 204 yards as a throng of 12,000 cheered the Southwest's latest aerial show.

Baugh's spectacular passing shoved the Christians into a top spot in the national football scramble and sent the Bruins tumbling to defeat for the first time this season. The 180 pound throwing marvel completed 10 of 16 passes for a gain of 148 yards. A ragged Baylor pass defense aided the Christians in their successful air barrage, all four touchdowns being accomplished with the receiver in open territory.

The lineup:

Tex. Christ.	Pos.	Baylor
Meyer	LE	Clark
Ellis	LT	Parry
Harrison	LG	Simpson
Lester	C	Reynolds
Kellow	RG	Buchanan
Groseclose	RT	Kriel
Roach	RE	Williams
Baugh	QB	Russell
Kline	LH	Gernand
Lawrence	RH	Masters
Manton	FB	Brazell

Score by periods:

Texas Christian	0	14	0	14	—28
Baylor	0	0	0	0	— 0

Scoring: Texas Christian—Touchdowns, Needham (two) Clark, Walls. Points after touchdown, Roach (2), McCall, Maton.

Substitutes, Texas Christian, ends, Needham-Diggs, Walls, Dunlap, Snow; tackles, Walker, Godwin, Holt, Nelson; guards, Rogers, Mayne, centers, Tittle; backs, Brown, McClure, McCall, Montgomery, Harrell, Roberts, Clark, Blakmon. Baylor: ends, Wray; tackles, McDonald, Kriel; guards, Heussner; centers, Cloyd; backs, Henslee, Finley, Bartosh.

Officials—Boynton (Williams) referee, Mahan (Texas A. and M.). Umpire—Price (Austin college) Headlineman; Littlefield (Texas) field judge.

GEORGIA BARELY BEATS FLORIDA

Bulldogs Score In Fourth Period For Hard Earned 7-0 Victory

JACKSONVILLE, Fla., Nov. 2.—(AP)—Florida's alert eleven beat back a furious Georgia attack for three periods today and the rebounding Bulldogs had to snatch their lone break to score a 7 to 0 victory.

Badly outrushed, the desperate 'Gators nullified gain after gain until the final minutes of the game, when Billy Chase got off a quick kick that traveled barely 15 yards.

John Bond, the wide-awake Georgia halfback and co-captain, grabbed the low kick out of the air on the 'Gator 40-yard line and set out for the goal line. He was smacked down on the 17. Al Minot slanted off right tackle on the next play and sped across the goal standing up. Bond's place kick was good.

More than 20,000 persons saw the vastly-improved Florida line stand up valiantly against the hard-charging Georgians, doubly anxious to win today after being knocked out of the undefeated ranks last week by Alabama.

DARTMOUTH FINALLY BEATS YALE, 14-6

NEW HAVEN, Conn., Nov. 2.—(AP)—Dartmouth dragged out the obituary of the "Blue Jinx" today and read it aloud to 45,000 spectators as the Hanover Indians scored their first football victory over Yale in more than half a century. The score was 14 to 6.

The triumph precipitated one of the wildest demonstrations ever staged in the bowl. Fist fights broke out in several quarters and the goal posts were uprooted and broken into bits.

IRON MAN

J. C. (Iron Man) Wetzel . . . outstanding guard in the southwest last year . . . and sure bet to make All-America selections this season. . . . U. C. L. A. may find him a stone wall at Los Angeles, Nov. 11.

CALIFORNIA BEATS UCLANS, 14 TO 2

Bears Take Advantage Of Breaks To Remain Unbeaten On Coast

LOS ANGELES, Nov. 2.—(AP)—University of California displayed a rugged defense and took advantage of the breaks today to score two touchdowns and remain in the undefeated class by vanquishing the hitherto unbeaten University of California at Los Angeles 14 to 2 before 80,000.

The victory put California out in front in the Pacific Coast conference race.

Fred Funk's foot gave U. C. L. A. its first opportunity early in the game. The big halfback sent a long punt to the California two-yard line. When Don Fowler was chased back over the goal line and tackled by Chavoor, a safety was scored against the visitors.

The Bears never got into U. C. L. A. territory until the second period when a fumble gave California the ball on U. C. L. A.'s 47-yard line. Floyd Blower kicked the U. C. L. A.'s five-yard line and Cheshire returned the kick 25 yards. A fumble lost 15 yards and Funk went back to the five-yard line to kick. Lutz broke through to block the attempt and Vard Stockton picked the ball up and ran for a touchdown. Henry Sparks added the extra point with a placement.

The Bears were placed in position to score the last counter when Herwig intercepted a pass in midfield in the final period and ran to U. C. L. A.'s 40-yard line. After picking up four yards at the line, Blower passed to Jack Brittingham who ran for a touchdown and Sam Chapman kicked the point.

GEORGETOWN WINS FROM RICHMOND

RICHMOND, Va., Nov. 2.—(AP)—Georgetown converted a comedy of errors into a touchdown to beat Richmond today, 7-0, in a game that was followed by a melee between policemen and visiting students intent on uprooting the goalposts to celebrate their victory.

The Hoyas touchdown was produced in the second quarter on a freak lateral-drop kick-fumble play that startled the spectators and proved the difference between victory and defeat.

WEST VIRGINIA WINS EASILY FROM W. & L.

CHARLESTON, W. Va., Nov. 2.—(AP)—West Virginia university's backfield snapped suddenly into rythmic activity today and scored three quick touchdowns to give the Mountaineers a 20 to 0 triumph over a stubborn Washington and Lee team. Approximately 10,000 witnessed the game.

ARKANSAS BEATS TEXAS AGS, 14-7

Razorbacks Break Into Win Column In Battle Of Forward Passes

LITTLE ROCK, Ark., Nov. 2.—(AP)—The luckless University of Arkansas Razorbacks crashed the Southwest conference win column for the first time this season with a 14 to 7 triumph over a fighting Texas A. and M. Aggie machine that outshined the Razorbacks at their own aerial game.

The defeat was the third conference setback for the Aggies and sent them into the standings cellar despite a desperate battle that turned into an aerial circus featuring 58 heaves over Travelers field. An estimated 6,000 witnessed the clash.

Touchdowns all were through the air with the Razorbacks striking their two decisive blows in the second and third and the Farmers putting one over in the fourth when they filled the air with passes in a vain attempt to stave off defeat. Arkansas chalked up 14 first downs to Texas' 14.

The game early developed into an aerial circus with the Aggies completing 12 heaves out of 35 for 158 yards. The Arkansans also found the passing game effective, completing seven of 23 for 128 yards. The Farmers intercepted three passes and the Porkers two.

Several times the Aggies, featuring the left handed pass throwing Jimmy Shockney, drove into the goal post shadows only to be repulsed by a stubborn Arkansas line. Shockey passed to Wilkins for 13 yards to score the only Aggie touchdown.

Recovered fumbles paved the way for both Arkansas scores. Poole took a 23-yard pass from Ray for the first and Robbins heaved to Keen for the second, Seamster adding the points.

The starting lineups:

Texas Aggies	Pos.	Arkansas
Wilkins	LE	Benton
Young	LT	Van Sickle
Crowe	LG	Sanders
Phythian	C	Lunday
Deware	RG	Gilmore
Lindsey	RT	Hayden
Morrow	RE	Howell
Pitner	QB	Robbins
Nesrsta	LH	Martin
Schroeder	RH	Keen
Cummings	FB	Rucker

Score by periods:

Arkansas	0	7	7	0	—14
Texas Aggies	0	0	0	7	— 7

Scoring: Arkansas touchdowns: Poole (sub for Benton), Keen; point after touchdown, Seamster (sub for Sanders) 2, (placement); Texas A. and M., touchdown, Wilkins; point after touchdown, Wilkins.

Officials: Bell (Vanderbilt), referee; Moon (Kirksville Teachers), umpire; Campbell (Wake Forest), head linesman; Matthews (T. C. U.), field judge.

SOUTHWESTERN LYNX IN TIE WITH HOWARD

MEMPHIS, Tenn., Nov. 2.—(AP)—Southwestern Lynx stunned a crowd of 3,000 today as they battled the highly touted Howard Bulldogs of Birmingham to a 7-7 deadlock in the Dixie conference.

The Bulldogs, who early this season tied Alabama, were balked time after time, when they threatened to score, by the fighting Lynx forwards while Southwestern had one scoring opportunity and grabbed it to tie up the game.

Large Number Of Upsets Creating Greater Interest In Football

By John J. Romano

Going through a season unbeaten and untied is the dream of all football coaches. This so rarely occurs, as witness the surprising upsets on the gridiron of the present season, that the eve of a game is a veritable nightmare for the mentors of college elevens.

Young men imbued with the enthusiasm of youth, health and strength get more fun out of the game than most fans appreciate. It is a gratifying honor to be named on the starting team to "do or die" for his alma mater. He goes to sleep the night before the game, well rested and on edge. The thrill of matching wit and brawn with a rival on the following day doesn't bother him in the least.

Not far away an older man who has been through it all lies awake reciting signals, newly-perfected plays and magnifying the faults of one or two of the boys apt to do the wrong thing at the right time and generally gum up the whole works. That is the lot of the coach and when he goes out on the field it is dollars to doughnuts he is under more strain, mentally and physically, than his charges.

Penn's Turn-About

There is Lou Little and his Columbia team. The Lions were given better than an even chance of whipping the "champion chumps" as the Pennsylvania football team was dubbed two short weeks ago. The Blue and White were thought good enough to take Penn, and make another strong bid for the Rose Bowl game. But when Harvey Harman's big team got through with the New Yorkers, the Lions were the "chumps."

You may well imagine how Coach Harman felt about his team before the game! A big, strong, aggressive batch of men, good enough to outplay any eleven in the country for the first two quarters but pushovers in the last half. The boys shook off their lethargy and Harman's nightmares were tempered somewhat by that and subsequent victories.

Lieut. Gar Davidson is prematurely gray of hair. It is not because the Army team has given him sleepless nights. The shock of losing to Navy last year was nothing compared to the recent hoodoo confronting Lieut. Davidson. Thirteen times the Harvard team had made the trip to the Point and each time came away with the blanket of the Army mule. This meant that the Crimson forces were unbeatable on the Cadets home field.

This period extended back to 1895 when Percy Haughton's kicks kept the ball out where it could not be brought back for a damaging score. But that game was decided in the final minute of play when a long run by Charley Brewster started the successive string of victories. Davidson smashed the hoodoo two weeks back through the brilliant showing of little "Monk" Meyer.

Removing The Jinx

The absence of the Army mule was noticeable at that game. The explanation that the Army is now motorized and therefore has no mules was laughed off. The absence of the ornery animal might have been one of Lieut. Davidson's overnight schemes. Without a mule, which was present the thirteen times John Harvard trounced the Cadets, there would be no mule's tail to twist and it would be a good time to pull the austere John Harvard's coat-tails. And so it turned out. Army rose in its might to overcome that persistent jinx.

Elmer Layden did not go into that Pitt game without considerable thinking what happened last year when Pitt triumphed, 19-0. His brother, Mike, was out with an injured leg. His center wall was considered pregnable, especially by a hard-charging line such as Jock Sutherland had whipped together. Layden had his agonizing moments in the second quarter when Pitt's backfield men his line to shreds and went over for a goal.

Bill Shakespeare evened that up, but not before the former star of Knute Rockne's famous Four Horsemen had a recurrence of the nightmarish dreams of the night before. It was not until the final minutes of play that Marty Peters dropped back to the 25-yard stripe and got off a perfect kick to put his team ahead. Layden suffered many cold sweats while his charges were guarding the slim margin that ultimately spelled victory.

Coach Eddie Anderson of Holy Cross brought a powerful team of veterans from Mount St. James in Worcester, Mass., to tackle a supposedly demoralized Manhattan eleven. Anderson's boys were expected to romp over the Jaspers who had gone down to an easy defeat at the hands of Louisiana State the week before. Chick Meehan tossed and rolled all night thinking of Jim Hobin and Vin Dougherty's passing. Chick counted on using youth against veteran, by tossing nine sophomores and two juniors into the game. His nightmare was troublesome.

But it was nothing compared to the joy he experienced the following afernoon when his youngsters astounded the football world by holding his vaunted superiors to a 13-13 tie. Manhattan had spotted an unbeaten, untied veteran eleven to weight and experience and still held them even. Coach Chick Meehan could not hope for more.

These recitations are but a few in the east in which coaches went through the tortures of the damned before game time. Youth has its fling in the way of victory and the joy that comes with it. But the coach, who must look to his livelihood in turning out winning teams, derives greater pleasure in a more substantial way, a pay check and a new contract, and must of necessity experience the nightmares associated with the rise or fall of his team on the eve of each important game.

KELLY-MAYNARD BOUT TOPS TUESDAY MAT SHOW

MIDDLEKAUFF TO MEET BRITT IN SEMI-FINAL BOUT

All Wrestling Shows In Future To Be Held On Tuesday Nights

Ernest Kelly, the 212-pound Tennesseean who beat Bill Middlekauff last week, will attempt to trim another tough entry in the main event of the weekly wrestling show at Roosevelt stadium Tuesday night when he tackles Al Maynard, rugged South African. The other bout of the all-star card will bring together Middlekauff and Al Britt, the 215-pound Oklahoman. The show is slated to get under way at 8:15 o'clock.

The local promoters announced that all shows in the future will be held on Tuesday nights. Better wrestlers can be secured on Tuesdays, it was announced. Some of the leading performers in this section will be brought here in the near future, they said.

Kelly will have all the odds against him when he tangles with Maynard in the main event. The South African will have a 13-pound weight advantage and several years in experience over Kelly. Maynard doesn't pull his punches when he's in there and the Tennesseean can look for an attack that will include all the fouls in the book.

On the other hand, Kelly will have youth and speed on his side, and he also can deliver a hard smash with either fist when his opponent forces him to use that method of attack. The Tennesseean undoubtedly will attempt to use science to subdue Maynard and he's clever enough when he wants to be.

The semi-final should be plenty rough. Britt performed here a couple of times more than a year ago and he was a great crowd pleaser. Not only is he rough, but he knows most of the holds, having learned the business from his father, the former light heavyweight champion. He weighs 215 pounds and hails from Oklahoma.

Britt recently caused a riot in Houston when he slugged his opponent into submission and then knocked out two of the referee's teeth when the official attempted to stop the slaughter. He has packed 'em in at other places throughout the circuit and local promoters believe he'll click with Monroe fans.

Middlekauff, of course, isn't so easily handled and Britt is likely to have his hands full. The big Floridian, who scored the touchdown that gave the east a victory over the west back in 1927, is rapidly developing into one of the best grapplers in the south. He uses his long legs to good advantage, and his advantage in weight and height may give him the edge over Britt. Middlekauff mixes science with just the right proportion of roughness, and has been the aggressor in every match at the stadium. He out-wrestled Kelly last week, only to lose on a fluke.

Both matches will be best two out of three falls, with the main event having a two-hour time limit and the semi-final limited to one hour.

The referee for Tuesday's card has not been selected, but the promoters said yesterday that a change would be made. Harry Prophit will make the announcements and Phillip Lisotta will keep time.

COLUMBIA DEFEATS GRAYSON, 20 TO 13

COLUMBIA, La., Nov. 2.—(Special)—The Columbia Crimson Tide downed the Grayson Blue Warriors, 20-13, in a hard fought battle Friday afternoon on the Grayson field.

Joe May, Columbia's husky halfback, scored the first touchdown in the first three minutes of the game and J. R. Hawkins booted the extra point. J. J. McKeithen, outstanding player for Grayson, scored two touchdowns in the second quarter, the half ending with the score ending 13-7 for Grayson.

The fourth quarter found Columbia in Grayson's territory most of the time. Wilson Lee went over for a touchdown and Joe May bucked the line for the extra point. Five minutes later Joe May went over for the third touchdown. It was the third straight victory for Columbia in the annual battle and the first time Grayson has been allowed to score.

DUKE OUTPLAYS VOLS TO WIN EASILY, 19-6

DURHAM, N. C., Nov. 2.—(AP)—Duke's Blue Devils, paced by the speed Bursts of Elmore Hackney, marched back into the victory column in convincing manner here today by decisively outplaying the Tennessee Volunteers to win 19 to 6 before a Homecoming day crowd of 16,000.

Tennessee, after playing Wallace Wade's Southern conference eleven on even terms in a nip-and-tuck first half, never was in the game the last two periods. Duke recovered a fumble on the third period kickoff deep in Vol territory, and kept the visitors backed to the wall until almost the last play of the battle.

FORDHAM GAINS TIE WITH PITT PANTHERS

NEW YORK, Nov. 2.—(AP)—Fordham dealt a stunning blow to Pitt before 38,000 spectators in the rain-soaked Polo Grounds here today by holding the highly rated Panthers to a scoreless draw in their first football meeting.

The Rams outrushed Pittsburgh, out-passed them, and had the only genuine scoring opportunities of the game which looked in the preview like a soft touch for the Panthers, who have been beaten this season only by Notre Dame.

Neville To Play Strong Vicksburg Team Friday

Tigers Tackle Mississippians In Final Home Game Of Season

The Tigers of Neville High school, after taking a breathing spell last week in their game with Natchez, Miss., will get back into the tough assignments this week-end when they meet the strong undefeated Vicksburg, Miss., eleven here at Brown Field at 8 o'clock Friday night.

The Bengals all came out of the game with the Natchez Blue Boys without mishap and Coach Percy Brown will begin priming his boys this week for the battle.

Coach Brown doesn't know just yet what Vicksburg will offer Friday but his boys only beat the Mississippians by two touchdowns last season and Vicksburg is rated as having a better combination during their present campaign.

Undefeated, the Vicksburg eleven has trimmed such teams as Clarksdale, Greenville, Canton, Yazoo City and Leland, all Mississippi teams. The Greenville, Miss., team was one of the few teams that beat Neville last year and Vicksburg's victory over that club alone was enough to cause apprehension in the Bengal camp.

It will be Neville's last home game of the season and efforts are being made this week to get a record crowd out to the game. After Vicksburg, the Bengals will take the road again for the first time since their trip to Ruston. First they invade Lafayette, in south Louisiana, for another hard battle, and then they end their season at Bastrop on Thanksgiving day.

Richard Basco, Harris Bell, Pete Haddad and Andrew Pappas, the stellar backfield combination of the Tigers, who gave way to reserve backs in the Natchez fray, may be extended to their utmost against Vicksburg.

The passing attack and extra show of laterals which Neville had promised to unleash against the Blue Boys was not displayed too frequently, but stands a chance of being worked to excess against the next invaders.

Most likely, however, the Bengals will continue to resort to the sensational long end runs by Basco and Haddad. These runs have netted the fleet Neville backs their best gains of the season and as long as they continue to function, even though they were halted by Haynesville, there is no reason to believe they will not attempt to run Vicksburg ragged with the same plays.

Friday night's game has been designated "parents' day" and fathers and mothers of all players will be admitted free. A special section will be reserved for parents of the players, Coach Brown said.

MAROONS SCORE IN 4TH QUARTER TO BEAT CADETS

(Continued from Eighth Page)

conditioning themselves for a cold afternoon.

The victory must have been a sweet one for Major Ralph Sasse, head coach of State, who held the same post at Army from 1928 to 1932.

The line-up and summary:

Miss. State.	Pos.	Army.
Gelatka	LE	Stromberg
Lott	LT	Eriksen
Stone	LG	Necrason
Price	C	Clifford
Fatherree	RG	Smith
Henson	RT	Wolf
Keenan	RE	Shuler
Thames	QB	Grohs
Pickle	LH	Meyer
Hight	RH	Grove
Steadman	FB	Goldenburg

Score by periods:

Army	0	7	0	0	—7
Miss. State	7	0	0	6	—13

Scoring: Army, touchdown—True (sub for Goldenburg); point after touchdown—True (sub for Goldenburg) (place kick).

Mississippi State, touchdowns—Steadman and Walters (sub for Keenan); point after touchdown—Pickle (place kick).

Officials: Referee—H. O. Dayhoff, Bucknell; umpire—B. A. Savage, Cornell; head linesman—G. N. Bankhart, Dartmouth; field judge—E. H. Hastings, Cornell.

HOLLYROOD FIRST IN PIMLICO FUTURITY

PIMLICO RACE TRACK, Md., Nov. 2.—(AP)—Hal Price Headley's 2-year-old bay colt, Hollyrood, put on a dust-stirring burst of speed on the home stretch today to outstep Bomar stable's Grand Slam, the favorite, and win the $25,000 added Pimlico Futurity by a length and a half before a crowd of 15,000.

Grand Slam went to the post a 2-to-1 favorite, with Hollyrood a 4 1-2-to-1 shot. Hollyrood paid $11.10 to win with Grand Slam rewarding place backers with $4.10.

MARQUETTE WHIPS IOWA STATE, 28-12

MILWAUKEE, Nov. 2.—(AP)—For the first time in four years, Marquette university's returning old grads celebrated a Homecoming victory tonight, after the Golden Avalanche stilled the Iowa State Cyclone, 28 to 12, today before 15,000 spectators.

The win left Marquette among the nation's undefeated teams with five straight victories.

TICKETS ON SALE FOR SUGAR BOWL

Two Outstanding Teams To Be Invited To Play In New Orleans

NEW ORLEANS, Nov. 2.—(AP)—Tickets have been placed on sale for the annual Sugar Bowl football game to be played here New Year's day between two outstanding elevens of the nation.

The first Sugar Bowl game was staged last year between Tulane and Temple with Tulane winning. The gross receipts for the contest were close to $62,000.

Contestants this year have not yet been selected but questionnaires will be sent representative teams after the games of November 9 asking if they will come here if invited.

The game is sponsored by the Mid-Winter Sports association, which is planning other big athletic events during the holiday period.

Many outstanding stars have accepted invitations to compete in the track meet on December 28.

The tennis tournament January 2 to January 5, inclusive, will draw many net luminaries. Wilmer Allison, No. 1 ranking player in the United States, has already accepted an invitation.

A basketball game has been scheduled between Louisiana State university and Pittsburgh on the night of January 2. L. S. U. beat Pittsburgh, the eastern champions, in a thrilling contest in the east last year.

A cross-country run and a regatta are also on the program.

RAYVILLE WINS FROM WINNSBORO, 12 TO 7

RAYVILLE, La., Nov. 2.—(Special)—The Rayville Hornets won their second game of the season when they defeated the Winnsboro Wildcats Friday, 12-7. Rayville's second touchdown was made a minute and ten seconds before the end of the game. The score was made by Captain Meadors, star tackle of the Hornet team, who made several brilliant runs to place the ball in scoring distance. Rayville was minus the services of two star backs and when two of those that did play were injured, Meadors was called out of the line to work in the backfield.

Winnsboro scored in the early part of the game on a pass, and kicked the extra point. Rayville came back to score on a long pass to Schooler, substitute end, who was one of the outstanding players of the game. The extra point was missed by Meadors. This was his first failure of the season to convert. The Hornets then made several drives toward a score, but Winnsboro held each time, until a sustained drive in the last minute of play resulted in a touchdown.

Rayville had two new men in their lineup in Schooler, end, and Adcock, back, who started their first game. They were two of the stars of the game. Schooler, besides scoring on a pass, played a great game on the defense, while Adcock made several good gains and did some good blocking. The punting of Captain Meadors, of the Hornets, was again a feature of the game. This 190-pound tackle is easily one of the best in North Louisiana.

VILLANOVA RALLIES TO SHADE DETROIT

VILLANOVA, Pa., Nov. 2.—(AP)—Villanova came from behind to defeat the University of Detroit eleven, 13 to 7, before 8,000 spectators today. Trailing, 7 to 6, Andy Stopper forward passed 19 yards to Tony Sala for Villanova's winning touchdown late in the fourth period. Detroit defeated Villanova, 19-15 last week.

ONLY 11 MAJOR ELEVENS BOAST PERFECT RECORDS

Ohio State And U. C. L. A. Among Outstanding Teams Which Lose

By Herbert W. Barker
(Associated Press Sports Writer)

Seven more of the country's hitherto undefeated and untied teams, including Ohio State's Buckeyes and the Bruins of the University of California at Los Angeles, fell by the football wayside yesterday and left only 11 major elevens still able to boast perfect records for the season.

Notre Dame's Ramblers, paced by Andy Pilney, spotted Ohio State two touchdowns and then rammed over three scores of their own in the fourth quarter to win, 18-13, in a spectacular duel waged before 81,000 spectators. A crowd of approximately the same dimensions gathered at Los Angeles to watch California's Golden Bears upset U. C. L. A., 14-2, and become the Pacific coast's only undefeated and untied array.

Marching along the undefeated trail with Notre Dame and California were North Carolina, Minnesota, Marquette, Texas Christian, Southern Methodist, Dartmouth, New York university, Princeton and Syracuse. Joining Ohio State and U. C. L. A. in the beaten class were Army, Temple, Catholic and Baylor while Iowa's Hawkeyes, outplayed most of the way, were lucky to get a 6-6 tie with Indiana.

Texas Christian accounted for Baylor's scalp in the day's third struggle between undefeated teams, 28-0, and remained in the Southwest conference championship running along with Southern Methodist's Mustangs, who upset Texas, 20-0.

North Carolina, only eleven in the old south with a perfect record, uncorked a dazzling attack to win its objective game from Hunk Anderson's North Carolina State Wolfpack, 35-6.

Dartmouth's Indians finally ruined the Yale bowl jinx by spilling the Elis, 14-6, before 45,000 while 50,000 looked on as Princeton turned on the heat and crushed Navy, 26-0. Syracuse had to come from behind to nose out a fighting Penn State outfit, 7-3, but New York university outplayed Bucknell all the way to win, 14-0.

Minnesota's Gophers had entirely too much power for Purdue and won easily, 29-7, and Marquette revealed a formidable attack in routing Iowa State, 28-12.

Army fell victim to a last minute passing attack by Mississippi State, coached by the former Cadet mentor, Major Ralph Sasse, and the southerners earned a 13-7 upset triumph. Temple and Catholic also bowed to intersectional foes, the Owls losing to Michigan State's fourth quarter charge 12-7, and Catholic dropping a 9-6 verdict to DePaul of Chicago.

Villanova's 13-7 victory over Detroit and West Virginia's 20-0 conquest of Washington and Lee were the only intersectional triumphs credited to the east for Rice swamped George Washington, 41-0; Tulane tripped Colgate, 14-6; and Michigan stopped Penn, 16-6.

Pitt and Columbia ran into stunning surprises when the Panthers struggled to a scoreless tie with Fordham before 38,000 in New York, and Columbia got no better than a 7-7 draw with Cornell's well beaten eleven. Harvard bowled over Brown, 33-0, and Duquesne scored a mild upset in checking Carnegie Tech, 7-0.

Louisiana State hurdled a big obstacle in its drive toward the Southeastern conference title by beating Auburn, 6-0, on a late rally. Alabama crushed Kentucky, 13-0; Vanderbilt nosed out Georgia Tech, 14-13; and Georgia spilled Florida, 7-0. Duke of the Southern conference rallied after two defeats and beat Tennessee, 19-6.

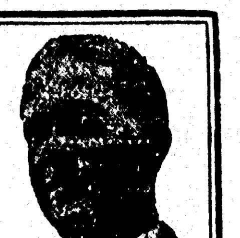
Northwestern scored a Big Ten victory over Illinois, 10-3, and Nebraska and Kansas hung up Big Six conference triumphs, Nebraska gave Missouri its first defeat, 19-6, and Kansas outpointed Oklahoma, 7-0.

A field goal by Jim Moscrip gave Stanford a hard-earned 9-6 verdict over Santa Clara. In the Rocky Mountain conference, Utah trounced Brigham Young, 32-0; Utah State halted Colorado State, 13-0, and Colorado university won from Colorado college, 23-0.

BEATS U. S. ON THE UP AND UP

It's plain to see from his take-off that Toqui, with Captain Augusto Silva up, is going to soar over the obstacle ahead of him cleanly. Jumping and riding of this kind helped the Chilean army riding team defeat the United States army team in the Inter-American Horse Show at Washington, D. C.

BOBBY JONES SAYS



"Today with the flood of limber and whippy shafts," writes a golfer of New York City, "it would be very instructive to the masses if a player of your experience would write on clubs—especially as to power and control gotten from a whippy or a stiff shaft.

"You once said something about the 'fine lashing qualities' of a certain shaft. Does this mean that greater power, (more length) can be had from a limber shaft vs. a stiff shaft?

"An opinion on this matter would be greatly appreciated."

Whatever may be the theory of the proposition, experience and observation have convinced me that there is nothing inherent in the limberness or stiffness of a golf shaft which will either increase or diminish its driving power—that is, as an absolute quantity. In the hands of various individuals, the deflection of the shaft, just as well as the weight of the head, can make quite a bit of difference.

Purpose Of Shaft

I think it is proper to regard the shaft of a golf club merely as a connection between the hands and the striking area of the club. It is the means by which motion is communicated from the player's body to the head of the club and by which the latter is given speed. Also it is the connection through which the player exerts the control which assures the proper alignment of his striking surface. Whether it should be stiff or limber depends upon which best suits the timing of the stroke and the physical powers of the user.

I have experimented with shafts made of material like a buggy whip, so limber that the top of the shaft and the head of the club could actually be brought together. I have used others so stiff that scarcely a tremor could be shaken into them. After a little practice with each to catch the timing which each required, I have been able to attain about the same maximum rate of performance with all. I am confident that if assured of proper alignment and enough swinging room to get up speed, a weight on the end of a piece of twine could be made to drive a ball quite as well.

Suit Players' Hitting

In selecting a club, what the player wants to make sure of is that he gets a shaft suitable to his method of hitting. A stiff shaft in the hands of a light hitter tends to drive the ball to the right. A hard hitter needs such a shaft in order to enable him to go "all out." A player who is driving well with a stiff shaft if he hits in the same way with a club of greater deflection, will inevitably find himself hooking badly. An expert player can soon adjust his timing to suit the club, but he does not like to burden his game with this unnecessary difficulty. It is easier to get a shaft that suits his timing.

Especially whippy shafts are perhaps of help to some players, particularly of the class of light hitters who are not quite able to bring the face of the club around with a shaft that is too stiff. It is not unlikely that the greater deflection will bring them greater length. But the increased distance will be the result of more accurate striking rather than of greater power in the shaft.

(Copyright, 1935, Bell Syndicate, Inc.)

Use of a flexible or stiff shaft is dependent on player's physical power and timing. Jones is shown here using a shaft that is well on the stiff side.

SIWASH BEAT NOTRE DAME IN 1902

GALESBURG, Ill., Nov. 2.—(AP)—Imagine Knox college handing Notre Dame a licking in football!

While such a thing is impossible this year, it has been done, and Knox fans, working themselves into a lather over their 1935 team, are looking ahead and wondering if history ever can repeat itself for the glory of Old Siwash.

Knox, the whole world knows, is the team about which columns and columns were written during its 27-game losing streak.

It was in the dim past—1902 to be exact—that the mention of Old Siwash in football circles commanded respect. That year Knox beat Notre Dame, 12 to 5, and, what's more, conquered Northwestern, 15 to 0, and took Kansas in stride, 5-0.

Unbeatable Except—

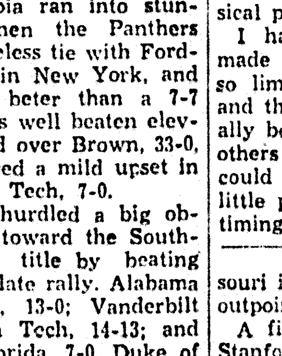
The team was unbeatable except for Chicago, which won a hard-fought contest, 5 to 0, and Nebraska, winner by 7 to 0. And Nebraska, say Knox alumni, wouldn't play until Knox withdrew its negro halfback and scoring ace.

But, it isn't necessary to go so far back in history to find the name of Knox emblazoned on the golden pages of gridiron deeds.

In 1919 Sam Berry, now University of Southern California basketball coach, turned out a grid team which rolled up 405 points while going through an undefeated season. Seven points were scored against that team, but in that game Knox was victorious by 55 to 7 over Northwestern college.

Again In '24

Knox was on top of the heap again in 1924 when both the Little Nineteen and Midwest conference championships were annexed. The only defeat was a 19 to 10 affair at the hands of Drake.



Pete Reynolds

Five years later Knox again was in the limelight when the 1929 team won nine games, losing only to Coe by a 5 to 3 margin.

What has happened since then has been a nightmare to Knox and everybody here is willing and eager to forget it as soon as possible.

But the fact remains that starting with 1930 athletes suddenly stopped enrolling at Knox and didn't begin again until last year. Defeats replaced victories and in 1932 Earl R. Jackson, who had coached the last championship team, was given his walking papers after 11 consecutive losses.

No Regular Coach

The following year no football coach was hired and the job fell to Maj. Leigh Bell, commander of the R. O. T. C. He had only 18 men on his tiny squad—not enough for scrimmages. So, the team lost eight more games and ran the total of defeats up to 19.

Last year the task of winning a game for Old Siwash fell to Lloyd Burdick, former University of Illinois athlete and professional player and wrestler.

His team not only lost its entire schedule, but failed to register a single point against any opponent. Then Burdick departed.

On the horizon then appeared Pete Reynolds, who retired from coaching ten years before to enter business in Chicago. Previously he had handled grid affairs at Syracuse, Bucknell and Hobart.

As Thanksgiving nears Reynolds' head is far from the axe-man's block. Although he was accused of purposely selecting a set-up foe in order to gain a victory when his team beat Principia in the opener, the squad came back the following week and licked one of Knox's special foes, Augustana, 6 to 0. Since then things have been going nicely for Knox and Reynolds.

One reason, of course, for the success of Old Siwash this year is to be found in last year's freshman squad which boasted some of the best material seen on the campus in years.

And this year's yearlings are virtually as good as last year's, which almost assures Knox of two or three good teams in the immediate future.

Imagine Knox beating Notre Dame. The old grads are willing to imagine it—at some future date.

3,000 STUDENTS TO GO TO ATHENS

Gov. Allen Guarantees That Number For Trip To Georgia Game

NEW ORLEANS, Nov. 2.—(AP)—Ira F. Schwegel, general passenger agent for the Louisville and Nashville railroad, said here today that Governor O. K. Allen had personally guaranteed that 3,000 students of Louisiana State university including the university band and cadet corps, would make the football pilgrimage to Athens, Ga., for the Georgia-L. S. U. football game November 16.

Schwegel quoted Governor Allen as saying he was carrying out the wishes of the late Senator Huey P. Long who last year led nearly the entire Louisiana State student body to Nashville for the L. S. U.-Vanderbilt game.

Schwegel said he did not know whether Governor Allen would advance fares to students who could not afford the trip as Senator Long did at $7 a head. Long passed out thousands of dollars for fares of students, taking penciled receipts, but later demanding return payments.

Governor Allen plans to make the trip to Athens with the students, Schwegel said.

The special trains will be routed over the Louisiana and Arkansas right-of-way to New Orleans, Schwegel said, transferring here to the Louisville and Nashville road.

Stops will be made in Mobile and Montgomery, Ala., and Atlanta, Ga., with the student band scheduled to give concerts in Mobile and Atlanta as well as drills by the cadet military corps.

GOPHERS WALLOP PURDUE, 29 TO 7

Minnesota Wins 21st Consecutive Victory Before 44,000 Fans

MINNEAPOLIS, Nov. 2.—(AP)—Minnesota's galloping Gophers, still in tune with the victory march, wrote another score of triumph today over Purdue's Boilermakers with a 29 to 7 conquest that gave last year's national champions an unbeaten string of 21 gridiron battles.

George Roscoe, the hard-smashing half, sounded the opening keynote of victory with a touchdown in the first period but it remained for "Touchdown Tuffy" Thompson, to electrify the Dad's Day crowd of about 44,000 with thrilling runs through the entire Purdue team, one of which netted a score.

Both teams lost possible touchdowns through penalties, Purdue missing a score after Tom McGannon made a brilliant 98-yard run on the kickoff in the fourth period, only to have the ball recalled because the Boilermakers had been holding.

Minnesota made 11 first downs for 294 yards by rushing to 14 for Purdue, which gave the Boilermakers 172 yards by rushing. Most of Purdue's first downs were made by passing.

SYRACUSE SHADES PENN STATE, 7 TO 3

ARCHBALD STADIUM, SYRACUSE, N. Y., Nov. 2.—(AP)—Tallying in the last two minutes of play after being held scoreless throughout, Syracuse's unbeaten gridiron warriors nosed out Penn State, 7 to 3, in a dramatic battle here today before 10,000 howling fans.

Vannie Albanese of Manlius, N. Y., dashed 10 yards for the winning counter after receiving a forward pass from Ray Reckmack of Cheshire, Mass. He place-kicked the point.

N. CAROLINA WHIPS N. C. STATE, 35-6

RIDDICK FIELD, RALEIGH, N. C., Nov. 2.—(AP)—The Tarheels of the University of North Carolina displayed a versatile attack and then took advantage of every opportunity offered by a daring aerial game of North Carolina State's Wolfpack here today to march on undefeated with a 35-to-6 triumph over the Wolves before 18,000 persons.

SOUTHERN METHODIST WALLOPS TEXAS, 20-0

DALLAS, Texas, Nov. 2.—(AP)—Coach Madison Bell's Southern Methodist Mustangs scored in the first, second and fourth periods here today to beat the University of Texas, 20 to 0. It was the Mustangs' second 1935 Southwest conference victory and their seventh win this season.

An estimated crowd of 20,000 persons saw Robert Wilson, the Mustangs' candidate for all-American honors, lead his mates to victory.

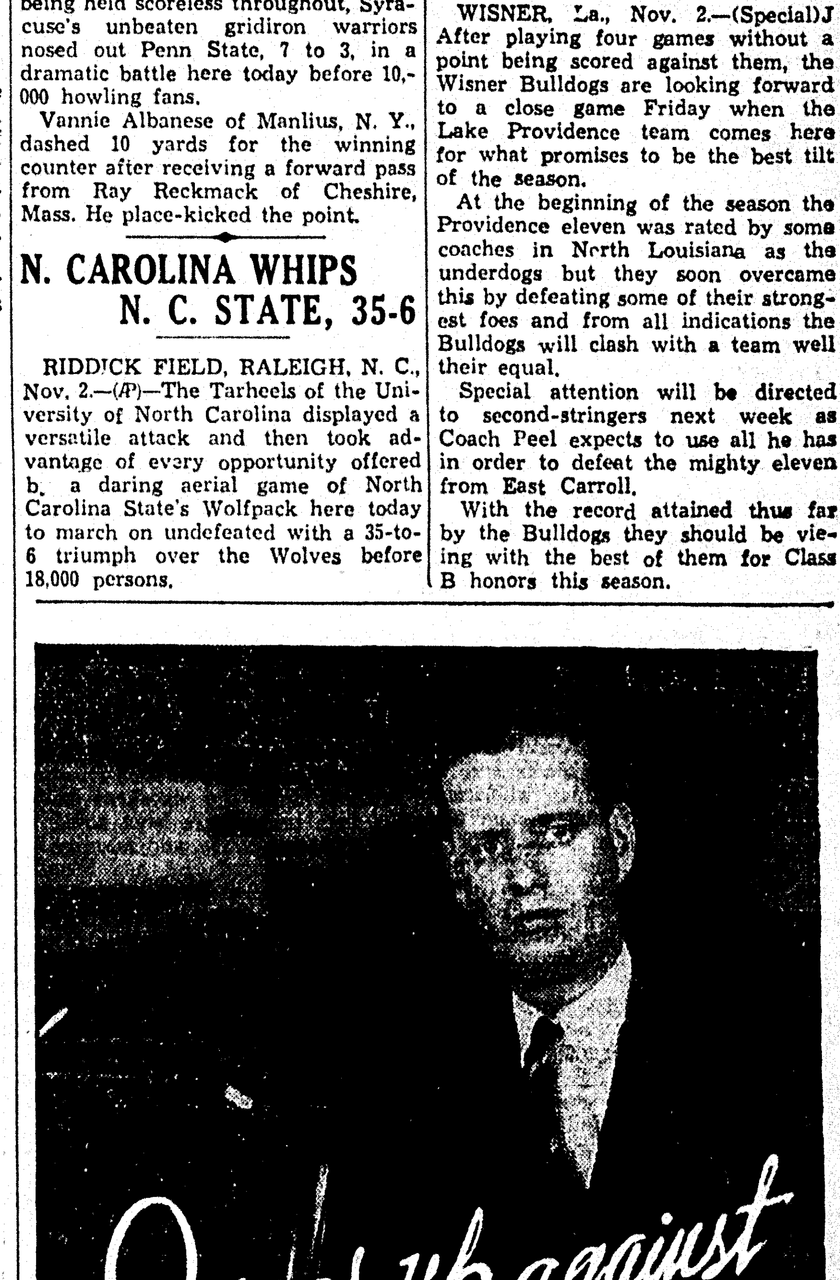
WISNER TO BATTLE PROVIDENCE ELEVEN

WISNER, La., Nov. 2.—(Special)—After playing four games without a point being scored against them, the Wisner Bulldogs are looking forward to a close game Friday when the Lake Providence team comes here for what promises to be the best tilt of the season.

At the beginning of the season the Providence eleven was rated by some coaches in North Louisiana as the underdogs but they soon overcame this by defeating some of their strongest foes and from all indications the Bulldogs will clash with a team well their equal.

Special attention will be directed to second-stringers next week as Coach Peel expects to use all he has in order to defeat the mighty eleven from East Carroll.

With the record attained thus far by the Bulldogs they should be vieing with the best of them for Class B honors this season.



"My car needed two new tires, the wheels were out of alignment—my brakes were worn out and the ignition system was shot. The Service Man added up the bill and even at Firestone's low prices, it came to THIRTY-NINE DOLLARS AND SIXTY CENTS.

"Right at this time this was more than the old pocket book could stand—more than I could pay even next month. I need my car to earn my living—what to do?"

* HERE'S HOW FIRESTONE HELPED ME

"Without delay or red tape they equipped my car with the two new tires I needed, serviced the necessary parts and MOST IMPORTANT TO ME, they arranged payments I could easily afford. For me that meant out of my Saturday pay checks just $3.30 weekly."

KELLY-MAYNARD BOUT TOPS TUESDAY MAT SHOW

MIDDLEKAUFF TO MEET BRITT IN SEMI-FINAL BOUT

All Wrestling Shows In Future To Be Held On Tuesday Nights

Ernest Kelly, the 212-pound Tennesseean who beat Bill Middlekauff last week, will attempt to trim another tough entry in the main event of the weekly wrestling show at Roosevelt stadium Tuesday night when he tackles Al Maynard, rugged South African. The other bout of the all-star card will bring together Middlekauff and Al Britt, the 215-pound Oklahoman. The show is slated to get under way at 8:15 o'clock.

The local promoters announced that all shows in the future will be held on Tuesday nights. Better wrestlers can be secured on Tuesdays, it was announced. Some of the leading performers in this section will be brought here in the near future, they said.

Kelly will have all the odds against him when he tangles with Maynard in the main event. The South African will have a 13-pound weight advantage and several years in experience over Kelly. Maynard doesn't pull his punches when he's in there and the Tennesseean can look for an attack that will include all the fouls in the book.

On the other hand, Kelly will have youth and speed on his side, and he also can deliver a hard smash with either fist when his opponent forces him to use that method of attack. The Tennesseean undoubtedly will attempt to use science to subdue Maynard and he's clever enough when he wants to be.

The semi-final should be plenty rough. Britt performed here a couple of times more than a year ago and he was a great crowd pleaser. Not only is he rough, but he knows most of the holds, having learned the business from his father, the former light heavyweight champion. He weighs 215 pounds and hails from Oklahoma.

Britt recently caused a riot in Houston when he slugged his opponent into submission and then knocked out two of the referee's teeth when the official attempted to stop the slaughter. He has packed 'em in at other places throughout the circuit and local promoters believe he'll click with Monroe fans.

Middlekauff, of course, isn't so easily handled and Britt is likely to have his hands full. The big Floridian, who scored the touchdown that gave the east a victory over the west back in 1927, is rapidly developing into one of the best grapplers in the south. He uses his long legs to good advantage, and his advantage in weight and height may give him the edge over Britt. Middlekauff mixes science with just the right proportion of roughness, and has been the aggressor in every match at the stadium. He out-wrestled Kelly last week, only to lose on a fluke.

Both matches will be best two out of three falls, with the main event having a two-hour time limit and the semi-final limited to one hour.

The referee for Tuesday's card has not been selected, but the promoters said yesterday that a change would be made. Harry Prophit will make the announcements and Phillip Lisotta will keep time.

COLUMBIA DEFEATS GRAYSON, 20 TO 13

COLUMBIA, La., Nov. 2.—(Special)—The Columbia Crimson Tide downed the Grayson Blue Warriors, 20-13, in a hard fought battle Friday afternoon on the Grayson field.

Joe May, Columbia's husky halfback, scored the first touchdown in the first three minutes of the game and J. R. Hawkins booted the extra point. J. J. McKeithen, outstanding player for Grayson, scored two touchdowns in the second quarter, the half ending with the score ending 13-7 for Grayson.

The fourth quarter found Columbia in Grayson's territory most of the time. Wilson Lee went over for a touchdown and Joe May bucked the line for the extra point. Five minutes later Joe May went over for the third touchdown. It was the third straight victory for Columbia in the annual battle and the first time Grayson has been allowed to score.

DUKE OUTPLAYS VOLS TO WIN EASILY, 19-6

DURHAM, N. C., Nov. 2.—(AP)—Duke's Blue Devils, paced by the speed Bursts of Elmore Hackney, marched back into the victory column in convincing manner here today by decisively outplaying the Tennessee Volunteers to win 19 to 6 before a Homecoming day crowd of 16,000.

Tennessee, after playing Wallace Wade's Southern conference eleven on even terms in a nip-and-tuck first half, never was in the game the last two periods. Duke recovered a fumble on the third period kickoff deep in Vol territory, and kept the visitors backed to the wall until almost the last play of the battle.

FORDHAM GAINS TIE WITH PITT PANTHERS

NEW YORK, Nov. 2.—(AP)—Fordham dealt a stunning blow to Pitt before 38,000 spectators in the rain-soaked Polo Grounds here today by holding the highly rated Panthers to a scoreless draw in their first football meeting.

The Rams outrushed Pittsburgh, out-passed them and had the only genuine scoring opportunities of the game which looked in the preview like a soft touch for the Panthers, who have been beaten this season only by Notre Dame.

Seven Undefeated And Untied Grid Teams Fall By Wayside

Neville To Play Strong Vicksburg Team Friday

Tigers Tackle Mississippians In Final Home Game Of Season

The Tigers of Neville High school, after taking a breathing spell last week in their game with Natchez, Miss., will get back into the tough assignments this week-end when they meet the strong undefeated Vicksburg, Miss., eleven here at Brown Field at 8 o'clock Friday night.

The Bengals all came out of the game with the Natchez Blue Boys without mishap and Coach Percy Brown will begin priming his boys this week for the battle.

Coach Brown doesn't know just yet what Vicksburg will offer Friday but his boys only beat the Mississippians by two touchdowns last season and Vicksburg is rated as having a better combination during their present campaign.

Undefeated, the Vicksburg eleven has trimmed such teams as Clarksdale, Greenville, Canton, Yazoo City and Leland, all Mississippi teams. The Greenville, Miss., team was one of the few teams that beat Neville last year and Vicksburg's victory over that club alone was enough to cause apprehension in the Bengal camp.

It will be Neville's last home game of the season and efforts are being made this week to get a record crowd out to the game. After Vicksburg, the Bengals will take the road again for the first time since their trip to Ruston. First they invade Lafayette, in south Louisiana, for another hard battle, and then they end their season at Bastrop on Thanksgiving day.

Richard Basco, Harris Bell, Pete Haddad and Andrew Pappas, the stellar backfield combination of the Tigers, who gave way to reserve backs in the Natchez fray, may be extended to their utmost against Vicksburg.

The passing attack and extra show of laterals which Neville had promised to unleash against the Blue Boys was not displayed too frequently, but stands a chance of being worked to excess against the next invaders.

Most likely, however, the Bengals will continue to resort to the sensational long end runs by Basco and Haddad. These runs have netted the fleet Neville backs their best gains of the season and as long as they continue to function, even though they were halted by Haynesville, there is no reason to believe they will not attempt to run Vicksburg ragged with the same plays.

Friday night's game has been designated "parents' day" and fathers and mothers of all players will be admitted free. A special section will be reserved for parents of the players, Coach Brown said.

MAROONS SCORE IN 4TH QUARTER TO BEAT CADETS

(Continued from Eighth Page)

conditioning themselves for a cold afternoon.

The victory must have been a sweet one for Major Ralph Sasse, head coach of State, who held the same post at Army from 1928 to 1932.

The line-up and summary:

Miss. State.	Pos.	Army.
Gelatka	LE	Stromberg
Lott	LT	Eriksen
Stone	LG	Necrason
Price	C	Clifford
Fatherree	RG	Smith
Henson	RT	Wolf
Keenan	RE	Shuler
Thames	QB	Grohs
Pickle	LH	Meyer
Hight	RH	Grove
Steadman	FB	Goldenburg

Score by periods:

Army	0	7	0	0—7
Miss. State	7	0	0	6—13

Scoring: Army, touchdown—True (sub for Goldenburg); point after touchdown—True (sub for Goldenburg) (place kick).

Mississippi State, touchdowns—Steadman and Walters (sub for Keenan); point after touchdown—Pickle (place kick).

Officials: Referee—H. O. Dayhoff, Bucknell; umpire—B. A. Savage, Cornell; head linesman—G. N. Bankhart, Dartmouth; field judge—E. H. Hastings, Cornell.

HOLLYROOD FIRST IN PIMLICO FUTURITY

PIMLICO RACE TRACK, Md., Nov. 2.—(AP)—Hal Price Headley's 2-year-old bay colt, Hollyrood, put on a dust-stirring burst of speed on the home stretch today to outstep Bomar stable's Grand Slam, the favorite, and win the $25,000 added Pimlico Futurity by a length and a half before a crowd of 15,000.

Grand Slam went to the post a 2-to-1 favorite, with Hollyrood a 4 1-2-to-1 shot. Hollyrood paid $11.10 to win with Grand Slam rewarding place backers with $4.10.

MARQUETTE WHIPS IOWA STATE, 28-12

MILWAUKEE, Nov. 2.—(AP)—For the first time in four years, Marquette university's returning old grads celebrated a Homecoming victory tonight, after the Golden Avalanche stilled the Iowa State Cyclone, 28 to 12, today before 15,000 spectators.

The win left Marquette among the nation's undefeated teams with five straight victories.

TICKETS ON SALE FOR SUGAR BOWL

Two Outstanding Teams To Be Invited To Play In New Orleans

NEW ORLEANS, Nov. 2.—(AP)—Tickets have been placed on sale for the annual Sugal Bowl football game to be played here New Year's day between two outstanding elevens of the nation.

The first Sugar Bowl game was staged last year between Tulane and Temple with Tulane winning The gross receipts for the contest were close to $62,000.

Contestants this year have not yet been selected but questionnaires will be sent representative teams after the games of November 9 asking if they will come here if invited.

The game is sponsored by the Mid-Winter Sports association, which is planning other big athletic events during the holiday period.

Many outstanding stars have accepted invitations to compete in the track meet on December 28.

The tennis tournament January 2 to January 5, inclusive, will draw many net luminaries. Wilmer Allison, No. 1 ranking player in the United States, has already accepted an invitation.

A basketball game has been scheduled between Louisiana State university and Pittsburgh on the night of January 2. L. S. U. beat Pittsburgh, the eastern champions, in a thrilling contest in the east last year.

A cross-country run and a regatta are also on the program.

RAYVILLE WINS FROM WINNSBORO, 12 TO 7

RAYVILLE, La., Nov. 2.—(Special)—The Rayville Hornets won their second game of the season when they defeated the Winnsboro Wildcats Friday, 12-7. Rayville's second touchdown was made a minute and ten seconds before the end of the game. The score was made by Captain Meadors, star tackle of the Hornet team, who made several brilliant runs to place the ball in scoring distance. Rayville was minus the services of two star backs and when two of those that did play were injured, Meadors was called out of the line to work in the backfield.

Winnsboro scored in the early part of the game on a pass, and kicked the extra point. Rayville came back to score on a long pass to Schooler, substitute end, who was one of the outstanding players of the game. The extra point was missed by Meadors. This was his first failure of the season to convert. The Hornets then made several drives toward a score, but Winnsboro held each time, until a sustained drive in the last minute of play resulted in a touchdown.

Rayville had two new men in their lineup in Schooler, end, and Adcock, back, who started their first game. They were two of the stars of the game. Schooler, besides scoring on a pass, played a great game on the defense, while Adcock made several good gains and did some good blocking. The punting of Captain Meadors, of the Hornets, was again a feature of the game. This 190-pound tackle is easily one of the best in North Louisiana.

VILLANOVA RALLIES TO SHADE DETROIT

VILLANOVA, Pa., Nov. 2.—(AP)—Villanova came from behind to defeat the University of Detroit eleven, 13 to 7, before 8,000 spectators today. Trailing, 7 to 6, Andy Stopper forward passed 19 yards to Tony Sala for Villanova's winning touchdown late in the fourth period. Detroit defeated Villanova, 19-15 last week.

ONLY 11 MAJOR ELEVENS BOAST PERFECT RECORDS

Ohio State And U. C. L. A. Among Outstanding Teams Which Lose

By Herbert W. Barker
(Associated Press Sports Writer)

Seven more of the country's hitherto undefeated and untied teams, including Ohio State's Buckeyes and the Bruins of the University of California at Los Angeles, fell by the football wayside yesterday and left only 11 major elevens still able to boast perfect records for the season.

Notre Dame's Ramblers, paced by Andy Pilney, spotted Ohio State two touchdowns and then rushed over three scores of their own in the fourth quarter to win, 18-13, in a spectacular duel waged before 81,000 spectators. A crowd of approximately the same dimensions gathered at Los Angeles to watch California's Golden Bears upset U. C. L. A., 14-2, and become the Pacific coast's only undefeated and untied array.

Marching along the undefeated trail with Notre Dame and California were North Carolina, Minnesota, Marquette, Texas Christian, Southern Methodist, Dartmouth, New York university, Princeton and Syracuse. Joining Ohio State and U. C. L. A. in the beaten class were Army, Temple, Catholic and Baylor while Iowa's Hawkeyes, outplayed most of the way, were lucky to get a 6-6 draw with Indiana.

Texas Christian accounted for Baylor's scalp in the day's third struggle between undefeated teams, 28-0, and remained in the Southwest conference championship running along with Southern Methodist's Mustangs, who upset Texas, 20-0.

North Carolina, only eleven in the old south with a perfect record, uncorked a dazzling attack to win its objective game from Hunk Anderson's North Carolina State Wolfpack, 35-6.

Dartmouth's Indians finally ruined the Yale bowl jinx by spilling the Elis, 14-6, before 45,000 while 50,000 looked on as Princeton turned on the heat and crushed Navy, 26-0. Syracuse had to come from behind to nose out a fighting Penn State outfit, 7-3, but New York university outplayed Bucknell all the way to win, 14-0.

Minnesota's Gophers had entirely too much power for Purdue and won easily, 29-7, and Marquette revealed a formidable attack in routing Iowa State, 28-12.

Army fell victim to a last minute passing attack by Mississippi State, coached by the former Cadet mentor, Major Ralph Sasse, and the southerners earned a 13-7 upset triumph. Temple and Catholic also bowed to intersectional foes, the Owls losing to Michigan State's fourth quarter charge 12-7, and Catholic dropping a 9-6 verdict to DePaul of Chicago.

Villanova's 13-7 victory over Detroit and West Virginia's 20-0 conquest of Washington and Lee were the only intersectional triumphs credited to the east for Rice swamped George Washington, 41-0; Tulane tripped Colgate, 14-6; and Michigan stopped Penn, 16-6.

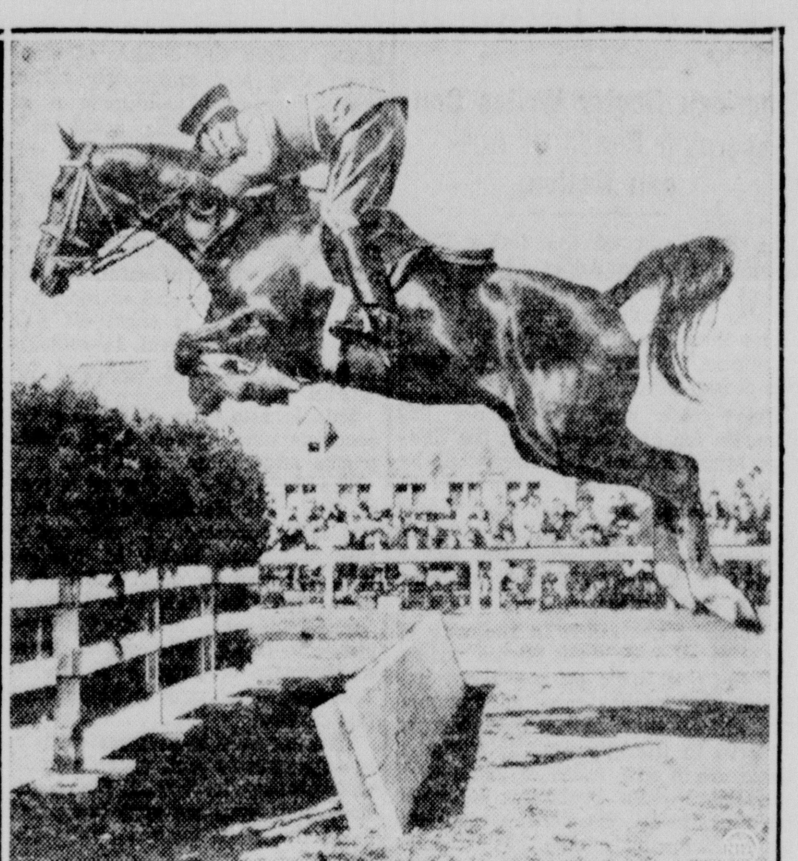
Pitt and Columbia ran into stunning surprises when the Panthers struggled to a scoreless tie with Fordham before 38,000 in New York, and Columbia got no beter than a 7-7 draw with Cornell's well beaten eleven. Harvard bowled over Brown, 33-0, and Duquesne scored a mild upset in checking Carnegie Tech, 7-0.

Louisiana State hurdled a big obstacle in its drive toward the Southeastern conference title by beating Auburn, 6-0, on a late rally. Alabama crushed Kentucky, 13-0; Vanderbilt nosed out Georgia Tech, 14-13; and Georgia spilled Florida, 7-0. Duke of the Southern conference rallied after two defeats and beat Tennessee, 19-6.

Northwestern scored a Big Ten victory over Illinois, 10-3, and Nebraska and Kansas hung up Big Six conference triumphs. Nebraska gave Missouri its first defeat, 19-6, and Kansas outpointed Oklahoma, 7-0.

A field goal by Jim Moscrip gave Stanford a hard-earned 9-6 verdict over Santa Clara. In the Rocky Mountain conference, Utah trounced Brigham Young, 32-0; Utah State halted Colorado State, 13-0, and Colorado university won from Colorado college, 23-0.

BEATS U. S. ON THE UP AND UP



It's plain to see from his take-off that Toqui, with Captain Augusto Silva up, is going to soar over the obstacle ahead of him cleanly. Jumping and riding of this kind helped the Chilean army riding team defeat the United States army team in the Inter-American Horse Show at Washington, D. C.

BOBBY JONES SAYS

"Today with the flood of limber and whippy shafts," writes a golfer of New York City, "it would be very instructive to the masses if a player of your experience would write on clubs—especially as to power and control gotten from a whippy or a stiff shaft.

"You once said something about the 'fine lashing qualities' of a certain shaft. Does this mean that greater power, (more length) can be had from a limber shaft vs. a stiff shaft?

"An opinion on this matter would be greatly appreciated."

Whatever may be the theory of the proposition, experience and observation have convinced me that there is nothing inherent in the limberness or stiffness of a golf shaft which will either increase or diminish its driving power—that is, as an absolute quantity. In the hands of various individuals, the deflection of the shaft, just as well as the weight of the head, can make quite a bit of difference.

Purpose Of Shaft

I think it is proper to regard the shaft of a golf club merely as a connection between the hands and the striking area of the club. It is the means by which motion is communicated from the player's body to the head of the club and by which the latter is given speed. Also it is the connection through which the player exerts the control which assures the proper alignment of his striking surface. Whether it should be stiff or limber depends upon which best suits the timing of the stroke and the physical powers of the user.

I have experimented with shafts made of material like a buggy whip, so limber that the top of the shaft and the head of the club could actually be brought together. I have used others so stiff that scarcely a tremor could be shaken into them. After a little practice with each to catch the timing which each required, I have been able to attain about the same maximum rate of performance with all. I am confident that if assured of proper alignment and enough swinging room to get up speed, a weight on the end of a piece of twine could be made to drive a ball quite as well.

Suit Players' Hitting

In selecting a club, what the player wants to make sure of is that he gets

Use of a flexible or stiff shaft is dependent on player's physical power and timing. Jones is shown here using a shaft that is well on the stiff side.

a shaft suitable to his method of hitting. A stiff shaft in the hands of a light hitter tends to drive the ball out to the right. A hard hitter needs such a shaft in order to enable him to go "all out." A player who is driving well with a stiff shaft if he hits in the same way with a club of greater deflection, will inevitably find himself hooking badly. An expert player can soon adjust his timing to suit the club, but he does not like to burden his game with this unnecessary difficulty. It is easier to get a shaft that suits his timing.

Especially whippy shafts are perhaps of help to some players, particularly of the class of light hitters who are not quite able to bring the face of the club around with a shaft that is too stiff. It is not unlikely that the greater deflection will bring them greater length. But the increased distance will be the result of more accurate striking rather than of greater power in the shaft.

SIWASH BEAT NOTRE DAME IN 1902

GALESBURG, Ill., Nov. 2.—(AP)—Imagine Knox college handing Notre Dame a licking in football!

While such a thing is impossible this year, it has been done, and Knox fans, working themselves into a lather over their 1935 team, are looking ahead and wondering if history ever can repeat itself for the glory of Old Siwash.

Knox, the whole world knows, is the team about which columns and columns were written during its 27-game losing streak.

It was in the dim past—1902 to be exact—that the mention of Old Siwash in football circles commanded respect. That year Knox beat Notre Dame, 12 to 5, and, what's more, conquered Northwestern, 15 to 0, and took Kansas in stride, 5-0.

Unbeatable Except—

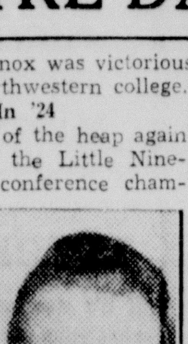
The team was unbeatable except for Chicago, which won a hard-fought contest, 5 to 0, and Nebraska, winner by 7 to 0. And Nebraska, say Knox alumni, wouldn't play until Knox withdrew its negro halfback and scoring ace.

But, it isn't necessary to go so far back in history to find the name of Knox emblazoned on the golden pages of gridiron deeds.

In 1919 Sam Berry, now University of Southern California basketball coach, turned out a grid team which rolled up 405 points while going through an undefeated season. Seven points were scored against that team, but in that game Knox was victorious by 55 to 7 over Northwestern college.

Again In '24

Knox was on top of the heap again in 1924 when both the Little Nineteen and Midwest conference championships were annexed. The only defeat was a 19 to 10 affair at the hands of Drake.



Pete Reynolds

Five years later Knox again was in the limelight when the 1929 team won eight cut of nine games, losing only to Coe by a 5 to 3 margin.

What has happened since then has been a nightmare to Knox and everybody here is willing and eager to forget it as soon as possible.

But the fact remains that starting with 1930 athletes suddenly stopped enrolling at Knox and didn't begin again until last year. Defeats replaced victories and in 1932 Earl R. Jackson, who had coached the last championship team, was given his walking papers after 11 consecutive losses.

No Regular Coach

The following year no football coach was hired and the job fell to Maj. Leigh Bell, commander of the R. O. T. C. He had only 18 men on his tiny squad—not enough for scrimmages. So, the team lost eight more games and ran the total of defeats up to 19.

Last year the task of winning a game for Old Siwash fell to Lloyd Burdick, former University of Illinois athlete and professional player and wrestler.

His team not only lost its entire schedule, but failed to register a single point against any opponent. Then Burdick departed.

On the horizon then appeared Pete Reynolds, who retired from coaching ten years before to enter business in Chicago. Previously he had handled grid affairs at Syracuse, Bucknell and Hobart.

As Thanksgiving nears Reynolds' head is far from the axe-man's block. Although he was accused of purposely selecting a set-up foe in order to gain a victory when his team beat Principia in the opener, the squad came back the following week and licked one of Knox's special foes, Augustana, 6 to 0. Since then things have been going nicely for Knox and Reynolds.

One reason, of course, for the success of Old Siwash this year is to be found in last year's freshman squad which boasted some of the best material seen on the campus in years.

And this year's yearlings are virtually as good as last year's, which almost assures Knox of two or three good teams in the immediate future.

Imagine Knox beating Notre Dame. The old grads are willing to imagine it—at some future date.

GOPHERS WALLOP PURDUE, 29 TO 7

Minnesota Wins 21st Consecutive Victory Before 44,000 Fans

MINNEAPOLIS, Nov. 2.—(AP)—Minnesota's galloping Gophers, still in tune with the victory march, wrote another score of triumph today over Purdue's Boilermakers with a 29 to 7 conquest that gave last year's national champions an unbeaten string of 21 gridiron battles.

George Roscoe, the hard-smashing half, sounded the opening keynote of victory with a touchdown in the first period but it remained for "Touchdown Tuffy" Thompson, to electrify the Dad's Day crowd of about 44,000 with thrilling runs through the entire Purdue team, one of which netted a score.

Both teams lost possible touchdowns through penalties, Purdue missing a score after Tom McGannon made a brilliant 98-yard run on the kickoff in the fourth period, only to have the ball recalled because the Boilermakers had been holding.

Minnesota made 11 first downs for 294 yards by rushing to 14 for Purdue, which gave the Boilermakers 172 yards by rushing. Most of Purdue's first downs were made by passing.

SYRACUSE SHADES PENN STATE, 7 TO 3

ARCHBALD STADIUM, SYRACUSE, N. Y., Nov. 2.—(AP)—Tallying in the last two minutes of play after being held scoreless throughout, Syracuse's unbeaten gridiron warriors nosed out Penn State, 7 to 3, in a dramatic battle here today before 10,000 howling fans.

Vannie Albanese of Manlius, N. Y., dashed 10 yards for the winning counter after receiving a forward pass from Ray Reckmack of Cheshire, Mass. He place-kicked the point.

N. CAROLINA WHIPS N. C. STATE, 35-6

RIDDICK FIELD, RALEIGH, N. C., Nov. 2.—(AP)—The Tarheels of the University of North Carolina displayed a versatile attack and then took advantage of every opportunity offered by a daring aerial game of North Carolina State's Wolfpack here today to march on undefeated with a 35-to-6 triumph over the Wolves before 18,000 persons.

SOUTHERN METHODIST WALLOPS TEXAS, 20-0

DALLAS, Texas, Nov. 2.—(AP)—Coach Madison Bell's Southern Methodist Mustangs scored in the first, second and fourth periods here today to beat the University of Texas, 20 to 0. It was the Mustangs' second 1935 Southwest conference victory and their seventh win this season.

An estimated crowd of 20,000 persons saw Robert Wilson, the Mustangs' candidate for all-American honors, lead his mates to victory.

3,000 STUDENTS TO GO TO ATHENS

Gov. Allen Guarantees That Number For Trip To Georgia Game

NEW ORLEANS, Nov. 2.—(AP)—Ira F. Schwegel, general passenger agent for the Louisville and Nashville railroad, said here today that Governor O. K. Allen had personally guaranteed that 3,000 students of Louisiana State university including the university band and cadet corps, would make the football pilgrimage to Athens, Ga., for the Georgia-L. S. U. football game November 16.

Schwegel quoted Governor Allen as saying he was carrying out the wishes of the late Senator Huey P. Long who last year led nearly the entire Louisiana State student body to Nashville for the L. S. U.-Vanderbilt game.

Schwegel said he did not know whether Governor Allen would advance fares to students who could not afford the trip as Senator Long did at $7 a head. Long passed out thousands of dollars for fares of students, taking penciled receipts, but later demanding return payment.

Governor Allen plans to make the trip to Athens with the students, Schwegel said.

The special trains will be routed over the Louisiana and Arkansas right-of-way to New Orleans, Schwegel said, transferring here to the Louisville and Nashville road.

Stops will be made in Mobile and Montgomery, Ala., and Atlanta, Ga., with the student band scheduled to give concerts in Mobile and Atlanta as well as drills by the cadet military corps.

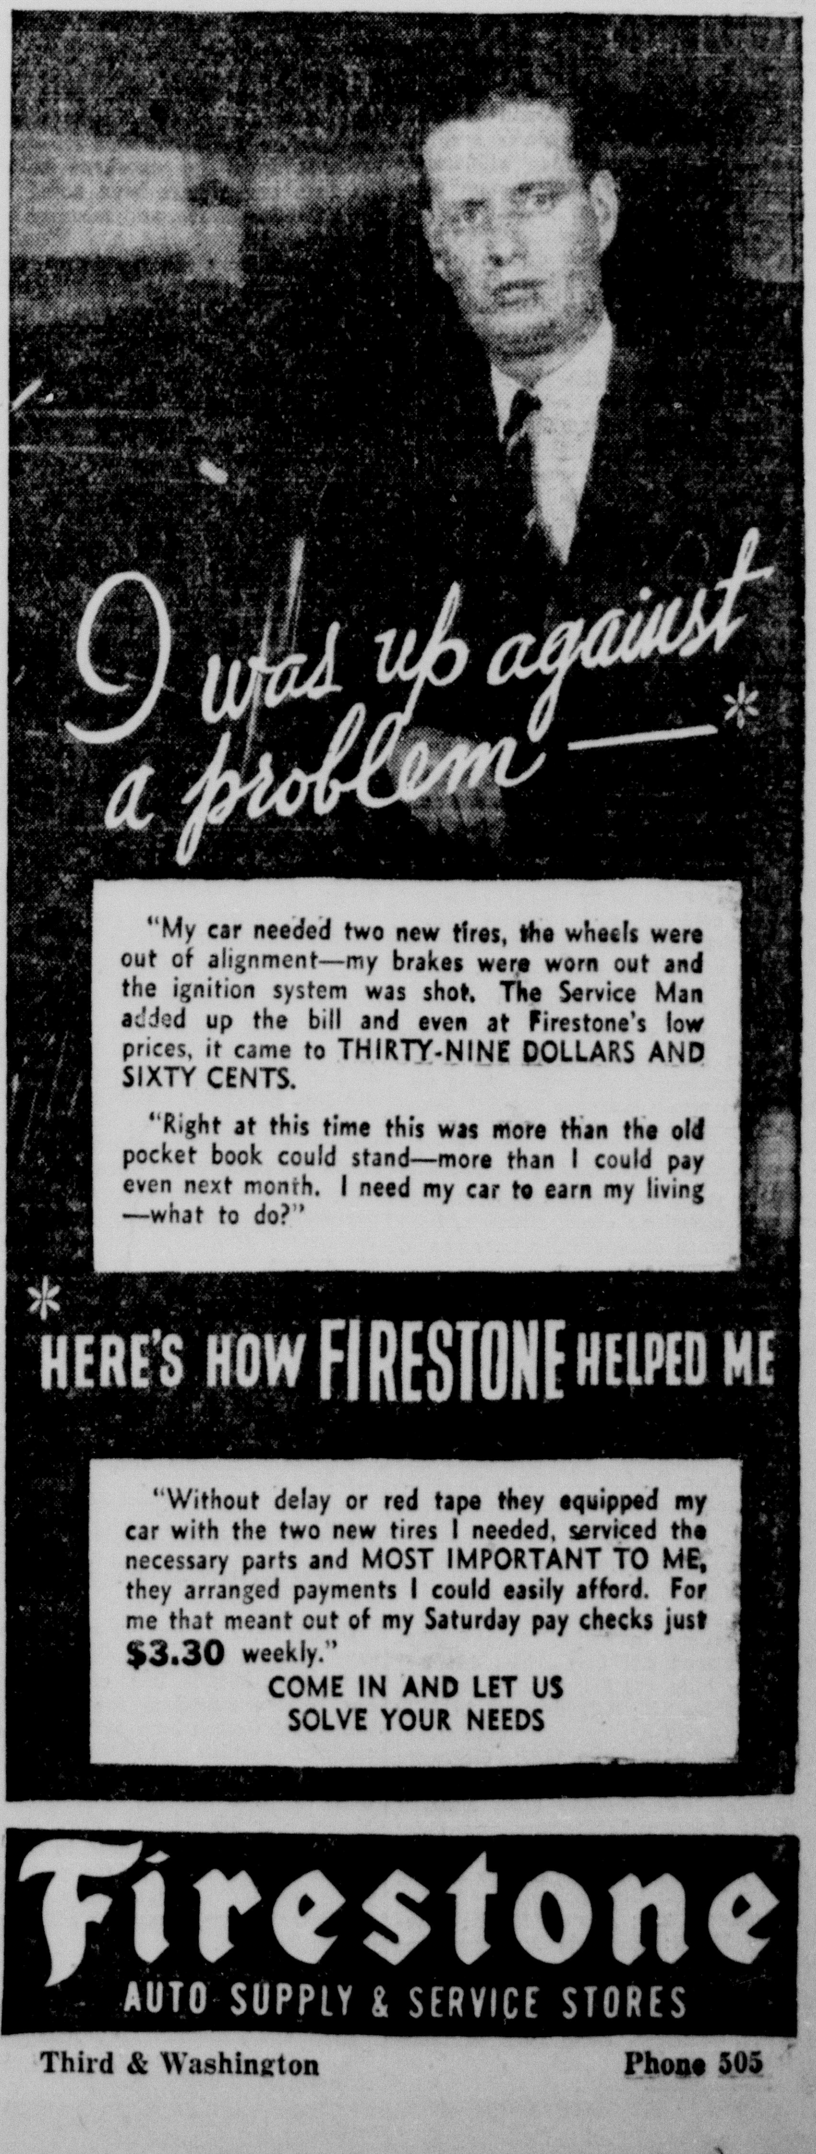
WISNER TO BATTLE PROVIDENCE ELEVEN

WISNER, La., Nov. 2.—(Special) After playing four games without a point being scored against them, the Wisner Bulldogs are looking forward to a close game Friday when the Lake Providence team comes here for what promises to be the best tilt of the season.

At the beginning of the season the Providence eleven was rated by some coaches in North Louisiana as the underdogs but they soon overcame this by defeating some of their strongest foes and from all indications the Bulldogs will clash with a team well their equal.

Special attention will be directed to second-stringers next week as Coach Peel expects to use all he has in order to defeat the mighty eleven from East Carroll.

With the record attained thus far by the Bulldogs they should be vieing with the best of them for Class B honors this season.



INDUSTRIAL AND REVIEW OF THE TWIN CITIES

SUSPECT PLACED IN RUSTON JAIL

Former Monroe Negro Accused Of Passing Counterfeit Money

RUSTON, La., Nov. 2—(Special)—Andrew Curtis, also known as "Black Boy" Curtis, former Monroe negro, who has been in numerous altercations with the law during the past few years, was yesterday placed in the Lincoln parish jail by Sheriff A. J. Thigpen and today charged with passing a counterfeit ten dollar bill in a negro merchant's store near Ruston several weeks ago. Two weeks ago Curtis was arrested on a charge of hi-jacking a negro gambling game in Bienville parish, but was later released when the charges were dropped.

Jesse Cobbler, who identified Curtis as the person who gave him the bogus bill, was questioned by bank authorities some time ago when he offered the bill for deposit in his account. According to the bank officials the department of justice was notified and a "pick-up" order went out for Curtis.

When questioned by local authorities regarding the counterfeit bill, Curtis claimed he received it while in Shreveport a few days ago.

It has not yet been determined whether or not this bill is a part of the $300 counterfeit money reported to have been put in circulation in this vicinity by three men, now serving terms in federal prisons, however, according to Sheriff Thigpen only $280 of that amount has so far been accounted for.

Sheriff Thigpen today telephoned United States District Attorney Roberts at Shreveport and reported that he was holding Curtis on a counterfeiting charge. It is understood that Curtis will be transferred to the federal jail Monday to be held for trial.

'Y' CAMPAIGN FOR FINANCE TO START

'Coffee Hour' Monday Will Usher In Drive Slated Here

The annual financial drive of the Young Women's Christian association will be started on Monday morning with a "coffee hour" at 9:30 o'clock at the "Y."

Committees, in which 18 women will volunteer their services, have been arranged by Mrs. C. K. Dickard, chairman of the teams' committee. All received their instructions, and final arrangements were effected the past week so that there will be no delay in getting started.

The committee members will report daily at the "Y" as to the progress of the campaign.

Money for the carrying on of the work of the "Y" is vitally needed, those in charge declared. The institution is housed in a large building at Washington and North Second streets. There are 30 rooms and all are now taken, furnishing wholesome surroundings for young women who are afforded no other home.

There are 110 girls and young women in the Girl Reserves, and fully 85 others visit the "Y" many nights weekly to enjoy the entertainment and instructions the institution affords.

Besides many clubs, there are frequent lectures on literary subjects, current topics, etiquette and many other subjects that are important in the lives of young women.

Money is now vitally needed to keep this institution functioning properly, where young women can be surrounded by a good, clean homelike influence.

Mrs. Fagan Cox is the executive secretary and is giving much time and effort to the well being of those who come within her influence.

Livestock

CHICAGO, Nov. 2—(AP)—(USDA)—Cattle 1,000, calves 300; compared Friday last week; fat steers and yearlings sold higher early in week but closed 25 lower; late undertone very dull, adversely affected by sluggish dressed trade; common and medium killers fully steady; assisted by fairly active demand stockers and feeders which sold higher early in week only to close 25 lower than high time, generally steady to weak compared week earlier; clearance replacement cattle good; vealers steady, with closing undertone weak; extreme top fed steers 13.25; yearlings 12.75.

Sheep 2,000; for week ending Friday 5,700 directs. Compared Friday last week: most fat lambs steady, top 15 lower, slaughter ewes, however, held early gains, closing fully 25, spots 50 higher; week's bulk native and range lambs 9.25-75; fed "comebacks" 9.35-90 mostly, load good 87 lb. weights at inside late; yearlings 7.00-8.00 mostly, top on high day 8.50; slaughter ewes 3.00-4.75, bulk around 3.50-4.50, top 4.85, a new high since May.

Hogs 3,500, including 3,000 direct; few sales about steady with Friday's average; choice 210-230 lb. 9.35; good medium weight and weighty sows 8.00-25.

Foreign Exchange

NEW YORK, Nov. 2—(AP)—Foreign exchange steady; Great Britain in dollars; others in cents. Great Britain demand 4.91 3-4; cables 4.91 3-4; 60 day bills 4.90 3-4; France Demand 6.59; cables 6.59; Italy demand 8.11 1-2; cables 8.11 1-2.

Demands: Belgium 16.85; Germany free 40.25, reg. tourist 21.00, reg. commercial 19.35; Holland 67.85; Norway 24.71; Sweden 25.36; Denmark 21.96; Finland 2.18; Switzerland 32.51; Spain 13.66; Portugal 4.47 1-2; Greece .94 1-2; Poland 18.86; Czechoslovakia 4.14 1-2; Jugoslavia 2.29; Austria 18.85N; Hungary 29.70N; Rumania .83; Argentine 32.80N; Brazil 8.57N; Tokyo 28.75; Shanghai 31.90; Hong Kong 42.90; Mexico City 27.85; Montreal in New York 99.86 7-8; New York in Montreal 100.06 1-8.

SINGING COUNTESS

You have to go to Capri to enjoy its scenic delights, but the beautiful Italian island sends the Countess Caneva de Riverola to delight America with her songs. The singing countess is pictured on her arrival in New York on a recital tour.

HUNTERS FAVOR ELECTRICK MAID

Nimrods Of City Drop By Popular Shop While En Route To Woods

Popularity of the Electrik Maid Bake shop, 404 DeSiard street, is attested not only by the fact that many housewives call there for the breads and pastries, but also by the fact that persons of many walks of life, hunters especially, are customers of the shop.

The shop has become an early morning headquarters for hunting parties. Calling there for their first cup of coffee of the day and for their breakfasts, served by the restaurant department of the establishment, the hunters purchase bread and cookies and foods from the delicatessen department for their outdoor lunch later in the day.

Some of the hunters carry to the woods sandwiches made for them at the restaurant, and many of them carry the restaurant's special brand of coffee with them in thermos bottles.

G. K. Primos, owner and operator of the Electrik Maid Bake shop, believes that one of the prime requisites for the success of such an establishment must be excellent coffee. His firm has always been noted for its distinctive coffee, and recently Mr. Primos purchased and had installed in his establishment the latest type of coffee urn obtainable.

Known as the American Beauty coffee urn, the percolator has three sections, the center section automatically supplying steam and hot water which drip onto coffee in the other sections.

The urn is finished in green enamel trimmed with chromium plate. The inside walls are made of glass.

The restaurant makes fresh coffee every hour and a half. Four hundred cups are served there each morning from 5 to 8 o'clock.

MAYOR'S MOTHER DIES IN RAYVILLE

Mrs. John Jones, 61, Succumbs At Home Of Son; Funeral Today

Mrs. John Jones, 61, mother of Mayor William T. Jones of Rayville, died at the home of her son there at 5:15 p.m. Saturday, according to word received here last night. She was well known and highly regarded by a wide circle of friends and acquaintances.

Surviving are her son, with whom she resided, two sisters, Mrs. C. W. Perkins of Ruston, Mrs. G. F. Dalton of Fostoria, Texas, and three brothers, E. S. Harper of West Monroe, A. K. Harper and T. L. Harper, all of New Orleans.

The funeral will be held at 3 p.m. today at the home of Mayor Jones in Rayville. Rev. J. T. Harris, pastor of the Methodist church there, will officiate and interment will be made in the Mazonic cemetery.

NEW PASTOR ASSIGNED TO CHURCH AT DODSON

DODSON, La., Nov. 2—(Special)—According to an announcement made here, Rev. Morris Lee, of Chatham, has been assigned to the Methodist Protestant church here by the annual conference which met recently.

Rev. Lee, while a young man, is said to have already distinguished himself for his ability. Rev. Edwin Grant, of Grayson, has been in charge of the church here for the past two years and has now accepted a pastorate in Oklahoma, where he will begin his duties soon.

Poultry

CHICAGO, Nov. 2—(AP)—Poultry, live, 13 trucks, steady, prices unchanged.

JUMBO TIRES ARE USED IN ETHIOPIA

American Doctor Writes Concerning Roads Of African Nation

In the heart of the Italian-Ethiopian conflict, in Addis Ababa, capital of Ethiopia, an American surgeon, Dr. T. C. Nicola, is working long hours these days caring for wounded Ethiopian soldiers brought in from the firing line.

Two years ago, Dr. Nicola left America for his new post in the Zauditu Memorial hospital, conducted by the S. D. A. Mission at Filwoha in Addis Ababa. In a letter from Addis Ababa, just as the Italian advance was getting under way, Dr. Nicola writes to American friends of some of his experiences.

"There is not much in the way of roads at all here," Dr. Nicola writes. "If you will look on the latest national Geographic map of Ethiopia, you will see there are no roads shown.

"Here in the city of Addis Ababa, there are a few miles of fairly-well surfaced streets—probably eight or ten miles in all. The other streets and the roads on the outside that are passable in the rainy season are paved by roughly laying stones which will average in size larger than a man's head. These are piled rather than paced on the road, so there is a very rough surface presented. There is absolutely nothing in America to compare it to.

"Such roads tend to literally tear a car apart, to say nothing of the punishment they give tires.

"When I left America to come out here as a surgeon, I had some advance information as to what the roads were like, so I had my new Chevrolet sedan equipped with General Jumbo tires all around.

"From the first, it was evident that the choice had been a wise one. The way these Jumbo tires have stood up has been a marvel to us. Not only that, but they have saved the car so that it does not have the rattles and squeaks that most cars here have after the first thousand miles.

"The other doctor at the hospital here has a car of the same model as mine and it has traveled about the same distance. I have had to change a tire only once and have not had a single puncture or stone bruise.

"On the other hand, the standard tires on the other doctor's car have been suffering from stone bruises and punctures on an average of twice a week.

"The only time I had to change one of my tires was when I was driving through water about a foot deep and dropped into a rut or hole in the rock road and the whole tire and almost the wheel was torn off bodily.

"They are still in good condition as far as can be seen, as the tread is good. It looks as if the only thing that would ruin them soon is the possibility of their getting into the line of fire from Ethiopian or Italian bullets.

"I have been so pleased with the service my Jumbo tires have given me here that I felt constrained to write about them. So far, I have the only set in Ethiopia."

WAR IS DECLARED ON PUBLIC ENEMY

Tires Worn Smooth Are Far More Dangerous Than Gangster Bullets

For every person killed by gangster bullets, hundreds are killed and thousands are injured by the real public enemy No. 1, smooth, worn tires. Right here in Monroe this fiend is lurking, according to K. S. Elliott of the Twin City Tire store.

"Every person driving or riding in an automobile or truck with smooth, worn tires is taking his property, even his life in his hands," Mr. Elliott said. "With winter rains, snow and sleet it behooves every car and truck owner to give some serious consideration to the condition of his tires. If a car skids on a wet street or road, the chances are that it will either skid into another car, post or into a ditch. The damage to the car is usually far more costly than having smooth, worn tires made safe by retreading, to say nothing of doctor, hospital and funeral expenses."

"If we could impress upon the motoring public the danger of smooth, worn tires and improperly adjusted brakes, we could eliminate a great percentage of traffic accidents," a prominent local traffic officer said.

Tire retreading is now a recognized economy by the United States government in nearly all branches that use motor vehicles. The government makes it a point of safety to watch all tires carefully, and as soon as the non-skid rubber is worn off a new heavy non-skid tread is rebuilt by retreaders who are equipped to do careful work.

This is also true of large national concerns who operate large fleets of trucks and motor cars.

The Twin City Tire store is located at Hall and Harrison streets and is one of the most completely equipped tire rebuilding plants in the south. It is operated by men who have had many years experience in this highly specialized work, and they invite the public to bring their cars to them for a complete inspection of the tires. There is no charge or obligation for this service.

"We are able to save motorists costly accidents as well as actual money with our service," G. J. Eberts of the firm said, "and we urge them to join us in this fight against public enemy No. 1."

DIXIE FEATURES ALL SANDWICHES

Tom Leos Has Made Progressive Steps To Popularize Restaurant

This is the oyster season and the Dixie Sandwich shop at 407 Walnut street is featuring fresh oysters from the gulf.

Tom Leos is operator of the popular establishment and he features many kinds of sandwiches which he originates himself. Among some of them is the Dixie Special sandwich which is sold for 15 cents. The double deck hamburger is a good meal in itself for 10 cents.

A chicken dinner plate lunch is served every day at the Dixie Sandwich shop. Many persons are making this well known place a regular Sunday evening stop for dinner. Popular prices prevail on all orders.

For those who wish to be served in the car plenty of parking spoce is available and curb service is featured at all hours.

Inside Mr. Leos has built-in booths to seat many of his customers. Excellent service is rendered at all times.

Dixie Sandwich shop is conveniently located near the downtown area on one of the main streets of Monroe. It is ideally situated for those who take afternoon or evening drives and desire supper in the car.

An invitation is extended to the citizens of the Twin Cities to try this popular eating place and see for themselves the quality food.

SOLDIERS SHOULD NOT SWEAR

To "discourage swearing" among Italian troops, military chaplains will shortly present to each soldier a little book of "short and fragrant anecdotes." The work is fully illustrated and small enough to fit a uniform pocket. It is hoped to make the fighters polite as well as efficient.

A Copenhagen restaurant offers 157 varieties of sandwiches, ranging from birds' nest to cactus flower honey, to its patrons.

1936 CHEVROLET CAR ANNOUNCED

Lee-Rogers Chevrolet Company To Show New Model At 223 Walnut Street

New Master de luxe and Standard Chevrolets for 1936, embodying marked advances in styling, engineering, and performance, were introduced November 2 at the New York automobile show and simultaneously throughout the country at dealer salesrooms, which have already been liberally stocked with new models for display and delivery. Lee-Rogers Chevrolet company at 223 Walnut street is the local dealer.

Completeness in equipment, in appointments, and in convenience is stressed in the company's 1936 announcement.

The Master de luxe, offered with either knee action or conventional springing, has been restyled in its more important appearance elements, notably by the adoption of a higher and narrower grille of distinctively original design, in combination with a new treatment of the hood louvres, new style headlamps mounted on the sides of the radiator shell, and new interior trim.

The lower-priced Standard models have been completely redesigned in chassis and bodies. Last year the Standards differed materially both in appearance and in construction from the Masters; this year, the two lines are identical in all major features of styling, engineering, and performance, the chief difference being only a matter of wheelbase.

Outstanding among the many new features of both Master and Standard models for 1936 are perfected hydraulic brakes; improved engines having higher compression ratio (6 to 1), balanced carburetor, full-length water jacketing, and other changes resulting in better cooling and improved gasoline and oil economy and cromodine rust-prevention of fenders and running boards.

Front doors of all models of both lines are now hinged at the front.

The solid steel turret top, exclusive last year with the Master models has been adopted this year for the Standard line also. Spoke-type pressed steel wheels, instead of whire wheels, are used on all Standard models.

Body interiors of Master models show marked advances in comfort and style. An important innovation is found in the design of the front seating arrangement of the Master coach and town sedan. Instead of the usual divided and hinged front seat of two-door models, a single seat cushion extends the full width of the car, permitting three passengers to ride comfortably. The seat-back is divided, the right side section being hinged to fold forward over the seat cushion to open a passageway to the rear compartment.

C Chevrolet's standard models for 1936, besides incorporating features that appear for the first time on the masters, take their place in the line as entirely new models, with new box girder chassis frame, more powerful engine, longer wheel-base and larger bodies. The line of body types has been increased to seven by the addition of three models—the four-door sport sedan with built-in trunk, the two-door town sedan with built-in trunk, and the cabriolet.

The standard model wheelbase, formerly 107 inches, is now 109, while its overall length, last year 170 1-2 inches, is 12 to 13 inches greater. Bodies are longer and wider—with more leg room, wider seats and additional head room. Car weight is increased 135 pounds. Springing has been improved by the use of longer front and shorter rear springs, which possess more nearly equal frequencies and so minimize pitching.

Side rails and cross members of the new standard frame are all of rigid box section, a type of construction that has appeared on costly European cars but never before in the low price field in this country. Although greatly increased in strength and in stiffness, the box girder members add so greatly to the rigidity of the structure that only three cross members are required. The extreme simplicity of the frame greatly facilitates access to chassis units for lubrication and service operations.

Horsepower of the standard, formerly 74, has been increased to 79 at 3200 r.p.m. by changes in combustion chamber design, valve operation, and carburetion in combination with an increase in compression ratio from 5.6 to 1 to 6 to 1.

Clutch improvements include the use of a new "shot-blast" process of treating cushion springs of the disc, and a more accurate alignment of the release levers. A rail-type shifting mechanism on the transmission with positive interlock, has been substituted for the plate type formerly used. Fuel tank capacity, formerly 11 gallons, is now 14. A ventilated generator has been adopted.

METAL TUBES IN ATWATER KENT

Compact And Console Models Are Displayed By St. John Electric

Atwater Kent for 1936 is featuring "control room reception." This remarkable advance makes it possible to catch every note, every voice inflection in your home, just as it sounds in the studio.

A complete line of compact and console models with the same Atwater Kent quality is furnished in a wide selection of beautifully finished cabinets. There are 12 different models from which to choose, including a battery operated 32-volt model.

Foreign and short wave stations are easily received on the new model Atwater Kent and clearer programs add much to the enjoyment of these new models. The short wave frequencies provide reception of United States and foreign programs, police, amateur and aviation services in the range 540 to 1720 kilocycles and from 5400 to 18,000 kilocycles.

The new metal tubes of the latest design have been installed in the new Atwater Kent this year. These tubes are the last word in radio design and greatly aid in the reception.

Among many other features are selective-fidelity which combines full tone quality, four position tone control, large dynamic speaker, automatic volume control, and shadow tuning with variable two speed control.

The cabinets are finished in walnut and attractive American walnut pilasters with inlaid bands.

These models can be seen at St. John Electric company, 211 DeSiard street. Demonstrations will gladly be given to parties interested in the 1936 models which are now on display. This department can be reached by calling 2047.

WOMEN SERVE FOR HUSBANDS

Because husbands are too busy to serve on coroner's juries in Hammersmith, England, they are sending their wives to take their places. And the women say they enjoy the experience. There were six women on a jury of nine recently chosen to investigate a death.

SUSPECT PLACED IN RUSTON JAIL

Former Monroe Negro Accused Of Passing Counterfeit Money

RUSTON, La., Nov. 2.—(Special)—Andrew Curtis, also known as "Black Boy" Curtis, former Monroe negro, who has been in numerous altercations with the law during the past few years, was yesterday placed in the Lincoln parish jail by Sheriff A. J. Thigpen and today charged with passing a counterfeit ten dollar bill in a negro merchant's store near Ruston several weeks ago. Two weeks ago Curtis was arrested on a charge of hi-jacking a negro gambling game in Bienville parish, but was later released when the charges were dropped.

Jesse Cobbler, who identified Curtis as the person who gave him the bogus bill, was questioned by bank authorities some time ago when he offered the bill for deposit in his account. According to the bank officials the department of justice was notified and a "pick-up" order went out for Curtis.

When questioned by local authorities regarding the counterfeit bill, Curtis claimed he received it while in Shreveport a few days ago.

It has not yet been determined whether or not this bill is a part of the $300 counterfeit money reported to have been put in circulation in this vicinity by three men, now serving terms in federal prisons, however, according to Sheriff Thigpen only $280 of that amount has so far been accounted for.

Sheriff Thigpen today telephoned United States District Attorney Roberts at Shreveport and reported that he was holding Curtis on a counterfeiting charge. It is understood that Curtis will be transferred to the federal jail Monday to be held for trial.

'Y' CAMPAIGN FOR FINANCE TO START

'Coffee Hour' Monday Will Usher In Drive Slated Here

The annual financial drive of the Young Women's Christian association will be started on Monday morning with a "coffee hour" at 9:30 o'clock at the "Y."

Committees, in which 18 women will volunteer their services, have been arranged by Mrs. C. K. Dickard, chairman of the teams' committee. All received their instructions, and final arrangements were effected the past week so that there will be no delay in getting started.

The committee members will report daily at the "Y" as to the progress of the campaign.

Money for the carrying on of the work of the "Y" is vitally needed, those in charge declared. The institution is housed in a large building at Washington and North Second streets. There are 30 rooms and all are now taken, furnishing wholesome surroundings for young women who are afforded no other home.

There are 110 girls and young women in the Girl Reserves, and fully 35 others visit the "Y" many nights weekly to enjoy the entertainment and instructions the institution affords.

Besides many clubs, there are frequent lectures on literary subjects, current topics, etiquette and many other subjects that are important in the lives of young women.

Money is now vitally needed to keep this institution functioning properly, where young women can be surrounded by a good, clean homelike influence.

Mrs. Fagan Cox is the executive secretary and is giving much time and effort to the well being of those who come within her influence.

Livestock

CHICAGO, Nov. 2.—(AP)—(USDA)—Cattle 1,000, calves 300; compared Friday last week; fat steers and yearlings sold higher early in week but closed 25 lower; late undertone very dull, adversely affected by sluggish dressed trade; common and medium killers fully steady; assisted by fairly active demand stockers and feeders which sold higher early in week only to close 25 lower than high time, generally steady to weak compared week earlier; clearance replacement cattle good; vealers steady, with closing undertone weak; extreme top fed steers 13.25; yearlings 12.75.

Sheep 2,000; for week ending Friday 5,700 directs. Compared Friday last week: most fat lambs steady, top 15 lower, slaughter ewes, however, held early gains, closing fully 25, spots 50 higher; week's bulk native and range lambs 9.25-75; fed "comebacks" 9.35-90 mostly, load good 87 lb. weights at inside late; yearlings 7.00-8.00 mostly, top on high day 8.50; slaughter ewes 3.00-4.75, bulk around 3.50-4.50, top 4.85, a new high since May.

Hogs 3,500, including 3,000 direct; few sales about steady with Friday's average; choice 210-230 lb. 9.35; good medium weight and weighty sows 8.00-25.

Foreign Exchange

SINGING COUNTESS

You have to go to Capri to enjoy its scenic delights, but the beautiful Italian island sends the Countess Caneva de Riverola to delight America with her songs. The singing countess is pictured on her arrival in New York on a recital tour.

HUNTERS FAVOR ELECTRICK MAID

Nimrods Of City Drop By Popular Shop While En Route To Woods

Popularity of the Electrik Maid Bake shop, 404 DeSiard street, is attested not only by the fact that many housewives call there for breads and pastries, but also by the fact that persons of many walks of life, hunters especially, are customers of the shop.

The shop has become an early morning headquarters for hunting parties. Calling there for their first cup of coffee of the day and for their breakfasts, served by the restaurant department of the establishment, the hunters purchase bread and cookies and foods from the delicatessen department for their outdoor lunch later in the day.

Some of the hunters carry to the woods sandwiches made for them at the restaurant, and many of them carry the restaurant's special brand of coffee with them in thermos bottles.

G. K. Primos, owner and operator of the Electrik Maid Bake shop, believes that one of the prime requisites for the success of such an establishment must be excellent coffee. His firm has always been noted for its distinctive coffee, and recently Mr. Primos purchased and had installed in his establishment the latest type of coffee urn obtainable.

Known as the American Beauty coffee urn, the percolator has three sections, the center section automatically supplying steam and hot water which drip onto coffee in the other sections.

The urn is finished in green enamel trimmed with chromium plate. The inside walls are made of glass.

The restaurant makes fresh coffee every hour and a half. Four hundred cups are served there each morning from 5 to 8 o'clock.

MAYOR'S MOTHER DIES IN RAYVILLE

Mrs. John Jones, 61, Succumbs At Home Of Son; Funeral Today

Mrs. John Jones, 61, mother of Mayor William T. Jones of Rayville, died at the home of her son there at 5:15 p.m. Saturday, according to word received here last night. She was well known and highly regarded by a wide circle of friends and acquaintances.

Surviving are her son, with whom she resided, two sisters, Mrs. C. W. Perkins of Ruston, Mrs. G. F. Dalton of Fostoria, Texas, and three brothers, E. S. Harper of West Monroe, A. K. Harper and T. L. Harper, all of New Orleans.

The funeral will be held at 3 p.m. today at the home of Mayor Jones in Rayville. Rev. J. T. Harris, pastor of the Methodist church there, will officiate and interment will be made in the Masonic cemetery.

NEW PASTOR ASSIGNED TO CHURCH AT DODSON

DODSON, La., Nov. 2.—(Special)—According to an announcement made here, Rev. Morris Lee, of Chatham, has been assigned to the Methodist Protestant church here by the annual conference which met recently.

Rev. Lee, while a young man, is said to have already distinguished himself for his ability. Rev. Edwin Grant, of Grayson, has been in charge of the church here for the past two years and has now accepted a pastorate in Oklahoma, where he will begin his duties soon.

Poultry

CHICAGO, Nov. 2.—(AP)—Poultry, live, 13 trucks, steady, prices unchanged.

INDUSTRIAL AND REVIEW OF THE TWIN CITIES

JUMBO TIRES ARE USED IN ETHIOPIA

American Doctor Writes Concerning Roads Of African Nation

In the heart of the Italian-Ethiopian conflict, in Addis Ababa, capital of Ethiopia, an American surgeon, Dr. T. C. Nicola, is working long hours these days caring for wounded Ethiopian soldiers brought in from the firing line.

Two years ago, Dr. Nicola left America for his new post in the Zauditu Memorial hospital, conducted by the S. D. A. Mission at Filwoha in Addis Ababa. In a letter from Addis Ababa, just as the Italian advance was getting under way, Dr. Nicola writes to American friends of some of his experiences.

"There is not much in the way of roads at all here," Dr. Nicola writes. "If you will look on the latest national Geographic map of Ethiopia, you will see there are no roads shown.

"Here in the city of Addis Ababa, there are a few miles of fairly-well surfaced streets—probably eight or ten miles in all. The other streets and the roads on the outside that are passable in the rainy season are paved by roughly laying stones which will average in size larger than a man's head. These are piled rather than paced on the road, so there is a very rough surface presented. There is absolutely nothing in America to compare it to.

"Such roads tend to literally tear a car apart, to say nothing of the punishment they give tires.

"When I left America to come out here as a surgeon, I had some advance information as to what the roads were like, so I had my new Chevrolet sedan equipped with General Jumbo tires all around.

"From the first, it was evident that the choice had been a wise one. The way these Jumbo tires have stood up has been a marvel to us. Not only that, but they have saved the car so that it does not have the rattles and squeaks that most cars here have after the first thousand miles.

"The other doctor at the hospital here has a car of the same model as mine and it has traveled about the same distance. I have had to change a tire only once and have not had a single puncture or stone bruise.

"On the other hand, the standard tires on the other doctor's car have been suffering from stone bruises and punctures on an average of twice a week.

"The only time I had to change one of my tires was when I was driving through water about a foot deep and dropped into a rut or hole in the rock road and the whole tire and almost the wheel was torn off bodily.

"They are still in good condition as far as can be seen, as the tread is good. It looks as if the only thing that would ruin them soon is the possibility of their getting into the line of fire from Ethiopian or Italian bullets.

"I have been so pleased with the service my Jumbo tires have given me here that I felt constrained to write about them. So far, I have the only set in Ethiopia."

WAR IS DECLARED ON PUBLIC ENEMY

Tires Worn Smooth Are Far More Dangerous Than Gangster Bullets

For every person killed by gangster bullets, hundreds are killed and thousands are injured by the real public enemy No. 1, smooth, worn tires. Right here in Monroe this fiend is lurking, according to K. S. Elliott of the Twin City Tire store.

"Every person driving or riding in an automobile or truck with smooth, worn tires is taking his property, even his life in his hands," Mr. Elliott said. "With winter rains, snow and sleet it behooves every car and truck owner to give some serious consideration to the condition of his tires. If a car skids on a wet street or road, the chances are that it will either skid into another car, post or into a ditch. The damage to the car is usually far more costly than having smooth, worn tires made safe by retreading, to say nothing of doctor, hospital and funeral expenses."

"If we could impress upon the motoring public the danger of smooth, worn tires and improperly adjusted brakes, we could eliminate a great percentage of traffic accidents," a prominent local traffic officer said.

Tire retreading is now a recognized economy by the United States government in nearly all branches that use motor vehicles. The government makes it a point of safety to watch all tires carefully, and as soon as the non-skid rubber is worn off a new heavy non-skid tread is rebuilt by retreaders who are equipped to do careful work.

This is also true of large national concerns who operate large fleets of trucks and motor cars.

The Twin City Tire store is located at Hall and Harrison streets and is one of the most completely equipped tire rebuilding plants in the south. It is operated by men who have had many years experience in this highly specialized work, and they invite the public to bring their cars to them for a complete inspection of the tires. There is no charge or obligation for this service.

"We are able to save motorists costly accidents as well as actual money with our service," G. J. Eberts of the firm said, "and we urge them to join us in this fight against public enemy No. 1."

DIXIE FEATURES ALL SANDWICHES

1936 CHEVROLET CAR ANNOUNCED

Lee-Rogers Chevrolet Company To Show New Model At 223 Walnut Street

New Master de luxe and Standard Chevrolets for 1936, embodying marked advances in styling, engineering, and performance, were introduced November 2 at the New York automobile show and simultaneously throughout the country at dealer salesrooms, which have already been liberally stocked with new models for display and delivery. Lee-Rogers Chevrolet company at 223 Walnut street is the local dealer.

Completeness in equipment, in appointments, and in convenience is stressed in the company's 1936 announcement.

The Master de luxe, offered with either knee action or conventional springing, has been restyled in its more important appearance elements, notably by the adoption of a higher and narrower grille of distinctively original design, in combination with a new treatment of the hood louvres, new style headlamps mounted on the sides of the radiator shell, and new interior trim.

The lower-priced Standard models have been completely redesigned in chassis and bodies. Last year the Standards differed materially both in appearance and in construction from the Masters; this year, the two lines are identical in all major features of styling, engineering, and performance, the chief difference being only a matter of wheelbase.

Outstanding among the many new features of both Master and Standard models for 1936 are perfected hydraulic brakes; improved engines having higher compression ratio (6 to 1), balanced carburetor, full-length water jacketing, and other changes resulting in better cooling and improved gasoline and oil economy and cromodine rust-prevention of fenders and running boards.

Front doors of all models of both lines are now hinged at the front.

The solid steel turret top, exclusive last year with the Master models has been adopted this year for the Standard line also. Spoke-type pressed steel wheels, instead of whire wheels, are used on all Standard models.

Body interiors of Master models show marked advances in comfort and style. An important innovation is found in the design of the front seating arrangement of the Master coach and town sedan. Instead of the usual divided and hinged front seat of two-door models, a single seat cushion extends the full width of the car, permitting three passengers to ride comfortably. The seat-back is divided, the right side section being hinged to fold forward over the seat cushion to open a passageway to the rear compartment.

C Chevrolet's standard models for 1936, besides incorporating features that appear for the first time on the masters, take their place in the line as entirely new models, with new box girder chassis frame, more powerful engine, longer wheel-base and larger bodies. The line of body types has been increased to seven by the addition of three models—the four-door sport sedan with built-in trunk, the two-door town sedan with built-in trunk, and the cabriolet.

The standard model wheelbase, formerly 107 inches, is now 109, while its overall length, last year 170 1-2 inches, is 12 to 13 inches greater. Bodies are longer and wider—with more leg room, wider seats and additional head room. Car weight is increased 135 pounds. Springing has been improved by the use of longer front and shorter rear springs, which possess more nearly equal frequencies and so minimize pitching.

Side rails and cross members of the new standard frame are all of rigid box section, a type of construction that has appeared on costly European cars but never before in the low price field in this country. Although greatly increased in strength and in stiffness, the box girder members add so greatly to the rigidity of the structure that only three cross members are required. The extreme simplicity of the frame greatly facilitates access to chassis units for lubrication and service operations.

Horsepower of the standard, formerly 74, has been increased to 79 at 3200 r.p.m. by changes in combustion chamber design, valve operation, and carburetion in combination with an increase in compression ratio from 5.6 to 1 to 6 to 1.

Clutch improvements include the use of a new "shot-blast" process of treating cushion springs of the disc, and a more accurate alignment of the release levers. A rail-type shifting mechanism on the transmission with positive interlock, has been substituted for the plate type formerly used. Fuel tank capacity, formerly 11 gallons, is now 14. A ventilated generator has been adopted.

METAL TUBES IN ATWATER KENT

Compact And Console Models Are Displayed By St. John Electric

Atwater Kent for 1936 is featuring "control room reception." This remarkable advance makes it possible to catch every note, every voice inflection in your home, just as it sounds in the studio.

Oct.	10.63	10.65	10.62	10.62

B—Bid.

ORLEANS SPOT COTTON

NEW ORLEANS, Nov. 2.—(AP)—Spot cotton closed steady, 7 points down. Sales, 4,204; low middling 10.58; middling 11.38; good middling 11.93; receipts 11,441; stock 650,075.

AVERAGE MIDDLING PRICE

NEW ORLEANS, Nov. 2.—(AP)—The average price of middling cotton today ten southern spot markets was 11.13 cents a pound. The government subsidy on today's sales will be 0.87 cents a pound.

New York

NEW YORK, Nov. 2.—(AP)—After holding fairly steady during the early trading cotton eased slightly today under southern hedging and week-end realizing or liquidation.

In contrast to the recent ruling, near months were relatively easy with December selling off to 10.95, or 7 points net lower and closing at that figure 33 points above October compared with a difference of 40 points yesterday. The general market closed barely steady, net unchanged to 7 points lower.

Cotton futures barely steady unchanged to 7 lower.

	Open	High	Low	Last
Dec.	11.03	11.03	10.95	10.95-96
Jan.	10.90	10.90	10.86	10.86-87
Mch.	10.87	10.87	10.80	10.80-82

New York Stocks

By Victor Eubank

(Associated Press Financial Writer)

NEW YORK, Nov. 2.—Mixed price movements ruled in today's brief stock market session as profit takers decided to take home a little cash over the week-end.

The alcohols were resistant and some of the chemicals and specialties displayed strength, but recent leaders milled about indecisively. The close was a bit uneven. Transfers approximated 1,200,000 shares.

The economic picture had more bright spots than otherwise and the European situation was no more disturbing than usual. At the same time some of the pessimists felt that various stocks may have discounted the highest possible earnings over the next year or so.

The new share casualties of Friday exhibited reviving tendencies, notably Paramount Pictures first preferred and Auburn which came back around a point each. But the rails and utilities were laggards. Kennecott was active and slightly improved. The other coppers marked time, along with the oils, steels, farm equipments and merchandising issues.

Grains and cotton did little. Bonds were steady. With the exception of far eastern currencies, which were again weak, most foreign exchanges were quiet.

Shares of Fairbanks Morse, Maytag and Du Pont got up 2 to 3 points. Timken Roller Bearing gained 1. Issues steady to moderately higher included Goodrich, Houdaille-Hershey, Consolidated Gas, Phelps Dodge, American Smelting, Columbian Carbon, Adams Express, National Distillers and Schenley. Santa Fe and Allied Chemical dropped a point each. Columbia Gas was off as much.

Brokers expected a selective attitude toward equities to continue over the near term, the occasional profit taking flurries aiding in the consolidation of gains.

In view of the huge volume of idle funds still pressing for employment, however, together with the fact that margin trading is at a minimum and stocks, generally, are being bought for cash, most analysts anticipated no serious reaction.

Markets -:- Financial

Cotton

New Orleans

NEW ORLEANS, Nov. 2.—(AP)—Tired long liquidation and light hedge sales unsettled the cotton market in the short session today and futures lost from 6 to 9 points in quiet trading.

Professional buying which had developed on prospects of colder weather in the northern section of the belt became discouraged when the thearmometer today showed moderate readings for all areas and holdings were sold.

There were light offerings of cotton in the distant months against purchases of the raw staple in the interior.

Final prices were at the lows of the day and Dec. closed at 10.97, March at 10.82, May at 10.79 and Oct. at 10.62.

Liverpool was quiet during its trading period and that market made little progress in either direction.

Exports today were 36,677 bales.

Cotton futures closed steady at net declines of 6 to 9 points.

	Open	High	Low	Close

Oct.	10.63	10.65	10.62	10.62

B—Bid.

ORLEANS SPOT COTTON

NEW ORLEANS, Nov. 2.—(AP)—Spot cotton closed steady, 7 points down. Sales, 4,204; low middling 10.58; midding 11.38; good middling 11.93; receipts 11,441; stock 650,075.

AVERAGE MIDDLING PRICE

NEW ORLEANS, Nov. 2.—(AP)—The average price of middling cotton today at ten southern spot markets was 11.13 cents a pound. The government subsidy on today's sales was 0.87 cents a pound.

New York

NEW YORK, Nov. 2.—(AP)—After holding fairly steady during the early trading cotton eased slightly today under southern hedging and week-end realizing or liquidation.

In contrast to the recent ruling, near months were relatively easy with December selling off to 10.95, or 7 points net lower and closing at that figure or 33 points above October compared with a difference of 40 points yesterday. The general market closed barely steady, net unchanged to 7 points lower.

Cotton futures barely steady unchanged to 7 lower.

	Open	High	Low	Last
Dec.	11.03	11.03	10.95	10.95-96

July	10.81	10.83	10.78	10.78-79
Oct.	10.64	10.66	10.62	10.62

Spot steady; middling 11.35.

Liverpool

LIVERPOOL, Nov. 2.—(AP)—Cotton, 3,000 bales, American nil, spot moderate business done; prices two points lower; quotations in pence: American strict good middling 7.03; good middling 6.73; strict middling 6.58; middling 6.43; strict low middling 6.28; low middling 6.03; strict good ordinary 5.83; good ordinary 5.53. Futures closed steady. December 6.16; January 6.12; March 6.10; May 6.07; July 6.04; October 5.87.

Cottonseed Oil

New Orleans

NEW ORLEANS, La., Nov. 2.—(AP)—Cottonseed oil closed steady. Prime summer yellow 8.87 1-2 to 9.00; prime crude 9.80-10.00. Nov. 9.83B; Dec. 9.85B; Jan. 9.85B; Mar. 9.89B; May 9.93B.

B—Bid.

NEW YORK

NEW YORK, Nov. 2.—(AP)—Bleachable cottonseed oil futures closed barely steady March 10.26b; May 10.30-31. Sales 5 contracts. B—Bid.

Sugar

NEW YORK, Nov. 2.—(AP)—Raw sugar was easier today with spot prices down 10 points to the basis of 3.50. Over-quota sugars were unchanged to 3.28.

The only sales reported were 24,500 bags of either Cubas or duty free from store late yesterday, while today 2,400 bags of Puerto Ricos due Monday were sold to local refiners at 3.50.

Early advances of 1 to 2 points in futures were lost in the later trading under liquidation. January contracts sold from 2.19 to 2.18 while May reacted from 2.24 to 2.23, the market closing unchanged to 2 points net lower. Sales 3,100 tons.

Refined was unchanged at 5.30 for fine granulated with re-sales at 5.15 to 5.20. Business was light.

Butter And Eggs

CHICAGO, Nov. 2.—(AP)—Butter, 7,514, steady; prices unchanged. Eggs 1,865, firm; extra firsts 29; fresh graded firsts 28 1-2; current receipts 25-27 1-2; refrigerator extras 24 1-4, standards 24, firsts 23 3-4.

New York Stocks

By Victor Eubank
(Associated Press Financial Writer)

NEW YORK, Nov. 2.—Mixed price movements ruled in today's brief stock market session as profit takers decided to take home a little cash over the week-end.

The alcohols were resistant and some of the chemicals and specialties displayed strength, but recent leaders milled about indecisively. The close was a bit uneven. Transfers approximated 1,200,000 shares.

The economic picture had more bright spots than otherwise and the European situation was no more disturbing than usual. At the same time some of the pessimists felt that various stocks may have discounted the highest possible earnings over the next year or so.

The new share casualties of Friday exhibited reviving tendencies, notably Paramount Pictures first preferred and Auburn which came back around a point each. But the rails and utilities were laggards. Kennecott was active and slightly improved. The other coppers marked time, along with the oils, steels, farm equipments and merchandising issues.

Grains and cotton did little. Bonds were steady. With the exception of far eastern currencies, which were again weak, most foreign exchanges were quiet.

Shares of Fairbanks Morse, Maytag and Du Pont got up 2 to 3 points. Timken Roller Bearing gained 1. Issues steady to moderately higher included Goodrich, Houdaille-Hershey, Consolidated Gas, Phelps Dodge, American Smelting, Columbian Carbon, Adams Express, National Distillers and Schenley. Santa Fe and Allied Chemical dropped a point each. Columbia Gas was off as much.

Brokers expected a selective attitude toward equities to continue over the near term, the occasional profit taking flurries aiding in the consolidation of gains.

In view of the huge volume of idle funds still pressing for employment, however, together with the fact that margin trading is at a minimum and stocks, generally, are being bought for cash, most analysts anticipated no serious reaction.

MARKETS AT A GLANCE

NEW YORK, Nov. 2.—(AP)—Stocks irregular; week-end profit taking stems advance. Bonds steady; U. S. governments improve. Curb mixed; specialties and oils higher. Foreign exchanges quiet; leading currencies narrow. Cotton steady; local and southern hedge selling. Sugar quiet; commission house buying. Coffee quiet; European buying.

CHICAGO.—Wheat irregular; European tension bullish. Corn easy; receipts liberal. Cattle nominally steady. Hogs about steady; top $9.35.

Chicago Grain

CHICAGO, Nov. 2. — (AP) — Wheat prices went downward early today after a show of steadiness at the outset.

Opening unchanged to 1-8 lower, December 97 7-8 to 98, wheat soon declined all around. Corn started 1-8-1-2 off, December 57 3-4 to 58, and then dropped further.

Wheat closed irregular, 1-4 off to 7-8 up compared with yesterday's finish, December 98 5-8 to 3-4, corn unchanged to 1-4 lower, December 58, oats at 1-4 decline, and provisions unchanged to 10 cents down.

LOUISIANA LEGION IS FAR IN LEAD

Telegraphic Roll Call Places It For Sixth Time In 'Big Ten'

That Louisiana for the sixth consecutive year will be placed in the "big ten" in its Legion membership drive, surpassing most states in the union, was the information received here Saturday by E. L. Gladney, Jr., fifth district commander. This is based on estimated reports and it is necessary that all membership cards be in by Armistice day.

Mr. Gladney stated that on Sunday, November 10, a district membership roundup will be held.

The following instructions are given as to procedure:

Area A, Area Commander Sam Orchard will pick up membership cards of his area, Monroe, Bastrop, Columbia, West Monroe and Sterlington, and will turn them over to the fifth district commander at Hotel Virginia at 6 p.m.

Area B, Area Commander Barnett will pick up cards at Ruston, Farmerville, Jonesboro, Hodge and Bernice and deliver same to the district commander at 6 p.m. at Hotel Virginia.

Area C, Area Commander Dr. Hamley will pick up cards at Oak Grove, Tallulah, Lake Providence and St. Joseph and deliver to District Vice-Commander Hunt at Rayville at 4:30 p.m.

Area D, Area Commander McDonald will pick up cards at Vidalia Ferriday, Monterey, Jonesville and Harrisonburg, and deliver same to District Vice-Commander Hunt at Winnsboro at 3:30 p.m.

Area E, District Vice-Commander Hunt will pick up cards at Delhi, Winnsboro, Crowville and Rayville and leave for Monroe at 5 p.m. He will turn over cards of Area C, D, and E, at Hotel Virginia at 6 p.m.

Mr. Gladney will then see that all cards are rushed to New Orleans, departmental headquarters, so that they may all be in by Armistice day.

Bill Perhamus, L. B. Faulk post commander, urged all members of the membership committees, chairmen of the Armistice day parade and all members of the post to attend the Legion meeting here at 8 p.m. Monday at the Legion home. At that time final plans will be completed for the holding of the Armistice day celebration here. He stressed the importance that there be an attendance of all who are to take active part in the day's program.

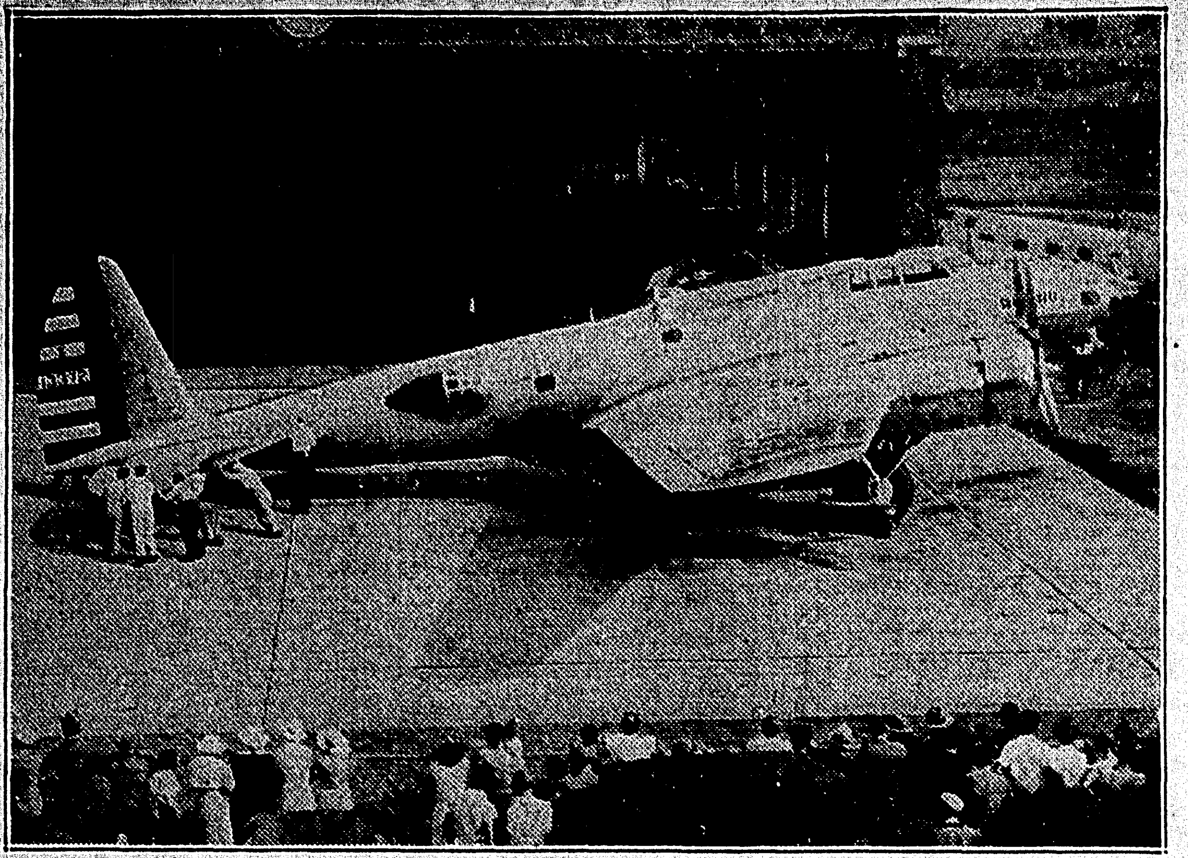
CRASH OF BIG ARMY PLANE KILLS 1, INJURES 4



This gigantic Boeing army bomber, one of the largest land planes in the United States, crashed to earth during a test flight at Dayton Ohio, killing Major P. P. Hill, chief of the air corps firing division, and injuring four other men. This picture shows the huge craft being rolled from its hangar at Seattle just before its flight to Wright field at Dayton. (Associated Press Photo)

MONTHLY POLICE REPORT IS GIVEN

175 Cases Tried In City Court; $548 In Fines Is Collected

One hundred and seventy-five cases were tried in the Monroe city court in October, $548 in fines was collected and $2,900 in fines was charged to the streets, it was shown yesterday in the monthly report of the police department. Fines stayed or suspended amounted to $777.

Sixteen of the cases were tried for the state and 159 for the city. Fines were meted in 14 of the state cases and 133 of the city cases. Two state cases were discharged and 20 city court cases were discharged. Convictions were made in a total of 147 cases out of the 175 tried.

The fines of 71 persons were charged to work on the streets. Total number of days on the streets imposed by the court were 930 for the city and 1,200 for the state.

Offenses of persons arrested were as follows: Aggravated assault, 1; burglary, breaking and entering, 1; larceny over $50 in value, 1; larceny under $50 in value, 15; minor assault, 22; carrying concealed weapons, 3; sex offenses, 12; driving a motor vehicle while intoxicated, 3; liquor law violations, 2; drunkenness, 55; disorderly conduct, 5; vagrancy, 11; gambling, 2; traffic and motor vehicle laws, 30; all other offenses, 19; investigation, 12.

Three automobiles were stolen here during the month. One was recovered here, another was recovered by authorities and the third is still missing.

Forty-six vehicle accidents, two of them involving motor vehicles and pedestrians, were reported during the month.

DISTRICT COURT TO OPEN MONDAY

Regular Two-Week Fall Term Scheduled To Start Here At 10 a. m.

The regular two-week fall term of the district court here will open at the courthouse tomorrow morning at 10 o'clock.

Cases scheduled [illegible] the day are the following: Selvin [illegible]risco, negro, striking with a dangerous weapon with intent to kill; Willie Calloway, negro, wounding less than mayhem; Willie Calloway and Lawrence Bumper, both negroes, kidnaping Delia Shaw, negro woman.

In the kidnaping case, the defendants are accused of forcing the woman to accompany them to Shreveport. She resides on the White's Ferry road.

No cases of special interest and which involve white defendants are listed on the docket. One case of interest, set for trial on Wednesday of next week, is that of Eddie "Booster" Heinman, negro, charged with shooting with intent to kill while perpetrating a robbery, an offense punishable by death. Heinman and Clarence Neal, another negro, are jointly charged with robbery in another case scheduled for trial on the same day.

The negroes are accused of robbing a number of couples here in parked automobiles at night. Heinman is charged with shooting one of his robbery victims, James Stark, Jr., 26-year-old negro.

ANXIETY IS FELT OVER GULF STRIKE OF LONGSHOREMEN

NEW ORLEANS, Nov. 2.—(AP)—Anxiety over the outcome of the International Longshoremen's association gulf ports strike and picketing maneuvers was expressed today from many quarters while the frontier remained quiet.

Steamship men loaded ships and unloaded ships with non-I. L. A. labor and claimed that their contracts with the independents were inviolable while the I. L. A. sought to break those contracts in their demands for I. L. A. recognition.

One gulf port, Lake Charles, La., was in indefinite suspension of activities during the controversy because of the recent gun battle in which three docks guards were fatally wounded.

But New Orleans, Gulfport and other ports carried on their usual activities under police protection in spite of picketing operations and sporadic outbursts of violence which featured shootings.

OBITUARY

REV. A. J. COBURN

MARION, La., Nov. 2.—(Special)—Friends here of Rev. A. J. Coburn, retired Methodist minister, have learned of his death at his home in Ponchatoula on October 30. He was born in Hindman, Ky., and was 77 years of age. He formerly practiced law, but entered the Methodist ministry in Kentucky in 1897, joining the Louisiana conference in 1900. He filled pastorates in various sections of the state and was pastor of the churches here and at Farmerville for four years ending about 1912 or 1913. He was pastor at Ponchatoula in 1921-22, retiring from the ministry in 1926. He leaves his widow and two sons, J. B. Coburn of Monticello, Ark., and J. W. Coburn of Little Rock, Ark.

Fish can be kept fresh for three months by means of a new process of brine freezing perfected in England.

VETERANS WILL GO TO BASTROP

V. F. W. Post Members Will Visit Group In Morehouse Parish

Members of Rodney J. Hobbs post, Veterans of Foreign Wars, together with their drum and bugle corps and auxiliary, will attend and participate in the installation of the newly-elected officers of Boone-McDowell post at Bastrop Monday.

Mayor Ludlum of Bastrop will address the assemblage, as will several Monroe veterans, including C. E. McKenzie, who will discuss "The Veteran in Politics;" Ted Madsen, who will talk on "The Veterans of Foreign Wars;" William Rodriguez, who will give an address on "Free Trade and Single Tax."

The meeting will be followed by a barbecue. There will also be a parade by the Monroe drum and bugle corps.

The local delegation will leave the clubhouse, Harrison and Hall streets, at 7 p.m. City and parish officials here are invited to attend as guests of honor.

The program of installation will be conducted by C. A. Hunt, Monroe post commander and past department commander.

DR. H. GUERRIERO ACCORDED HONOR

Is Awarded Fellowship In American College Of Surgeons

Dr. H. E. Guerriero, well known Monroe physician, on Friday night at the twenty-third convocation of the board of regents of the American College of Surgeons in the Scottish Rite auditorium, in San Francisco, Calif., was conferred a fellowship in the college group.

The exercises were of a highly impressive nature, the official cap and gown of the college being worn in the convocation by all candidates who received their fellowships in the college.

Dr. Guerriero has been a practicing physician here since 1927. He was educated in the public schools of Monroe, graduating from the Ouachita parish high school with the class of 1919. He received the degree of bachelor of science from Tulane university in 1923, and the degree of doctor of medicine from the same institution in 1925. After having served two years of internship in Charity hospital in New Orleans he returned to Monroe to engage in practice.

NEGRO WIELDS AXE IN SLAYING WIFE AND WOUNDING MAN

BASTROP, La., Nov. 2.—(Special)—Wielding an axe, a negro, known as "Doll" Gray, 28, struck his wife in the head and killed her instantly tonight, and then turned on Johnny Bowman, negro, 30, seriously wounding him with the weapon. Gray went on the rampage with the axe after he discovered his wife and Bowman together at his home.

Bowman, a patient at a hospital here, is not expected to live.

Gray was held here in the Morehouse parish jail.

His wife was Lula Gray, 25. They resided in a negro residential section in Bastrop.

Arthur Harris, negro, 28, was thrown from the back of a horse and suffered a broken neck, dying instantly, today on the Miller plantation, near Bonita. Dr. R. B. Leavell, parish coroner, reported that the negro had been drinking liquor.

NORTHERN STORM HEADS SOUTHWARD ALONG COASTLINE

JACKSONVILLE, Fla., Nov. 2.—(AP)—A northern storm, carrying winds of hurricane force, was southbound tonight on a freakish course off the Atlantic coast line.

An advisory this afternoon placed the center 320 miles off Savannah, and said the direction of movement was south southwest or south.

Walter J. Bennett, meteorologist here, said the storm did not offer any immediate danger to the Florida mainland. He said if it continues its present course it will have no effect on weather conditions on the coast, and that even a sharp westward curve would not bring it into this area before tomorrow night.

Bennett said the storm had "an extremely unusual movement." He said a storm not of tropical origin sometimes takes on characteristics of a tropical disturbance if it moves southward. He described the present storm as an "extra-tropical" disturbance.

Political Activities

'HOME RULE' CANDIDATES TO SPEAK IN MONROE

Congressman Cleveland Dear, candidate for governor, together with Congressman John N. Sandlin, the candidate for United States senator, will be the principal speakers at the first rally to be held in the fifth district by the leaders of the "Home Rule Ticket," at Neville high school auditorium next Thursday night at 7:30 o'clock.

Other speakers at the rally will include Clement Moss, candidate for lieutenant-governor; Francis Williams, candidate for secretary of state; Philo Coco, candidate for attorney general; W. T. Mayo, candidate for state treasurer; E. H. Fisher, candidate for superintendent of education; Wilfred Begnaud, candidate for auditor; George M. Lester, candidate for commissioner of agriculture; Jules A. Carville, candidate for register of state land office.

The rally here is to be held in connection with a state-wide tour being made by the members of the independent ticket. Supporters of the "home rule" movement from all sections of northeast Louisiana are expected to be present at the gathering.

ATKINSON WITHDRAWS FROM COMMISSIONER RACE

Will Atkinson, whose announcement as a candidate for the office of commissioner of streets and parks was made several days ago, formally withdrew from the contest in a public statement made Saturday. Mr. Atkinson said that he had reached a decision not to make the race after a careful consideration of the situation. He expressed his thanks to his many friends for their promises of support. Mr. Atkinson was commissioner of streets and parks for four years from 1927 to 1931. Six candidates remain in the race for the office at the coming primaries, as follows: R. D. Swayze, incumbent; W. C. Bridges, C. R. Tidwell, J. G. Bell, V. J. Buttita, Vernon Lee Ellerbe.

PARISH MARRIAGES SHOW MYSTERIOUS MONTHLY INCREASE

Marriages in Ouachita parish during the past month, for some unexplained reason, increased by about a score over the average for recent months. An even eighty couples were issued marriage licenses during the month from the office of Pat S. Hamilton, parish clerk of court.

The marriage fever was contagious during the month to old and young alike, ages such as 59, 60 and 62 being recorded in the license books, as well as such ages as 16, 17 and 19.

The urge to marry did not spare (or did not fail to bless) three couples whose ages in each instance made the groom an even 20 years older than his bride. In eight other marriages the groom was more than 10 years older than his bride.

One theory was advanced as possibly explaining to some extent the growing movement to get married. This was that the crops are harvested, cotton money is circulating, there is less work in the farm areas to be done, and having nothing better or worse to do, folks got married.

NOE, ALLEN GET OIL PERMIT IN ARKANSAS

SHREVEPORT, La., Nov. 2.—(AP)—Active operations in the Rodessa field Saturday extended into a third state—Arkansas—with the taking out by Gov. O. K. Allen and Lieut.-Gov. James A. Noe of a permit for their Embree Heirs No. 1, SW SW section 9-20-28, Miller county.

Operations which got their impetus in Louisiana in July when the discovery well was completed have since extended into Cass county, Texas, where two tests are being drilled.

If tires are not kept inflated to the proper pressure, blowouts, resulting from breaks in the sidewalls, are likely to occur unexpectedly.

LOUISIANA LEGION IS FAR IN LEAD

Telegraphic Roll Call Places It For Sixth Time In 'Big Ten'

That Louisiana for the sixth consecutive year will be placed in the "big ten" in its Legion membership drive, surpassing most states in the union, was the information received here Saturday by E. L. Gladney, Jr., fifth district commander. This is based on estimated reports and it is necessary that all membership cards be in by Armistice day.

Mr. Gladney stated that on Sunday, November 10, a district membership roundup will be held.

The following instructions are given as to procedure:

Area A, Area Commander Sam Orchard will pick up membership cards of his area, Monroe, Bastrop, Columbia, West Monroe and Sterlington, and will turn them over to the fifth district commander at Hotel Virginia at 6 p.m.

Area B, Area Commander Barnett will pick up cards at Ruston, Farmerville, Jonesboro, Hodge and Bernice and deliver same to the district commander at 6 p.m. at Hotel Virginia.

Area C, Area Commander Dr. Hamley will pick up cards at Oak Grove, Tallulah, Lake Providence and St. Joseph and deliver to District Vice-Commander Hunt at Rayville at 4:30 p.m.

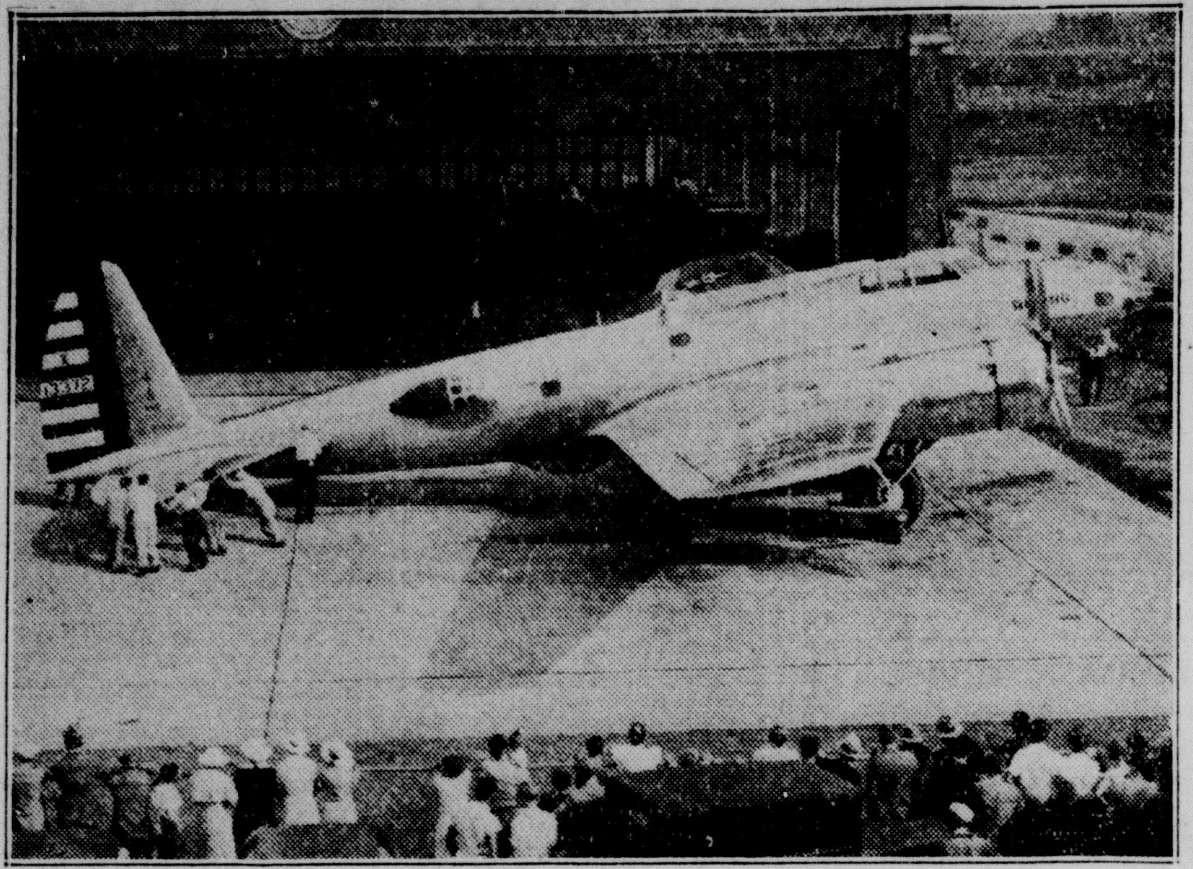
Area D, Area Commander McDonald will pick up cards at Vidalia Ferriday, Monterey, Jonesville and Harrisonburg, and deliver same to District Vice-Commander Hunt at Winnsboro at 3:30 p.m.

Area E, District Vice-Commander Hunt will pick up cards at Delhi, Winnsboro, Crowville and Rayville and leave for Monroe at 5 p.m. He will turn over cards of Area C, D, and E, at Hotel Virginia at 6 p.m.

Mr. Gladney will then see that all cards are rushed to New Orleans, departmental headquarters, so that they may all be in by Armistice day.

Bill Perhamus, L. B. Faulk post commander, urged all members of the membership committees, chairmen of the Armistice day parade and all members of the post to attend the Legion meeting here at 8 p.m. Monday at the Legion home. At that time final plans will be completed for the holding of the Armistice day celebration here. He stressed the importance that there be an attendance of all who are to take active part in the day's program.

CRASH OF BIG ARMY PLANE KILLS 1, INJURES 4



This gigantic Boeing army bomber, one of the largest land planes in the United States, crashed to earth during a test flight at Dayton Ohio, killing Major P. P. Hill, chief of the air corps firing division, and injuring four other men. This picture shows the huge craft being rolled from its hangar at Seattle just before its flight to Wright field at Dayton. MONTHLY POLICE REPORT IS GIVEN

175 Cases Tried In City Court; $548 In Fines Is Collected

One hundred and seventy-five cases were tried in the Monroe city court in October, $548 in fines was collected and $2,900 in fines was charged to the streets, it was shown yesterday in the monthly report of the police department. Fines stayed or suspended amounted to $777.

Sixteen of the cases were tried for the state and 159 for the city. Fines were meted in 14 of the state cases and 133 of the city cases. Two state cases were discharged and 20 city court cases were discharged. Convictions were made in a total of 147 cases out of the 175 tried.

The fines of 71 persons were charged to work on the streets. Total number of days on the streets imposed by the court were 930 for the city and 1,200 for the state.

Offenses of persons arrested were as follows: Aggravated assault, 1; burglary, breaking and entering, 1; larceny over $50 in value, 1; larceny under $50 in value, 15; minor assault, 22; carrying concealed weapons, 3; sex offenses, 12; driving a motor vehicle while intoxicated, 3; liquor law violations, 2; drunkenness, 55; disorderly conduct, 5; vagrancy, 11; gambling, 2; traffic and motor vehicle laws, 30; all other offenses, 19; investigation, 12.

Three automobiles were stolen here during the month. One was recovered here, another was recovered by authorities and the third is still missing.

Forty-six vehicle accidents, two of them involving motor vehicles and pedestrians, were reported during the month.

DISTRICT COURT TO OPEN MONDAY

Regular Two-Week Fall Term Scheduled To Start Here At 10 a. m.

The regular two-week fall term of the district court here will open at the courthouse tomorrow morning at 10 o'clock.

Cases scheduled [illegible] the day are the following: Se[illegible] [illegible]risco, negro, striking with a dangerous weapon with intent to kill; Willie Calloway, negro, wounding less than mayhem; Willie Calloway and Lawrence Bumper, both negroes, kidnaping Delia Shaw, negro woman.

In the kidnaping case, the defendants are accused of forcing the woman to accompany them to Shreveport. She resides on the White's Ferry road.

No cases of special interest and which involve white defendants are listed on the docket. One case of interest, set for trial on Wednesday of next week, is that of Eddie "Booster" Heinman, negro, charged with shooting with intent to kill while perpetrating a robbery, an offense punishable by death. Heinman and Clarence Neal, another negro, are jointly charged with robbery in another case scheduled for trial on the same day.

The negroes are accused of robbing a number of couples here in parked automobiles at night. Heinman is charged with shooting one of his robbery victims, James Stark, Jr., 26-year-old negro.

ANXIETY IS FELT OVER GULF STRIKE OF LONGSHOREMEN

NEW ORLEANS, Nov. 2.—(AP)—Anxiety over the outcome of the International Longshoremen's association gulf ports strike and picketing maneuvers was expressed today from many quarters while the frontier remained quiet.

Steamship men loaded ships and unloaded ships with non-I. L. A. labor and claimed that their contracts with the independents were inviolable while the I. L. A. sought to break those contracts in their demands for I. L. A. recognition.

One gulf port, Lake Charles, La., was in indefinite suspension of activities during the controversy because of the recent gun battle in which three docks guards were fatally wounded.

But New Orleans, Gulfport and other ports carried on their usual activities under police protection in spite of picketing operations and sporadic outbursts of violence which featured shootings.

OBITUARY

REV. A. J. COBURN

MARION, La., Nov. 2.—(Special)—Friends here of Rev. A. J. Coburn, retired Methodist minister, have learned of his death at his home in Ponchatoula on October 30. He was born in Hindman, Ky., and was 77 years of age. He formerly practiced law, but entered the Methodist ministry in Kentucky in 1897, joining the Louisiana conference in 1900. He filled pastorates in various sections of the state and was pastor of the churches here and at Farmerville for four years ending about 1912 or 1913. He was pastor at Ponchatoula in 1921-22, retiring from the ministry in 1926. He leaves his widow and two sons, J. B. Coburn of Monticello, Ark., and J. W. Coburn of Little Rock, Ark.

Fish can be kept fresh for three months by means of a new process of brine freezing perfected in England.

Holiday Shopping Season Is Near At Hand In Monroe

Lazy Fall Period Is Nearly At End

Some Have Already Done Their Winter Buying, While Others Are In The Midst Of It; City To Lose Leader

By Eve Bradford

November! Drink in the beauty of autumn while there is yet time, as it will slip away any moment now. The hush that hangs over everything, the lazy blue mist, the yellow moon, the wistful pause will soon be gone and the hectic, hurried holidays will soon be upon us. Walk, while you may, among the crisp, brown leaves and forget about the national debt, the war clouds and the uncertain future. The whispering of the rustling leaves underfoot is like the music of the spheres to those whose ears are attuned. Fallen leaves make pictures rise in the subconscious mind. Have you ever thought how much they are like "the bright colors of a patch-work quilt drawn by the wind over trundle beds where violets dream of spring awakening"? The oaks, proud patriarchs, are the very last to shed their leaves, which cling tenaciously. Each one that falls gives a sad little crackling sound. For a hundred years or more, our glorious oaks have borne children and watched them go back to the earth. They were waving their branches boldly in the wind when the Ouachita Indians took shelter beneath them, when Monroe was just a small trading post and French settlers and trappers were the first white men. Generation after generation has come and gone, and the oaks go placidly on rearing their families. They stand aloof, these silent autumn nights, waiting for the leaves to fall and crooning their ancient lullaby.

The hectic season has already commenced for Mona Weaks. We saw her shopping for an evening gown and for some sport clothes the other day. She is going to attend a house party at the Oscar Nelson palatial farm in White Sulphur Springs, Virginia, and that of course calls for some swanky clothes. Frances McHenry has also accepted an invitation from the Oscar Nelsons and is looking for a riding habit as she intends to enjoy the Virginia countryside from the back of one of the Nelson's famous thoroughbred horses.

Some one else who is finding life complicated these days is Bernice Nichols. Of course you saw her announcement this morning. Joel is going to keep right on working until the wedding day, and that means Bernice will have to arrange every detail of the wedding. She is most certainly capable, however, and we are anticipating a beautiful setting for the ceremony.

Edith Meyer has evidently done her winter shopping. Saw her at the flower show in a white wool suit, with white, wide-brimmed felt hat. On another occasion last week, we saw her wearing a handsome pink lace cocktail frock that was unusually chic.

Speaking of the flower show reminds us of the occasional tables arranged by several members. On one we noticed a framed photograph of a handsome boy and discovered it to be Clarence Faulk the third. He claimed as much admiration as the flowers. Another beautiful specimen was Louisette Trousdale, the blonde curly-headed daughter of the George Trousdales. She was the cynosure of all eyes in a blue frock and shaking hands with everyone with all the poise of a young debutante.

And now we have some bad news for you. William Grasse will soon step out of our civic and social life forever. Seeking broader fields, he has accepted a position in Hattiesburg, Miss. It is impossible to estimate the good he has done in this city in a cultural way. He reached down into the rank and file for material to lift up and place on a higher plane of living. Things of a cultural nature are his special hobby. In many cases he exhibited paintings, Oriental rugs, rare china and linens and lectured on them to persons theretofore denied the beautiful things of life. In still another instance, he asked permission from several friends to let this particular group of young men and women view their homes. It is always thus: Just when a man or woman has established a special niche for himself or herself in our everyday scheme of life, along comes some one to offer even a greater inducement to join his forces.

A blessed event in the Kennedy Abington home brought the young man's maternal grandmother hurrying over from Natchez, Miss. For ten years she has waited for this event, so naturally there is much rejoicing. Elizabeth, the young man's lovely mother, is being showered with attentions. The minister who christened her, who married her and who has been her bright and shining lode star all through life, also hurried over from Natchez to bless Kennedy Abington, Jr., and shower congratulations upon the happy parents.

By the way, the E. C. Appersons, who have come back to Monroe to reside, have a lovely little daughter, Carolyn, who wears her hair in long curls. Carolyn was all wrapped up in black and orange crepe paper and wore a weird false face to frighten the guests in the lobby of the Frances hotel, where the Appersons make their home, on Hallowe'en.

Student Musicians Meet

The Student Musicians met Wednesday, October 30, at the home of Mr. Billy Reagan. It was decided that the club would have a vesper service at the Episcopal church during Christmas week. Questions on last week's text were asked by Miss Mary Jeanette Zeigler. The text for this program was given by Miss Marie Dell Horuff. A bass solo, "La Marseilloise," by deLisle, was sung by Mr. John Winkler in French. Folk songs were given by Miss Ella Rose Crawford at the piano. A violin solo, "The Spring Song," by Mendelssohn, was given by Miss Helen Vawter. Four new members were welcomed into the club: Misses Elizabeth Green, Evelyn Roll, Josephine Combs and Mr. Frank Mullens. Delicious refreshments were served to Misses Mary Jeanette Zeigler, Evelyn Roll, Josephine Combs, Beatrice Rhymes, Helen Vawter, Elizabeth Green, Marie Dell Horuff and Ella Rose Crawford, Mrs. G. A. Moffet, Mrs. Darwin Michols and Messrs. John Winkler, Wayne Wamsley, Jr., Lee Thompson, Garland Shell, Louis Monroe and Frank Mullens.

The week-end will be overflowing with pleasure for member Beta Sigma Phi sorority girls, with a tea this afternoon at the home of their sorority mother, Mrs. W. J. Veazey, outstanding. A boating party Monday evening at 8 o'clock on board Noe's Ark is also eagerly anticipated. In both instances, the pledges will be the guests of honor.

Halloween Party

Halloween, the night when goblins walk in lonely lanes and witches ride on airy broomsticks, when spectral apparitions stalk the land, will long be remembered by the young people who were fortunate enough to be included in the invitation issued by Mr. and Mrs. E. M. Steen to be their guests at their beautiful country home in honor of their four children, Evelyn, Dorothy, Ernest and Malcolm Steen.

The guests were transported down the moonlit country lanes in a truck overflowing with sweet smelling hay. Grinning pumpkins cast their mellow candlelight in the spacious living room, where an evening of merriment held sway. All the games usually associated with Halloween were introduced. Ghosts walked in weird procession and grave-yard black cats were everywhere in evidence.

The pleasures culminated in the serving of a sinister brew from an enormous black pot, presided over by a witch. The refreshments also suggested the mystic season with their decorations of black cats and pumpkin faces. Chaperones on this occasion were Mrs. Satchie Cooper, Mrs. D. E. Bourgeois, Mrs. A. K. Kilpatrick and Mr. and Mrs. Fred Hightower.

The guest list follows: Pauline Breard, Elizabeth Humble, Monnie Frazier, W. L. Burgeois, Dorothia Girault, Jack Burgeois, Bruce Burgeois, Jo Ann McDuffie, Gayle Stewart, Betty Hardman, Betty Hale, Beverly Handy, Tom Roach, June Griffin, Jimmy Burgess, Carolyn Husted, Wilford Ellis, Elise Abernathy, Barbara Ellis, Alice Collier, Virginia Newman, Jeanette Clarkson, Patricia Chidsey, Patsy Roemer, Herbert Land, Edward McGee, Laura Patton, Jean McCormick, Bunnie Zeigin, Mary Dickard, Jane Kilpatrick, Maralyn Rosenberg, Alice Brauer, Henry Sandman, Sue Mary Moore, Ann North, James Small, Gordon Surguine, George Holt, Harry Frazer, Ben Marshall, Martha Madden, Frank Surguine, Bobby Holt, Martha Madden, Vivian Harper, Elizabeth Wood, Ann Burgess, Betty Taylor, Katherine Winters, David Bubb, Billy Ensminger, Irma Ensminger, Jean Tabb, Dorothy Hodges, Satchie and Charlotte Cooper, Betty Carter, Julia Kern Liebreich, Ben Hughes, Jeau Davis, Martha Lena John, Robert Wood, Kenneth Burgeois, Eddie Pohl, Charles Marx, Bill Roach, Bill Davis, Martha Kilpatrick, Rosemary Coleman, Marness Lester, Inez Kirkland, Bill Shotwell, Ann Hayward, Sixteen Swanberg, Martha Grafton, Ada Girault, Luther Howell, John McClain, Theo McClain, Bill Husted, Betty Green, Betty Meadows, John Grayson, Sonny Ware, Joan Boardman, Betty Small, Brownie Hammock, Byrnie Handy, Chester Green, Phanor Perot, Nadia Meadows, Sally Ware, Jean Graves, Gay Noe, Jimmie Noe, Peggy Prindle, Cornelia McHenry, Louis Langford, Sam Hightower, Kathleen Ellis, Grant Boardman, Randolph Brown, John Humble, Duncan Cook, Helen Fernandez, Jerry Hightower, Fred Hightower and "Bubber" Ellis.

Recital Scheduled

The newly-organized Speech club at Northeast Center of Louisiana State university announces as its opening program an interpretation recital by Miss Grace Ingledue on Tuesday evening, November 19, at 8 p.m. at the theater of the college. Miss Ingledue is the new director of the department of speed at Northeast Center and the Speech club has chosen this means of presenting their sponsor to this community and of opening their activities. The club has a full schedule of plays, chorus reading programs and interpretation programs underway, details of which will be announced later.

Miss Ingledue comes to Northeast Center with a rich background of experience in the speech field. Since she is a professional reader, having presented many lyceum-sponsored programs in various states, the club anticipates that the people of this community will be eager to attend this recital. In addition to her stage work, Miss Ingledue has taught at Wisconsin university and Louisiana State university and has done a great deal of radio broadcasting. She has a bachelor of oratory degree from Ohio Northern university, a bachelor of arts degree from Butler university, a master of arts degree from the University of Wisconsin and has all credit work and the preliminary examinations completed toward the degree of doctor of philosophy at Louisiana State university. She is a member of Theta Alpha Phi, national dramatic fraternity; Delta Phi, debating sorority; Phi Kappa Phi, national honorary scholastic fraternity, and Tau Kappa Kappa, social sorority. She also is a member of the Order of the Eastern Star and Daughters of the Nile.

Mrs. Goldberg Entertains

Mrs. Victor Goldberg was responsible for one of the most brilliant gatherings of society of the late fall season when she welcomed forty friends in the bridge room of the Frances hotel on Friday for an afternoon of contract.

Mrs. Goldberg, wearing a smart black net model, with small close fitting hat of black velour and crimson roses at her throat, extended many gracious courtesies during the afternoon.

Baskets of roses, dahlias and golden chrysanthemums were grouped in artistic array in the background and created a colorful setting for the beautifully frocked guests.

The faultless serving of a luscious fruit salad course and coffee by white clad attendants was a distinct feature of the afternoon.

The guest list comprised: Mmes. Alec Wilenzick, E. Reims, B. Stern, Charles Grossman, Aubrey Haas, Alice Wilenzick, Mark Wilenzick, L. Cohn, Louis Hart, L. Caspari, M. Emmich, David Kaplan, David Snyder, Michael, Herman Masur, Louis Masur, Sigmund Saltzman, Louis Goldman, David Cromwell, Adler, Isadore Leibreich, S. Friedlander, David Silverstein, I. W. Jaffie, William Mintz, M. L. Gill, Abe Marks, Leon Sugar, Henry Haas, Lee Kuhn, Abe Marks, and E. Jack Selig and Miss Harriett Hirsch and Miss Anna Michael.

MISS NICHOLS TO WED

Announcement of the engagement and approaching marriage of Miss Joel Nichols, lovely daughter of Mrs. Bernice Nichols and granddaughter of Mr. and Mrs. Joseph Renwick, members of pioneer families of this section, is made today. Miss Nichols will wed Mr. William Asher Whitley of Shreveport on Thanksgiving day.

To Be Represented

Every literary club in the city will be represented by one or more delegates at the annual convention of the Louisiana Federation of Women's clubs. The meeting, to be held in Natchitoches, will start on the eighth of November and continue through the week.

Word has been received from Mrs. E. P. Cunningham of Natchitoches, convention publicity chairman, that plans for the state meeting have been completed. Much interest centers in the presence of the newly-elected president of General Federation, Mrs. Roberta Campbell Lawson, of Tulsa, Oklahoma, and Mrs. Anna Steese Richardson of New York, editor of Woman's Home Companion. Mrs. Richardson was an honor guest at the General Federation convention in Detroit last June and served as one of the judges in the federation's program building contest. Her coming to Natchitoches will give added importance to the sessions. Mrs. Lawson will come directly from Natchez, where she will attend the convention of the Mississippi Federation of Women's clubs November 6 and 7.

A social feature of the convention will be the president's breakfast given to honor Mrs. Lawson and distinguished guests Friday morning in the blue room of the Hotel Nakatosh.

A garden coffee will be given Friday afternoon at the beautiful residence of Mrs. Samuel Levy, president of Lesche club, in honor of the state president, Mrs. R. H. Agate, of Lafayette. Music will be furnished by the orchestra of the Louisiana State Normal School of Music.

Miss Catherine Winters, member of the faculty of Louisiana State Normal college, is general convention chairman. Hostess clubs are the Lesche and Phi Kappa (Fine Arts) clubs of Natchitoches, Mrs. Samuel Levy and Miss Jean Hall, presidents, respectively; the Home Builders club of Clarence, Mrs. A. A. Ragan, president, and the Home Makers club of Fairview-Alpha, Mrs. J. A. Wafer, president.

Mrs. W. M. Knott of Many, president of eighth district, is local program chairman, and Mrs. L. A. Sims of Natchitoches is convention treasurer.

Birthday Celebrated

The last regular meeting of the Busy Bee club culminated in a joyous celebration of the birthday of one of its members, Miss Dorothy Louise Waldrop. The gathering took place at the home of Mrs. Bert Coverdale.

After the meeting was adjourned, the members were invited into the dining room, where the table was gaily decorated in Halloween colors. Tiny orange and black baskets, with black cats and eerie witches guarding them, marked each cover.

A large black and orange birthday cake with thirteen glowing candles was cut and served with hot chocolate. Games typical of the season, kept everyone happily amused during the afternoon.

Lovely gifts were showered on the celebrant by the following guests: Misses Peggy Morrison, Mary Edith Breard, Marjorie Gremillion, Mildred Keller, Marilyn Rolleigh, Betty Hebert, Sybil Marie Daughtery, Veronica Wilds, Maxine Hebert, Eloise Harrison and Marjorie Wilkins.

Enjoy Halloween Party

The young people of the intermediate department of the First Methodist church, costumed for Halloween, enjoyed an evening of frivolity in the church annex. Games typical of the mystic season of Halloween created considerable merriment.

Orange punch was served during the evening with delicious little Halloween confections.

Responsible for this evening of gayety were: Mrs. J. W. Meyers, Mrs. L. C. Poindexter, Mrs. H. L. Johns, Miss Oulda Collins, Miss Eleona Brinsmade and Miss Elizabeth Langford.

Central Grammar School

Some of the objectives of the national P.-T. A. were outlined in a message from the president which was read by Mrs. Joe Dillard at the monthly meeting Wednesday of the Centra Grammar school Parent-Teacher association of the Louisiana Congress of Parents and Teachers. Mrs. W. R. Mosely read a message from the state P.-T. A. president.

Four selections were rendered by the Neville High school orchestra.

Betsy Ann Green gave an interesting reading, which was followed by the singing of "America the Beautiful" by the assemblage.

Mrs. R. R. Gatlin, P.-T. A. president, presided. Mrs. H. S. Chilton led a discussion on "The Three R's in Schools of Yesterday and Today."

Mrs. T. A. Gunter presented a paper on "Better Methods of Teaching." Mrs. C. Couch explained that a benefit motion picture show performance is proposed through the cooperation of the management of the Capitol theater. Tickets will be sold by a special committee of the P.-T. A. At the close of the discussion, it was voted to arrange for the presentation of the show. Mrs. H. S. Wilkie was named chairman of the committee in charge.

Miss Katie Key, principal of Central Grammar school, urged attendance of mothers in the meetings of the Mother Singer group which meets at the school.

The largest representation of parents at the meeting were those of pupils of the fourth grade, taught by Mrs. Hulda Mansberg.

Class Is Entertained

Members of the Harris honor class of the First Baptist church were delightfully entertained Thursday night at the home of their teacher, Mrs. Dorothy Greer, with a Halloween party.

Appropriate costumes were worn and a prize was awarded Mrs. Fances Reeves for most unique attire.

Refreshments, accentuating the Halloween colors, were served to Miss Helen Benoit, Miss Grace Elliott, Miss Marguerite Fuller, Miss Ruby Benoit, Miss Ruth Murphy, Miss Dorothy Fuller, Mrs. Eileen Stovall, Miss Georgia McCoy, Miss Beatrice Smith, Mrs. Frances Reeves, Miss Opal McCoy, Miss Mary Helen Weaver, Miss Fay Robinson, Miss Marion McCoy, and Miss Mary Graves Taylor.

Silhouette Stemlike

By Adelaide Kerr

PARIS, Nov. 2.—(AP)—A stemlike silhouette making mannequins look slim as a reed marked the new mid-season fashions launched by Roger Worth, new president of the famous old dressmaking house of that name and great-grandson of its founder.

Both day frocks and coats were built on slender lines, their only variation being occasional big sleeves which balanced the straight narrow skirts.

Black, violet, wine red and navy afternoon frocks of satin, crepe or faconne silk were generally designed with high necklines and finished with a variety of gold touches. Gold embroidery or gold tipped tassels marked belts, which were sometimes slightly lowered, while necklines were draped into gold metal loops or accented by a cluster of gold coins swinging from silk cords.

Two-toned velvet scarfs in such combinations as blue and green or cardinal-purple and orange, knotted close to the throat, added a bright touch to black or neutral toned frocks.

New coats of black or wine red wool wrapped smoothly around the figure. They were held to a straight slender line by big frog fastenings or crushed leather belts six inches wide and were topped by high collars of silver fox or nutria rising almost to the ears.

Striking fur accents marked traveling outfits or town ensembles uniting a wool frock and jacket. A hem length dark green traveling coat lined with squirrel was accompanied by a muff bag which was simply a small blanket thrown over the hands and lined with the same fur. The frock of a yellow beige wool ensemble had a collar of nutria. A dark red outfit was accompanied by a sleeveless leopard vest and toque, and the jacket of a deep green wool costume was trimmed in broadtail dyed dark green.

Greek Myths Studied

The study of "Greek Myths" by members of Miro Delphian chapter is proving most interesting. Last week's program was led by Mrs. H. A. Whitfield, who gave the following introductory remarks:

"In reading Egyptian or other Oriental tales one follows the record of a people whose 'life of the mind' is sharply limited. The emotions the characters feel are strong, but entirely primitive and instinctive. They are never moved by anything loftier than desire for wealth; the basis of their love seems entirely physical, and their intellectual activity is little but childish curiosity, or unspeculative pleasure in something marvelous. That these marvels have no meaning never disturbs the Egyptian.

"The Hebrew is scarcely more scientific, but for a different reason. The animating passion of that race was for understanding of Jehovah. Though they lacked the spirit of submissive conformity which halted Egyptian progress, they did not turn their genius for independent inquiry toward the laws of nature, but toward the laws of righteousness. So they left the world the magnificient visions of the prophets, and such stories of Judith.

"The Greek was the originator of scientific thinking: the thought which does not accept the old, but continually subjects it to fresh examination. The myths are interesting of themselves, but the changes and variations in them are significant. When one compares the magician's tales which diverted Khufu with The Shipwrecked Sailor, one sees little progress in literary art or in the general intelligence of the audience. How different the comparison between the myth of the golden fleece and Euripides' Medea, or between the Prometheus of the myth and Aeschylus's majestic tragedy. Truly the greatness of the Greeks was, as the Egyptian said, that there were no 'old' minds among them."

The following subjects were discussed:

"Gods of the Fruitful Earth," Mrs. S. M. Collins.

"Poseidon and the Creatures of the Sea," Mrs. J. T. Pugh.

"Deities of the Minds," Mrs. J. M. Russell.

"Deities of the Darkness," Mrs. Fred A. Coon.

"The Twelve Labors of Hercules," Mrs. W. A. Whitfield and Mrs. M. M. Munholland.

Association Meets

The quarterly meeting of the Morehouse-Ouachita association of the Women's Missionary union met at the Sterlington Baptist church Thursday morning, with the superintendent, Mrs. H. L. Driskell, presiding.

The meeting was opened with devotional and reports of the various societies. Mrs. L. Wilkinson of the First Baptist church talked on the subject of "Stewardship and Witnessing." Dr. R. C. Buckner, superintendent of the children's home, talked in inspirational manner. Mrs. Hannah Reynolds, of New Orleans, state secretary, and Mrs. B. Bennett, state president, were also speakers of note.

Members of the Sterlington society were the gracious hostesses on this occasion and, during the luncheon hour, served delicious refreshments.

The afternoon session was devoted to reports and general discussions. Mrs. W. S. Heard of West Monroe submitted the following report of the nominating committee:

Superintendent, Mrs. D. P. Gerald of Monroe; assistant superintendent, Mrs. W. B. Oliver of Bastrop; secretary, Mrs. M. Johnson of Swartz; treasurer, Mrs. L. B. McLeod of Immanuel Baptist church, West Monroe; young people's leader, Mrs. S. L. Webb of Monroe; assistant, Mrs. Lee Stall of Sterlington; personal service, Mrs. T. C. Mooré of Bastrop; mission study, Mrs. S. H. Burns of Sterlington; stewardship, Mrs. R. P. Hart of Monroe; Margaret Training school fund, Mrs. F. T. Davidson of Mer Rouge; white cross, Mrs. W. W. Buce of West Monroe; children's home, Mrs. R. L. Reece of Ruston. All officers will enter upon their new duties the first of the year.

Mrs. L. T. Hastings requested all members to tithe their canned goods supply for the children's home.

The meeting was closed with prayer led by Dr. H. M. Bennett. The next meeting will take place in West Monroe on the sixteenth of January.

Mrs. J. B. Lamkin is visiting her daughter, Miss Sarah Talbert, in Baton Rouge this week-end.

The comfort and safety of the patients are the first consideration of our attendants.

Beautiful Flowers Are Displayed Here

Variety Of Blossoms Are Exhibited To Public At Semi-Annual Show Sponsored By Monroe Garden Club

Monroe reclines on her lovely couch. Back of her are the beautiful gardens; before her spreads the sleepy waters of the winding river; over her head, like a polished blue porcelain bowl, curves the November sky. Seasons mean nothing to the dwellers of the southland, where flowers grow and the sun shines brightly every month of the year.

Visiting the semi-annual flower show sponsored by the Monroe Garden club last Thursday at the American Legion home, we were reminded how much the people of Monroe love their flowers and their gardens. Almost as much, in fact, as Prince Potemkin, favorite of Catherine II of Russia and famous for his gardens. He never traveled without a garden and a retinue of gardners. When his entourage halted for the night, the gardeners would set up the boxed trees and shrubs around the prince's tent, lay out paths and generally landscape the spot. The next morning, when camp was struck, back onto the wagons went the garden, to be hauled to the next place.

Every spring and fall, Monroe gardners take their choicest blossoms to the American Legion home, where they are proudly exhibited and inspire the desire for more luxuriant and more perfect specimens each year.

This year's show attracted throngs of flower lovers, who feasted their eyes on the glorious mass of color. Never have dahlias been so highly cultivated and never have the blooms been so varied in color as this year. One entire section was devoted to the dahlias. One exhibit in particular, a cluster of coral pink blooms, claimed considerable admiration. Still another exhibit, a cluster of pure white dahlias in a whie porcelain urn of classic design, was deserving of special mention.

The pink and red radiance roses, without which a flower show would be incomplete, were prominently exhibited. The African daisies were responsible for the bizarre splash of color in the background and still another exhibit, silver willow, in a tall white basket, created favorable comment.

There was also a pot pourri of blossoms attractively arranged in one corner of the hall. In this collection were marigolds and snap-dragon and, in fact, every flower of late blooming variety.

The chrysanthemums, the pride of every gardner, quite overshadowed blossoms of lesser size and beauty. One variety, of a glorious bronze color, formed the piece de resistance of the exhibit.

Garden club members are deserving of considerable praise for their thrift, their constant efforts towards beautification of the city and their semi-annual shows that are always eagerly anticipated by flower lovers.

Drive Starts Monday

The Y. W. C. A. drive will be launched Monday morning. All workers will meet at Y. W. C. A. building at 9:30 o'clock. Coffee will be served and final instructions given.

The need for funds for this cause is most urgent and only with the full cooperation and support of every citizen can the Y. W. C. A. continue its work.

This is the only organization in the city of Monroe doing a definite work for working girls. Besides the business girls, the "Y" has students attending Northeast Center of Louisiana State university, commercial schools and beauty schools. At present there are 30 girls living at the "Y."

Through clubs and the splendid home influence, a real service is being rendered. Mrs. Fagan Cox, executive secretary, and Mrs. Allen, house mother, are busy every minute of the day making a real home for these young women.

The girl reserve groups, which are four in number, are sponsored by the "Y." Mrs. Roy Hale is chairman. These groups are composed of high school students and a program of character building, health and recreation is carried on. The membership of these groups number 110.

The Y. W. C. A. acts as an employment agency. During its existence it has secured positions for numbers of girls.

Since the liquidation of the transient bureau, the "Y" has assumed its share of the transient problem by caring for the young girls.

The board of the Y. W. C. A. feels that if the public realized the splendid work carried on in this home, and the real contribution the "Y" is making to the young girls coming to our city, there would be no difficulty in obtaining the desired quota.

Council Meeting

A meeting of the Council of Administration, Department of Louisiana, Ladies' Auxiliary, Veterans of Foreign Wars, is being held at the Heidelberg hotel in Baton Rouge today for the purpose of electing a junior vice president, due to the resignation of Lena M. Morrow, department president.

Mrs. Addie Belle Chesnutt of Algiers succeeds Mrs. Morrow, Mrs. Annie Bingham, Shreveport, advancing to the office of senior vice-president.

Council members from Monroe attending the meeting are Mrs. Lena M. Morrow, past department president; Mrs. Aline B. Hunt, department secretary; and Mrs. Irene M. Lanham.

Announcement

We wish to announce that we will be out of the city November 4th to 8th inclusive while attending the National Dental Convention in New Orleans.

Holiday Shopping Season Is Near At Hand In Monroe

Lazy Fall Period Is Nearly At End

Some Have Already Done Their Winter Buying, While Others Are In The Midst Of It; City To Lose Leader

By Eve Bradford

November! Drink in the beauty of autumn while there is yet time, as it will slip away any moment now. The hush that hangs over everything, the lazy blue mist, the yellow moon, the wistful pause will soon be gone and the hectic, hurried holidays will soon be upon us. Walk, while you may, among the crisp, brown leaves and forget about the national debt, the war clouds and the uncertain future. The whispering of the rustling leaves underfoot is like the music of the spheres to those whose ears are attuned. Fallen leaves make pictures rise in the subconscious mind. Have you ever thought how much they are like "the bright colors of a patch-work quilt drawn by the wind over trundle beds where violets dream of spring awakening"? The oaks, proud patriarchs, are the very last to shed their leaves, which cling tenaciously. Each one that falls gives a sad little crackling sound. For a hundred years or more, our glorious oaks have borne children and watched them go back to the earth. They were waving their branches boldly in the wind when the Ouachita Indians took shelter beneath them, when Monroe was just a small trading post and French settlers and trappers were the first white men. Generation after generation has come and gone, and the oaks go placidly on rearing their families. They stand aloof, these silent autumn nights, waiting for the leaves to fall and crooning their ancient lullaby.

The hectic season has already commenced for Mona Weaks. We saw her shopping for an evening gown and for some sport clothes the other day. She is going to attend a house party at the Oscar Nelson palatial farm in White Sulphur Springs, Virginia, and that of course calls for some swanky clothes. Frances McHenry has also accepted an invitation from the Oscar Nelsons and is looking for a riding habit as she intends to enjoy the Virginia countryside from the back of one of the Nelson's famous thoroughbred horses.

Some one else who is finding life complicated these days is Bernice Nichols. Of course you saw her announcement this morning. Joel is going to keep right on working until the wedding day, and that means Bernice will have to arrange every detail of the wedding. She is most certainly capable, however, and we are anticipating a beautiful setting for the ceremony.

Edith Meyer has evidently done her winter shopping. Saw her at the flower show in a white wool suit, with white, wide-brimmed felt hat. On another occasion last week, we saw her wearing a handsome pink lace cocktail frock that was unusually chic.

Speaking of the flower show reminds us of the occasional tables arranged by several members. On one we noticed a framed photograph of a handsome boy and discovered it to be Clarence Faulk the third. He claimed as much admiration as the flowers. Another beautiful specimen was Louisette Trousdale, the blonde curly-headed daughter of the George Trousdales. She was the cynosure of all eyes in a blue frock and shaking hands with everyone with all the poise of a young debutante.

And now we have some bad news for you. William Grasse will soon step out of our civic and social life forever. Seeking broader fields, he has accepted a position in Hattiesburg, Miss. It is impossible to estimate the good he has done in this city in a cultural way. He reached down into the rank and file for material to lift up and place on a higher plane of living. Things of a cultural nature are his special hobby. In many cases he exhibited paintings, Oriental rugs, rare china and linens and lectured on them to persons theretofore denied the beautiful things of life. In still another instance, he asked permission from several friends to let this particular group of young men and women view their homes. It is always thus: Just when a man or woman has established a special niche for himself or herself in our everyday scheme of life, along comes some one to offer even a greater inducement to join his forces.

A blessed event in the Kennedy Abbington home brought the young man's maternal grandmother hurrying over from Natchez, Miss. For ten years she has waited for this event, so naturally there is much rejoicing. Elizabeth, the young man's lovely mother, is being showered with attentions. The minister who christened her, who married her and who has been her bright and shining lode star all through life, also hurried over from Natchez to bless Kennedy Abbington, Jr., and shower congratulations upon the happy parents.

By the way, the E. C. Appersons, who have come back to Monroe to reside, have a lovely little daughter, Carolyn, who wears her hair in long curls. Carolyn was all wrapped up in black and orange crepe paper and wore a weird false face to frighten the guests in the lobby of the Frances hotel, where the Appersons make their home, on Hallowe'en.

Student Musicians Meet

The Student Musicians met Wednesday, October 30, at the home of Mr. Billy Reagan. It was decided that the club would have a vesper service at the Episcopal church during Christmas week. Questions on last week's text were asked by Miss Mary Jeanette Zeigler. The text for this program was given by Miss Marie Dell Horuff. A bass solo, "La Marceilloise," by deLisle, was sung by Mr. John Winkler in French. Folk songs were given by Miss Ella Rose Crawford at the piano. A violin solo, "The Spring Song," by Mendelssohn, was given by Miss Helen Vawter. Four new members were welcomed into the club: Misses Elizabeth Green, Evelyn Roll, Josephine Combs and Mr. Frank Mullens. Delicious refreshments were served to Misses Mary Jeanette Zeigler, Evelyn Roll, Josephine Combs, Beatrice Rhymes, Helen Vawter, Elizabeth Green, Marie Dell Horuff and Ella Rose Crawford, Mrs. G. A. Moffet, Mrs. Darwin Michols and Messrs. John Winkler, Wayne Wamsley, Jr., Lee Thompson, Garland Shell, Louis Monroe and Frank Mullens.

The week-end will be overflowing with pleasure for member Beta Sigma Phi sorority girls, with a tea this afternoon at the home of their sorority mother, Mrs. W. J. Veazey, outstanding. A boating party Monday evening at 8 o'clock on board Noe's Ark is also eagerly anticipated. In both instances, the pledges will be the guests of honor.

Halloween Party

Halloween, the night when goblins walk in lonely lanes and witches ride on airy broomsticks, when spectral apparitions stalk the land, will long be remembered by the young people who were fortunate enough to be included in the invitation issued by Mr. and Mrs. E. M. Steen to be their guests at their beautiful country home in honor of their four children, Evelyn, Dorothy, Ernest and Malcolm Steen.

The guests were transported down the moonlit country lanes in a truck overflowing with sweet smelling hay. Grinning pumpkins cast their mellow candlelight in the spacious living room, where an evening of merriment held sway. All the games usually associated with Halloween were introduced. Ghosts walked in weird procession and grave-yard black cats were everywhere in evidence.

The pleasures culminated in the serving of a sinister brew from an enormous black pot, presided over by a witch. The refreshments also suggested the mystic season with their decorations of black cats and pumpkin faces. Chaperones on this occasion were Mrs. Satchie Cooper, Mrs. D. E. Bourgeois, Mrs. A. K. Kilpatrick and Mr. and Mrs. Fred Hightower.

The guest list follows: Pauline Breard, Elizabeth Humble, Monnie Frazier, W. L. Burgeois, Dorothia Girault, Jack Burgeois, Bruce Burgeois, Jo Ann McDuffie, Gayle Stewart, Betty Hardman, Betty Hale, Beverly Handy, Tom Roach, June Griffin, Jimmy Burgess, Carolyn Husted, Wilford Ellis, Elise Abernathy, Barbara Ellis, Alice Collier, Virginia Newman, Jeanette Clarkson, Patricia Chidsey, Patsy Roemer, Herbert Land, Edward McGee, Laura Patton, Jean McCormick, Bunnie Zeigin, Mary Dickard, Jane Kilpatrick, Maralyn Rosenberg, Alice Brauer, Henry Sandman, Sue Mary Moore, Ann North, James Small, Gordon Surguine, George Holt, Harry Frazer, Ben Marshall, Martha Madden, Frank Surguine, Bobby Holt, Martha Madden, Vivian Harper, Elizabeth Wood, Ann Burgess, Betty Taylor, Katherine Winters, David Bubb, Billy Ensminger, Irma Ensminger, Jean Tabb, Dorothy Hodges, Satchie and Charlotte Cooper, Betty Carter, Julia Kern Liebreich, Ben Hughes, Jeau Davis, Martha Lena John, Robert Wood, Kenneth Burgeois, Eddie Pohl, Charles Marx, Bill Roach, Bill Davis, Martha Kilpatrick, Rosemary Coleman, Marness Lester, Inez Kirkland, Bill Shotwell, Ann Hayward, Sixteen Swanberg, Martha Grafton, Ada Girault, Luther Howell, John McClain, Theo McClain, Bill Husted, Betty Green, Betty Meadows, John Grayson, Sonny Ware, Joan Boardman, Betty Small, Brownie Hammock, Byrnie Handy, Chester Green, Phanor Perot, Nadia Meadows, Sally Ware, Jean Graves, Gay Noe, Jimmie Noe, Peggy Prindle, Cornelia McHenry, Louis Langford, Sam Hightower, Kathleen Ellis, Grant Boardman, Randolph Brown, John Humble, Duncan Cook, Helen Fernandez, Jerry Hightower, Fred Hightower and "Bubber" Ellis.

Recital Scheduled

The newly-organized Speech club at Northeast Center of Louisiana State university announces as its opening program an interpretation recital by Miss Grace Ingledue on Tuesday evening, November 19, at 8 p.m. at the theater of the college. Miss Ingledue is the new director of the department of speed at Northeast Center and the Speech club has chosen this means of presenting their sponsor to this community and of opening their activities. The club has a full schedule of plays, chorus reading programs and interpretation programs underway, details of which will be announced later.

Miss Ingledue comes to Northeast Center with a rich background of experience in the speech field. Since she is a professional reader, having presented many lyceum-sponsored programs in various states, the club anticipates that the people of this community will be eager to attend this recital. In addition to her stage work, Miss Ingledue has taught at Wisconsin university and Louisiana State university and has done a great deal of radio broadcasting. She has a bachelor of oratory degree from Ohio Northern university, a bachelor of arts degree from Butler university, a master of arts degree from the University of Wisconsin and has all credit work and the preliminary examinations completed toward the degree of doctor of philosophy at Louisiana State university. She is a member of Theta Alpha Phi, national dramatic fraternity; Delta Phi, debating sorority; Phi Kappa Phi, national honorary scholastic fraternity, and Tau Kappa Kappa, social sorority. She also is a member of the Order of the Eastern Star and Daughters of the Nile.

Mrs. Goldberg Entertains

Mrs. Victor Goldberg was responsible for one of the most brilliant gatherings of society of the late fall season when she welcomed forty friends in the bridge room of the Frances hotel on Friday for an afternoon of contract.

Mrs. Goldberg, wearing a smart black net model, with small close fitting hat of black velour and crimson roses at her throat, extended many gracious courtesies during the afternoon.

Baskets of roses, dahlias and golden chrysanthemums were grouped in artistic array in the background and created a colorful setting for the beautifully frocked guests.

The faultless serving of a luscious fruit salad course and coffee by white clad attendants was a distinct feature of the afternoon.

The guest list comprised: Mmes. Alec Wilenzick, E. Reims, B. Stern, Charles Grossman, Aubrey Haas, Alice Wilenzick, Mark Wilenzick, L. Cohn, Louis Hart, L. Caspari, M. Emmich, David Kaplan, David Snyder, Michael, Herman Masur, Louis Masur, Sigmund Saltzman, Louis Goldman, David Cromwell, Adler, Isadore Leibreich, S. Friedlander, David Silverstein, I. W. Jaffie, William Mintz, M. L. Gill, Abe Marks, Leon Sugar, Henry Haas, Lee Kuhn, Abe Marks, and E. Jack Selig and Miss Harriett Hirsch and Miss Anna Michael.

MISS NICHOLS TO WED

Announcement of the engagement and approaching marriage of Miss Joel Nichols, lovely daughter of Mrs. Bernice Nichols and granddaughter of Mr. and Mrs. Joseph Renwick, members of pioneer families of this section, is made today. Miss Nichols will wed Mr. William Asher Whitley of Shreveport on Thanksgiving day.

To Be Represented

Every literary club in the city will be represented by one or more delegates at the annual convention of the Louisiana Federation of Women's clubs. The meeting, to be held in Natchitoches, will start on the eighth of November and continue through the week.

Word has been received from Mrs. E. P. Cunningham of Natchitoches, convention publicity chairman, that plans for the state meeting have been completed. Much interest centers in the presence of the newly-elected president of General Federation, Mrs. Roberta Campbell Lawson, of Tulsa, Oklahoma, and Mrs. Anna Steese Richardson of New York, editor of Woman's Home Companion. Mrs. Richardson was an honor guest at the General Federation convention in Detroit last June and served as one of the judges in the federation's program building contest. Her coming to Natchitoches will give added importance to the sessions. Mrs. Lawson will come directly from Natchez, where she will attend the convention of the Mississippi Federation of Women's clubs November 6 and 7.

A social feature of the convention will be the president's breakfast given to honor Mrs. Lawson and distinguished guests Friday morning in the blue room of the Hotel Nakatosh.

A garden coffee will be given Friday afternoon at the beautiful residence of Mrs. Samuel Levy, president of Lesche club, in honor of the state president, Mrs. R. H. Agate, of Lafayette. Music will be furnished by the orchestra of the Louisiana State Normal School of Music.

Miss Catherine Winters, member of the faculty of Louisiana State Normal college, is general convention chairman. Hostess clubs are the Lesche and Phi Kappa (Fine Arts) clubs of Natchitoches, Mrs. Samuel Levy and Miss Jean Hall, presidents, respectively; the Home Builders club of Clarence, Mrs. A. A. Ragan, president, and the Home Makers club of Fairview-Alpha, Mrs. J. A. Wafer, president.

Mrs. W. M. Knott of Many, president of eighth district, is local program chairman, and Mrs. L. A. Sims of Natchitoches is convention treasurer.

Birthday Celebrated

The last regular meeting of the Busy Bee club culminated in a joyous celebration of the birthday of one of its members, Miss Dorothy Louise Waldrop. The gathering took place at the home of Mrs. Bert Coverdale.

After the meeting was adjourned, the members were invited into the dining room, where the table was gaily decorated in Halloween colors. Tiny orange and black baskets, with black cats and eerie witches guarding them, marked each cover.

A large black and orange birthday cake with thirteen glowing candles was cut and served with hot chocolate. Games typical of the season, kept everyone happily amused during the afternoon.

Lovely gifts were showered on the celebrant by the following guests: Misses Peggy Morrison, Mary Edith Breard, Marjorie Gremillion, Mildred Keller, Marilyn Rolleigh, Betty Hebert, Sybil Marie Daughtery, Veronica Wilds, Maxine Hebert, Eloise Harrison and Marjorie Wilkins.

Enjoy Halloween Party

The young people of the intermediate department of the First Methodist church, costumed for Halloween, enjoyed an evening of frivolity in the church annex. Games typical of the mystic season of Halloween created considerable merriment.

Orange punch was served during the evening with delicious little Halloween confections.

Responsible for this evening of gayety were: Mrs. J. W. Meyers, Mrs. L. C. Poindexter, Mrs. H. L. Johns, Miss Ouida Collins, Miss Eleona Brinsmade and Miss Elizabeth Langford.

Central Grammar School

Some of the objectives of the national P.-T. A. were outlined in a message from the president which was read by Mrs. Joe Dillard at the monthly meeting Wednesday of the Centra Grammar school Parent-Teacher association of the Louisiana Congress of Parents and Teachers. Mrs. W. R. Mosely read a message from the state P.-T. A. president.

Four selections were rendered by the Neville High school orchestra.

Betsy Ann Green gave an interesting reading, which was followed by the singing of "America the Beautiful" by the assemblage.

Mrs. R. R. Gatlin, P.-T. A. president, presided. Mrs. H. S. Chilton led a discussion on "The Three R's in Schools of Yesterday and Today."

Mrs. T. A. Gunter presented a paper on "Better Methods of Teaching." Mrs. C. Couch explained that a benefit motion picture show performance is proposed through the cooperation of the management of the Capitol theater. Tickets will be sold by a special committee of the P.-T. A. At the close of the discussion, it was voted to arrange for the presentation of the show. Mrs. H. S. Wilkie was named chairman of the committee in charge.

Miss Katie Key, principal of Central Grammar school, urged attendance of mothers in the meetings of the Mother Singer group which meets at the school.

The largest representation of parents at the meeting were those of pupils of the fourth grade, taught by Mrs. Hulda Mansberg.

Class Is Entertained

Members of the Harris honor class of the First Baptist church were delightfully entertained Thursday night at the home of their teacher, Mrs. Dorothy Greer, with a Halloween party.

Appropriate costumes were worn and a prize was awarded Mrs. Fances Reeves for most unique attire.

Refreshments, accentuating the Halloween colors, were served to Miss Helen Benoit, Miss Grace Elliott, Miss Marguerite Fuller, Miss Ruby Benoit, Miss Ruth Murphy, Miss Dorothy Fuller, Mrs. Eileen Stovall, Miss Georgia McCoy, Miss Beatrice Smith, Mrs. Frances Reeves, Miss Opal McCoy, Miss Mary Helen Weaver, Miss Fay Robinson, Miss Marion McCoy, and Miss Mary Graves Taylor.

Silhouette Stemlike

By Adelaide Kerr

PARIS, Nov. 2.—(AP)—A stemlike silhouette making mannequins look slim as a reed marked the new mid-season fashions launched by Roger Worth, new president of the famous old dressmaking house of that name and great-grandson of its founder.

Both day frocks and coats were built on slender lines, their only variation being occasional big sleeves which balanced the straight narrow skirts.

Black, violet, wine red and navy afternoon frocks of satin, crepe or faconne silk were generally designed with high necklines and finished with a variety of gold touches. Gold embroidery or gold tipped tassels marked belts, which were sometimes slightly lowered, while necklines were draped into gold metal loops or accented by a cluster of gold coins swinging from silk cords.

Two-toned velvet scarfs in such combinations as blue and green or cardinal-purple and orange, knotted close to the throat, added a bright touch to black or neutral toned frocks.

New coats of black or wine red wool wrapped smoothly around the figure. They were held to a straight slender line by big frog fastenings or crushed leather belts six inches wide and were topped by high collars of silver fox or nutria rising almost to the ears.

Striking fur accents marked traveling outfits or town ensembles uniting a wool frock and jacket. A hem length dark green traveling coat lined with squirrel was accompanied by a muff bag which was simply a small blanket thrown over the hands and lined with the same fur. The frock of a yellow beige wool ensemble had a collar of nutria. A dark red outfit was accompanied by a sleeveless leopard vest and toque, and the jacket of a deep green wool costume was trimmed in broadtail dyed dark green.

Greek Myths Studied

The study of "Greek Myths" by members of Miro Delphian chapter is proving most interesting. Last week's program was led by Mrs. H. A. Whitfield, who gave the following introductory remarks:

"In reading Egyptian or other Oriental tales one follows the record of a people whose 'life of the mind' is sharply limited. The emotions the characters feel are strong, but entirely primitive and instinctive. They are never moved by anything loftier than desire for wealth; the basis of their love seems entirely physical, and their intellectual activity is little but childish curiosity, or unspeculative pleasure in something marvelous. That these marvels have no meaning never disturbs the Egyptian.

"The Hebrew is scarcely more scientific, but for a different reason. The animating passion of that race was for understanding of Jehovah. Though they lacked the spirit of submissive conformity which halted Egyptian progress, they did not turn their genius for independent inquiry toward the laws of nature, but toward the laws of righteousness. So they left the world the magnificient visions of the prophets, and such stories of Judith.

"The Greek was the originator of scientific thinking: the thought which does not accept the old, but continually subjects it to fresh examination. The myths are interesting of themselves, but the changes and variations in them are significant. When one compares the magician's tales which diverted Khufu with The Shipwrecked Sailor, one sees little progress in literary art or in the general intelligence of the audience. How different the comparison between the myth of the golden fleece and Euripides' Medea, or between the Prometheus of the myth and Aeschylus's majestic tragedy. Truly the greatness of the Greeks was, as the Egyptian said, that there were no 'old' minds among them."

The following subjects were discussed:

"Gods of the Fruitful Earth," Mrs. S. M. Collins.

"Poseidon and the Creatures of the Sea," Mrs. J. T. Pugh.

"Deities of the Minds," Mrs. J. M. Russell.

"Deities of the Darkness," Mrs. Fred A. Coon.

"The Twelve Labors of Hercules," Mrs. W. A. Whitfield and Mrs. M. M. Munholland.

Association Meets

The quarterly meeting of the Morehouse-Ouachita association of the Women's Missionary union met at the Sterlington Baptist church Thursday morning, with the superintendent, Mrs. H. L. Driskell, presiding.

The meeting was opened with devotional and reports of the various societies. Mrs. L. Wilkinson of the First Baptist church talked on the subject of "Stewardship and Witnessing." Dr. R. C. Buckner, superintendent of the children's home, talked in inspirational manner. Mrs. Hannah Reynolds, of New Orleans, state secretary, and Mrs. B. Bennett, state president, were also speakers of note.

Members of the Sterlington society were the gracious hostesses on this occasion and, during the luncheon hour, served delicious refreshments.

The afternoon session was devoted to reports and general discussions. Mrs. W. S. Heard of West Monroe submitted the following report of the nominating committee:

Superintendent, Mrs. D. P. Gerald of Monroe; assistant superintendent, Mrs. W. B. Oliver of Bastrop; secretary, Mrs. M. Johnson of Swartz; treasurer, Mrs. L. B. McLeod of Immanuel Baptist church, West Monroe; young people's leader, Mrs. S. L. Webb of Monroe; assistant, Mrs. Lee Stall of Sterlington; personal service, Mrs. T. C. Moore of Bastrop; mission study, Mrs. S. H. Burns of Sterlington; stewardship, Mrs. R. P. Hart of Monroe; Margaret Training school fund, Mrs. F. T. Davidson of Mer Rouge; white cross, Mrs. W. W. Buce of West Monroe; children's home, Mrs. R. L. Reece of Ruston. All officers will enter upon their new duties the first of the year.

Mrs. L. T. Hastings requested all members to tithe their canned goods supply for the children's home.

The meeting was closed with prayer led by Dr. H. M. Bennett. The next meeting will take place in West Monroe on the sixteenth of January.

Mrs. J. B. Lamkin is visiting her daughter, Miss Sarah Talbert, in Baton Rouge this week-end.

Beautiful Flowers Are Displayed Here

Variety Of Blossoms Are Exhibited To Public At Semi-Annual Show Sponsored By Monroe Garden Club

Monroe reclines on her lovely couch. Back of her are the beautiful gardens; before her spreads the sleepy waters of the winding river; over her head, like a polished blue porcelain bowl, curves the November sky. Seasons mean nothing to the dwellers of the southland, where flowers grow and the sun shines brightly every month of the year.

Visiting the semi-annual flower show sponsored by the Monroe Garden club last Thursday at the American Legion home, we were reminded how much the people of Monroe love their flowers and their gardens. Almost as much, in fact, as Prince Potemkin, favorite of Catherine II of Russia and famous for his gardens. He never traveled without a garden and a retinue of gardners. When his entourage halted for the night, the gardeners would set up the boxed trees and shrubs around the prince's tent, lay out paths and generally landscape the spot. The next morning, when camp was struck, back onto the wagons went the garden, to be hauled to the next place.

Every spring and fall, Monroe gardners take their choicest blossoms to the American Legion home, where they are proudly exhibited and inspire the desire for more luxuriant and more perfect specimens each year.

This year's show attracted throngs of flower lovers, who feasted their eyes on the glorious mass of color. Never have dahlias been so highly cultivated and never have the blooms been so varied in color as this year. One entire section was devoted to the dahlias. One exhibit in particular, a cluster of coral pink blooms, claimed considerable admiration. Still another exhibit, a cluster of pure white dahlias in a whie porcelain urn of classic design, was deserving of special mention.

The pink and red radiance roses, without which a flower show would be incomplete, were prominently exhibited. The African daisies were responsible for the bizarre splash of color in the background and still another exhibit, silver willow, in a tall white basket, created favorable comment.

There was also a pot pourri of blossoms attractively arranged in one corner of the hall. In this collection were marigolds and snap-dragon and, in fact, every flower of late blooming variety.

The chrysanthemums, the pride of every gardner, quite overshadowed blossoms of lesser size and beauty. One variety, of a glorious bronze color, formed the piece de resistance of the exhibit.

Garden club members are deserving of considerable praise for their thrift, their constant efforts towards beautification of the city and their semi-annual shows that are always eagerly anticipated by flower lovers.

Drive Starts Monday

The Y. W. C. A. drive will be launched Monday morning. All workers will meet at Y. W. C. A. building at 9:30 o'clock. Coffee will be served and final instructions given.

The need for funds for this cause is most urgent and only with the full cooperation and support of every citizen can the Y. W. C. A. continue its work.

This is the only organization in the city of Monroe doing a definite work for working girls. Besides the business girls, the "Y" has students attending Northeast Center of Louisiana State university, commercial schools and beauty schools. At present there are 30 girls living at the "Y."

Through clubs and the splendid home influence, a real service is being rendered. Mrs. Fagan Cox, executive secretary, and Mrs. Allen, house mother, are busy every minute of the day making a real home for these young women.

The girl reserve groups, which are four in number, are sponsored by the "Y." Mrs. Roy Hale is chairman. These groups are composed of high school students and a program of character building, health and recreation is carried on. The membership of these groups number 110.

The Y. W. C. A. acts as an employment agency. During its existence it has secured positions for numbers of girls.

Since the liquidation of the transient bureau, the "Y" has assumed its share of the transient problem by caring for the young girls.

The board of the Y. W. C. A. feels that if the public realized the splendid work carried on in this home, and the real contribution the "Y" is making to the young girls coming to our city, there would be no difficulty in obtaining the desired quota.

Council Meeting

A meeting of the Council of Administration, Department of Louisiana, Ladies' Auxiliary, Veterans of Foreign Wars, is being held at the Heidelberg hotel in Baton Rouge today for the purpose of electing a junior vice president, due to the resignation of Lena M. Morrow, department president.

Mrs. Addie Belle Chesnutt of Algiers succeeds Mrs. Morrow, Mrs. Annie Bingham, Shreveport, advancing to the office of senior vice-president.

Council members from Monroe attending the meeting are Mrs. Lena M. Morrow, past department president; Mrs. Aline B. Hunt, department secretary; and Mrs. Irene M. Lanham.

Announcement

We wish to announce that we will be out of the city November 4th to 8th inclusive while attending the National Dental Convention in New Orleans.

June Long Past, Brides Still Hold Spotlight

Mrs. Elliott Thompson Is Widely Entertained

Many Compliments Showered Upon Her; Novel Affair In Her Honor Is Arranged By Mrs. C. G. Ammer

Summer has fled, autumn flaunts its glorious coloring and skies will soon become leaden and grey with the approach of winter. The seasons roll swiftly by, but brides are perennial. There is no special season for them. Like the poor, they are always with us. In years gone by June was known as the month of brides, but all this has been changed and these lovely, blushing young things now claim attention socially every month in the year.

Mrs. Elliott Thompson, who selected October for her wedding month, is claiming the social spotlight at the present moment. Many charming compliments were showered upon Mrs. Thompson last week, prominent among them being Mrs. C. G. Ammer's novel affair at her home on North Fifth street.

The guests, upon arrival in the flower banked reception suite, where Mrs. Thompson stood with her hostess in a distinctive model of plum-colored, silver-flecked crepe model, with black accessories, were served a luscious dessert course at the card tables. The ices, silver wedding slippers filled with mint frappe, were served with individual wedding cakes embossed in valley lilies. The refreshment trays were centered with miniature altars beside which stood miniature doll brides in wedding regalia. The place cards, handpainted by Mrs. Anthony Thebo, were a work of art.

Keno was introduced later and charming little conceits presented to the winners. Mrs. Ammer presented Mrs. Thompson with kitchen gadgets. Exceeding artistry was manifested in this rather prosaic gift. The articles in question formed a novel doll with a long mixing spoon the body and the bowl a painted face. A small mop supplied the hair and the olive forks the arms. Mrs. Thebo was the creator of this clever conceit.

Present on this delightful occasion, in addition to Mrs. Thompson, were Mrs. E. G. Hinkle, Mrs. Charles Bennett, Mrs. A. Thebo, Mrs. C. C. Thompson, Mrs. Sydney Grubb, Mrs. Frances Davis Hammon, Miss Suzanne Hirsch, Miss Sybil Thompson, Miss Janice Shepard, Miss Mary Trousdale, Miss Sara Frances Hinkle.

Yesterday's compliment to Mrs. Thompson was a beautifully planned five o'clock tea, with Mrs. D. I. Hirsch and Miss Suzanne Hirsch, hostesses.

Engagement Announced

The sincere and affectionate interest of friends in this city and in this section of the state is centered in the following announcement:

Mrs. Bernice Renwick Nichols
announces the engagement and
approaching marriage
of her daughter
Joel Rountree
to
Mr. William Asher Whitley
of Shreveport, Louisiana

the wedding to take place on the twenty-eighth of November at half after six o'clock in the evening at Grace Episcopal church, Monroe, Louisiana.

• • •

Parish-Fortenberry

Mr. and Mrs. G. B. Fortenberry
announce the marriage of their
daughter
Elizabeth
to
Mr. Frank Bradley Parish
on Sunday, the twenty-seventh of
October nineteen hundred
and thirty-five
Tallulah, Louisiana.

At home:
Rayville, Louisiana.

• • •

Bride Is Entertained

A tea of charming appointment brought friends together in the home of Mrs. J. Norman Coon complimentary to Mrs. Addison Thompson of Ruston, who before her marriage was Miss Scriven Williamson of this city.

Mrs. Coon welcomed her guests in the reception suite banked with blossoms of vivid hue. She introduced her guest of honor, Mrs. Thompson, who wore a smart navy blue triple-sheer model with accessories of navy.

Extending gracious courtesies were Mrs. Eunice Coon Williamson, Mrs. E. Buckley and Mrs. Ralph Paine, all of whom were beautifully attired.

Mrs. Hinson Coon and Mrs. Florence Duval poured tea and coffee in the dining room, where the handsome silver services graced either end of the long table overlaid with Venetian lace. Pink Duchess roses and blue salvia in plaque formation formed the central floral note.

Luscious confections were served by three charming young girls, Miss Willine Boxley, Miss Ruth Murphy and Miss Polly Nenney.

The fifty or more guests who called during the receiving hours availed themselves of the privilege of viewing the handsome wedding gifts on display in the solarium. Of prominence was the flat silver in the Candlelight pattern, a gift from the Coon family. Rock crystal in the rose point pattern and handsome Haviland was also noted.

• • •

Hawkins-Maroney

Claiming the interest of friends today is the announcement of the marriage of Miss Maurine Maroney and Mr. Graydon Hawkins on the first of September.

Mrs. Hawkins is a graduate of Farmerville high school and Northeast Center of Louisiana State university. She also attended L. P. I. at Ruston. For the past two years she has been a member of the faculty of the Union parish schools.

Mr. Hawkins attended the university of Alabama and was graduated from a commercial school at Tyler, Texas. He is affiliated with the United Gas system in Sterlington.

• • •

McGehee-Barr

Of sincere interest to their many friends is the marriage of Miss Kitty Barr and Mr. Edward Clinton McGehee on October the twenty-seventh at the First Methodist church in Shreveport, with Rev. R. D. Thompson officiating.

The bride wore a beautiful olive green fall model with black accessories. A corsage of pink bride's roses created a distinctive note.

The attendants were Miss Lois Bushnell and Mr. Herbert Munholland of Monroe.

The bride is the only daughter of Mrs. Mabel Watts Barr and the late Mr. Charles S. Barr and a granddaughter of Rev. D. C. Barr of Oak Ridge. She is a graduate of Ouachita Parish high school and attended Northeast Center of Louisiana State university and a business college. She is a charter member of Beta Sigma Phi sorority.

The bridegroom is a son of Mrs. Durwood Cann of this city. He is a graduate of Ouachita Parish high school and Northeast Center of Louisiana State university. He is affiliated with Munholland Danwitz Furniture company.

Mr. and Mrs. McGehee are now at home to their friends in their attractive apartment at 317 Louisville avenue.

Mrs. Satchie Sholars Cooper and two lovely daughters, Charlotte and Satchie, have taken up residence in the Mayfair apartments, corner Second and Stubbs, where they will be at home this winter to their friends.

What Junior Charity Organization Is Doing For Underprivileged Is Told In Report To Social Agencies Council

Mrs. Bernard Biedenharn submitted a comprehensive reports for the Junior Charity league before members of the Council of Social Agencies at its meeting last week.

In her introductory remarks, she said: "The Junior Charity league is an organization of the city of Monroe and for the city of Monroe. We are always glad to assist in any project for the welfare of the community. We have tried to fill a need in this city by establishing the Junior Charity league baby clinic.

"It is our hope to give an underprivileged child a chance to meet life physically fit.

"Since we are represented at the Council of Social Agencies, we are glad of an opportunity to work in co-operation with similar charity organizations."

The report follows:

"In 1932 the baby clinic of the Junior Charity league was organized, with the services and cooperation of the Ouachita Medical society. This clinic had an enrollment of 375 cases for the first year. Today the baby clinic has an enrollment of 1,640.

"The baby clinic sponsors only children through their twelfth year, but no steps are left undone to care for these children, and to fit them physically for life.

"On entering the clinic, the child's history is taken as well as that of the parents. Thus, when the doctor examines the child, he is not absolutely in the dark. A treatment card is attached to the child's history and the doctor writes what medicines and treatments he has given in this particular case. Should the child, upon examination, need attention in the way of X-Rays, hospitalization, or proper food, the league stretches out a helping hand. Expensive medicines and serums are often given such as erysipelas serum and also rabies 'shots.'

"The league maintains a social service department under the chairman of the baby clinic. Children not having the proper clothing are fitted out with clean, good, used clothing. Many times it is necessary to bathe the child and issue fresh, clean clothing before being presented to the examining physician.

"There are now thirteen families on the milk fund list. Some of these families get two quarts of milk daily. We have two colored babies on the tomato juice list. We make no distinction between the white and colored children. The league also issues powdered milk and cod-liver oil in great quantities.

"The average amount spent by the league to maintain its milk fund, hospital bill and drug bill is one hundred and forty dollars per month.

"Our clinic is thoroughly and completely maintained. We have reputable and interested physicians in charge, a most capable and willing nurse, Miss Tarver, and members of the league who give their time freely and willingly. We maintain a complete file, and are able to immediately secure the record of a patient who has been to us before."

Review Features Meeting

Bowls of orange and bronze colored marigolds and a profusion of pink dahlias formed a decorative note in the reception suite of Miss Carrie Dee Drew's home when she entertained members of the Study club.

The program hour was unusually interesting, with a review of Europe during the reign of Charlemagne through the Crusades by Mrs. Fillmore Meadows outstanding.

Miss Drew, assisted by her mother, Mrs. C. L. Drew, during the social hour, served individual molded salads, open-faced sandwiches, luscious little cakes and fragrant coffee to: Mmes. David Garrett, James Drew, Carl McHenry, Neil McHenry, Alymer Montgomery, Alfred Reid, James Henry Montgomery, Elmer Richards, Lewis Slator, Fillmore Meadows and H. H. Land.

Cobbs Entertain Club

Mr. and Mrs. James M. Cobb were hosts to members of the Married People's Card club Thursday night. At seven o'clock, a delectable chicken supper, southern style, was served at the card tables in the reception suite, where beautiful flowers in the background created a festive atmosphere.

The gifts for high scores, beautiful white porcelain urns of classic shape, were claimed by Mrs. G. P. Stubbs and Mrs. Henry Bernstein. The gentleman's prizes, toilette accessories, were claimed by Mr. B. D. Hodges and Mr. J. R. Gilhula.

Enjoying the courtesies were: Mr. and Mrs. G. B. Cooley, Mr. and Mrs. L. B. Ferguson, Mr. and Mrs. G. P. Stubbs, Mr. and Mrs. George Weaks, Mr. and Mrs. R. B. Frizzell, Mr. and Mrs. B. D. Hodges, Mr. and Mrs. Albert Horuff, Mr. and Mrs. J. H. Trousdale, Mr and Mrs. J. R. Gilhula, Mrs. Percy Sandel, Mrs. Minnie Ruffin, Mrs. F. P. Stubbs, Mrs. B. Granary, Mrs. Henry Bernstein and Mrs. W. F. Cummings.

Activities Resumed

The Married People's Card club, the oldest club of this nature in existence in Monroe, resumed winter activities, with Mr. and Mrs. G. B. Cooley, hosts for the initial event. With customary graciousness and warmth of hospitality, the guests were received and extended the many courtesies friends have long learned to expect from this popular couple, who have been residents of Monroe for thirty years or more.

The gifts, handsome rock crystal goblets were claimed by Mrs. Harvey Trousdale and Mrs. L. B. Ferguson. Mr. R. B. Frizzell and Mr. J. R. Gilhula received gold pen knives.

A sumptuous turkey course was served the guests upon arrival.

Mr. and Mrs. Charles Garretson, Miss Inez Gardner, Mr. George Hargus and Mrs. George Gardner made up a congenial party motoring to Baton Rouge for annual "Home Coming week."

Mrs. G. L. McConnell's condition is somewhat improved, to the delight of her many friends. She is still a patient at the clinic.

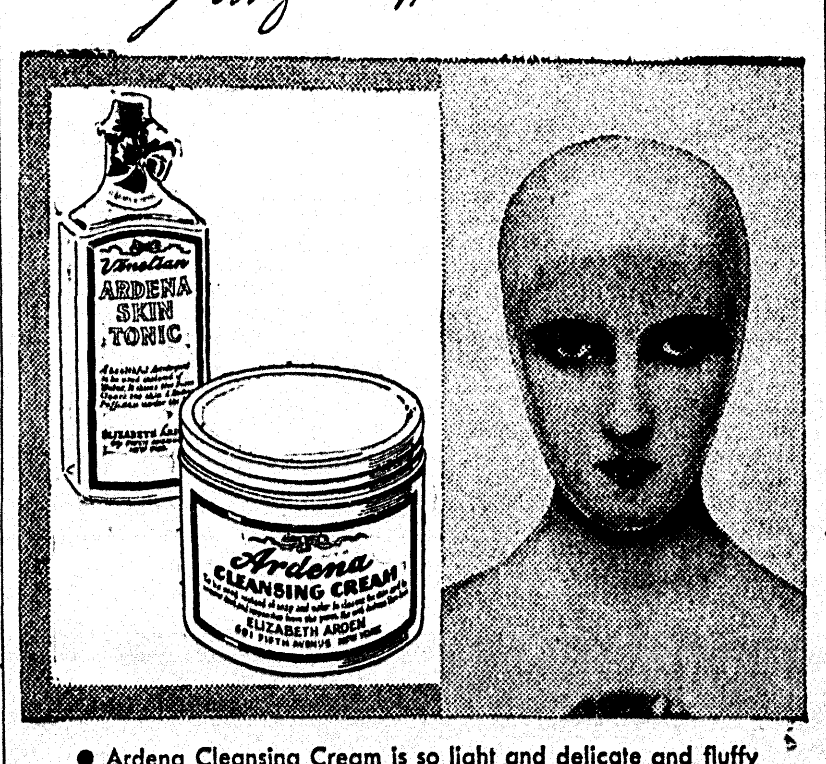
Ardena Cleansing Cream and Skin Tonic work together...
Elizabeth Arden



● Ardena Cleansing Cream is so light and delicate and fluffy that it will liquefy instantly into a fine film that penetrates the pores without clogging them. Ardena Skin Tonic is only *mildly* astringent. Yet it removes every trace of cream. That is why both together give your skin that clean, fresh texture, neither unpleasantly greasy nor dangerously dry, but fresh, clear and smooth as Nature meant it to be.

Ardena Cleansing Cream . . . . $1 to $6
Ardena Skin Tonic . . . . 85c to $15
Ardena Velva Cream . . . . $1 to $6
Or, for dry skins, Orange Skin Cream . . . . $1 to $8

June Long Past, Brides Still Hold Spotlight

Mrs. Elliott Thompson Is Widely Entertained

Many Compliments Showered Upon Her; Novel Affair In Her Honor Is Arranged By Mrs. C. G. Ammer

Summer has fled, autumn flaunts its glorious coloring and skies will soon become leaden and grey with the approach of winter. The seasons roll swiftly by, but brides are perennial. There is no special season for them. Like the poor, they are always with us. In years gone by June was known as the month of brides, but all this has been changed and these lovely, blushing young things now claim attention socially every month in the year.

Mrs. Elliott Thompson, who selected October for her wedding month, is claiming the social spotlight at the present moment. Many charming compliments were showered upon Mrs. Thompson last week, prominent among them being Mrs. C. G. Ammer's novel affair at her home on North Fifth street.

The guests, upon arrival in the flower banked reception suite, where Mrs. Thompson stood with her hostess in a distinctive model of plum-colored, silver-flecked crepe model, with black accessories, were served a luscious dessert course at the card tables. The ices, silver wedding slippers filled with mint frappe, were served with individual wedding cakes embossed in valley lilies. The refreshment trays were centered with miniature altars beside which stood miniature doll brides in wedding regalia. The place cards, handpainted by Mrs. Anthony Thebo, were a work of art.

Keno was introduced later and charming little conceits presented to the winners. Mrs. Ammer presented Mrs. Thompson with kitchen gadgets. Exceeding artistry was manifested in this rather prosaic gift. The articles in question formed a novel doll with a long mixing spoon the body and the bowl a painted face. A small mop supplied the hair and the olive forks the arms. Mrs. Thebo was the creator of this clever conceit.

Present on this delightful occasion, in addition to Mrs. Thompson, were Mrs. E. G. Hinkle, Mrs. Charles Bennett, Mrs. A. Thebo, Mrs. C. C. Thompson, Mrs. Sydney Grubb, Mrs. Frances Davis Hammon, Miss Suzanne Hirsch, Miss Sybil Thompson, Miss Janice Shepard, Miss Mary Trousdale, Miss Sara Frances Hinkle.

Yesterday's compliment to Mrs. Thompson was a beautifully planned five o'clock tea, with Mrs. D. I. Hirsch and Miss Suzanne Hirsch, hostesses.

Engagement Announced

The sincere and affectionate interest of friends in this city and in this section of the state is centered in the following announcement:

Mrs. Bernice Renwick Nichols
announces the engagement and
approaching marriage
of her daughter
Joel Rountree
to
Mr. William Asher Whitley
of Shreveport, Louisiana

the wedding to take place on the twenty-eighth of November at half after six o'clock in the evening at Grace Episcopal church, Monroe, Louisiana.

* * *

Parish-Fortenberry

Mr. and Mrs. G. B. Fortenberry
announce the marriage of their
daughter
Elizabeth
to
Mr. Frank Bradley Parish
on Sunday, the twenty-seventh of
October nineteen hundred
and thirty-five
Tallulah, Louisiana.

At home:
Rayville, Louisiana.

* * *

Bride Is Entertained

A tea of charming appointment brought friends together in the home of Mrs. J. Norman Coon complimentary to Mrs. Addison Thompson of Ruston, who before her marriage was Miss Scriven Williamson of this city.

Mrs. Coon welcomed her guests in the reception suite banked with blossoms of vivid hue. She introduced her guest of honor, Mrs. Thompson, who wore a smart navy blue triple-sheer model with accessories of navy.

Extending gracious courtesies were Mrs. Eunice Coon Williamson, Mrs. E. Buckley and Mrs. Ralph Paine, all of whom were beautifully attired.

Mrs. Hinson Coon and Mrs. Florence Duval poured tea and coffee in the dining room, where the handsome silver services graced either end of the long table overlaid with Venetian lace. Pink Duchess roses and blue salvia in plaque formation formed the central floral note.

Luscious confections were served by three charming young girls, Miss Willine Boxley, Miss Ruth Murphy and Miss Polly Nenney.

The fifty or more guests who called during the receiving hours availed themselves of the privilege of viewing the handsome wedding gifts on display in the solarium. Of prominence was the flat silver in the Candlelight pattern, a gift from the Coon family. Rock crystal in the rose point pattern and handsome Haviland was also noted.

* * *

Hawkins-Maroney

Claiming the interest of friends today is the announcement of the marriage of Miss Maurine Maroney and Mr. Graydon Hawkins on the first of September.

Mrs. Hawkins is a graduate of Farmerville high school and Northeast Center of Louisiana State university. She also attended L. P. I. at Ruston. For the past two years she has been a member of the faculty of the Union parish schools.

Mr. Hawkins attended the university of Alabama and was graduated from a commercial school at Tyler, Texas. He is affiliated with the United Gas system in Sterlington.

* * *

McGehee-Barr

Of sincere interest to their many friends is the marriage of Miss Kitty Barr and Mr. Edward Clinton McGehee on October the twenty-seventh at the First Methodist church in Shreveport, with Rev. R. D. Thompson officiating.

The bride wore a beautiful olive green fall model with black accessories. A corsage of pink bride's roses created a distinctive note.

The attendants were Miss Lois Bushnell and Mr. Herbert Munholland of Monroe.

The bride is the only daughter of Mrs. Mabel Watts Barr and the late Mr. Charles S. Barr and a granddaughter of Rev. D. C. Barr of Oak Ridge. She is a graduate of Ouachita Parish high school and attended Northeast Center of Louisiana State university and a business college. She is a charter member of Beta Sigma Phi sorority.

The bridegroom is a son of Mrs. Durwood Cann of this city. He is a graduate of Ouachita Parish high school and Northeast Center of Louisiana State university. He is affiliated with Munholland Danwitz Furniture company.

Mr. and Mrs. McGehee are now at home to their friends in their attractive apartment at 317 Louisville avenue.

☘ ☘ ☘

Mrs. Satchie Sholars Cooper and two lovely daughters, Charlotte and Satchie, have taken up residence in the Mayfair apartments, corner Second and Stubbs, where they will be at home this winter to their friends.

Fifth District Parent-Teacher Meeting November 9

Session To Be Held At Crosley School

Gathering Will Be In Form Of School Of Instruction; Statement Is Issued Mrs. Carl L. Couch

Realizing the importance of trained leadership, the fifth district organization of the Louisiana Congress of Parents and Teachers will hold its meeting November 9 at Crosley school in West Monroe in the form of a school of instruction. The session will start at 10 a. m.

In connection with the meeting, Mrs. Carl L. Couch, district director, has issued the following statement:

"The National Congress of Parents and Teachers confines itself solely to child welfare. If the local unit is to carry on the work as outlined by the national congress; if it is to meet the challenge that is thrown out to it every day from the home, the school and the public at large, then it must be made up of a membership who knows the organization of which they are a part; who understand its aim and purposes; who believe in its progress and who are willing to contribute their best endeavors that through the Parent-Teacher associations the school and the home may be able to serve more intelligently and more sympathetically the child-life of today.

Realizing that trained leadership must be available to carry on the work as outlined by the national congress if the local units are to succeed, the fifth district meeting of the Louisiana Congress of Parents and Teachers will be held in the form of a school of instruction on Saturday, November 9, at 10 a. m. at the Crosley school in West Monroe. Much interest is being shown throughout the Fifth District and a large number in attendance is expected. Lunch will be served in the cafeteria."

• • •

Schools To Continue

Schools of instruction in methods and procedure, started in October, will continue to be features of district Parent-Teacher association meetings during November.

Parish superintendents of schools have been invited to attend these meetings, at which Mrs Albert L. Smith, state P.-T. A. president, is appearing.

The first district meeting of the year was held October 29 at Slidell. The sixth district gathering was held there, with Mrs. G. O. Salassi, district director, presiding.

The first district meeting was held October 30. It was under the direction of Mrs. T. B. Becnel.

The third district meeting will be held at St. Martinville, with Mrs. R. L. Bolyard of Lafayette, presiding.

Officers of the Louisiana Congress of Parents and Teachers are reporting a noticeable increase in membership. Seven units have been added to the state roster since October 1.

Parent-Teacher work will be given a place on the program when the Louisiana Teachers' association meets in Alexandria November 22 and 23. The main speaker on this phase of the Program will be Mrs. Noyes Darling Smith, third vice-president of the National Congress of Parents and Teachers. Mrs. Smith, an able and widely-known educator, will also speak on the teachers' program. The state president of the P.-T. A., Mrs. Smith, is also listed as a speaker.

• • •

Plans Are Perfected

Plans were perfected for the district P.-T. A. meeting at the school November 9 when the executive committee of the Crosley school Parent-Teacher association met Wednesday afternoon. The gathering took place in the cafeteria of the school.

The room mothers pledged themselves to exert every effort to have as many mothers at the district meeting as possible. The meeting will start during the morning and continue into the afternoon. Lunch will be served in the cafeteria at noon.

The Mother Singers, with Mrs. Clyde Howard, chairman, held a brief session in connection to the executive committee meeting and outlined musical plans for the year. The committee decided to place more emphasis on this phase of P.-T. A. work than heretofore.

• • •

Barkdull Faulk Party

Witches, goblins and many other spooks visited the Halloween carnival given at Barkdull Faulk school under the auspices of the Barkdull Faulk Parent-Teacher association of the Louisiana Congress of Parents and Teachers.

Thornton Montcalm won the prize for the best costume.

A short program of songs and dances by sprites was presented for the entertainment of the throng until the cake walk began.

The program was as follows:

Tap dances—Nettigene Williams, Phyllis Fontana and Angie Rizzo, Thornton Montcalm and Billy Zinsmeister, Olga Kelly and Barbara Crewe,

Halloween poem, Sure of It, Mariandel McCann,

Song, On the Good Ship Lollypop, Patsy Mims.

Song, A Splash in a Silver Break, Eunice and Lita Bond.

Adagio dance, Gwendoly and Barbara Hulin.

Song, Jack o' Lantern, two A grade group.

A beautiful cake was awarded Mrs. Lloyd Surghnor at the conclusion of the cake walk.

All of the carnival booths were popular, but particularly those of the fortune teller and the white bat.

A considerable sum was realized through the entertainment. It will go toward meeting expenses of the association.

• • •

Enterprise Unit Formed

ENTERPRISE, La., Nov. 2.—(Special)—A Parent-Teacher association affiliated with the Louisiana Congress of Parents and Teachers has been organized by teachers and patrons of Enterprise Junior High school. There were 58 charter members.

Officers were elected as follows: Mrs. E. D. Hooter, president; Mrs. E. A. Chapman, vice-president; Mrs. Edna Book, secretary; and Mrs. Carl Butler, treasurer.

The organization meeting was attended by Mrs. P. S. Gaharan, eighth district P.-T. A. chairman, who made an address.

At a later meeting, committees were appointed, means of raising funds were discussed and a Halloween carnival planned. The carnival proved a decided success.

• • •

Georgia Tucker School

A spirit of enthusiastic response prevailed at the October meeting of the Georgia Tucker school Parent-Teacher association from the moment members were greeted by the hospitality committee who distributed leaflets, "Why Join the P.-T. A.," until the closing song was sung.

Dr. Marvyn Johnson, guest speaker, gave a helpful and informative talk on "The Prevention and Treatment of Common Colds."

After routine business, the president, Mrs. J. G. Durrett, read the resolutions adopted at the recent meeting of the board of managers of Louisiana P.-T. A. Mrs. Durrett also made an eloquent appeal to members to meet the challenge of service offered by the Parent-Teacher association.

Reports showing definite progress in each line of endeavor were given by chairmen of standing committees: Membership, Mrs. J. Phelps; program, Mrs. Marvyn Johnson; finance, Mrs. Elmer Richards; social service, Mrs. F. G. Bennett; study group, Mrs. M. M. Cragon.

The resignation of Mrs. D. B. Weil as corresponding secretary was accepted, and Mrs. C. Dickard was unanimously elected to fill this office.

December 6th was selected as the date for the annual P.-T. A. carnival. Sixteen members volunteered to dress dolls for Christmas to be distributed by the Council of Social Agencies. A committee, Mrs. F. N. Steele, Lee Hodges and R. C. Hickerson, will obtain the dolls and collect them after being dressed.

The January meeting will be held at night in order that fathers may attend. Miss Mary Mims, state community worker, will be the guest speaker.

Miss Myrtle Rodgers, principal of Georgia Tucker school, gave an interesting account of safety activities in the school, and announced plans for visual education.

Mrs. Lizzie McGuire engaged the attention of those present with a comparison of "Old and New Methods of Teaching." Mrs. Herbert Breard followed with a display of old textbooks, pointing out improvements to be found in material, print and illustrations in textbooks of today.

Singing of P.-T. A. songs, led by Mrs. Paul Newman, concluded the meeting. The next meeting will be held on the third Thursday, instead of fourth, because of Thanksgiving.

Waterproof P.-T. A.

WATERPROOF, La., Nov. 2.—(Special)—Discussions of food and nutrition featured the first meeting of the year of the Waterproof Parent-Teacher association of the Louisiana Congress of Parents and Teachers. The gathering was a combined business and social session.

"Nutrition" was discussed by Mrs. Naomi Hale, home economic teacher. Declaring that health training was necessary to enable people to keep fit and that children should be assured their right to a sound mind in a sound body, she listed the four purposes of food—to build and repair the body, to supply energy, to protect the body from disease and to regulate the body processes.

Mrs. Stanton Rife and Mrs. Norman Martein discussed "Balanced Meals," giving simple but appetizing menus for adults and growing children. Mrs. W. T. Lanius gave a number of recipes for making sandwiches.

The secretary reported $27.50 had been raised through a play sponsored by the P.-T. A.

At the close of the business session, those in attendance were served refreshments.

• • •

St. Matthew's School

Routine matters were disposed of at the October meeting of the St. Matthew's Parochial school Parent-Teacher association of the Louisiana Congress of Parents and Teachers.

Mrs. W. C. Holstein, executive secretary of the Ouachita parish chapter of the American Red Cross, appeared at the gathering and urged the cooperation of members of the association in the Red Cross campaign for safety in homes.

Mrs. D. Daughtry reported that the president, the first vice-president and 10 chairmen of the association attended the recent Twin City Parent-Teacher council meeting. At that meeting Mrs. Albert T. Smith of Winnfield, state P.-T. A. president, and Mrs. L. A. Maihles, past president, were presented.

Mrs. Daughtry reported that several subjects of importance to Parent-Teacher units were discussed at the council meeting, and that the slogan, "Trained Leadership and Informed Membership," was stressed. It was suggested that the members familiarize themselves with the Parent-Teacher Manual, which is in the charge of Mrs. John Pracher.

The following committee was appointed to assist the council in dressing dolls for distribution among underprivileged children at Christmas: Mesdames Hebert, chairman, Hauser, Shaughnessy, Charles Guerriero, A. M. Guerriero, John Guerriero, Morris, Bell, Morrison and Reid and Miss Grace Aaron.

Attendance prizes were awarded the freshman class and the first grade.

The following were admitted into membership in the association: Mrs. W. R. Cunningham, Dr. and Mrs. C. L. Mengis, Mrs. J. F. Brown, Mrs. H. W. Lane, Mrs. R. O. Wood, Mrs. C. Slavant, Mrs. Nastasi and Mrs. J. W. Webster.

The meeting day of the association has been changed to the third Friday of each month. The November meeting, which is scheduled for 7:30 p.m. November 21, has been designated "Fathers' Night." Mrs. Charles Guerriero, membership chairman, said the membership drive would close with that meeting.

After the reading of the minutes of the previous meeting and the submission of a financial report by Mrs. Bedoit, Miss McStravick gave a report on the cafeteria of the parochial school. She said 20 needy children were being taken care of at the cafeteria by the P.-T. A.

Following the business session, those in attendance enjoyed the following program: Song, Crooked Man, first grade; reading, A Woman, Jo Ann Guerriero; dialogue, Going Somewhere, Sue Jane Molaison and James Guerriero.

The meeting was presided over by Mrs. Paul Keller, president. The devotional was led by Sister Stanislaus, principal of the school.

Forty-eight members attended the meeting.

Effort To Keep Up With Johnny Jones Diagnosed As 'School Sickness' Cause

By Alexander R. George

WASHINGTON, Nov. 2.—(AP)—The health specialists are concentrating their attention on a newly diagnosed disease which is peculiarly a product of the schools.

It is "school sickness" which recently has been definitely identified as a nerve illness brought about by "pressure" on the more or less sensitive child. Dr. James F. Rogers, consultant in hygiene of the United States office of education, says "even tuberculosis will not work such havoc with the child save in the final stages."

The disease is characterized by irritability, restlessness, anxiety and a highly emotional state. The child usually has a poor appetite, he sleeps badly and may have night terrors. The symptoms begin soon after school commences and grow worse as the term advances. They are aggravated, physicians say, by mental examinations and by athletic contests.

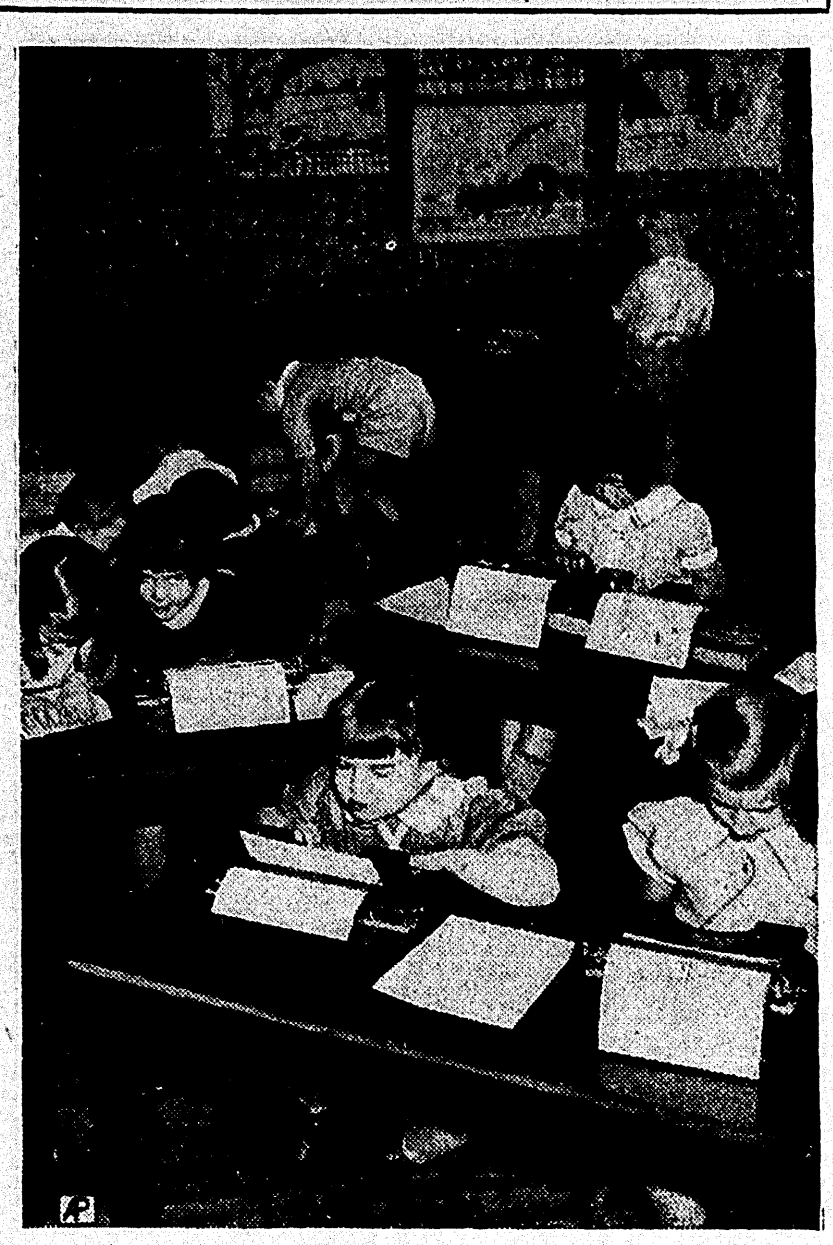
Dr. Rogers says that in many school systems children (no two of whom are alike even if they are twins) are expected to pass through the same courses at the same speed or be labelled "D," "dull," "retarded," or "inferior."

"The more sensitive child, who cannot keep up the pace in one or more subjects, does his utmost under the well-intended stimulus and the result is an illness as real as measles and unfortunately far more drawn out and full of misery," he said.

To prevent this disease, some health specialists have suggested that the child's report card bear only the remarks "satisfactory" or "unsatisfactory." Satisfactory would mean that the child was doing as well as could be expected taking into consideration his age, mentality, health, degree of social adjustment in the school room and emotional poise.

Dr. J. V. Treynor, of Council Bluffs, Iowa, credited with being the first to use the term "school sickness" in diagnosing the disease, has advocated that "the schools be rid of the one great evil, pressure."

Dr. Rogers says that while he was visiting a class for physically delicate and possibly tuberculous children in an eastern city, the special teacher informed him that the pupils were permitted to proceed in their studies "at their own pace."

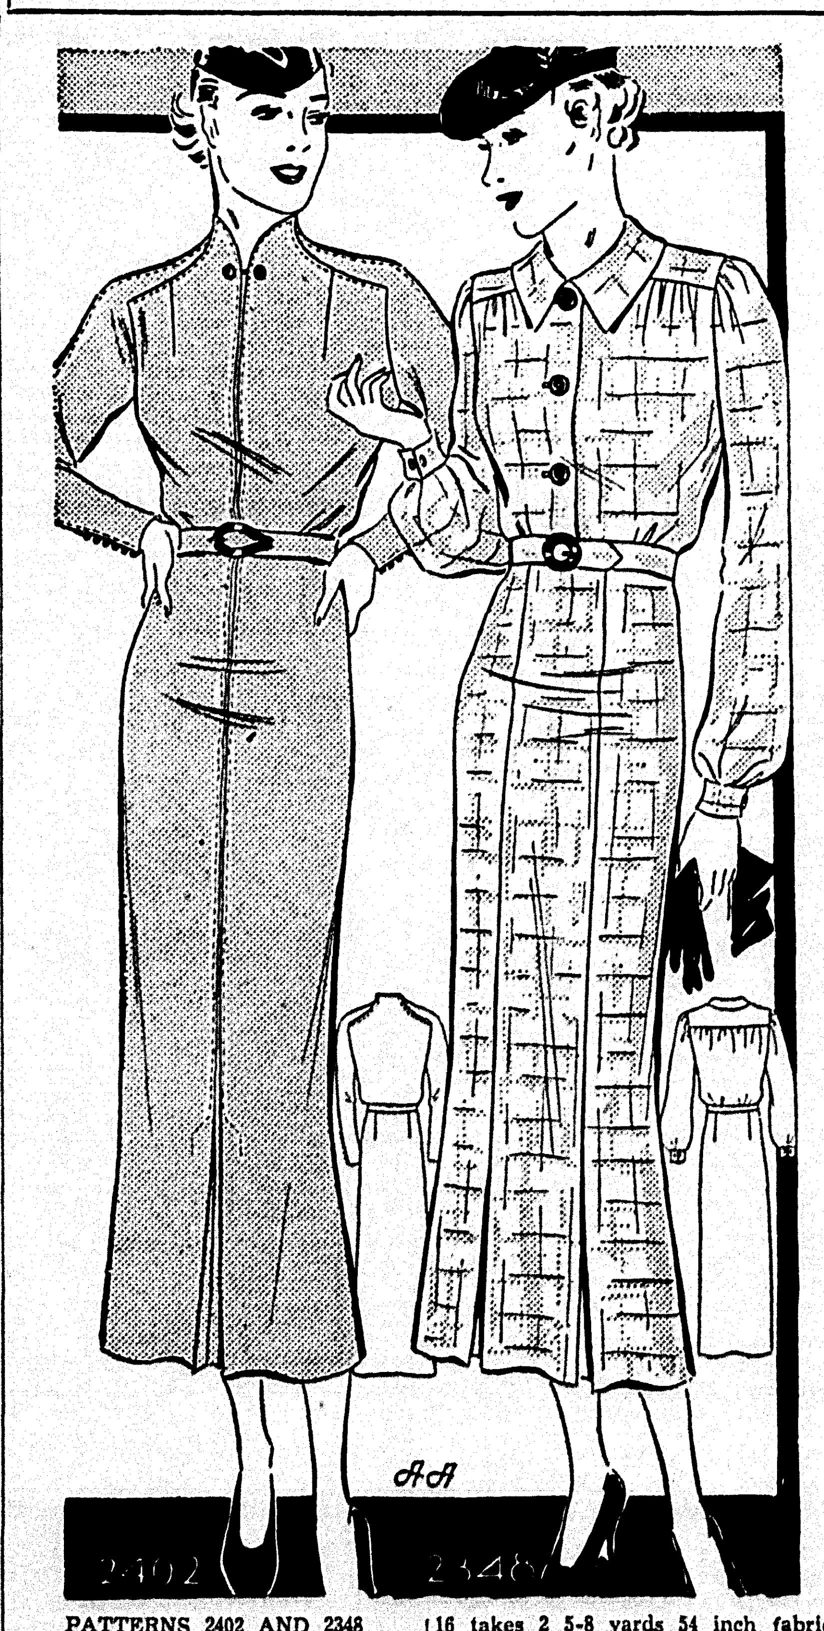


Keeping pace with the new steps in education, Horace Mann school at Teachers college, Columbia university, has long been battling the danger of "pressure" on children. There's no evidence of "school sickness" here, where children in the first, second and third grades are seen at work at their typewriters.

This meant, he says, that only about 100 pupils out of some 75,000 in that city were wholly exempt from conditions which might produce "school sickness." He believes, furthermore, that undoubtedly some of the 100 were in the special classes because of poor nutrition produced by anxiety over school work in regular classes.

"We make much today of medical inspection but the physical defects thus disclosed are trifling in comparison with mental states which produce loss of sleep, loss of appetite, loss of weight and energy," Dr. Rogers said.

Adopt The Tailored Mode



PATTERNS 2402 AND 2348

You'll be considered "ace high" in fashion if you include one or more smartly tailored frocks in your winter wardrobe. Have you ever before beheld such tailored perfection as pattern 2402? Its clean-cut, precise lines give you the assurance that makes you throw your shoulders back, your chin up! See how gracefully the bodice shapes upward—hugging the throat! How smooth and sleek the hips! It's smart in sheer wool or wool crepe. Pattern 2348 is a soft, young, thoroughly wearable shirtmaker of the go-anywhere type, which makes up nicely in challis, jersey, wool-appearing cotton, or one of the new dressy woolens. Illustrated step-by-step sewing instructions included with each pattern.

Patern 2402 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 takes 2 5-8 yards 54 inch fabric. Price 15c.

Pattern 2348 is available in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 takes 2 5-8 yards 54 inch fabric. Price 15c.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for each Anne Adams pattern, THIRTY CENTS (30c) for both. Write name, address and style number. BE SURE TO STATE SIZE.

Order your FALL AND WINTER EDITION OF ANNE ADAMS PATTERN BOOK! You'll be thrilled with the smart designs it pictures—clothes for all occasions . . . for all your family. Adorable, easy-to-make Christmas gifts, too. And helpful advice on being the charming, perfectly-groomed woman. A book you'll love, and consult frequently—all season! PRICE OF BOOK FIFTEEN CENTS. BOOK AND PATTERN TOGETHER TWENTY-FIVE CENTS.

Address orders to Monroe Morning World Pattern Department, 243 West 17th Street, New York, N. Y.

Under an old campus rule, no smoking is permitted on Baylor university grounds at Waco, Texas.

CHAPTER XX

Mrs. McNeill, arriving home a few days earlier than she had expected, took a taxi from the depot to her home on Garfield avenue. She preferred to do this rather than call John at the factory and put him to the trouble of meeting her. She was that sort of person—brisk, self-reliant and not given to demanding attention.

When she reached home she was given a welcome by Susie, the colored cook who had served her for almost 30 years. Susie and her husband, Ebe, the yard man, lived at the rear of the place in the cupaloed building that had been stable and servants' house when built. The lower floor had long since been converted into a garage, but the quarters of Susie and Ebe remained as unchanged as themselves. Though the years had slowed down the efficiency of both servants, their pride in their work and their devotion to the McNeills was a by-word.

Mrs. McNeill exclaimed: "How nice everything looks, Susie! I don't believe I've been missed at all. How's Mr. John?"

"If it's the appetite you're askin' about," answered Susie, "it ain't never been better. But he's doin' a powerful lot of galavatin'. He ain't home any longer than it takes to eat his meals and spruce up."

Mrs. McNeill looked pleased. She said, "I always thought John would be socially inclined if he once got started. Where has he been going, Susie?"

"Now, you're askin' me sumthin!" replied Susie. She rolled her eyes importantly, enjoying the remarkableness of the news she was about to impart. "He's been goin' ovah to the old Hunter house!"

Mrs. McNeill stared in amazement, her well-bred mouth actually gaping. "What do you mean by that, Susie? What on earth does he do there?"

"He hangs aroun' a young lady," Susie informed her. "When he ain't visitin' with her, he's carryin' her for a ride in his cah. Looks like Mr. John done gone daffy."

"Who is the girl?" Mrs. McNeill asked. "You don't mean the Chalmers child, do you, Susie?"

"Yes'm," said Susie, nodding. "Dat's who 'tis, all right. He call her 'Elaine' when he yell at her one mornin' from the yard. Ebe and me recollects her from a chile, but we ain't had a good look at her since she's been heah. Seem like she done come all by herself to take a rest. Mr. John tole me not to talk about it to anybody, an' I ain't."

• • •

Mrs. McNeill was calculating. "Elaine must be about 20 years old now. Do you mean the girl hasn't seen anybody but John, Susie?"

"Seems like she ain't," replied Susie. "Maybe she's done caught the solitary bug from crazy Bertha Gibbs."

Mrs. McNeill laughed, then grew sober. "She's got no business being alone in that house with Bertha. I've an idea she came without her mother's consent. I must look into it, Susie."

As she put away her clothes and freshened herself for dinner, Ellen McNeill's mind dwelt on Susie's news. She could hardly wait for John to come home, so she might question him. As far as she could tell, the house next door looked just as usual. It was hard to believe that a vivid young thing from the fashionable world had incarcerated herself there.

John arrived just in time for dinner; almost before the soup was finished his mother was asking him questions about Elaine. His reticence surprised her. Could Susie be right about his being "daffy" over the girl? She said, "John, I must see her! She's got no business in the world being in that house. Whatever induced her to come? Just a whim?"

"It seems so," answered John. "She needed a rest."

Mrs. McNeill said, "I'm afraid I wouldn't recognize her now. I recall her as a handsome, imperious child. How is Bertha reacting to it all, John?"

"More reasonably than you'd expect," John replied. "But I feel darned uneasy about it, just the same. I've just been thinking, Mother, couldn't we ask her over here to finish out her visit?"

"Of course we could son," she told him. "I've been planning the same thing myself. Go over after dinner and bring her to me. I think I can convince her that she ought to come to us."

Ruth was not prepared for John's request that she run over to see his mother with him. It threw her into a panic. She exclaimed, "Why, John! I didn't know your mother was at home."

"She came back today," John told her. "She's all worked up over your being here. She's anxious to talk to you. Now come on, honey, and don't argue. You don't want to hurt Mother's feelings, do you?"

He did not let her wait to "primp," as he called it, but seized her hand and drew her, running, after him across the lawns.

• • •

Mrs. McNeill met them in the hall and kissed Ruth matter-of-factly as she greeted her. She said, "You're a dear child to come. John says you haven't been seeing people, but I felt you wouldn't mind seeing me." She was leading Ruth into the big living room and seating her on a divan as she talked. The girl's panic was vanishing. She had been accepted as Elaine, even in the clear lamplight. Perhaps there was nothing to fear, after all. She looked shyly at John and his beaming smile reassured her.

He said, "Mother's got a plan. A swell one—"

"What is it?" Ruth asked, her voice a little fluttery.

"It's this," said Mrs. McNeill. "You're to go back and pack your clothes and come to us at once. You're not to stay another night in that desolate old barn. It's not practical. It's not even safe."

Ruth answered, surprised and touched, "Oh, but I couldn't do that. I couldn't." She did not say why she couldn't, but she said it firmly, as if she meant it. She only knew that she must not let them persuade her.

Mrs. McNeill asked pointedly, "Does your mother know you are here, Elaine?"

"No," answered Ruth, flushing hotly. So it was going to be a sort of inquisition after all.

"And do you think she'd approve of your being here alone?" continued Mrs. McNeill firmly.

"No. I suppose she wouldn't!"

"Well then!" said Mrs. McNeill, as if that settled it. "Do you want John to tell old Bertha Gibbs you're coming or would you rather do it yourself?"

Ruth replied, lifting her chin stubbornly, "If it's Bertha you're thinking about, Mrs. McNeill, she's as harmless as a child. John's warned me about her several times" (with a quick smile at him) "but I've always contended she's all right. She's just eccentric and childish."

Mrs. McNeill said reasonably, "We are in a position to know more about Bertha Gibbs than you do, Elaine. She's quite definitely off. Not violent, I grant you, but off. She's nursed grudges against certain people for years. Your stepfather among them. Your mother, too, possibly. No doubt you know why. She worshiped your Uncle Duncan."

"Yes," murmured Ruth, though what Mrs. McNeill had just said made no sense to her. She was thinking, "I can't come over here and stay. I won't. There's a limit to my outrageous nerve." With all her strength she would resist them. She allowed her determination to show in her face as she looked at Mrs. McNeill. She said, exactly as the imperious Elaine Chalmers would have said it, "You're quite kind to ask me to come, but I'm quite all right where I am. It's an adventure I wouldn't miss."

"Well," remarked John half-smiling, "that's that."

• • •

Mrs. McNeill said, with a little gesture of defeat but not resentment, "Then stay on for a while, dear, and talk to me. I remember you as a little girl, and yet I don't remember you either. At least you've not turned out as I thought you would."

Ruth supplied with a smile, "I'm not as large as I promised to be, and my hair's darker. My mother's hair turned dark, too, though not so much—" She was quoting Penny almost word for word.

Mrs. McNeill nodded. "It's good to see one of the Hunters back again. There've been Hunters here for generations. Worthville misses them now. Is your mother well?"

"Yes, thank you," Ruth replied. She was thinking, "What a sweet woman! She's fine and good and proud and sensible. She believes I'm Elaine Chalmers with millions and millions, but she treats me the way she'd treat any other girl whose mother she used to know. She's sincere and sure of herself. John gets those traits from her. He gets his good looks from her, too—"

Mrs. McNeill was thinking, "She's surprisingly simple and unaffected. And so pretty! No wonder John's infatuated. I can see he is. He doesn't take his eyes off her . . . he really mustn't fall in love with her. She wouldn't have him, or, if she did, it wouldn't work. Wealth's a barrier to the normal life. It never brings happiness—"

Yet through and around these thoughts, they wove a web of polite conversation there in the gracious big parlor, autumn flowers nodding from sedate old vases and polished floors reflecting the lamplight.

All the while Ruth was thinking, "Elaine and John should marry, after all. It wouldn't matter about all her money. John's background is as good as hers . . . it would join the two houses together again. I believe it's intended. When she comes, all that will begin to happen—"

And then she thought of a hall-bedroom somewhere, with a gas plate in it for cooking. If she were lucky, she would be living in such a place while John and Elaine were becoming acquainted.

Fifth District Parent-Teacher Meeting November 9

Session To Be Held At Crosley School

Gathering Will Be In Form Of School Of Instruction; Statement Is Issued Mrs. Carl L. Couch

Realizing the importance of trained leadership, the fifth district organization of the Louisiana Congress of Parents and Teachers will hold its meeting November 9 at Crosley school in West Monroe in the form of a school of instruction. The session will start at 10 a. m.

In connection with the meeting, Mrs. Carl L. Couch, district director, has issued the following statement:

"The National Congress of Parents and Teachers confines itself solely to child welfare. If the local unit is to carry on the work as outlined by the national congress; if it is to meet the challenge that is thrown out to it every day from the home, the school and the public at large, then it must be made up of a membership who knows the organization of which they are a part; who understond its aim and purposes; who believe in its progress and who are willing to contribute their best endeavors that through the Parent-Teacher associations the school and the home may be able to serve more intelligently and more sympathetically the child-life of today.

Realizing that trained leadership must be available to carry on the work as outlined by the national congress if the local units are to succeed, the fifth district meeting of the Louisiana Congress of Parents and Teachers will be held in the form of a school of instruction on Saturday, November 9, at 10 a. m. at the Crosley school in West Monroe. Much interest is being shown throughout the Fifth District and a large number in attendance is expected. Lunch will be served in the cafeteria."

* * *

Schools To Continue

Schools of instruction in methods and procedure, started in October, will continue to be features of district Parent-Teacher association meetings during November.

Parish superintendents of schools have been invited to attend these meetings, at which Mrs Albert L. Smith, state P.-T. A. president, is appearing.

The first district meeting of the year was held October 29 at Slidell. The sixth district gathering was held there, with Mrs. G. O. Salassi, district director, presiding.

The first district meeting was held October 30. It was under the direction of Mrs. T. B. Becnel.

The third district meeting will be held at St. Martinville, with Mrs. R. L. Bolyard of Lafayette, presiding.

Officers of the Louisiana Congress of Parents and Teachers are reporting a noticeable increase in membership. Seven units have been added to the state roster since October 1.

Parent-Teacher work will be given a place on the program when the Louisiana Teachers' association meets in Alexandria November 22 and 23. The main speaker on this phase of the Program will be Mrs. Noyes Darling Smith, third vice-president of the National Congress of Parents and Teachers. Mrs. Smith, an able and widely-known educator, will also speak on the teachers' program. The state president of the P.-T. A., Mrs. Smith, is also listed as a speaker.

* * *

Plans Are Perfected

Plans were perfected for the district P.-T. A. meeting at the school November 9 when the executive committee of the Crosley school Parent-Teacher association met Wednesday afternoon. The gathering took place in the cafeteria of the school.

The room mothers pledged themselves to exert every effort to have as many mothers at the district meeting as possible. The meeting will start during the morning and continue into the afternoon. Lunch will be served in the cafeteria at noon.

The Mother Singers, with Mrs. Clyde Howard, chairman, held a brief session in connection to the executive committee meeting and outlined musical plans for the year. The committee decided to place more emphasis on this phase of P.-T. A. work than heretofore.

* * *

Barkdull Faulk Party

Witches, goblins and many other spooks visited the Halloween carnival given at Barkdull Faulk school under the auspices of the Barkdull Faulk Parent-Teacher association of the Louisiana Congress of Parents and Teachers.

Thornton Montcalm won the prize for the best costume.

A short program of songs and dances by sprites was presented for the entertainment of the throng until the cake walk began.

The program was as follows:

Tap dances—Nettigene Williams, Phyllis Fontana and Angie Rizzo, Thornton Montcalm and Billy Zinsmeister, Olga Kelly and Barbara Crewe.

Halloween poem, Sure of It, Mariandel McCann.

Song, On the Good Ship Lollypop, Patsy Mims.

Song, A Splash in a Silver Break, Eunice and Lita Bond.

Adagio dance, Gwendoly and Barbara Hulin.

Song, Jack o' Lantern, two A grade group.

A beautiful cake was awarded Mrs. Lloyd Surghnor at the conclusion of the cake walk.

All of the carnival booths were popular, but particularly those of the fortune teller and the white bat.

A considerable sum was realized through the entertainment. It will go toward meeting expenses of the association.

Enterprise Unit Formed

ENTERPRISE, La., Nov. 2.—(Special)—A Parent-Teacher association affiliated with the Louisiana Congress of Parents and Teachers has been organized by teachers and patrons of Enterprise Junior High school. There were 58 charter members.

Officers were elected as follows: Mrs. E. D. Hooter, president; Mrs. E. A. Chapman, vice-president; Mrs. Edna Book, secretary; and Mrs. Carl Butler, treasurer.

The organization meeting was attended by Mrs. P. S. Gaharan, eighth district P.-T. A. chairman, who made an address.

At a later meeting, committees were appointed, means of raising funds were discussed and a Halloween carnival planned. The carnival proved a decided success.

* * *

Georgia Tucker School

A spirit of enthusiastic response prevailed at the October meeting of the Georgia Tucker school Parent-Teacher association from the moment members were greeted by the hospitality committee who distributed leaflets, "Why Join the P.-T. A.," until the closing song was sung.

Dr. Marvyn Johnson, guest speaker, gave a helpful and informative talk on "The Prevention and Treatment of Common Colds."

After routine business, the president, Mrs. J. G. Durrett, read the resolutions adopted at the recent meeting of the board of managers of Louisiana P.-T. A. Mrs. Durrett also made an eloquent appeal to members to meet the challenge of service offered by the Parent-Teacher association.

Reports showing definite progress in each line of endeavor were given by chairmen of standing committees: Membership, Mrs. J. Phelps; program, Mrs. Marvyn Johnson; finance, Mrs. Elmer Richards; social service, Mrs. F. G. Bennett; study group, Mrs. M. M. Cragon.

The resignation of Mrs. D. B. Weil as corresponding secretary was accepted, and Mrs. C. Dickard was unanimously elected to fill this office.

December 6th was selected as the date for the annual P.-T. A. carnival. Sixteen members volunteered to dress dolls for Christmas to be distributed by the Council of Social Agencies. A committee, Mrs. F. N. Steele, Lee Hodges and R. C. Hickerson, will obtain the dolls and collect them after being dressed.

The January meeting will be held at night in order that fathers may attend. Miss Mary Mims, state community worker, will be the guest speaker.

Miss Myrtle Rodgers, principal of Georgia Tucker school, gave an interesting account of safety activities in the school, and announced plans for visual education.

Mrs. Lizzie McGuire engaged the attention of those present with a comparison of "Old and New Methods of Teaching." Mrs. Herbert Breard followed with a display of old textbooks, pointing out improvements to be found in material, print and illustrations in textbooks of today.

Singing of P.-T. A. songs, led by Mrs. Paul Newman, concluded the meeting. The next meeting will be held on the third Thursday, instead of fourth, because of Thanksgiving.

* * *

Waterproof P.-T. A.

WATERPROOF, La., Nov. 2.—(Special)—Discussions of food and nutrition featured the first meeting of the year of the Waterproof Parent-Teacher association of the Louisiana Congress of Parents and Teachers. The gathering was a combined business and social session.

"Nutrition" was discussed by Mrs. Naomi Hale, home economic teacher. Declaring that health training was necessary to enable people to keep fit and that children should be assured their right to a sound mind in a sound body, she listed the four purposes of food—to build and repair the body, to supply energy, to protect the body from disease and to regulate the body processes.

Mrs. Stanton Rife and Mrs. Norman Martein discussed "Balanced Meals," giving simple but appetizing menus for adults and growing children. Mrs. W. T. Lanius gave a number of recipes for making sandwiches.

The secretary reported $27.50 had been raised through a play sponsored by the P.-T. A.

At the close of the business session, those in attendance were served refreshments.

* * *

St. Matthew's School

Routine matters were disposed of at the October meeting of the St. Matthew's Parochial school Parent-Teacher association of the Louisiana Congress of Parents and Teachers.

Mrs. W. C. Holstein, executive secretary of the Ouachita parish chapter of the American Red Cross, appeared at the gathering and urged the cooperation of members of the association in the Red Cross campaign for safety in homes.

Mrs. D. Daughtry reported that the president, the first vice-president and 10 chairmen of the association attended the recent Twin City Parent-Teacher council meeting. At that meeting Mrs. Albert T. Smith of Winnfield, state P.-T. A. president, and Mrs. L. A. Maihles, past president, were presented.

Mrs. Daughtry reported that several subjects of importance to Parent-Teacher units were discussed at the council meeting, and that the slogan, "Trained Leadership and Informed Membership," was stressed. It was suggested that the members familiarize themselves with the Parent-Teacher Manual, which is in the charge of Mrs. John Pracher.

The following committee was appointed to assist the council in dressing dolls for distribution among underprivileged children at Christmas: Mesdames Hebert, chairman, Hauser, Shaughnessy, Charles Guerriero, A. M. Guerriero, John Guerriero, Morris, Bell, Morrison and Reid and Miss Grace Aaron.

Attendance prizes were awarded the freshman class and the first grade.

The following were admitted into membership in the association: Mrs. W. R. Cunningham, Dr. and Mrs. C. L. Mengis, Mrs. J. F. Brown, Mrs. H. W. Lane, Mrs. R. O. Wood, Mrs. C. Slavant, Mrs. Nastasi and Mrs. J. W. Webster.

The meeting day of the association has been changed to the third Friday of each month. The November meeting, which is scheduled for 7:30 p.m. November 21, has been designated "Fathers' Night." Mrs. Charles Guerriero, membership chairman, said the membership drive would close with that meeting.

After the reading of the minutes of the previous meeting and the submission of a financial report by Mrs. Bedoit, Miss McStravick gave a report on the cafeteria of the parochial school. She said 20 needy children were being taken care of at the cafeteria by the P.-T. A.

Following the business session, those in attendance enjoyed the following program: Song, Crooked Man, first grade; reading, A Woman, Jo Ann Guerriero; dialogue, Going Somewhere, Sue Jane Molaison and James Guerriero.

The meeting was presided over by Mrs. Paul Keller, president. The devotional was led by Sister Stanislaus, principal of the school.

Forty-eight members attended the meeting.

One of the world's speediest insects has no legs, feet or flippers. It is a parasite which lives on the bodies of bats, and it travels about by rolling like a ball.

Effort To Keep Up With Johnny Jones Diagnosed As 'School Sickness' Cause

By Alexander R. George

WASHINGTON, Nov. 2.—(AP)—The health specialists are concentrating their attention on a newly diagnosed disease which is peculiarly a product of the schools.

It is "school sickness" which recently has been definitely identified as a nerve illness brought about by "pressure" on the more or less sensitive child. Dr. James F. Rogers, consultant in hygiene of the United States office of education, says "even tuberculosis will not work such havoc with the child save in the final stages."

The disease is characterized by irritability, restlessness, anxiety and a highly emotional state. The child usually has a poor appetite, he sleeps badly and may have night terrors. The symptoms begin soon after school commences and grow worse as the term advances. They are aggravated, physicians say, by mental examinations and by athletic contests.

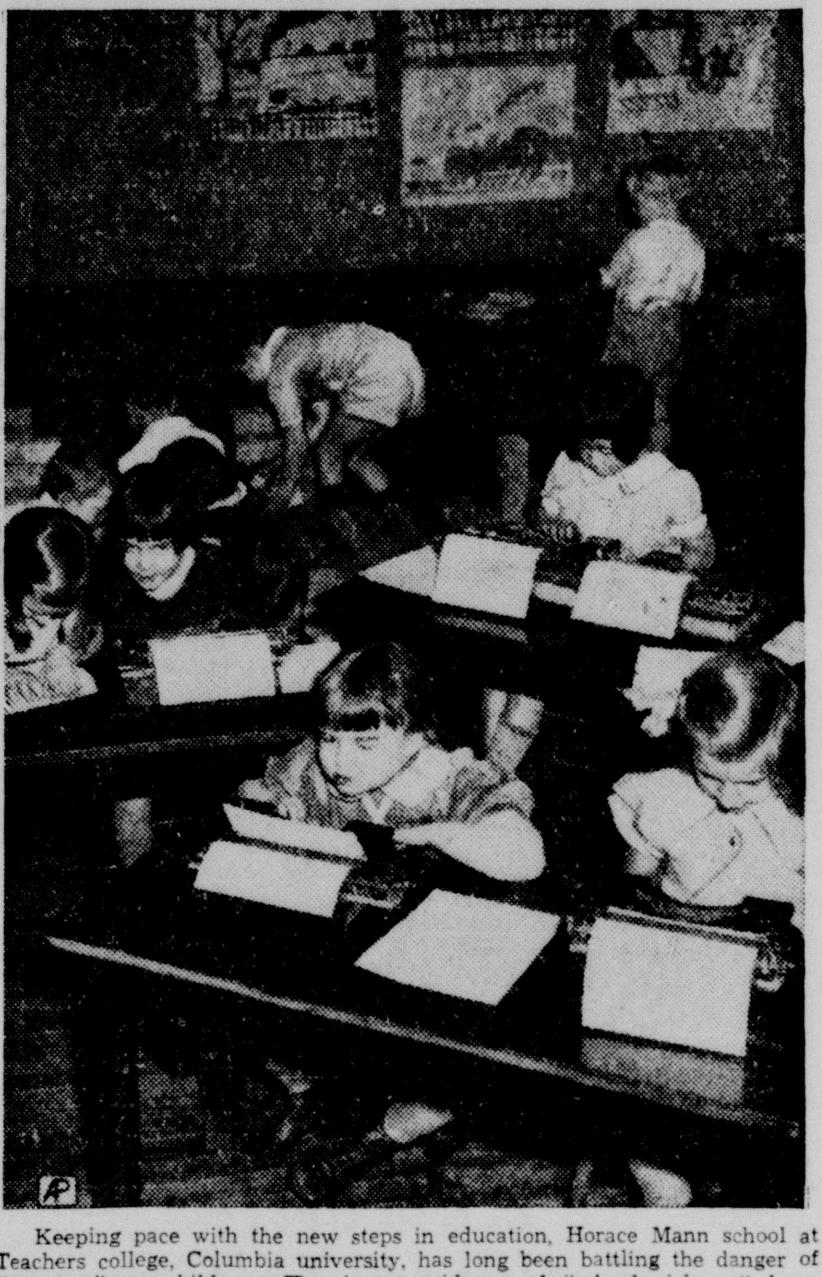
Dr. Rogers says that in many school systems children (no two of whom are alike even if they are twins) are expected to pass through the same courses at the same speed or be labelled "D," "dull," "retarded," or "inferior."

"The more sensitive child, who cannot keep up the pace in one or more subjects, does his utmost under the well-intended stimulus and the result is an illness as real as measles and unfortunately far more drawn out and full of misery," he said.

To prevent this disease, some health specialists have suggested that the child's report card bear only the remarks "satisfactory" or "unsatisfactory." Satisfactory would mean that the child was doing as well as could be expected taking into consideration his age, mentality, health, degree of social adjustment in the school room and emotional poise.

Dr. J. V. Treynor, of Council Bluffs, Iowa, credited with being the first to use the term "school sickness" in diagnosing the disease, has advocated that "the schools be rid of the one great evil, pressure."

Dr. Rogers says that while he was visiting a class for physically delicate and possibly tuberculous children in an eastern city, the special teacher informed him that the pupils were permitted to proceed in their studies "at their own pace."



Keeping pace with the new steps in education, Horace Mann school at Teachers college, Columbia university, has long been battling the danger of "pressure" on children. There's no evidence of "school sickness" here, where children in the first, second and third grades are seen at work at their typewriters.

This meant, he says, that only about 100 pupils out of some 75,000 in that city were wholly exempt from conditions which might produce "school sickness." He believes, furthermore, that undoubtedly some of the 100 were in the special classes because of poor nutrition produced by anxiety over school work in regular classes.

"We make much today of medical inspection but the physical defects thus disclosed are trifling in comparison with mental states which produce loss of sleep, loss of appetite, loss of weight and energy," Dr. Rogers said.

Adopt The Tailored Mode

PATTERNS 2402 AND 2348

You'll be considered "ace high" in fashion if you include one or more smartly tailored frocks in your winter wardrobe. Have you ever before beheld such tailored perfection as pattern 2402? Its clean-cut, precise lines give you the assurance that makes you throw your shoulders back, your chin up! See how gracefully the bodice shapes upward—hugging the throat! How smooth and sleek the hips! It's smart in sheer wool or wool crepe. Pattern 2348 is a soft, young, thoroughly wearable shirtmaker of the go-anywhere type, which makes up nicely in challis, jersey, wool-appearing cotton, or one of the new dressy woolens. Illustrated step-by-step sewing instructions included with each pattern.

Patern 2402 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 takes 2 5-8 yards 54 inch fabric. Price 15c.

Pattern 2348 is available in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 takes 2 5-8 yards 54 inch fabric. Price 15c.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for each Anne Adams pattern, THIRTY CENTS (30c) for both. Write name, address and style number. BE SURE TO STATE SIZE.

Order your FALL AND WINTER EDITION OF ANNE ADAMS PATTERN BOOK! You'll be thrilled with the smart designs it pictures—clothes for all occasions . . . for all your family. Adorable, easy-to-make Christmas gifts, too. And helpful advice on being the charming, perfectly-groomed woman. A book you'll love, and consult frequently—all season! PRICE OF BOOK FIFTEEN CENTS. BOOK AND PATTERN TOGETHER TWENTY-FIVE CENTS.

Address orders to Monroe Morning World Pattern Department, 243 West 17th Street, New York, N. Y.

Under an old campus rule, no smoking is permitted on Baylor university grounds at Waco, Texas.

CHAPTER XX

Mrs. McNeill, arriving home a few days earlier than she had expected, took a taxi from the depot to her home on Garfield avenue. She preferred to do this rather than call John at the factory and put him to the trouble of meeting her. She was that sort of person—brisk, self-reliant and not given to demanding attention.

When she reached home she was given a welcome by Susie, the colored cook who had served her for almost 30 years. Susie and her husband, Ebe, the yard man, lived at the rear of the place in the cupaloed building that had been stable and servants' house when built. The lower floor had long since been converted into a garage, but the quarters of Susie and Ebe remained as unchanged as themselves. Though the years had slowed down the efficiency of both servants, their pride in their work and their devotion to the McNeills was a byword.

Mrs. McNeill exclaimed: "How nice everything looks, Susie! I don't believe I've been missed at all. How's Mr. John?"

"If it's the appetite you're askin' about," answered Susie, "it ain't never been better. But he's doin' a powerful lot of galavatin'. He ain't home any longer than it takes to eat his meals and spruce up."

Mrs. McNeill looked pleased. She said, "I always thought John would be socially inclined if he once got started. Where has he been going, Susie?"

"Now, you're askin' me sumthin!" replied Susie. She rolled her eyes importantly, enjoying the remarkableness of the news she was about to impart. "He's been goin' ovah to the old Hunter house!"

Mrs. McNeill stared in amazement, her well-bred mouth actually gaping. "What do you mean by that, Susie? What on earth does he do there?"

"He hangs aroun' a young lady," Susie informed her. "When he ain't visitin' with her, he's carryin' her for a ride in his cah. Looks like Mr. John done gone daffy."

"Who is the girl?" Mrs. McNeill asked. "You don't mean the Chalmers child, do you, Susie?"

"Yes'm," said Susie, nodding. "Dat's who 'tis, all right. He call her 'Elaine' when he yell at her one mornin' from the yard. Ebe and me recollects her from a chile, but we ain't had a good look at her since she's been heah. Seem like she done come all by herself to take a rest. Mr. John tole me not to talk about it to anybody, an' I ain't."

* * *

Mrs. McNeill was calculating. "Elaine must be about 20 years old now. Do you mean the girl hasn't seen anybody but John, Susie?"

"Seems like she ain't," replied Susie. "Maybe she's done caught the solitary bug from crazy Bertha Gibbs."

Mrs. McNeill laughed, then grew sober. "She's got no business being alone in that house with Bertha. I've an idea she came without her mother's consent. I must look into it, Susie."

As she put away her clothes and freshened herself for dinner, Ellen McNeill's mind dwelt on Susie's news. She could hardly wait for John to come home, so she might question him. As far as she could tell, the house next door looked just as usual. It was hard to believe that a vivid young thing from the fashionable world had incarcerated herself there.

John arrived just in time for dinner; almost before the soup was finished his mother was asking him questions about Elaine. His reticence surprised her. Could Susie be right about his being "daffy" over the girl? She said, "John, I must see her! She's got no business in the world being in that house. Whatever induced her to come? Just a whim?"

"It seems so," answered John. "She needed a rest."

Mrs. McNeill said, "I'm afraid I wouldn't recognize her now. I recall her as a handsome, imperious child. How is Bertha reacting to it all, John?"

"More reasonably than you'd expect," John replied. "But I feel darned uneasy about it, just the same. I've just been thinking, Mother, couldn't we ask her over here to finish out her visit?"

"Of course we could son," she told him. "I've been planning the same thing myself. Go over after dinner and bring her to me. I think I can convince her that she ought to come to us."

Ruth was not prepared for John's request that she run over to see his mother with him. It threw her info a panic. She exclaimed, "Why, John! I didn't know your mother was at home."

"She came back today," John told her. "She's all worked up over your being here. She's anxious to talk to you. Now come on, honey, and don't argue. You don't want to hurt Mother's feelings, do you?"

He did not let her wait to "primp," as he called it, but seized her hand and drew her, running, after him across the lawns.

* * *

Mrs. McNeill met them in the hall and kissed Ruth matter-of-factly as she greeted her. She said, "You're a dear child to come. John says you haven't been seeing people, but I felt you wouldn't mind seeing me." She was leading Ruth into the big living room and seating her on a divan as she talked. The girl's panic was vanishing. She had been accepted as Elaine, even in the clear lamplight. Perhaps there was nothing to fear, after all. She looked shyly at John and his beaming smile reassured her.

He said, "Mother's got a plan. A swell one—"

"What is it?" Ruth asked, her voice a little fluttery.

"It's this," said Mrs. McNeill. "You're to go back and pack your clothes and come to us at once. You're not to stay another night in that desolate old barn. It's not practical. It's not even safe."

Ruth answered, surprised and touched, "Oh, but I couldn't do that. I couldn't." She did not say why she couldn't, but she said it firmly, as if she meant it. She only knew that she must not let them persuade her.

Mrs. McNeill asked pointedly, "Does your mother know you are here, Elaine?"

"No," answered Ruth, flushing hotly. So it was going to be a sort of inquisition after all.

"And do you think she'd approve of your being here alone?" continued Mrs. McNeill firmly.

"No. I suppose she wouldn't!"

"Well then!" said Mrs. McNeill, as if that settled it. "Do you want John to tell old Bertha Gibbs you're coming or would you rather do it yourself?"

Ruth replied, lifting her chin stubbornly, "If it's Bertha you're thinking about, Mrs. McNeill, she's as harmless as a child. John's warned me about her several times" (with a quick smile at him) "but I've always contended she's all right. She's just eccentric and childish."

Mrs. McNeill said reasonably, "We are in a position to know more about Bertha Gibbs than you do, Elaine. She's quite definitely off. Not violent, I grant you, but off. She's nursed grudges against certain people for years. Your stepfather among them. Your mother, too, possibly. No doubt you know why. She worshiped your Uncle Duncan."

"Yes," murmured Ruth, though what Mrs. McNeill had just said made no sense to her. She was thinking, "I can't come over here and stay. I won't. There's a limit to my outrageous nerve." With all her strength she would resist them. She allowed her determination to show in her face as she looked at Mrs. McNeill. She said, exactly as the imperious Elaine Chalmers would have said it, "You're quite kind to ask me to come, but I'm quite all right where I am. It's an adventure I wouldn't miss."

"Well," remarked John half-smiling, "that's that."

* * *

Mrs. McNeill said, with a little gesture of defeat but not resentment, "Then stay on for a while, dear, and talk to me. I remember you as a little girl, and yet I don't remember you either. At least you've not turned out as I thought you would."

Ruth supplied with a smile, "I'm not as large as I promised to be, and my hair's darker. My mother's hair turned dark, too, though not so much—" She was quoting Penny almost word for word.

Mrs. McNeill nodded. "It's good to see one of the Hunters back again. There've been Hunters here for generations. Worthville misses them now. Is your mother well?"

"Yes, thank you," Ruth replied. She was thinking, "What a sweet woman! She's fine and good and proud and sensible. She believes I'm Elaine Chalmers with millions and millions, but she treats me the way she'd treat any other girl whose mother she used to know. She's sincere and sure of herself. John gets those traits from her. He gets his good looks from her, too—"

Mrs. McNeill was thinking, "She's surprisingly simple and unaffected. And so pretty! No wonder John's infatuated. I can see he is. He doesn't take his eyes off her . . . he really mustn't fall in love with her. She wouldn't have him, or, if she did, it wouldn't work. Wealth's a barrier to the normal life. It never brings happiness—"

Yet through and around these thoughts, they wove a web of polite conversation there in the gracious big parlor, autumn flowers nodding from sedate old vases and polished floors reflecting the lamplight.

All the while Ruth was thinking, "Elaine and John should marry, after all. It wouldn't matter about all her money. John's background is as good as hers . . . it would join the two houses together again. I believe it's intended. When she comes, all that will begin to happen—"

And then she thought of a hall-bedroom somewhere, with a gas plate in it for cooking. If she were lucky, she would be living in such a place while John and Elaine were becoming acquainted.

Residents Of Area Have Many Interests

People Of Northeast Louisiana Are Busy In Various Lines Of Endeavor; Visits Numerous

Jonesville

Friday afternoon Mrs. H. W. LeTissier entertained the Jonesville Bridge club, at her home on Mound street. The members and one guest were present.

Mrs. Henry Uttinger won high score prize and Mrs. E. H. Scott cut the consolation. Those enjoying the evening's entertainment were: Mesdames C. E. Enete, R. P. Boyd, L. C. Spencer, Smead, S. L. Marvin, Henry Uttinger, E. H. Scott and Charles Phillips.

Mesdames E. H. Scott, S. L. Marvin and Charles Phillips entertained in honor of Mrs. Smead of Baltimore, Md., with a farewell bridge party in the home of Mrs. E. H. Scott.

Mrs. C. E. Enete won high score, perfume, which she gave to the honoree. Mrs. L. C. Spencer cut consolation and a deck of bridge cards was presented to Mrs. Smead. The following guests were served a plate luncheon with coffee: Mesdames W. H. LeTissier, R. P. Boyd, S. L. Marvin, E. C. Enete, L. C. Spencer, Mrs. Smead and Mrs. Henry Uttinger.

Mesdames F. H. Shiel and L. C. Spencer entertained the P.-T. A. with a benefit bridge party in the home of Mrs. Shiel.

At the close Mrs. Shelby Beasley of Harrisonburg held high score. Mrs. Charles Phillips held second high score. Mrs. Smead of Baltimore cut high score. Mrs. W. C. Stroud cut consolation.

The hostess served iced tea and sandwiches to the following: Mesdames C. Davidson, E. H. Scott, W. C. Beard, Don Peel, Mrs. Smead, S. L. Marvin, Charles Phillips, H. D. Haberyan, Lee Arnaud, C. E. Enete, H. W. LeTissier, W. L. Frisby, R. P. Boyd, E. C. Beasley, Price, T. Enete, Henry Uttinger, W. C. Stroud, Tom Dowdy, Julius Pullen, N. G. Nasif, Hattye Bennett, Mr. and Mrs. Faircloth, and Professor F. H. Shiel, John Snyder, R. B. Fritz, Harvey Guss.

Mr. and Mrs. Lucius McMillan attended the state fair in Shreveport.

Misses Willie Stroud and Catherine Beard spent last week with their respective parents. They are students at the State Normal college.

Mr. and Mrs. C. E. Baker attended the showing of the new cars in New Orleans.

Mr. and Mrs. Clyde Webber and Mr. and Mrs. Clarence Richard attended the fair in Shreveport. They also visited Mr. and Mrs. Mack Phillips in Plain Dealing before returning.

Mrs. H. S. Holloman and son William of Olla, La., visited their relatives, Mr. and Mrs. Sidney Cooper, here.

The friends of John Guss will be glad to hear that he is recovering from a minor operation in the Chamberlin Rice hospital at Natchez Friday.

Mr. and Mrs. C. L. Wurster were business visitors in New Orleans.

Robert Scott, Farrar Marvin and Robert Swayze, students at L. S. U., visited their parents here over the week-end.

Ismael Gautheir, manager of the local theater, is in New Orleans attending to business matters. He will return to his home here soon.

Willis Baker, accompanied by Cleal and Jack Baker, attended the fair in Shreveport.

Mrs. George Stovall, accompanied by Miss Estelle Griffin, was a visitor in Ferriday.

Dr. and Mrs. C. E. Enete visited friends and relatives in Harrisonburg.

Miss Fannie Bethard, teacher of the local high school, visited friends and relatives in Harrisonburg.

Dr. N. G. Nasif was a recent business caller in Harrisonburg.

Mrs. H. C. Owen visited friends and relatives in Ferriday.

Mrs. Callie Wiley is at this time in Monroe attending her sister-in-law, Mrs. LeRoy White, who is seriously ill.

Mr. and Mrs. Bill LaPrarie were business callers in Alexandria recently.

Mrs. Charley Wiley and children motored to Marksville recently for a few days visit with friends and relatives.

O. R. Wurster and Charles L. Wurster were recent business visitors in Natchitoches.

Lee Young and Boatner Swayze visited in Monterey recently.

Miss Augusta Krouse and mother of Sicily Island spent the day with friends and relatives in Jonesville recently. They were the guests of Mrs. Liner Bennett.

Ker Texada of Alexandria was in Jonesville recently where he visited his sister-in-law, Mrs. H. C. Owen.

Senator Flemming of Ferriday was a business caller in Jonesville recently.

Mr. and Mrs. William Young of Oklahoma are visiting at this time in the home of Mrs. Young's mother and father, Mr. and Mrs. W. E. Beard.

Dayton Young visited friends in Ferriday recently.

Mrs. Jimmie Parks and children have returned to their home at Bastrop after a week's visit with Mrs. Parks' mother, Mrs. L. Bennett.

Messrs. Caldwell and Smith, teachers at the high school at Monterey, were business visitors in Jonesville recently.

Robert Harrelson of Tallulah visited his sister, Mrs. G. A. Girod, recently.

Mrs. Mortimer Cotton and small son of Archie were the guests of Mrs. C. E. Lazarus recently.

Mrs. J. A. Wurster was in Vicksburg, Miss., recently where she visited relatives and friends.

Reverend and Mrs. Shirley Briggs are at this time in Dallas, Texas, visiting Mrs. Briggs' relatives. Rev. Briggs will return in time for services at the local Baptist church but Mrs. Briggs will remain for a few weeks stay with relatives and friends.

Dame Fashion Turns A Modest Back On Trunks-And Brassiere Swim Suits

With the winter season in Florida in the offing, Dame Fashion has turned attention to the new beach modes. Swim suits, according to the latest decree, will abandon that style of trunks-and-brassiere-that-fail-to-meet for one-piece suits such as those worn by these Miami maidens.

MIAMI, Fla., Nov. 2.—(AP)—Milady will modestly turn a low-cut back on the trunks-an-brassier-that-fail-to-meet type of bathing suit if she's to be instyle on Miami's beaches this winter.

Though still scanty of material and revealing of line, this season's advance bathing attire eliminates the once modish expanse of bare skin over the diaphragm.

A distinct departure from the brilliantly brief Tahitian costume introduced here last year, the new styles, featuring pastel colors, point to an energetic program in south Florida waters during the winter months.

Still brief, but depending chiefly on form-fitting lines and intricate weaves for their novelty, the new suits feature one-piece models with backs bared to the waist and tiny ropes and woven cords as shoulder straps.

Noticeably absent are trunks-and-bandana models. In the few shown there is a close fit between the halter top and the trunks.

Many of the new models are developed in wools of pastel shades. New colors include a brilliant Bahama blue, dusty rose, and deep plum, while the popular raspberry red, hunter's green and white are also being used.

Suits highly utilitarian and presenting lines of well-bred simplicity, hardly distinguishable from the straight, slim silhouettes of the masculine suits get the feminine accent with short, smart capes that become skirts on occasion and low backs which correspond to the mode fashionable in evening frocks this year.

Accessories include nickel, jewelry in mairne designs, fishnet beachshoes, broad brimmed hats, and the indispensable tan.

Farmerville

Mr. and Mrs. Stein Baughman of Farmerville were entertained with a barbecue at the country home of Mrs. Merlie Yearger of Delhi. The guests enjoying this charming affair were Mr. H. P. Gunter, Dr. and Mrs. R. M. Dozier, Miss Susie Hammrick, Mr. Joe Patterson, Miss Ines Gunter, Dr. and Mrs. Nash Collins, Miss Ann Dozier and Miss Mary Williams.

Mrs. Vada Lee and Mrs. O. Bancroft and little son of Monroe were guests of relatives in Farmerville recently.

Mrs. Fred Golver and little daughter, Jean Ann, will leave Sunday for Lake Providence, where they will spend a week with their aunt.

Mrs. Duke Selig departed Thursday for Dallas, Texas, where she will visit her son-in-law and daughter, Mr. and Mrs. Eric Gambrell.

Miss Ines Gunter of Delhi, who has spent the past ten days in Farmerville with her sisters, Mrs. Stein Baughman, has returned to her home. Mrs. Baughman accompanied her to Delhi for a visit.

Mrs. George Thorgerson, who has spent the past two months with her mother, Mrs. John W. Taylor, in Farmerville and with relatives at Baton Rouge has departed for her home in New London, Conn.

Miss Clayton Heard spent a recent week-end at Bernice with relatives.

Mr. W. W. Cox has returned from Shreveport, where he was called because of the death of his mother.

Mr. and Mrs. Hall Terry spent the day recently in Gibsland with Mrs. Terry's parents, Mr. and Mrs. J. H. Houck.

Do Not Hesitate Do It Now!

I mean you, Mr. Man, Woman or Child who let your teeth give you pain. Why do it, when without discomfort, I can make your teeth do what they were put there for, so that you can properly eat your food and get enjoyment out of it? When you are sick, is it not better to send for the physician at once instead of letting the undertaker come later? The same way with your teeth—have them attended to now; they will help in your good health as much as any organ in your body.

Dame Fashion Turns A Modest Back On Trunks-And Brassiere Swim Suits

With the winter season in Florida in the offing, Dame Fashion has turned attention to the new beach modes. Swim suits, according to the latest decree, will abandon that style of trunks-and-brassiere-that-fail-to-meet for one-piece suits such as those worn by these Miami maidens.

MIAMI, Fla., Nov. 2.—(AP)—Milady will modestly turn a low-cut back on the trunks-an-brassier-that-fail-to-meet type of bathing suit if she's to be instyle on Miami's beaches this winter.

Though still scanty of material and revealing of line, this season's advance bathing attire eliminates the once modish expanse of bare skin over the diaphragm.

A distinct departure from the brilliantly brief Tahitian costume introduced here last year, the new styles, featuring pastel colors, point to an energetic program in south Florida waters during the winter months.

Still brief, but depending chiefly on form-fitting lines and intricate weaves for their novelty, the new suits feature one-piece models with backs bared to the waist and tiny ropes and woven cords as shoulder straps.

Noticeably absent are trunks-and-bandana models. In the few shown there is a close fit between the halter top and the trunks.

Many of the new models are developed in wools of pastel shades. New colors include a brilliant Bahama blue, dusty rose, and deep plum, while the popular raspberry red, hunter's green and white are also being used.

Suits highly utilitarian and presenting lines of well-bred simplicity, hardly distinguishable from the straight, slim silhouettes of the masculine suits get the feminine accent with short, smart capes that become skirts on occasion and low backs which correspond to the mode fashionable in evening frocks this year.

Accessories include nickel, jewelry in mairne designs, fishnet beachshoes, broad brimmed hats, and the indispensable tan.

QUEEN

Pictured above is Miss Jean Hall of Lake Charles, who has been named queen of the Phi Kappa costume ball to be given in honor of the Louisiana Federation of Women's clubs at the Louisiana State Normal college at Natchitoches next Saturday night. Miss Hall was elected queen of the ball in a spirited election sponsored by Phi Kappa at the teachers' college last week. The ball will be held in the women's gymnasium on the State Normal college campus.

Residents Of Area Have Many Interests

People Of Northeast Louisiana Are Busy In Various Lines Of Endeavor; Visits Numerous

Robert Wiseman of Newellton spent a recent week-end here as a guest of his parents, Mr. and Mrs. R. J. Wiseman.

Morris Cornell and son, Pressley Morris Cornell, spent a week recently with relatives in Pine Bluff, Little Rock and other points in Arkansas.

Mrs. R. P. Saunders of Lake St. John has returned from a visit with her son and daughter-in-law, Mr. and Mrs. Rife Saunders, in New Orleans.

Miss E. M. Culver, executive secretary of the Louisiana Library commission, and Miss Madge Butler of Rayville, were recent week-end guests of Miss Sarah I. Jones, Concordia parish librarian.

Miss Louise Dozier recently visited Mr. and Mrs. John Deer, who reside near Abbeville.

Mary Frances Stokes is back from a visit with relatives in Rayville.

Mrs. P. W. Mulvihill of Natchez, Miss., was a recent visitor in Ferriday.

F. Fairbanks of Wildsville is recovering from an operation performed at a Ferriday hospital.

Mrs. F. H. Rose of Biloxi Miss., is here on a visit to her son-in-law and daughter, Dr. and Mrs. N. L. Sebastian.

Mrs. Charles G. Bruce has recovered from a recent illness.

P. L. Rountree was a recent visitor in Natchez, Miss.

Hugh Everett Montgomery is rapidly recovering from an operation performed at a Natchez, Miss., hospital.

Miss Margaret Frances Wiseman, Miss Eunice Roberts, Miss Floyce Taylor, Miss Frances Thomas and Miss Elizabeth Waddell students at Louisiana State university, spent a recent week-end here with their parents.

Quitman

Mr. and Mrs. C. C. Graham and son, David, attended the state fair in Shreveport recently.

Miss Joy Koonce of Shreveport was a recent week-end guest of her parents, Mr. and Mrs. H. G. Koonce.

Miss Boyce McConathy of Hodge and Miss Pauline McConathy of Eros were recent guests of their parents, Mr. and Mrs. J. C. McConathy.

Mrs. Charles Smith and Mrs. J. S. Bryan spent a week in Tullos as guests of Mr. and Mrs. H. G. Williams.

Miss Sallie Bryan of Shreveport spent the day recently with her mother, Mrs. J. S. Bryan.

Miss Olive Dickerson of Beech Springs, was a guest of Miss Grace Walker recently.

Mrs. Pearl Robinson spent the day recently in Hilly.

Miss Mildred Jones spent the day recently in Eros as a guest of her mother and friends.

Mrs. C. C. Graham spent the day recently in Jonesboro.

Mr. and Mrs. V. M. Barber of Friendship, and sons, Buster and Phil, were recent guests of Mrs. Barber's parents, Mr. and Mrs. J. D. Waldrip.

Miss Ester Trussel of Ruston was a guest recently of Miss Nellie Bryan.

Miss Grace Walker spent two days at Walker as a guest of her parents.

Mr. and Mrs. Allen Vails of Jonesboro, were recent guests of Mr. Vails' parents, Mr. and Mrs. John Vails.

Mr. and Mrs. H. G. Williams of Tullos visited here recently.

Mrs. Oscar Downtain is spending a few days in El Dorado, Ark., as a guest of her daughter.

Miss Agnes Thomas of Weston visited with her parents, Mr. and Mrs. A. D. Thomas, recently.

Misses Pauline McConathy, Nellie and Thelma Bryan, Lorelis and Lorrane Peters, Ruth Downtain, Agnes Thomas, Bart Hawthorne, Hoarce McCullen and Edgar McConathy attended the Tech-Union football game in Ruston recently.

Miss Effie Murry visited in Tiago recently.

Miss Clara DeFreese was a recent guest of her parents in Ruston.

Choudrant

Mrs. Lee Hester was hostess to the T. E. L. Sunday school class of the Baptist church at its recent meeting. Mrs. O. W. Hogan, who presided over the meeting, gave the devotional.

Minutes of the last meeting were read and adopted and reports were made by the secretary and general officers of the organization.

Mrs. N. L. Wampole, who, at the recent election of Sunday school officers of the church, accepted a class, resigned as third vice-president of the T. E. L. class. Mrs. T. B. Alderson was elected to succeed her.

The organization voted to change its meeting day from the first Thursday of the month to the fourth Thursday.

Refreshments were served at the conclusion of the meeting.

Those present were Miss Minnie Hammons, Mrs. Hogan, Mrs. Bob Frasier, Mrs. H. D. Roane, Mrs. C. L. Faulkner, Mrs. W. L. Frasier, Mrs. Fred Taylor, Mrs. J. N. Gipson, Mrs. Lumpkin Hogan, Mrs. J. H. Frasier and Mrs. Alderson.

Mangham

Misses Faye Brunson and Margie Wooten were the guests of Miss Doris Chambers.

Miss Mable Dunham visited relatives in Montgomery, Ala.

Miss Evelyn Gorton was hostess to the young people's class of the Methodist church Thursday night.

An associational meeting of the Baptist W. M. U. was held at the Winnsboro Baptist church. Those attending the meeting were Mrs. Matt Boughton, Mrs. H. H. Nash, Mrs. J. W. DeMoss, Sr., Mrs. T. W. Stark, Mrs. Rodger Baxter and mother, Mrs. W. Frey, Mrs. R. C. Boies, Mrs. J. F. Boies, Mrs. E. E. Randall, Mrs. Godfrey Fleischman, Mrs. F. C. Sheppard, Mrs. John Brunson, Mrs. Clell Windham, Mrs. J. G. Boughton.

The women's class of the Mangham Baptist church met at the pastor's home for a business meeting. This was followed by a social hour. Group No. 2 served refreshments.

Mr. and Mrs. J. D. McDowell, Mrs. J. W. Dinkins and three children, Katherine, Janice and John Dinkins, Jr., all of Memphis, Tenn., are the guests of Mrs. J. W. DeMoss and Mrs. M. D. Preston.

Mrs. Alice Carraway, Mrs. C. E. McConnell, Misses Mary Virginia McConnell and Elisabeth Grantham are spending the week-end in Baton Rouge.

Mrs. Appie Southall and son, Marshall, Mrs. T. H. Southall and son, Lionel, left Thursday morning for a two weeks' visit in Jackson and Florence, Miss. They will also visit relatives in Gulfport before they return home.

Friends of Miss Mary Elizabeth Morris will be glad to know that she is recovering in the home of Mrs. M. K. McConnell after many weeks of serious illness at a hospital in Shreveport.

Mrs. Roy Powell is improving after having undergone a serious operation at Dr. Moseley's clinic in Monroe.

Okaloosa

Mr. and Mrs. Perry Demoss of Monroe were guests of Mr. and Mrs. T. W. Clowers recently.

Mr. Palmer Pylant returned to Norfork, Va., recently after a pleasant visit here with his parents, Mr. and Mrs. George Pylant.

Mr. and Mrs. J. J. George and Miss Dovie George were recent visitors in Monroe.

Rev. James R. Strozier attended the 89th annual session of the Louisiana conference of the Methodist Protestant church in Chatham recently.

Mr. and Mrs. Harold Elliott and children of Monroe were guests of Mr. and Mrs. Henry Mayes recently.

Mrs. W. A. Griffin was a guest recently of Mrs. Julian Cockrell in Frantom Chapel community.

Miss Lula Mae Clark is a guest of Mrs. A. A. Rogers in Mount Vernon community.

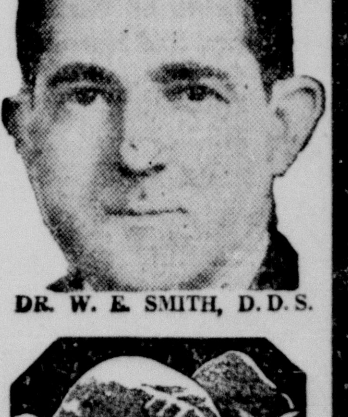
Do Not Hesitate

Do It Now!



DR. W. E. SMITH, D.D.S.

I mean you, Mr. Man, Woman or Child who let your teeth give you pain. Why do it, when, without discomfort, I can make your teeth do what they were put there for, so that you can properly eat your food and get enjoyment out of it? When you are sick, is it not better to send for the physician at once instead of letting the undertaker come later? The same way with your teeth—have them attended to now; they will help in your good health as much as any organ in your body.

DeMille's Spectacle 'The Crusades' Showing At Paramount

Big Cast Is Featured In Lavish Film

Romance Of Richard The Lion-Hearted Told In Super Picture

WHAT is undoubtedly one of the most spectacular films ever created by that famous maker of spectacles, Cecil B. DeMille, arrived yesterday at the Paramount theater. It is "The Crusades," a subject colorful enough in its own right and doubly colorful in Mr. DeMille's capable hands.

Mr. DeMille won his reputation as the spectacle-maker with such magnificent productions as "The Ten Commandments," "The King of Kings," "The Sign of the Cross," and "Cleopatra," all notable enough at the time they appeared, but none approaching in sheer magnitude and beauty his newest effort, "The Crusades."

"The Crusaders" is set on an even more magnificent scale. Its story sweeps along against the background of one of the most amazing mass movements in history, and Mr. DeMille has impregnated every foot of his film with the feeling of the period and the event. He has peopled his sets with an army that springs to vivid, pulsing life.

"The Crusades," as Mr. DeMille gives it to us, is not alone the tale of the attempt of the western nations to recapture the Holy Land from the Saracens, but the romance of Richard the Lion-Hearted, King of England, and Berengaria, Princess of Navarre. Richard goes to the Holy Wars primarily to escape the necessity of marrying Princess Alice of France. En route, his army runs out of supplies. To secure food and equipment, he marries Berengaria, thus acquiring a dowry of sufficient size to enable him to feed his men.

But though the marriage is one of convenience, Richard is in love with his bride by the time the Crusaders have encamped around the walls of Acre, in Palestine. Here the Saracens fight off the invaders—so successfully that the Crusade reaches a complete stalemate.

Then Berengaria is wounded and captured by the Saracens, under their proud emperor, Saladin. Richard flames into a rage that sweeps through the entire ranks of the Crusade and leads to the successful storming of Acre. But Saladin and his prisoner have gone on to Jerusalem and Richard and the army must follow. The climax that follows is so unusual that it would be unfair to reveal it here.

The storming of Acre and the cavalry charge at Jerusalem are the two high points of the film from a spectacle angle. More than 10,000 persons performed in them, and Mr. DeMille has handled the mobs with such skill that a new high for realism has been achieved. You'll gasp as you see men dying in baths of flaming oil poured on them by the opposing armies.

Loretta Young is lovely in the role of Berengaria. Henry Wilcoxon, who played Marc Antony in Mr. DeMille's "Cleopatra," is Richard of England. He brings to life the monarch who loved the pleasure of life and who feared no living thing. Notable, too, is the work of Ian Keith as Saladin and of Katherine DeMille as Alice of France. Every one of the chief supporting roles is admirably cast, with special mention due C. Aubrey Smith, Joseph Schildkraut, Alan Hale, C. Henry Gordon, George Barbier, Montagu Love, Hobart Bosworth, William Farnum, Lumsden Hare and Pedro deCordoba.

A clock invented about 10 years ago is run by a tiny speck of radium. The clock ticks every 10 seconds and it has been estimated that it could run for 10,000 years without a change of "fuel." It is doubtful, however, that the works will last that long.

TODAY AND MONDAY

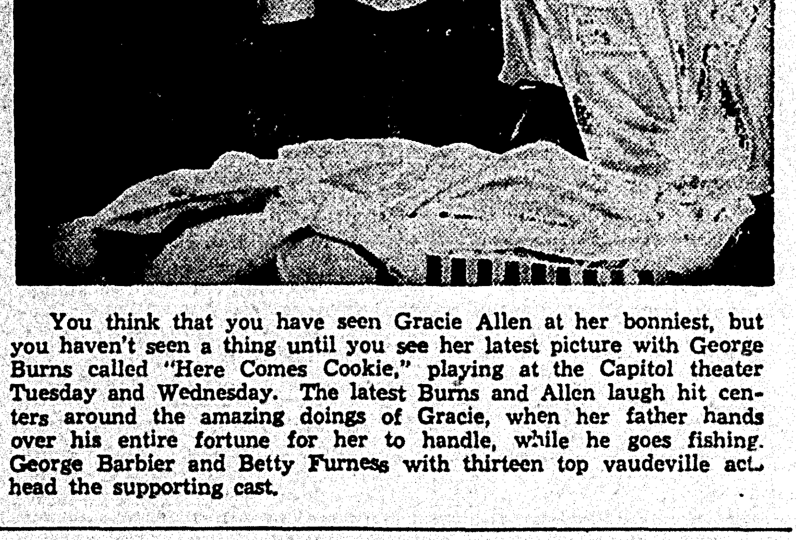
CAPITOL

15c—UNTIL 6 O'CLOCK—15c

Featured Stars In Screen Attractions At Local Theaters

Loretta Young, who with Henry Wilcoxon, Katherine DeMille, C. Aubrey Smith, Allan Hale and George Barbier head a cast of thousands in Cecil B. DeMille's great road show production "The Crusades" the attraction at the Paramount theater for the last times today.



You think that you have seen Gracie Allen at her bonniest, but you haven't seen a thing until you see her latest picture with George Burns called "Here Comes Cookie," playing at the Capitol theater Tuesday and Wednesday. The latest Burns and Allen laugh hit centers around the amazing doings of Gracie, when her father hands over his entire fortune for her to handle, while he goes fishing. George Barbier and Betty Furness with thirteen top vaudeville acts head the supporting cast.

Edward Arnold, as Diamond Jim, and Binnie Barnes, as Lillian Russell, in a scene from the best seller by Parker Morell, "Diamond Jim," the attraction at the Paramount theater for Monday and Tuesday, two days only, with Jean Arthur, Ceasar Romero, Eric Blore, and George Sidney. Here is the true story of the prince of spenders, that makes a prince of an entertainment.

A scene from the great football romance "Fighting Youth," that comes to the Paramount theater for two days, Friday and Saturday, with Charles Farrell, June Martel, Andy Devine, J. Farrell MacDonald, Eddie Nugent, and those all-American football stars: Larry "Moon" Mullins, Jim Purvis, Paul Schwegler, Dale Van Sickel, Jim Thorpe, Leslie Cooper, Howard "Red" Christie, Nick Lukats and Frank Sulley. There's plenty of action, lots of laughs and filled with romance.

All you can ask for in superb screen entertainment is in "Three Kids and a Queen" featuring May Robson, Charlotte Henry, Billy Barrud, Frankie Darro and Henry Armetta. It plays Thursday and Friday at the Capitol theater. Miss Robson portrays an ecentric, wealthy old maid, whose relatives attempting to adjudge her insane in order that they may control her money, but who cunningly evades them and confuses her kidnapers with the aid of Henry Armetta and his three kids.

Wendy Barrie and Louis Hayward in a scene from the sweetest of all love stories, "A Feather in Her Hat," the attraction at the Paramount theater for Wednesday and Thursday, with Pauline Lord, Basil Rathbone, Billie Burke and Victor Varconi heading the six-star cast. The story is based on the novel by I. A. R. Wylie.

How many times last winter did you thrill to the radio hook-ups between this continent and Admiral Byrd's Little America in Antarctica? How many times did you marvel at the exciting tales from the heart of the barren lands that followed it? Now that Rear Admiral Richard Byrd and his men are back from the South Pole, you have the opportunity to bring back that thrill for the motion picture record of that journey is playing at the Capitol theater today and Monday. An extra feature with the picture "Little America" is the most beautiful little feature ever made "La Cucaracha."

HALLOWE'EN PARTY HELD BY CHILDREN'S THEATER

The members of the Children's theater enjoyed a Hallowe'en party at the recreation center Friday night. Clarice Slagle and Neal Matthews were awarded first place for the most unique costumes. Games suited to the season were played and refreshments were served to 29 persons.

Saturday afternoon the Children's theater held a session with 14 present, and six new members were added. Pantomimes were enjoyed.

At the meeting on next Saturday rehearsals will be started on the play to be presented in a few weeks' time.

Two radio frequencies are assigned to each airline for communication between planes and ground stations. This is necessary because a frequency satisfactory for daylight operation is unsatisfactory at night, due to atmospheric conditions and other technical reasons.

This Week's Movie Program

AT THE PARAMOUNT

Today—Cecil B. DeMille's spectacle "The Crusades," with Loretta Young, Henry Wilcoxon, Ian Keith, Katherine DeMille, C. Aubrey Smith, Joseph Shildkraut, Alan Hale and George Barbier.

Monday and Tuesday—Edward Arnold in "Diamond Jim," with Jean Arthur, Binnie Barnes, Cesar Romero, Eric Blore, Hugh O'Connell, George Sidney, Otis Harlan, Henry Kolker, Robert McWade and Fred Kelsey.

Wednesday and Thursday—"A Feather in Her Hat," with Pauline Lord, Basil Rathbone, Louis Hayward, Billie Burke and Wendy Barrie.

Friday and Saturday—Charles Farrell in "Fighting Youth," with June Martel, Andy Devine, J. Farrell McDonald, Eddie Nugent, Ann Sheridan and nine all-America football players.

Sunday and Monday—A double program, with Art Gleason in "Town Scandals," with a cast of 20, featuring eight vaudeville acts, on the stage, and Walter C. Kelly, Marsha Hunt and Stepin Fetchit in "The Virginia Judge," on the screen.

AT THE CAPITOL

Sunday and Monday—Rear Admiral Richard E. Byrd's "Little America," a picture of his second great Antarctic expedition.

Tuesday and Wednesday—George Burns and Gracie Allen in "Here Comes Cookie," with George Barbier, Betty Furness, Andrew Tombes, and Broadway's favorite vaudeville headliners.

Thursday and Friday—"3 Kids and a Queen," with May Robson, Charlotte Henry, Billy Burrud, Frankie Darro and Henry Armetta.

Saturday—Rex Bell in "Fighting Pioneers," with Ruth Mix and Buzz Barton.

Screen Life In Hollywood

By Robbin Coons

HOLLYWOOD—The pendulum of movie "cycles," swinging now to one form of entertainment and now to another, plays peculiar tricks on actors.

Musicals are "in" now, and very much in. All the studios are making tunefilms, and yet not all the singers are being given their chance to sing.

Here is how it worked out in the cases of two well-known singers, both of whom have done dramatic as well as musical roles on the stage:

Mary Ellis, beginning as a singer, was successful in the Metropolitan, then switched to operetta, and eventually turned to drama. For several years she had not sung on the stage when the old pendulum in Hollywood swung back to musicals. As it was swinging, Miss Ellis was appearing on the stage and she was rushed off to Hollywood to become a singing star.

Peggy Wood, noted on the stage in operettas as well as drama, made one early talking picture, but was gone from Hollywood by the time musicals "came in" the first time. She continued singing on the stage all the time that husicals were "out" in Hollywood. But when the screen suddenly revived its interest in sharps and flats, Miss Peggy Wood was acting, not singing. Miss Peggy Wood is in Hollywood now—acting, not singing.

Miss Wood, not grieving unduly over this unreasoning slight of proved vocal talents, is turning "lit'ry" with a vengeance. Her interest in writing, already productive of her volume of essays on "Actors and People," received a new impetus when publishers requested her to write a foreword to a new edition of her late father's collected short stories.

Eugene Wood was an extremely popular magazine writer of 30-odd years ago, and now they have reissued the two volumes, "Back Home" and "Folks Back Home," in one. Peggy Wood's "foreword" is modestly headed "Personal Note."

"But it has started me writing again," she says, "and now I intend to buckle down to some serious work. Of course I don't mean to make a career of it. No, I'd like to write only as a kind of embroidery to my other work."

That would make Miss Wood's home a very scribbly place indeed, for her hlusband is John V. A. Weaver.

BOYNTON RITES ARE HELD HERE

The funeral of W. I. Boynton, 75, operator of a small concession stand at 223 St. John street, who was so seriously injured when struck by a car at the intersection of Jackson and Calypso streets Monday night that his death occurred early Friday evening, was held at the Mulhearn funeral home at 1 p. m. Saturday. Interment was made in Hasley cemetery, after a Christian Science service had been conducted.

Pallbearers were H. A. Brownlee, H. J. Hundley, Clyde Kimball, C. B. Braun, H. G. Guinn and E. N. Faulk.

Mr. Boynton's left leg was so badly crushed that amputation was required the night of the accident at a local hospital where he had been removed. He also received minor bruises about the head and face.

No charges were preferred against the driver of the car, Pete Heslep, 107 Thomas street, as the accident was believed to have been unavoidable.

Surviving are the widow, a sister and two daughters. The latter are Mrs. Olive Parker, of Monroe, and Miss Ruth Boynton of Boston, Mass. The sister is Miss Carrie Boynton, Portland, Oregon.

RECREATION LEADERS OF PARISH WILL HOLD MEET

Recreation leaders from all parts of Ouachita parish are invited to meet at the Monroe Recreation center, 124 1-2 DeSiard street, at 7 p. m. Tuesday.

Plans for the fall and winter work will be mapped out, stated Mrs. Jewel McQuiller, parish home demonstration agent, who desires to have all 4-H club leaders present and any others who are interested in directing this work here.

Byrd's Film Is Showing At Capitol

'Little America' Contains Excitement Of Antarctic Expedition

ALL the excitement, hardships and daring of Admiral Richard E. Byrd's second Antarctic expedition has been captured by two cameramen who accompanied the expedition and filmed an authentic, breathtaking visual record of that epoch-making trip, entitled, "Little America," which opens at the Capitol theater today.

Working under extremely trying conditions because of the damage done to camera mechanism by the intense cold, John L. Herrmann and Carl O. Petersen, who spent the entire 18 months with Byrd and his men, caught the spirit of adventure that engulfed this memorable trip to the South Pole. With cameras grinding in temperatures sometime 40 and more below zero, when often it was so cold that their hands froze to their cameras, and the film became so brittle it broke, these two daredevil newsreel men registered for all time the story of these intrepid explorers who isolated themselves from civilization and spent nearly two years in the frozen wastes of the polar regions, making valuable scientific studies and researchers of the elements at the bottom of the world.

An absorbing drama has been woven into "Little America" which includes the dangerous, thrill-packed events that befell this courageous troupe of men who struggled to conquer the polar regions of Antarctica. Beginging with the "Bear of Oakland's" struggle through the polar ice, the film pictures the roaring gales, the towering icebergs, the treacherous pack ice and finally the 70-foot high barrier to the entrance of "Little America."

The men are pictured at work, at play and study in their underground city of ice and snow after their thrilling re-discovery of "Little America." Scenes of impressive grandeur combine to make this production an unforgettable one. Byrd's lonely advance base, 150 miles away, where the Admiral spent seven months in complete isolation until his men formed a rescue party and made a dash through a blinding blizzard where they found him near death, is one of the exciting high lights of the picture, as well as the ascension of Mt. Grace McKinley and the planting of the flag at its peak.

Other thrilling episodes include the crash of their giant Condor plane valuable scientific discoveries, bottomless canyons, the life in "Dogtown," the underground shelter for their wolf dogs who could not stand the extreme cold, the hours of relaxation when they conversed, via the radio with loved ones halfway round the world, and finally their return to civilization.

"Little America" is grand entertainment, filled with the action, comedy and romance that befell this fearless group of adventurers.

LARRY FOX NAMED HEAD OF KIWANIS GROUP AT RUSTON

RUSTON, La., Nov. 2.—(Special)—Larry J. Fox, former state commander of the American Legion and prominent member of the local post Thursday was unanimously elected president of the Ruston Kiwanis club for the coming year.

Mr. Fox is a member of the Louisiana Tech faculty and has been active in civic enterprises for the past several years.

Judge Cecil Morgan, of the criminal division of the district court of Shreveport, has accepted the invitation of McFarland Post No. 2 to be the guest speaker here on the Armistice day program November 11. Judge Morgan's address will be given in the main auditorium of Louisiana Tech at 11 a.m.

A British inventor has designed a huge arrow wind-indicator plainly visible from an altitude of 7,000 feet. It may be lighted at night to show pilots the wind direction.

DeMille's Spectacle 'The Crusades' Showing At Paramount

Big Cast Is Featured In Lavish Film

Romance Of Richard The Lion-Hearted Told In Super Picture

WHAT is undoubtedly one of the most spectacular films ever created by that famous maker of spectacles, Cecil B. DeMille, arrived yesterday at the Paramount theater. It is "The Crusades," a subject colorful enough in its own right and doubly colorful in Mr. DeMille's capable hands.

Mr. DeMille won his reputation as the spectacle-maker with such magnificent productions as "The Ten Commandments," "The King of Kings," "The Sign of the Cross," and "Cleopatra," all notable enough at the time they appeared, but none approaching in sheer magnitude and beauty his newest effort, "The Crusades."

"The Crusaders" is set on an even more magnificent scale. Its story sweeps along against the background of one of the most amazing mass movements in history, and Mr. DeMille has impregnated every foot of his film with the feeling of the period and the event. He has peopled his sets with an army that springs to vivid, pulsing life.

"The Crusades," as Mr. DeMille gives it to us, is not alone the tale of the attempt of the western nations to recapture the Holy Land from the Saracens, but the romance of Richard the Lion-Hearted, King of England, and Berengaria, Princess of Navarre. Richard goes to the Holy Wars primarily to escape the necessity of marrying Princess Alice of France. En route, his army runs out of supplies. To secure food and equipment, he marries Berengaria, thus acquiring a dowry of sufficient size to enable him to feed his men.

But though the marriage is one of convenience, Richard is in love with his bride by the time the Crusaders have encamped around the walls of Acre, in Palestine. Here the Saracens fight off the invaders—so successfully that the Crusade reaches a complete stalemate.

Then Berengaria is wounded and captured by the Saracens, under their proud emperor, Saladin. Richard flames into a rage that sweeps through the entire ranks of the Crusade and leads to the successful storming of Acre. But Saladin and his prisoner have gone on to Jerusalem and Richard and the army must follow. The climax that follows is so unusual that it would be unfair to reveal it here.

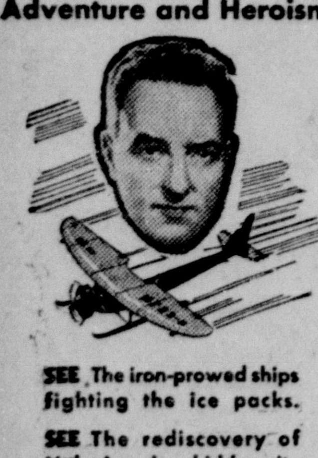
The storming of Acre and the cavalry charge at Jerusalem are the two high points of the film from a spectacle angle. More than 10,000 persons performed in them, and Mr. DeMille has handled the mobs with such skill that a new high for realism has been achieved. You'll gasp as you see men dying in baths of flaming oil poured on them by the opposing armies.

Loretta Young is lovely in the role of Berengaria. Henry Wilcoxon, who played Marc Antony in Mr. DeMille's "Cleopatra," is Richard of England. He brings to life the monarch who loved the pleasure of life and who feared no living thing. Notable, too, is the work of Ian Keith as Saladin and of Katherine DeMille as Alice of France. Every one of the chief supporting roles is admirably cast, with special mention due C. Aubrey Smith, Joseph Schildkraut, Alan Hale, C. Henry Gordon, George Barbier, Montagu Love, Hobart Bosworth, William Farnum, Lumsden Hare and Pedro deCordoba.

A clock invented about 10 years ago is run by a tiny speck of radium. The clock ticks every 10 seconds and it has been estimated that it could run for 10,000 years without a change of "fuel." It is doubtful, however, that the works will last that long.

TODAY AND MONDAY

60 Minutes of Thrills, Adventure and Heroism



SEE The iron-prowed ships fighting the ice packs.

SEE The rediscovery of Little America, hidden city

SEE The tractor trek toward the advance base.

SEE The crash of the giant Condor plane on take-off.

CAPITOL

15c—UNTIL 6 O'CLOCK—15c

Featured Stars In Screen Attractions At Local Theaters

Loretta Young, who with Henry Wilcoxon, Katherine DeMille, C. Aubrey Smith, Allan Hale and George Barbier head a cast of thousands in Cecil B. DeMille's great road show production "The Crusades" the attraction at the Paramount theater for the last times today.

You think that you have seen Gracie Allen at her bonniest, but you haven't seen a thing until you see her latest picture with George Burns called "Here Comes Cookie," playing at the Capitol theater Tuesday and Wednesday. The latest Burns and Allen laugh hit centers around the amazing doings of Gracie, when her father hands over his entire fortune for her to handle, while he goes fishing. George Barbier and Betty Furness with thirteen top vaudeville acts head the supporting cast.

Edward Arnold, as Diamond Jim, and Binnie Barnes, as Lillian Russell, in a scene from the best seller by Parker Morell, "Diamond Jim," the attraction at the Paramount theater for Monday and Tuesday, two days only, with Jean Arthur, Ceasar Romero, Eric Blore, and George Sidney. Here is the true story of the prince of spenders, that makes a prince of an entertainment.

A scene from the great football romance "Fighting Youth," that comes to the Paramount theater for two days, Friday and Saturday, with Charles Farrell, June Martel, Andy Devine, J. Farrell MacDonald, Eddie Nugent, and those all-American football stars; Larry "Moon" Mullins, Jim Purvis, Paul Schwegler, Dale Van Sickel, Jim Thorpe, Leslie Cooper, Howard "Red" Christie, Nick Lukats and Frank Sulley. There's plenty of action, lots of laughs and filled with romance.

All you can ask for in superb screen entertainment is in "Three Kids and a Queen" featuring May Robson, Charlotte Henry, Billy Barrud, Frankie Darro and Henry Armetta. It plays Thursday and Friday at the Capitol theater. Miss Robson portrays an ecentric, wealthy old maid, whose relatives attempting to adjudge her insane in order that they may control her money, but who cunningly evades them and confuses her kidnapers with the aid of Henry Armetta and his three kids.

Wendy Barrie and Louis Hayward in a scene from the sweetest of all love stories, "A Feather in Her Hat," the attraction at the Paramount theater for Wednesday and Thursday, with Pauline Lord, Basil Rathbone, Billie Burke and Victor Varconi heading the six-star cast. The story is based on the novel by I. A. R. Wylie.

How many times last winter did you thrill to the radio hook-ups between this continent and Admiral Byrd's Little America in Antarctica? How many times did you marvel at the exciting tales from the heart of the barren lands that followed it? Now that Rear Admiral Richard Byrd and his men are back from the South Pole, you have the opportunity to bring back that thrill for the motion picture record of that journey is playing at the Capitol theater today and Monday. An extra feature with the picture "Little America" is the most beautiful little feature ever made "La Cucaracha."

HALLOWE'EN PARTY HELD BY CHILDREN'S THEATER

The members of the Children's theater enjoyed a Hallowe'en party at the recreation center Friday night. Clarice Slagle and Neal Matthews were awarded first place for the most unique costumes. Games suited to the season were played and refreshments were served to 39 persons.

Saturday afternoon the Children's theater held a session with 14 present, and six new members were added. Pantomimes were enjoyed.

At the meeting on next Saturday rehearsals will be started on the play to be presented in a few weeks' time.

Two radio frequencies are assigned to each airline for communication between planes and ground stations. This is necessary because a frequency satisfactory for daylight operation is unsatisfactory at night, due to atmospheric conditions and other technical reasons.

This Week's Movie Program

AT THE PARAMOUNT

Today—Cecil B. DeMille's spectacle "The Crusades," with Loretta Young, Henry Wilcoxon, Ian Keith, Katherine DeMille, C. Aubrey Smith, Joseph Shildkraut, Alan Hale and George Barbier.

Monday and Tuesday—Edward Arnold in "Diamond Jim," with Jean Arthur, Binnie Barnes, Cesar Romero, Eric Blore, Hugh O'Connell, George Sidney, Otis Harlan, Henry Kolker, Robert McWade and Fred Kelsey.

Wednesday and Thursday—"A Feather in Her Hat," with Pauline Lord, Basil Rathbone, Louis Hayward, Billie Burke and Wendy Barrie.

Friday and Saturday—Charles Farrell in "Fighting Youth," with June Martel, Andy Devine, J. Farrell McDonald, Eddie Nugent, Ann Sheridan and nine all-America football players.

Sunday and Monday—A double program, with Art Gleason in "Town Scandals," with a cast of 20, featuring eight vaudeville acts, on the stage, and Walter C. Kelly, Marsha Hunt and Stepin Fetchit in "The Virginia Judge," on the screen.

AT THE CAPITOL

Sunday and Monday—Rear Admiral Richard E. Byrd's "Little America," a picture of his second great Antarctic expedition.

Tuesday and Wednesday—George Burns and Gracie Allen in "Here Comes Cookie," with George Barbier, Betty Furness, Andrew Tombes, and Broadway's favorite vaudeville headliners.

Thursday and Friday—"3 Kids and a Queen," with May Robson, Charlotte Henry, Billy Burrud, Frankie Darro and Henry Armetta.

Saturday—Rex Bell in "Fighting Pioneers," with Ruth Mix and Buzz Barton.

Screen Life In Hollywood

By Robbin Coons

HOLLYWOOD—The pendulum of movie "cycles," swinging now to one form of entertainment and now to another, plays peculiar tricks on actors.

Musicals are "in" now, and very much in. All the studios are making tunefilms, and yet not all the singers are being given their chance to sing.

Here is how it worked out in the cases of two well-known singers, both of whom have done dramatic as well as musical roles on the stage:

Mary Ellis, beginning as a singer, was successful in the Metropolitan, then switched to operetta, and eventually turned to drama. For several years she had not sung on the stage when the old pendulum in Hollywood swung back to musicals. As it was swinging, Miss Ellis was appearing on the stage and she was rushed off to Hollywood to become a singing star.

Peggy Wood, noted on the stage in operettas as well as drama, made one early talking picture, but was gone from Hollywood by the time musicals "came in" the first time. She continued singing on the stage all the time that husicals were "out" in Hollywood. But when the screen suddenly revived its interest in sharps and flats, Miss Peggy Wood was acting, not singing. Miss Peggy Wood is in Hollywood now—acting, not singing.

Miss Wood, not grieving unduly over this unreasoning slight of proved vocal talents, is turning "lit'ry" with a vengeance. Her interest in writing, already productive of her volume of essays on "Actors and People," received a new impetus when publishers requested her to write a foreword to a new edition of her late father's collected short stories.

Eugene Wood was an extremely popular magazine writer of 30-odd years ago, and now they have reissued the two volumes, "Back Home" and "Folks Back Home," in one. Peggy Wood's "foreword" is modestly headed "Personal Note."

"But it has started me writing again," she says, "and now I intend to buckle down to some serious work. Of course I don't mean to make a career of it. No, I'd like to write only as a kind of embroidery to my other work."

That would make Miss Wood's home a very scribbly place indeed, for her hlusband is John V. A. Weaver.

BOYNTON RITES ARE HELD HERE

The funeral of W. I. Boynton, 75, operator of a small concession stand at 223 St. John street, who was so seriously injured when struck by a car at the intersection of Jackson and Calypso streets Monday night that his death occurred early Friday evening, was held at the Mulhearn funeral home at 1 p. m. Saturday. Interment was made in Hasley cemetery, after a Christian Science service had been conducted.

Pallbearers were H. A. Brownlee, H. J. Hundley, Clyde Kimball, C. B. Braun, H. G. Guinn and E. N. Faulk.

Mr. Boynton's left leg was so badly crushed that amputation was required the night of the accident at a local hospital where he had been removed. He also received minor bruises about the head and face.

No charges were preferred against the driver of the car, Pete Heslep, 107 Thomas street, as the accident was believed to have been unavoidable.

Surviving are the widow, a sister and two daughters. The latter are Mrs. Olive Parker, of Monroe, and Miss Ruth Boynton of Boston, Mass. The sister is Miss Carrie Boynton, Portland, Oregon.

RECREATION LEADERS OF PARISH WILL HOLD MEET

Recreation leaders from all parts of Ouachita parish are invited to meet at the Monroe Recreation center, 124 1-2 DeSiard street, at 7 p. m. Tuesday.

Plans for the fall and winter work will be mapped out, stated Mrs. Jewel McQuiller, parish home demonstration agent, who desires to have all 4-H club leaders present and any others who are interested in directing this work here.

Byrd's Film Is Showing At Capitol

'Little America' Contains Excitement Of Antarctic Expedition

ALL the excitement, hardships and daring of Admiral Richard E. Byrd's second Antarctic expedition has been captured by two cameramen who accompanied the expedition and filmed an authentic, breathtaking visual record of that epoch-making trip, entitled, "Little America," which opens at the Capitol theater today.

Working under extremely trying conditions because of the damage done to camera mechanism by the intense cold, John L. Herrmann and Carl O. Petersen, who spent the entire 18 months with Byrd and his men, caught the spirit of adventure that engulfed this memorable trip to the South Pole. With cameras grinding in temperatures sometime 40 and more below zero, when often it was so cold that their hands froze to their cameras, and the film became so brittle it broke, these two daredevil newsreel men registered for all time the story of these intrepid explorers who isolated themselves from civilization and spent nearly two years in the frozen wastes of the polar regions, making valuable scientific studies and researchers of the elements at the bottom of the world.

An absorbing drama has been woven into "Little America" which includes the dangerous, thrill-packed events that befell this courageous troupe of men who struggled to conquer the polar regions of Antarctica. Beginging with the "Bear of Oakland's" struggle through the polar ice, the film pictures the roaring gales, the towering icebergs, the treacherous pack ice and finally the 70-foot high barrier to the entrance of "Little America."

The men are pictured at work, at play and study in their underground city of ice and snow after their thrilling re-discovery of "Little America." Scenes of impressive grandeur combine to make this production an unforgettable one. Byrd's lonely advance base, 150 miles away, where the Admiral spent seven months in complete isolation until his men formed a rescue party and made a dash through a blinding blizzard where they found him near death, is one of the exciting high lights of the picture, as well as the ascension of Mt. Grace McKinley and the planting of the flag at its peak.

Other thrilling episodes include the crash of their giant Condor plane, valuable scientific discoveries, bottomless canyons, the life in "Dogtown," the underground shelter for their wolf dogs who could not stand the extreme cold, the hours of relaxation when they conversed, via the radio, with loved ones halfway round the world, and finally their return to civilization.

"Little America" is grand entertainment, filled with the action, comedy and romance that befell this fearess group of adventurers.

LARRY FOX NAMED HEAD OF KIWANIS GROUP AT RUSTON

RUSTON, La., Nov. 2.—(Special)—Larry J. Fox, former state commander of the American Legion and prominent member of the local post, Thursday was unanimously elected president of the Ruston Kiwanis club for the coming year.

Mr. Fox is a member of the Louisiana Tech faculty and has been active in civic enterprises for the past several years.

Judge Cecil Morgan, of the criminal division of the district court in Shreveport, has accepted the invitation of McFarland Post No. 2 to be the guest speaker here on the Armistice day program November 11. Judge Morgan's address will be given in the main auditorium of Louisiana Tech at 11 a.m.

More BUILDING Necessary for Entire Nation!

HOUSING DAY MODEL HOMES ARE COMPLETE

2,516 Demonstration Structures Started Since June 15, Finished

WASHINGTON, D. C.—In less than four months after National Better Housing day 2,516 model homes started in 48 states on June 15 have been completed and opened for public inspection, Stewart McDonald, Federal Housing Administrator, announced today.

Hundreds of other homes, all begun as a part of the largest single mass-construction program ever conducted in the nation, are rapidly nearing completion. Reports are being received daily by the Federal Housing administration telling of projects completed.

The majority of the homes started on National Better Housing Day comply with the property standards of the Federal Housing administration and are eligible for financing under the single-mortgage plan. These houses were constructed by individuals, chambers of commerce, industrial concerns, building-supply dealers and contractors, radio stations, and special civic groups. The program began with Nation-wide celebrations on June 15, including speeches, meetings, radio talks, and ground-breaking ceremonies in hundreds of communities.

The 48 states have been divided into 12 Federal Housing Administration regions. National Better Housing day model homes completed in the various regions are as follows:

Region I, New York, Connecticut, Rhode Island, 518; Region II, Maine, Massachusetts, New Hampshire, Vermont, 17; Region III, Delaware, New Jersey, Pennsylvania, 471; Region IV, Michigan, Ohio, West Virginia, 382; Region V, Maryland, North Carolina, South Carolina, Virginia, 238; Region VI, Alabama, Florida, Georgia, Louisiana, Mississippi, 123; Region VII, Illinois, Indiana, Iowa, Wisconsin, 326; Region VIII, Arkansas, Kentucky, Missouri, Tennessee, 120; Region IX, Minnesota, Montana, North Dakota, South Dakota, 71; Region X, Colorado, Kansas, Nebraska, Utah, Wyoming, 44; Region XI, New Mexico, Oklahoma, Texas, 69; Region XII, Arizona, California, Idaho, Nevada, Oregon, Washington, 137.

ESTIMATES

When your painter is giving you an estimate on the cost of painting the exterior of your home, be sure that the written statement covers everything you want painted. This is the best way to avoid the possibility of a future misunderstanding. There is, of course, first of all, the house itself (including sash and trim). Also listed should be the roof, the blinds, the screens, the leaders and gutters, the garage, fences, trellises, and pergolas. It is important to see that the number of coats for each is specified and that all cracks are filled at the time the exterior surface is prepared for painting.

PACKAGE RECEIVER

A package receiver located by the entrance door to the rear porch will be a convenient addition to the house. When the housewife is away the delivery boy may drop parcels through this space, and they will be kept dry as well as hidden so that a prowler will not disturb them.

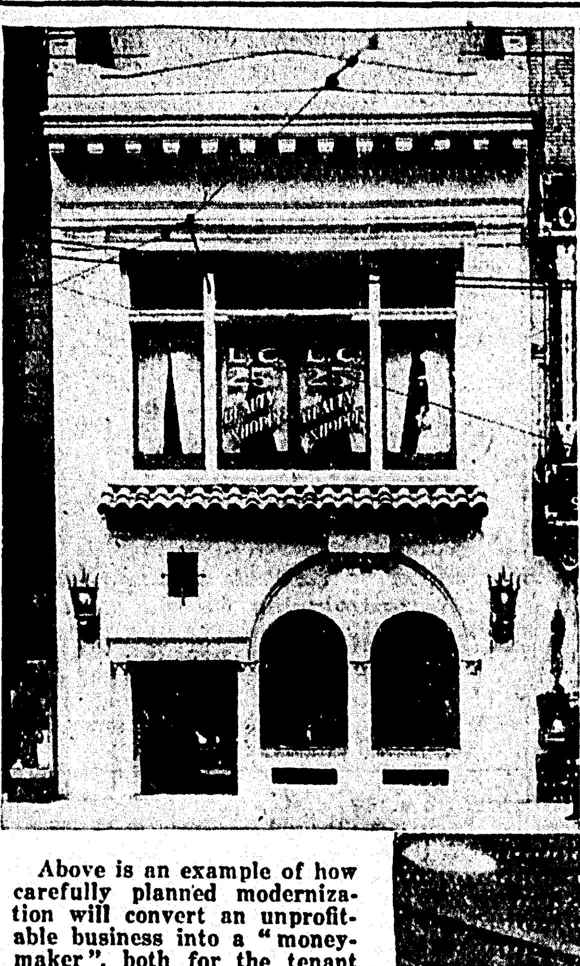
Modernization Doubles Income



Above is an example of how carefully planned modernization will convert an unprofitable business into a "moneymaker", both for the tenant as well as to the property owner. The establishment before repairs (shown at left, above) was in a good location, but, due to its poor plan, several operators had failed to make the place pay. Rearrangement and new equipment were included in the modernization project. Today the establishment is operating at earnings "double the lessee's most optimistic expectations and at a most satisfactory profit above operating costs."

OWNERS PROFIT BY SHOP REPAIR

Sales Appeal Generated By Modernization Under Federal Program

The owners of shops that supply daily needs of neighborhoods are realizing that they can increase their profits by modernizing their buildings.

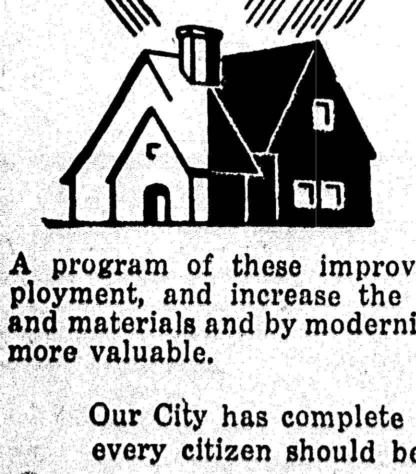
Unattractive exteriors are being replaced by well-designed modern facades. These neat and orderly entrances attract customers. Out-modeled advertising signs are replaced by simple, effective letters placed on the buildings themselves, instead of on heavy projecting signboards.

Interiors are remodeled to harmonize with the new exteriors. The term generally applied to the modern trend in interior arrangement of stores is "open display." Everything that is for sale must not only be easily visible to the purchaser but, if possible, must be within easy reach. Low, open shelves and complete circulation facilitate self-service. The interior of the store which attempts to accomplish this need not appear cluttered. In general, modern food stores exhibit interesting arrangements in this manner.

Many progressive storekeepers have discovered that the need for keeping a large stock of goods in storage has disappeared as a result of the ease of auto-truck delivery. At least half the depth of the store which was formerly used as storage space can be converted into public space. Part of this may be used for additional exhibition space and part added to aisles in order to facilitate circulation through the store.

The federal housing administration insures private financial institutions making modernization loans for work of this kind.

GIVE YOUR HOME A NEW DEAL!



The city of Monroe lends its encouragement to the building and modernizing of homes and businesses.

A program of these improvements will create employment, and increase the demand for both labor and materials and by modernizing makes the property more valuable.

Our City has complete facilities of which every citizen should be proud.

CITY OF MONROE

R. D. SWAYZE, Commissioner — ARNOLD BERNSTEIN, Mayor — D. A. BREARD, Commissioner

QUESTION BOX

Q. The varnish on my built-in side board is scratched in several places. Can I do anything to remedy this without having it all refinished?

A. For small cratches, run turpentine on them with a fine water-color brush. For larger ones, scrape the varnish off of the wood. The wood itself must not be scraped for this may alter its tone.

Apply thin coats of varnish and allow each to dry hard. Fill the space to the level of the original finish. Two and probably three coats will be needed.

Smooth the surface of the patch with No. 000 sandpaper, and then polish it.

Q. What color should I paint a basement laundry room?

A. White or a light shade of some bright, reflective color should be used. In most basements there is insufficient window area, and a light paint will reflect the maximum amount of daylight available.

Many housewives prefer white because it makes the room appear clean and a proper place for doing laundry. Others prefer warm yellows. The color is not as important as the reflective quality of the paint, however.

Q. I would like to use some type of hollow masonry wall units for my house. Is this a satisfactory method of construction?

A. Many investigations have been conducted in the last few years on the strength, stability, and fire resistance of walls built of hollow units, including those built of structural clay tile, and tile and blocks made from various types of concrete.

In general, the investigations show a marked improvement in the quality of such units and a great increase in their application to residential construction.

The quality of the mortar has been found to be one of the most important factors affecting the compressive stress of walls built of hollow masonry units, and in using them particular care should be used to secure good workmanship.

Some types of hollow units can be used without exterior or interior plastering or other finish, and paint may be applied directly to the structural wall.

Q. Can I put a new coat of paint over enamel?

A. Do not paint over a glossed surface.

Remove the gloss with a solution of one pound of sal soda in a gallon of water or any good commercial paint cleaner. Then apply the paint.

LAVATORY CABINET

In small bathrooms which seldom contain sufficient storage space, cabinets may be purchased or built to fit under the lavatory.

Recess the base of the cabinet to provide adequate foot room and paint this base a dark color so that marks will not show.

Towel racks may be provided at each end of the cabinet just below the top of the basin.

FUNDS ALLOCATED

WASHINGTON, D. C.—For the past four months 1,989 banks, finance companies, insurance companies, and building and loan associations in 1,408 cities have made available $450,782,519 for insured mortgages. Financial institutions which have allocated such funds are located in the 48 states, Alaska, and Hawaii.

GLASS SHOWER ENCLOSURE

Many home owners are modernizing their bathrooms by installing glass shower enclosures.

These eliminate the necessity for the use of fabric or rubber curtains which do not last many years and they keep moisture out of the main portion of the bathroom.

7,000 QUALIFIED IN NEGOTIATING LOANS FOR HOME

Financial Institutions Assure Full Operation Of FHA System

WASHINGTON, D. C.—The Federal Housing administration so far has approved more than 7,000 financial institutions as mortgagees, and Stewart McDonald, the administrator, has been advised that the facilities are sufficient to enable people in all sections of the country to enjoy the mutually insured mortgage system created by the National Housing Act.

All classes of financial institutions are in position to negotiate insured mortgages in 44 of the states. In the other four those institutions which are not prohibited by state laws from doing so, as, for example, national banks, are functioning. As soon as the opportunity offers they are expected to enact enabling legislation. The Mississippi legislature is getting ready to meet. The Virginia legislature meets in January. The Kentucky legislature meets in the spring.

The Federal Housing administration is approving the applications of financial institutions to act as mortgagees at the rate of from 35 to 50 a day. About 30,000 institutions throughout the country are eligible, but it is thought unlikely that more than 12,000 will qualify. This is because many financial institutions are engaged entirely in commercial and similar forms of financing and are content to leave the residential mortgage field to others.

The fact remains that scarcely a community exists in which there is not at least one financial institution qualified to negotiate an insured mortgage. The gradual increase in the number of approved mortgagees, while not adding to the geographical operation of the National Housing Act, obviously will provide additional funds for home-mortgage investment.

The Federal Housing administration is daily appraising properties valued at slightly more than one million dollars. The total volume is approaching two hundred million dollars.

VENTILATORS

Cross ventilation should be provided for the space enclosed by foundation walls, whether it is excavated or not.

If no provision is made for air circulation within the enclosed space next to the ground, dampness accumulates and excess moisture can seriously damage structural members. Openings for the admission of air help to prevent these difficulties and increase the life of the structure.

The total area of such openings should not be less than 7 per cent of the ground area enclosed. These openings should be screened tightly so that rats or mice will not find easy access into the space.

BASEMENT STAIRS

Basement stairs are all too frequently very steep. In most households, many trips must be made to the basement each day. The furnace must be stoked, fruit stored, laundry transported. On rainy days children and their friends play in the basement.

The usual steep, narrow basement stair is dangerous and should be replaced by a wide stair, easy to ascend and descend. At the same time they should be adequately lighted and it should be made certain that the handrail is strong and solid.

This type of modernization may be financed by modernization credit loans insured by the federal housing administration.

SELECTION OF TREES

In selecting trees for planting about a residence, take care that those chosen combine the greatest natural beauty with a hardiness and freedom from disease and insect pests in the location where they are to be planted.

The form of the tree should be appropriate for the position it is to occupy.

Native trees are usually advisable for the reason that they are known to flourish under the soil and climatic conditions of the region.

BREAKFAST NOOK

If the breakfast nook in a kitchen is crowded install a shelf on the wall above the electric outlet and paint or enamel it to harmonize or contrast with your breakfast-nook furniture. Such a shelf will give you a place to set the toaster during breakfast and will hold accessories between meals.

HOUSING GROUP LENDS NO FUNDS

Bankers Think That Public Should Learn What Program Means

WASHINGTON, D. C.—Bank executives in many parts of the country during recent weeks have expressed the vital necessity of acquainting the public with the important fact that the federal housing administration lends no money but acts as an insuring agency for lending institutions.

A recent letter to the federal housing administrator, Stewart McDonald, from Robert V. Fleming, president of the Riggs National bank here, is typical.

Mr. Fleming said in part: "I think you bring out an important point in the last paragraph of your letter, that is: 'The federal housing administration, a part of the government, does not itself loan the money, and it simply stands behind the financial institutions making the loans by reason of its insurance.'

"There seems to be a good deal of misunderstanding about the manner in which the federal housing loans are made, and I think somewhere along the line it will be helpful to have this made clear. While anyone who has studied the national housing act or understands the operations of the federal housing administration knows that the government is not actually lending the taxpayers' money, there are a great many people who have a resistance to your program due to the fact that they fail to understand that the government is not loaning the money."

BASEMENT HANDRAIL

Few basemen stairs have handrails, while all other stairs, both exterior and interior, are considered incomplete without them.

A white wooden handrailing of proper height should be added. This will help to prevent many accidents and will make the many daily trips to the basement far easier.

SHELVES OVER SINK

When modernizing the kitchen add two or three shelves over the sink. These may be open or enclosed and will be a convenient location for soaps, scrubbing brushes, and other materials needed near the sink. These shelves may be painted a bright color which contrasts with the main color in the room.

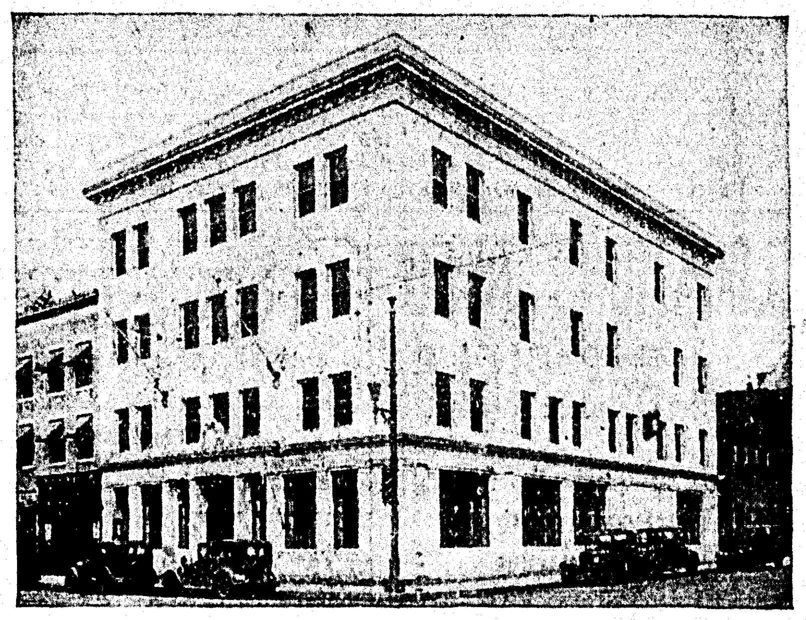
Modern Exterior Dignity



Above is shown "before and after" views of a Massachusetts bank which underwent an exterior modernization recently. Several improvements were made in the plan and general appearance of the structure. The entire exterior was faced with cut limestone and the former outmoded appearance of the building is now supplanted by an atmosphere of modern dignity. Such modernization projects may be carried out with funds obtained under the Modernization Credit Plan of the Federal Housing Administration. Full information may be obtained at any local office or by writing the Federal Housing Administration, Washington, D. C.

NEW LEAGUE LAUDS HOUSING ACTIVITY

WASHINGTON, D. C.—Resolutions commending the activities of the federal housing administration were adopted here at the recent annual convention of the Commercial Law League of America. The league has a membership of over 6,000.

The resolution adopted read as follows:

"Whereas the C. L. L. A. has observed the active, energetic, and intelligent efforts being made by the federal housing administration to promote recovery, to relieve depression, to increase the circulation of money to relieve distress, to improve industrial and economic conditions, to promote reemployment;

"Therefore be it resolved, that the C. L. L. A. endorses the activities of the federal housing administration and approves a continuance of its endeavors."

Rivers, glaciers and clouds constantly are pouring water into the sea almost as fast as it is being taken out by the sun through evaporation.

PAINT TELEPHONE BOOTHS

Telephone booths, so frequently dark and unattractive, are being brightened with paint.

New York restaurants are leading the way in painting the booths inside and out to harmonize with the decorations of the cafe. This is permissible where the booths are the property of the establishments in which they are placed.

Often a row of dark brown wood telephone booths will ruin the decorative effect of a waiting room or lobby. They should be designed to harmonize with the trim and color in the room. Simple lettered signs or lighted flat glass markers may call attention to their location.

SIZING PLASTER

Before painting a plastered wall surface, an extra painting coat may be saved by sizing the surface.

Sizing partially seals up the pores of the surface.

A satisfactory preparation for sizing plaster may be purchased from a paint dealer, or a coat of first-class interior (tung oil) varnish thinned with turpentine and colored with a little wall paint will serve the purpose.

SPEEDING UP OF PAYMENTS OKEHED BY FHA

Borrower May Cut Down Principal On Mortgage If He Desired

WASHINGTON, D. C.—Numerous inquiries have been received by the federal housing administration as to whether payments may be made on an insured mortgage in advance of the time they are due. The answer sent to those who have inquired is that such payments are acceptable and that a borrower may reduce his indebtedness as rapidly as he desires.

The arrangement, however, is entirely between the borrower and the lender, and the fedral housing administration has no regulations on the subject. One method suggested is that the advance payment be credited at the end of the period. Another is that it be prorated and the monthly payments reduced. The chief interest of the federal housing administration is that there be no violation of the regulation fixing the maximum rate of interest at 5 per cent.

To protect themselves it frequently occurs that borrowers do not want to contract to make payments they might, under certain circumstances, be unable to meet. It then develops they find themselves in possession of surplus funds they desire to apply to the mortgage. In at least three instances payments have been made on this basis. From the number of inquiries it is evident that interest on the subject is widespread.

WHITE LIGHT SHAFTS

If areaways and light shafts are painted white, the adjacent rooms will be brightened.

Owners of large office buildings are realizing that illumination can be increased by reflection.

Scientists have established the fact that unpainted red brick has a coefficient of light reflection of only 15 or 20 per cent, while the same brick painted white has a reflective coefficient 80 per cent.

INSULATING MATERIALS

When choosing a material for insulating the house, check for the following requirements:

1. Durability.
2. Vermin proof.
3. Moisture proof.
4. Mechanical strength.
5. No increase in fire hazard.
6. Nonodorous.

The final choice, after all these requirements have been met, will depend on the cost and place the material is to be used.

HOUSING DAY MODEL HOMES ARE COMPLETE

2,516 Demonstration Structures Started Since June 15, Finished

WASHINGTON, D. C.—In less than four months after National Better Housing day 2,516 model homes started in 48 states on June 15 have been completed and opened for public inspection, Stewart McDonald, Federal Housing Administrator, announced today.

Hundreds of other homes, all begun as a part of the largest single mass-construction program ever conducted in the nation, are rapidly nearing completion. Reports are being received daily by the Federal Housing administration telling of projects completed.

The majority of the homes started on National Better Housing Day comply with the property standards of the Federal Housing administration and are eligible for financing under the single-mortgage plan. These houses were constructed by individuals, chambers of commerce, industrial concerns, building-supply dealers and contractors, radio stations, and special civic groups. The program began with Nation-wide celebrations on June 15, including speeches, meetings, radio talks, and ground-breaking ceremonies in hundreds of communities.

The 48 states have been divided into 12 Federal Housing Administration regions. National Better Housing day model homes completed in the various regions are as follows:

Region I, New York, Connecticut, Rhode Island, 518; Region II, Maine, Massachusetts, New Hampshire, Vermont, 17; Region III, Delaware, New Jersey, Pennsylvania, 471; Region IV, Michigan, Ohio, West Virginia, 382; Region V, Maryland, North Carolina, South Carolina, Virginia, 238; Region VI, Alabama, Florida, Georgia, Louisiana, Mississippi, 123; Region VII, Illinois, Indiana, Iowa, Wisconsin, 326; Region VIII, Arkansas, Kentucky, Missouri, Tennessee, 120; Region IX, Minnesota, Montana, North Dakota, South Dakota, 71; Region X, Colorado, Kansas, Nebraska, Utah, Wyoming, 44; Region XI, New Mexico, Oklahoma, Texas, 69; Region XII, Arizona, California, Idaho, Nevada, Oregon, Washington, 137.

ESTIMATES

When your painter is giving you an estimate on the cost of painting the exterior of your home, be sure that the written statement covers everything you want painted. This is the best way to avoid the possibility of a future misunderstanding. There is, of course, first of all, the house itself (including sash and trim). Also listed should be the roof, the blinds, the screens, the leaders and gutters, the garage, fences, trellises, and pergolas. It is important to see that the number of coats for each is specified and that all cracks are filled at the time the exterior surface is prepared for painting.

PACKAGE RECEIVER

A package receiver located by the entrance door to the rear porch will be a convenient addition to the house. When the housewife is away the delivery boy may drop parcels through this space, and they will be kept dry as well as hidden so that a prowler will not disturb them.

Sizing partially seals up the pores of the surface.

A satisfactory preparation for sizing plaster may be purchased from a paint dealer, or a coat of first-class interior (tung oil) varnish thinned with turpentine and colored with a little wall paint will serve the purpose.

SPEEDING UP OF PAYMENTS OKEHED BY FHA

Borrower May Cut Down Principal On Mortgage If He Desired

WASHINGTON, D. C.—Numerous inquiries have been received by the federal housing administration as to whether payments may be made on an insured mortgage in advance of the time they are due. The answer sent to those who have inquired is that such payments are acceptable and that a borrower may reduce his indebtedness as rapidly as he desires.

The arrangement, however, is entirely between the borrower and the lender, and the fedral housing administration has no regulations on the subject. One method suggested is that the advance payment be credited at the end of the period. Another is that it be prorated and the monthly payments reduced. The chief interest of the federal housing administration is that there be no violation of the regulation fixing the maximum rate of interest at 5 per cent.

To protect themselves it frequently occurs that borrowers do not want to contract to make payments they might, under certain circumstances, be unable to meet. It then develops they find themselves in possession of surplus funds they desire to apply to the mortgage. In at least three instances payments have been made on this basis. From the number of inquiries it is evident that interest on the subject is widespread.

WHITE LIGHT SHAFTS

If areaways and light shafts are painted white, the adjacent rooms will be brightened.

Owners of large office buildings are realizing that illumination can be increased by reflection.

Scientists have established the fact that unpainted red brick has a coefficient of light reflection of only 15 or 20 per cent, while the same brick painted white has a reflective coefficient 80 per cent.

INSULATING MATERIALS

When choosing a material for insulating the house, check for the following requirements:

1. Durability.
2. Vermin proof.
3. Moisture proof.
4. Mechanical strength.
5. No increase in fire hazard.
6. Nonodorous.

The final choice, after all these requirements have been met, will depend on the cost and place the material is to be used.

FRENCH FUNERAL HELD SATURDAY

Rites Conducted At First Baptist Church For Drowning Victim

The funeral of Clyde French, 19, son of Dr. and Mrs. J. T. French, whose body was recovered from the Ouachita river Friday morning, after he had been missing from his home since Monday night, was held at 3 p. m. Saturday at the First Baptist church. The pastor, Rev. L. T. Hastings, assisted by Rev. W. C. Scott, pastor of the First Methodist church, officiated. Interment was made in Riverview Burial park.

Active pallbearers were George Aubert, A. L. Peters, Lyle Garrison, Jimmy Malone, Jason Berry, Marion Olmstead, Louis Breard and Henry Shaw.

Honorary pallbearers were: Tommy Zeigler, Jimmy Wyatt; all teachers of the Northeast Center and Ouachita parish high school; T. O. Brown, Jack Hayes; all members of the Ouachita Parish Medical society; Jeff Cole, members of the football team of Northeast Center, Frank Thompson, J. C. Liner, J. Arthur Smith, Keith Moore, W. N. Bird, Ralph Davis, E. D. Harris, J. D. Green, L. D. Rogers, R. J. Goza and L. L. Key.

Young French's death was declared by Coroner C. L. Mengis to have resulted from an accident. A member of the football team of Northeast Center of Louisiana State university, he suffered a back injury in a scrimmage recently and had been confined to his home with a high fever and indications of an attack of malaria.

It is believed that he left his home, shortly after 10 p. m. Monday, and wandered in a delirious condition toward the river where he is believed to have either fallen or jumped in. His absence from home was not discovered until early Tuesday morning, when the police, radio and newspapers were sought to give aid.

After a search of nearly four days, his body was found by attaches of the sheriff's office floating near the locks and dam.

The young man was highly popular with a wide circle of college and other friends and his death caused deep regret.

He is survived by his parents, two brothers, Homer Jefferson and Harvey Thomas French and five sisters, Janie T., May Lucille, Evelyn Louise, Dorothy Lee and Mary Eloise French, all of Monroe.

METHODIST CHILDREN TO HAVE LONGER SESSION

During the month of November, the children of the primary and junior departments of the First Methodist Sunday school will study a special missionary friendship unit. Because these units require an extra activity period, the children will remain in their department rooms until Sunday noon and conduct an extra session at the same time that the worship hour is on in the church auditorium.

Mothers of the primary and junior departments have been notified to remain at the church for the special activity. Their hours will be from 9:30 a.m. until noon each Sunday through November.

The juniors will study "World Peace," and the primary students, "Friend Helpers Far and Near."

Twilight is caused by the sun shining on the upper atmosphere. If there were no atmosphere, darkness would fall instantly at sunset.

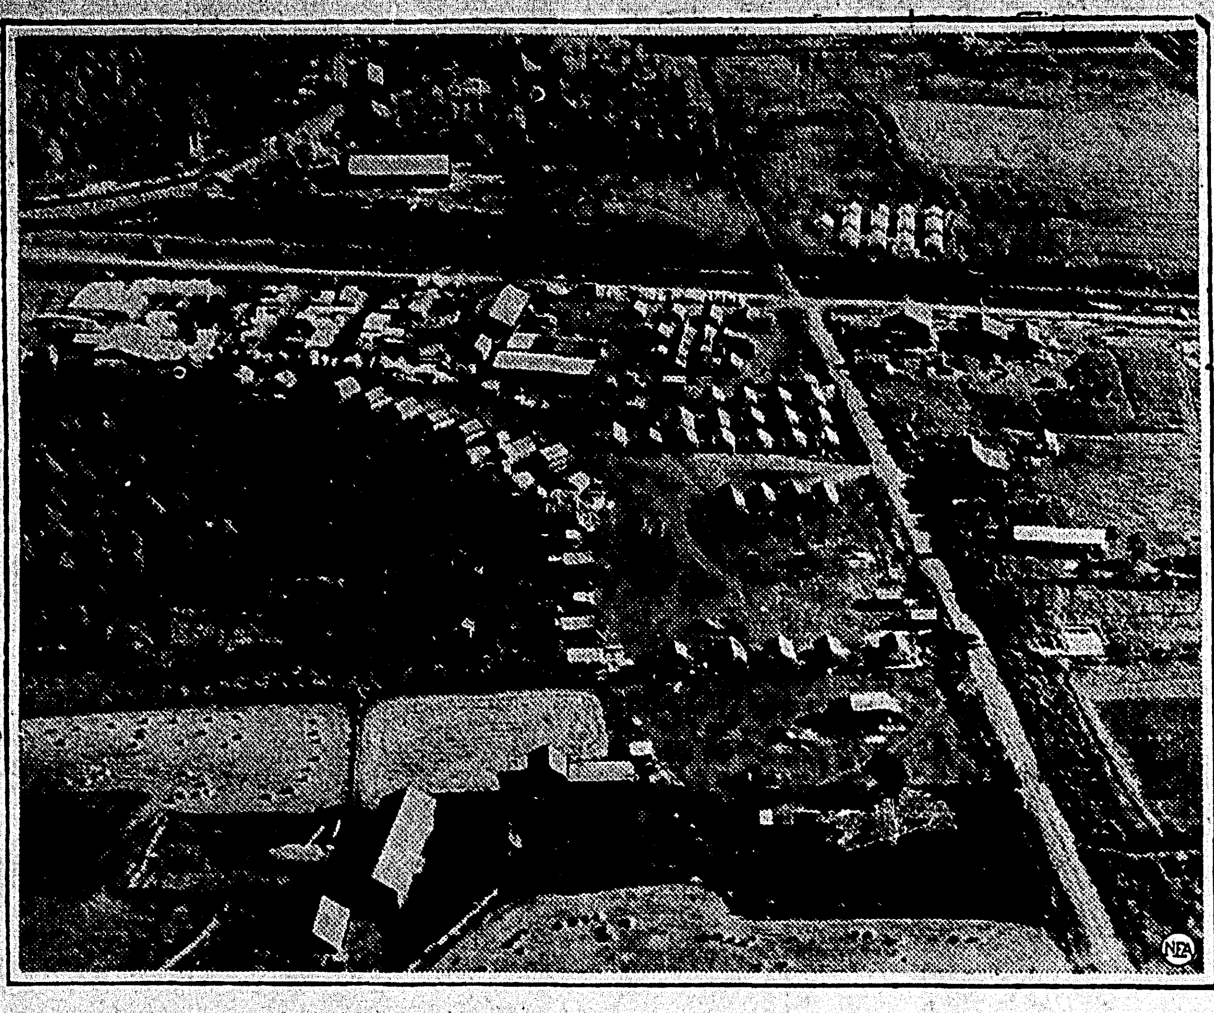
BOOM COMES TO MATANUSKA VALLEY TRADING TOWN



A boom has come to Palmer, Alaska, trading town for the New Deal settlement in the Matanuska valley. Once merely a postoffice and railway station, Palmer is going ahead at a rapid clip. In this airview are shown the administrative offices and quarters of the Alaska Rural Rehabilitation corporation. In the center are tents which soon will have to be abandoned as winter sets in. In the background are seen the warehouse, powerhouse, trading post, and garage recently completed in the community center of the town.

LOCATIONS ADDED IN GAS FIELDS

Week's Report Is Returned By Department Of Conservation

A number of new locations were reported for the past week in the northeast Louisiana gas fields by the department of conservation, minerals division. There were no completions reported.

The locations were as follows:

Morehouse Parish

Section 9-20-4 east, J. E. Farrell, State of Louisiana, No. 11.

Section 4-20-4 east, J. E. Farrell, State of Louisiana, No. 13.

Section 28-21-4 east, J. E. Farrell, State of Louisiana, No. 15.

Union Parish

Section 33-21-4 east, J. E. Farrell, State of Louisiana, No. 14.

Section 9-20-4 east, J. E. Farrell, State of Louisiana, No. 12.

Progress made on drilling tests is reported as follows:

Catahoula Parish

Section 18-10-7 east, McIntyre company, TenDel No. 1; drilling at 2,850 feet.

Grant Parish

Section 9-9-1 east, Alexander et al, Maxwell No. 1; shut down at 900 feet.

Rapides Parish

Section 53-1-2 east, Amerada Petroleum company, Weil No. 1; preparing to core at 6,141 feet.

Caldwell Parish

Section 18-11-3 east, Crichett and Wood, Kyles No. 1; drilled to 1,740 feet; cemented back to 1,698 feet to test.

Morehouse Parish

Section 10-21-4 east, United Gas Public Service, Ten Delta No. 16; set six inch at 2,092 feet.

Ouachita Parish

Section 23-19-3 east, Inabnet and Pipes, D'Arbonne No. 2; set 12 inch at 150 feet.

Section 31-19-4 east, Inabnet and Pipes, Douglas No. 2; set six-inch 2,145 feet.

Section 30-19-4 east, Interstate Natural Gas company, Fee 40; drilling at 2,030 feet.

Section 24-19-3 east, Interstate Natural Gas company, Fee 42; set eight-inch casing at 756 feet.

Section 25-19-3 east, Carbons Consolidated, W. C. Feazel, No. 6; set six-inch at 2,144 feet.

Madison Parish

Section 1-17-12 east, Southern Land and Explo., Deltic Investment No. 1; shut down at 2,207 feet.

Union Parish

Section 1-21-3 east, Nemours corporation, Haile No. 2; set six-inch at 2,088 feet.

It is said that it is possible to make a razor blade that would keep its edge without stropping, but such a blade would cost approximately $25.

NATIONAL STAMP WEEK IS PLANNED

Twin City Club To Conduct Program Of Activities Starting Monday

The Twin City Stamp club, which is now Monroe's only adult stamp club, is cooperating with clubs throughout the nation in the observance of National Stamp week, with a program of activities beginning tomorrow and continuing all week, it was announced by W. J. Kirby, of the local organization.

This is the first observance of National Stamp week. It had its inception several months ago at a meeting of the Gateway Philatelic club in Chicago, when one of the members proposed that such an observance be held. This idea was given much publicity by the philatelic press, and the Twin City club, at its next meeting, agreed to cooperate in the movement, writing the originators of the idea to that effect.

Plans for local observance have been considered during the past few months.

The outstanding event of the week will be an exhibition on Wednesday evening, which will be held at the Recreation room on DeSiard street. Members of the club will exhibit portions of their collections, as will numerous other collectors from this section. Collectors who will exhibit are asked to get in touch with President J. W. Cunningham at once if they have not already done so. This exhibition will be open to the public.

Second only to the exhibition will be "junior night," which will be observed Friday evening. Junior collectors of the city will be guests of the Twin City club, and will have a chance to show off their collections, and, in many instances, to "show up" the older collectors. Souvenirs will be given the junior collectors, so long as the supply on hand lasts.

MISSIONARY SOCIETY MEETS AT OAK GROVE

OAK GROVE, La., Nov. 2.—(Special)—The Methodist Missionary society of Oak Grove was entertained in the home of Mrs. T. N. Pulley, with a birthday and Halloween party Members of the missionary society having birthdays on or near the Halloween season who acted as hostesses and to whom compliments are being paid for their efforts and success in the arrangement of the affair, were the following women: Mrs. Chester Franklin, Mrs. O. C. Roberts, Mrs. William McG. Dollerhide, Mrs. Clyde Turner, Mrs. A. C. Monroe, Mrs. Tom Pulley, Jr., Mrs Ollie Briggs, Mrs. M. C. McCudy, Mrs. Jack Pollard.

Fortune telling, races in dressing from a suitcase, and a trip through the "house of horrors" were some of the features of entertainment.

In the Amazon basin of Brazil, native Indians sleep with fires burning under their feet to keep them warm on chilly nights.

SAINT MATTHEW'S HONOR ROLL GIVEN

Many Pupils Make Grade Of 90 Per Cent Or More In Studies

The following pupils of St. Matthew's Parochial school have attained a 90 per cent average during the past six weeks:

First grade: Joseph Lacaro, Dorothy BeDoit, Alther Burket, Charles Housher, J. W. Webster and Vincent Jovingo.

Second grade: John Browne, Freddie Jean Endom, S. J. Daigle, Mary Sam Norris, Latrelle Kutz, R. B. Hill, Patsy Dougal, Bobby BeDoit, Emily Cunningham, E. D. Cascio, Rosalie Riley, Josephine Inzina and Lloyd Voorhees, Jr.

Third grade: Mary Louise Hartman, Charles Guerriero, Laura Leah Worsham, Billie Lochart and Josephine Cascio.

Fourth grade: Gertrude Trellue, Catherine Buttitta, Erline Kenny, Helen Zurga, Jackie Voorhees, Mary Flacy, Christina Romano, Mary Florence Morrison, Joseph Hartman, Kramer Norris and Sylvester Breard.

Fifth grade: Bobby Clouatre, Heloise Rimes, Frances Pecastaing, Jene Ritter, Sara Hunt, Nick Kokinos and Joseph Nastasi.

Sixth grade: Camille Marsala, Pascal Norris, Sybil Marie Daughtry, Filhiol Breard, Mary Lois Darcy, Mary Bernice Nastasi and Chris Mengis.

Seventh grade: Rosemary Worsham, Veronica Wilds, Gloria Clouatre, Jo Ann Guerriero, Mary C. Burket, Elizabeth Ann Gibbs, Willie Mae Aucion, Guyton Powers and Pete Buttitta.

GIRL GETS THRILL

During the presentation ceremony in Tokyo of a scouting plane, built by donations from waitresses, to the Japanese government, 16-year-old Kimiko Mitsuno, a parachute jumper, stared at death. The girl jumped at a height of 1,000 feet, but, as part of the harness was hooked to the plane, she hung suspended in the air without the parachute opening. The pilot promptly went out to sea, and there began rocking his plane in order to unhook the jumper. Eventually the rope broke and the girl was able to pull the rip-cord as soon as she began to fall. She was slightly injured in landing in the water, falling on a piece of floating lumber.

SWEEPSTAKE WON BY MRS. REYNOLDS

Award Is Made At Annual Flower Show Of Garden Club Here

The Monroe Garden club's autumn flower show, held at the Legion home on Friday, was declared the best in the history of this group. There was a large attendance and the flowers displayed surpassed in excellence any similar exhibition here, those who attended declared. Mrs. F. A. Reynolds won the sweepstake with 122 points, being awarded the handsome silver loving cup as a trophy.

The cup was won by Mrs. T. C. Rowland last year and it has to be captured by the same person three times in succession to be retained permanently.

Mrs. T. C. Rowland won the second sweepstake with 93 points, Mrs. F. T. Smith the third sweepstake with 45 points.

The grand prize, selected by the public, for best arrangement was awarded to Mrs. Reynolds.

Other prizes were as follows: Roses, Mrs. Reynolds; dahlias, Mrs. Rowland; annuals and perennials, Mrs. Reynolds; table arrangement, Mrs. C. B. Faulk, special features, Mrs. F. T. Smith; ferns and foliage, Mrs. Fred Hanna; rare flowers, Mrs. A. R. Butler; wild flowers, Mrs. Reynolds.

The judge stated that the dahlia display of Mrs. Reynolds was the most perfect in the show. Mrs. John Keller's pink dahlia was called outstanding in beauty and was much admired, as well as those grown by Mrs. Rowland.

Mrs. F. T. Smith's white and yellow special feature of chrysanthemums received votes as to being the most perfect display. She also received the highest honors in chrysanthemums in number of varieties, as well as for perfect flowers.

William Grasse entered a formal dinner centerpiece that was rated first in its classification.

TECH MUSEUM TO GET WAR RELICS

William Jones Finds Rare Objects In Cavity At Ancient Fort

RUSTON, La., Nov. 2.—(Special)—Civil war relics, hidden in an underground cavity adjoining old Fort Beauregard near Harrisonburg and discovered by Willard Jones of Ruston, have been donated to the museum of Louisiana Tech. Other articles expected to be excavated from the subterranean room also will be given to the college here, of which Mr. Jones is an alumnus.

Mr. Jones, an engineer with the soil conservation service at Harrisonburg, learned of the existence of the "secret tunnel" from old residents of the city located on the banks of the Ouachita river. Beginning explorations, Mr. Jones found a passage leading from the site of the old fort, and by tracing the tunnel found the underground cavern. Confederate troops stationed at the fort kept their ammunition stored in the room, it is said. Making his discovery only about a week ago, Mr. Jones has not yet had time to ascertain the entire contents of the cave.

Among the articles found by him in his first excavation were several bullets and bayonets and remnants of old fire-charred muskets.

The amateur archaeologist came here a few days ago and told those in charge of the Tech museum that all objects of historical importance would be donated to the collection of relics and antiques here.

It is believed that further digging may uncover an arsenal said to have been left there by Confederate soldiers who burned the wooden roof supports when they were forced to abandon the place.

CLOSING NOTICE
Due to the death of Mr. M. J. Cosgrove we will be closed all day today.

BABY BORN IN WELL—AND LIVES!

Franklin Woodrow Jordan, 9-pound infant, was born under water in a deep well. But he and his mother, Mrs. Alton L. Jordan, survived the ordeal and now both are doing nicely in a hospital at Sanford, N. C. Falling into the well by accident, Mrs. Jordan remained half-submerged at the bottom until rescuers came 45 minutes later. In the meantime the baby was born. Doctors say he owes his life to the fact that nature kept him from breathing so long as he was under water. (Associated Press Photo)

CATTLE TESTED IN THIS PARISH

Federal Veterinarian Is Inspecting Stock For Bang's Disease

Dr. C. W. Hayes, veterinarian of the federal bureau of animal industry, Louisiana division, with headquarters at Baton Rouge, has arrived here to test cattle in Ouachita parish for Bang's disease.

Dr. Hayes will be located here for two weeks and his services will be available, free of charge, to all cattle owners desiring him to make the tests. In anticipation of his stay here, about 1,000 cattle, principally dairy stock, had been listed for his inspection.

Bang's disease causes cows to bring forth their calves prematurely, resulting in financial loss to the cattle owner. It is a contagious disease and is known among cattle owners as "contagious abortion."

In Ouachita parish the disease has shown only a slight prevalence, it was reported.

The disease tests are made by examining about a teaspoonful of an animal's blood. Dr. Hayes makes the tests in his portable laboratory.

Cattle found having the disease will be condemned and butchered. The meat will be tested by a federal meat inspector and if wholesome may be disposed of by the farmer in whatever manner he chooses.

The government will pay the cattle owner up to $25 for each ordinary or "grade" animal condemned, and up to $50 for each registered animal condemned.

In cases where the farmer sells the butchered animal, the money he receives in the sale figures in his settlement with the government.

THANKS, MONROE!
It was most gratifying to us to note the tremendous response we received from our invitation Friday and Saturday. Our store was crowded from early morning until closing time. We noticed new faces mingling with the familiar faces and we believe that we have been well repaid for the efforts, time and money that went into making our store one of the most outstanding Grocery establishments in the Twin Cities. If you did not visit us on our opening day, we again extend you a cordial invitation to come to see us at any time and to enjoy the values and good foods that are yours at MESSINA'S.

NATIONAL STAMP WEEK IS PLANNED

Twin City Club To Conduct Program Of Activities Starting Monday

The Twin City Stamp club, which is now Monroe's only adult stamp club, is cooperating with clubs throughout the nation in the observance of National Stamp week, with a program of activities beginning tomorrow and continuing all week, it was announced by W. J. Kirby, of the local organization.

This is the first observance of National Stamp week. It had its inception several months ago at a meeting of the Gateway Philatelic club in Chicago, when one of the members proposed that such an observance be held. This idea was given much publicity by the philatelic press, and the Twin City club, at its next meeting, agreed to cooperate in the movement, writing the originators of the idea to that effect.

Plans for local observance have been considered during the past few months.

The outstanding event of the week will be an exhibition on Wednesday evening, which will be held at the Recreation room on DeSiard street. Members of the club will exhibit portions of their collections, as will numerous other collectors from this section. Collectors who will exhibit are asked to get in touch with President J. W. Cunningham at once if they have not already done so. This exhibition will be open to the public.

Second only to the exhibition will be "junior night," which will be observed Friday evening. Junior collectors of the city will be guests of the Twin City club, and will have a chance to show off their collections, and, in many instances, to "show up" the older collectors. Souvenirs will be given the junior collectors, so long as the supply on hand lasts.

MISSIONARY SOCIETY MEETS AT OAK GROVE

OAK GROVE, La., Nov. 2.—(Special)—The Methodist Missionary society of Oak Grove was entertained in the home of Mrs. T. N. Pulley, with a birthday and Halloween party Members of the missionary society having birthdays on or near the Halloween season who acted as hostesses and to whom compliments are being paid for their efforts and success in the arrangement of the affair, were the following women: Mrs. Chester Franklin, Mrs. O. C. Roberts, Mrs. William McG. Dollerhide, Mrs. Clyde Turner, Mrs. A. C. Monroe, Mrs. Tom Pulley, Jr., Mrs Ollie Briggs, Mrs. M. C. McCudy, Mrs. Jack Pollard.

Fortune telling, races in dressing from a suitcase, and a trip through the "house of horrors" were some of the features of entertainment.

In the Amazon basin of Brazil, native Indians sleep with fires burning under their feet to keep them warm on chilly nights.

SAINT MATTHEW'S HONOR ROLL GIVEN

Many Pupils Make Grade Of 90 Per Cent Or More In Studies

The following pupils of St. Matthew's Parochial school have attained a 90 per cent average during the past six weeks:

First grade: Joseph Lacaro, Dorothy BeDoit, Alther Burket, Charles Housher, J. W. Webster and Vincent Jovingo.

Second grade: John Browne, Freddie Jean Endom, S. J. Daigle, Mary Sam Norris, Latrelle Kutz, R. B. Hill, Patsy Dougal, Bobby BeDoit, Emily Cunningham, E. D. Cascio, Rosalie Riley, Josephine Inzina and Lloyd Voorhees, Jr.

Third grade: Mary Louise Hartman, Charles Guerriero, Laura Leah Worsham, Billie Lochart and Josephine Cascio.

Fourth grade: Gertrude Trellue, Catherine Buttitta, Erline Kenny, Helen Zurga, Jackie Voorhees, Mary Flacy, Christina Romano, Mary Florence Morrison, Joseph Hartman, Kramer Norris and Sylvester Breard.

Fifth grade: Bobby Clouatre, Heloise Rimes, Frances Pecastaing, Jene Ritter, Sara Hunt, Nick Kokinos and Joseph Nastasi.

Sixth grade: Camille Marsala, Pascal Norris, Sybil Marie Daughtry, Filhiol Breard, Mary Lois Darcy, Mary Bernice Nastasi and Chris Mengis.

Seventh grade: Rosemary Worsham, Veronica Wilds, Gloria Clouatre, Jo Ann Guerriero, Mary C. Burket, Elizabeth Ann Gibbs, Willie Mae Aucion, Guyton Powers and Pete Buttitta.

GIRL GETS THRILL

During the presentation ceremony in Tokyo of a scouting plane, built by donations from waitresses, to the Japanese government, 16-year-old Kimiko Mitsuno, a parachute jumper, stared at death. The girl jumped at a height of 1,000 feet, but, as part of the harness was hooked to the plane, she hung suspended in the air without the parachute opening. The pilot promptly went out to sea, and there began rocking his plane in order to unhook the jumper. Eventually the rope broke and the girl was able to pull the rip-cord as soon as she began to fall. She was slightly injured in landing in the water, falling on a piece of floating lumber.

SWEEPSTAKE WON BY MRS. REYNOLDS

Award Is Made At Annual Flower Show Of Garden Club Here

The Monroe Garden club's autumn flower show, held at the Legion home on Friday, was declared the best in the history of this group. There was a large attendance and the flowers displayed surpassed in excellence any similar exhibition here, those who attended declared. Mrs. F. A. Reynolds won the sweepstake with 122 points, being awarded the handsome silver loving cup as a trophy.

The cup was won by Mrs. T. C. Rowland last year and it has to be captured by the same person three times in succession to be retained permanently.

Mrs. T. C. Rowland won the second sweepstake with 93 points, Mrs. F. T. Smith the third sweepstake with 45 points.

The grand prize, selected by the public, for best arrangement was awarded to Mrs. Reynolds.

Other prizes were as follows: Roses, Mrs. Reynolds; dahlias, Mrs. Rowland; annuals and perennials, Mrs. Reynolds; table arrangement, Mrs. C. E. Faulk, special features, Mrs. F. T. Smith; ferns and foliage, Mrs. Fred Hanna; rare flowers, Mrs. A. R. Butler; wild flowers, Mrs. Reynolds.

The judge stated that the dahlia display of Mrs. Reynolds was the most perfect in the show. Mrs. John Keller's pink dahlia was called outstanding in beauty and was much admired, as well as those grown by Mrs. Rowland.

Mrs. F. T. Smith's white and yellow special feature of chrysanthemums received votes as to being the most perfect display. She also received the highest honors in chrysanthemums in number of varieties, as well as for perfect flowers.

William Grasse entered a formal dinner centerpiece that was rated first in its classification.

TECH MUSEUM TO GET WAR RELICS

William Jones Finds Rare Objects In Cavity At Ancient Fort

RUSTON, La., Nov. 2.—(Special)—Civil war relics, hidden in an underground cavity adjoining old Fort Beauregard near Harrisonburg and discovered by Willard Jones of Ruston, have been donated to the museum of Louisiana Tech. Other articles expected to be excavated from the subterranean room also will be given to the college here, of which Mr. Jones is an alumnus.

Mr. Jones, an engineer with the soil conservation service at Harrisonburg, learned of the existence of the "secret tunnel" from old residents of the city located on the banks of the Ouachita river. Beginning explorations, Mr. Jones found a passage leading from the site of the old fort, and by tracing the tunnel found the underground cavern. Confederate troops stationed at the fort kept their ammunition stored in the room, it is said. Making his discovery only about a week ago, Mr. Jones has not yet had time to ascertain the entire contents of the cave.

Among the articles found by him in his first excavation were several bullets and bayonets and remnants of old fire-charred muskets.

The amateur archaeologist came here a few days ago and told those in charge of the Tech museum that all objects of historical importance would be donated to the collection of relics and antiques here.

It is believed that further digging may uncover an arsenal said to have been left there by Confederate soldiers who burned the wooden roof supports when they were forced to abandon the place.

CLOSING NOTICE
Due to the death of Mr. M. J. Cosgrove we will be closed all day today.
OPEN FOR BUSINESS MONDAY, NOV. 4th

BABY BORN IN WELL—AND LIVES!

Franklin Woodrow Jordan, 9-pound infant, was born under water in a deep well. But he and his mother, Mrs. Alton L. Jordan, survived the ordeal and now both are doing nicely in a hospital at Sanford, N. C. Falling into the well by accident, Mrs. Jordan remained half-submerged at the bottom until rescuers came 45 minutes later. In the meantime the baby was born. Doctors say he owes his life to the fact that nature kept him from breathing so long as he was under water. (Associated Press Photo)

CATTLE TESTED IN THIS PARISH

Federal Veterinarian Is Inspecting Stock For Bang's Disease

Dr. C. W. Hayes, veterinarian of the federal bureau of animal industry, Louisiana division, with headquarters at Baton Rouge, has arrived here to test cattle in Ouachita parish for Bang's disease.

Dr. Hayes will be located here for two weeks and his services will be available, free of charge, to all cattle owners desiring him to make the tests. In anticipation of his stay here, about 1,000 cattle, principally dairy stock, had been listed for his inspection.

Bang's disease causes cows to bring forth their calves prematurely, resulting in financial loss to the cattle owner. It is a contagious disease and is known among cattle owners as "contagious abortion."

In Ouachita parish the disease has shown only a slight prevalence, it was reported.

The disease tests are made by examining about a teaspoonful of an animal's blood. Dr. Hayes makes the tests in his portable laboratory.

Cattle found having the disease will be condemned and butchered. The meat will be tested by a federal meat inspector and if wholesome may be disposed of by the farmer in whatever manner he chooses.

The government will pay the cattle owner up to $25 for each ordinary or "grade" animal condemned, and up to $50 for each registered animal condemned.

In cases where the farmer sells the butchered animal, the money he receives in the sale figures in his settlement with the government.

THANKS, MONROE!

It was most gratifying to us to note the tremendous response we received from our invitation Friday and Saturday. Our store was crowded from early morning until closing time. We noticed new faces mingling with the familiar faces and we believe that we have been well repaid for the efforts, time and money that went into making our store one of the most outstanding Grocery establishments in the Twin Cities. If you did not visit us on our opening day, we again extend you a cordial invitation to come to see us at any time and to enjoy the values and good foods that are yours at MESSINA'S.

BOOTS
By EDGAR MARTIN
HEY!
AW, SEXTRAVAGANCE, BOOTS. WASTIN' ALL THIS ELECTRICITY
.... IT'S SO DARK ... AND SPO OOKY
BUT, IT'S SO COZY, JUS' SITTIN' HERE ALL ALONE WITH MY LIL' SUGAR PIE
BUT .....
NOW! LESSEE — WHERE WAS I? OH YEAH ——
... SHE WAS TIPPY-TOEIN' UP TH' OL' CREAKY STAIRS ... WHEN SHE HEARD A STIFLED SCREAM
LIKE THIS
EEEEE YOW
OOOH .... DON'T
... THAT WAS TOO MUCH FOR 'ER, N'SHE BACKED UP DOWN! JUS' THEN, SHE SAW A SHADOW — STEALTHILY COMIN' TOWARD 'ER —
EEEEEEK!
TH' STRANGLER!!! WELL — THERE SHE WAS, SCARED STIFF AS A COLD LAMB CHOP —
O OOOH! W-WHAT WAS T-THAT?
TH' FRONT DOOR
IT'S TH' F-FOLKS — THANK HEAVEN! NOW, YOU REALLY MUST GO
MY WORD, IT'S LATE! I THOUGHT WE'D NEVER GET AWAY FROM THAT CONFOUNDED RECEPTION!
I'M SURPRISED THAT BOOTS WOULD ALLOW HER CALLER TO STAY SO LATE
G'NIGHT
WE EXPECTED TO FIND YOU IN BED, DEAR
I WOULD HAVE BEEN, BUT I COULDN'T GET MERVIE TO LEAVE
HE INSISTED ON TELLING ME GHOST STORIES ...
TILL FINALLY I GOT SO SCARED I WOULDN'T LET HIM LEAVE — THE DUMB THING
DUMB, DID YOU SAY?

KOROLOFF, IN AN ENDEAVOR TO LEARN THE SECRET OF THE STRATOS-SHIP, SENT A DECOY LETTER TO BETTY LOU, PURPORTEDLY TO HAVE COME FROM TOMMY!-- WHEN SHE RESPONDED TO IT SHE WAS SEIZED!
MAKE HER STOP SCREAMING SHE'LL--HAVE TH' WHOLE AIRPORT AROUSED-
I STOPPED HER-- BUT I HAD TO SOCK HER ON TH' HEAD!
YOU FOOL! MAYBE YOU KILLED HER AN' THEN--
TIM, THE WATCHMAN, HEARS BETTY SCREAM-
WATCHMAN
THAT WAS MISS BETTY--I COULD SWEAR TO IT-- AN' SHE HOLLERED FOR HELP-
IT WAS MISS BETTY! SOMETHING IS WRONG! I'LL PHONE TOMMY-
TOMMY!--LUCKY I AM TO GET YOU AT THIS HOUR---
HURRY OUT HERE, ME LAD--FOR TH' LOVE OF SAINT DENNIS, HURRY!
BUT, I TELL YOU, ME LAD, I KNOW IT WAS MISS BETTY-
I THINK YOU'RE RIGHT, TIM, HELP ME WHEEL OUT MY SHIP-
PHONE THE CHIEF--- TELL VIC TO SEND A RADIO CALL TO THE POLICE AND-
--TO ALL AIRPORTS! I'LL CONTACT YOU LATER-
MAY TH' SAINTS HELP YOU, TOMMY--- BUT---
THOSE VILLAINS HAVE GOT A BIG START

MOON MULLINS
by Frank Willard
H. J. HARDBARGAIN, ATTORNEY-AT-LAW! WHAT ABOUT HIM?
WHY, HE IS REPRESENTING THAT OLD FOOL THAT CAME HERE LAST WEEK TO RENT A ROOM!
I'LL GO TALK TO THIS MOUTH-PIECE MYSELF, EMMY - I'VE HAD MORE EXPERIENCE WITH TH' LAW THAN YOU HAVE.
IN THE FIRST PLACE, MR. MULLINS THE LANDLADY FORCIBLY EMBRACED AND KISSED MY CLIENT AGAINST HIS WISHES
SURE- SHE THOUGHT THE OLD GINK WAS HER UNCLE AMBROSE WHO SHE HADN'T SEEN SINCE SHE WAS A LITTLE GIRL
SECONDLY, MY CLIENT WAS HIT OVER THE HEAD FROM BEHIND WITH A SOUP BOWL. TSK-TSK TSK-
WELL-TH' COOK DONE THAT- SHE THOUGHT HE WAS HER HUSBAND.
AND SO, QUITE JUSTLY, MY CLIENT HAS AUTHORIZED ME TO INSTITUTE SUIT FOR $10,000.00 AGAINST LADY PLUSHBOTTOM— HOWEVER, FOR A REASONABLE CONSIDERATION, SAY $7,000.00 I MIGHT PERSUADE MY CLIENT TO SETTLE OUT OF COURT.
AND STAY OUT! BEFORE I GIVE YOU SOME MORE DAMAGES, YOU —*~!!!★!!!
YOU WILL HEAR MORE FROM ME, MULLINS! YOU WILL HEAR FROM ME AGAIN.
HUH! I DIDN'T EXPECT HIM BACK SO SOON.
MOON, GO GET ME A BUCKET OF WATER- AND KAYO, WHEN I GIVE YOU THE WORD THROW OPEN THAT DOOR!
NOK! NOK! NOK!!
OH FOR PITY SAKES!
WHAT'RE YOU TRYING TO DO- DROWN ME?
HALP!
JEST BECAUSE YOU'RE LADY PLUSHBOTTOM NOW DON'T MAKE A BIT OF DIFFERENCE TO ME, GAL!
I'VE DONE THIS MANY A TIME WHEN YOU WAS A BRAT OF A KID AND I AIN'T TOO OLD TO DO IT NOW.
ZOP POP! WOP!
WOTTA MAN. WOTTA MAN!
WHAT! ARE YOU MY UNCLE AMBROSE?
NOW WHO WAS YOU EXPECTING, GAL— SANTY CLAUS? GO MAKE ME UP A BED
I TOLD LORD PLUSHBOTTOM WHAT UNCLE AMBROSE DONE TO ME AND HE'LL DO A PLENTY TO UNCLE AMBROSE.
YEH- WATCH HIM SLAPPIN' UNCLE AMBROSE ON TH' BACK AND WRINGIN' HIS HAND.
Reg. U. S. Pat. Off.; Copyright, 1935, by Chicago Tribune-N. Y. News Syndicate, Inc.

KITTY HIGGINS
LORD PLUSHBOTTOM! COME OVER A MINUTE, WILL YA?
CERTAINLY, KITTY- NOW WHAT CAN I DO FOR YOU, LITTLE LADY?
WELL, FIRST GET DOWN ON YOUR HANDS AND KNEES.
NOW LOOK, LIZZIE! SEE— IT DON'T HURT A BIT TO WEAR A MUZZLE!!
Reg. U. S. Pat. Off.; Copyright, 1935, by Chicago Tribune-N. Y. News Syndicate, Inc.

DICK TRACY
COME ON, PAT. HERE'S A TOOL SHED THAT'S BEEN LEFT HERE BY THE STREET REPAIRING DEPARTMENT— IT WILL AFFORD US PROTECTION AND ALSO A PERFECT VIEW OF FAMON'S FILLING STATION
BUT WHAT DO YOU EXPECT TO SEE HERE TONIGHT, TRACY? THAT STATION'S AS DARK AS PITCH.
YOU NEVER KNOW, PAT, WHAT WILL TURN UP.
WAIT! LOOK! A CAR'S PULLING UP TO THE OIL STATION.
AH! NOW WE'RE BEGINNING TO SEE A LITTLE ACTION! SOME-ONE'S GETTING OUT OF THE CAR.
AND LOOK! THERE'S ANOTHER CAR— . . . . . . AND ANOTHER ONE!
MEN ARE GETTING OUT OF EACH CAR AND THEN THE CARS ARE DRIVEN AWAY.
HOWDY, "CUT."
HELLO, BOYS! QUICK! . . . DOWNSTAIRS. EVERYBODY'S HERE NOW!
YOU FELLOWS KNOW WHAT WE'RE HERE FOR. WE'RE TAKING IN "BAIL" GORDON AS A NEW MEMBER OF THE MOB. THIS IS "BAIL".
HOW DO WE KNOW HE'S OKAY?
WHERE DID HE COME FROM?
LET HIM TELL US ABOUT HIMSELF.
"CUT" HERE, KNOWS I'M OKAY, BOYS. I DON'T HAVE MUCH TO TELL BECAUSE FOR THE LAST THREE YEARS AND SIX MONTHS I'VE BEEN IN RETIREMENT IN MASSACHUSETTS.
WHAT DO. YOU MEAN— "RETIREMENT"?
FIGURE IT OUT FOR YOURSELVES! I HAD TO HEAR THE WORLD SERIES OVER THE RADIO. I PLAYED A LITTLE FOOTBALL AND WORKED IN A SHOE FACTORY. IS THAT CLEAR?
YEAH, THAT SOUNDS LIKE THE BIG HOUSE, ALL RIGHT.
WE'RE A HARD WORKING CROWD, "BAIL". WE COVER FOUR CITIES AND OUR BOYS HANDLE EVERYTHING FROM STICK-UPS TO SNATCHES.
YOU CAN DEPEND ON ME "CUT."
DANGER KEEP OUT
THEY COULDN'T HAVE ALL GOT INTO THAT LITTLE FILLING STATION, TRACY. THE ONLY ANSWER IS THERE'S A SECRET CHAMBER UNDER THE STATION, EH?
EXACTLY, PAT. YOUR FIGURING IS PERFECT.
HEY, LOOK! THEY'RE COMING OUT! WHAT DO YOU SAY WE STEP OVER AND NAB THEM?
NOT ON YOUR LIFE! WE HAVE NOTHING ON THEM YET, PAT. AND I CAN SEE RIGHT NOW THIS CASE IS GOING TO BE TOO BIG TO MAKE ANY MISTAKES.
